This document supplements the prospectus dated September 19, 2006, relating to the offering for resale of our 2.25% Convertible Senior Notes due 2036, and the shares of our common stock issuable upon conversion of the notes. The information in this prospectus supplement replaces and supersedes the information set forth under the heading "Selling security holders" and the "Plan of distribution" in the prospectus dated September 19, 2006.

See "Risk factors" beginning on page 5 of the prospectus for a discussion of certain risks that you should consider in connection with an investment in the notes.

Selling security holders

On June 26, 2006, we issued and sold a total of \$287,500,000 aggregate principal amount of the notes in a private placement to certain initial purchasers. The initial purchasers have advised us that they resold the notes in transactions exempt from the registration requirements of the Securities Act of 1933, as amended, to qualified institutional buyers (as defined in Rule 144A under the Securities Act) in compliance with Rule 144A. The selling security holders, which term includes their transferees, pledgees, donees and successors, may from time to time offer and sell pursuant to this prospectus any and all of the notes and the shares of our common stock issuable upon conversion of the notes. The notes and our shares of common stock to be issued upon conversion of the notes are being registered pursuant to a registration rights agreement between us and the initial purchasers. In that agreement, we undertook to file a registration statement with regard to the notes and our shares of common stock issuable upon conversion of the notes and, subject to certain exceptions, to keep that registration statement effective until the date there are no longer any registrable securities. See Description of notes Registration rights. The registration statement to which this prospectus relates is intended to satisfy our obligations under that agreement.

The selling security holders named below have advised us that they currently intend to sell the notes and our shares of common stock set forth below pursuant to this prospectus. Additional selling security holders may choose to sell notes and our shares of common stock from time to time upon notice to us. None of the selling security holders named below has, within the past three years, held any position, office or other material relationship with us or any of our predecessors or affiliates.

Unless the securities were purchased pursuant to this registration statement, before a security holder not named below may use this prospectus in connection with an offering of securities, this prospectus will be amended or supplemented to include the name and amount of notes and common stock beneficially owned by the selling security holder and the amount of notes and common stock to be offered. Any amended or supplemented prospectus will also disclose whether any selling security holder selling in connection with that amended or supplemented prospectus has held any position, office or other material relationship with us or any of our predecessors or affiliates during the three years prior to the date of the amended prospectus.

The following table is based solely on information provided by the selling security holders. This information represents the most current information provided to us by selling security holders.

common stock that they received pursuant to such conversion.

(2) Includes shares of common stock issuable upon conversion of the notes and open short positions in our common stock.

This conversion price is subject to adjustment as described under Description of notes Conversion rights Conversion rate adjustments. Accordingly, the number of shares of our common stock to be sold may increase or decrease from time to time. Fractional shares will not be issued upon

Selling security holders who are registered broker-dealers are underwriters within the meaning of the Securities Act of 1933. In addition, selling security holders who are affiliates of registered broker-dealers are underwriters within the meaning of the Securities Act of 1933 if such selling security holder (a) did not acquire its notes or underlying common stock in the ordinary course of business or (b) had an agreement or understanding, directly or indirectly, with any person to distribute the notes or underlying common stock. To our knowledge, no selling security holder who is a registered broker-dealer or an affiliate of a registered broker-dealer received any securities as underwriting compensation.

Plan of distribution

The securities to be offered and sold using this prospectus supplement are being registered to permit public secondary trading of these securities by the selling security holders from time to time after the date of this prospectus supplement. We will not receive any of the proceeds from the sale by the selling security holders of the securities offered by this prospectus supplement. The aggregate proceeds to the selling security holders from the sale of the notes or the common stock issuable upon conversion of the notes will be the purchase price of the notes less any discounts and commissions. A selling security holder reserves the right to accept and, together with its agents, to reject, any proposed purchases of notes or common stock to be made directly or through agents.

The notes and the common stock issuable upon conversion of the notes may be sold from time to time to purchasers directly by the selling security holders and their successors, which includes their transferees, pledgees or donees or their successors, or through underwriters, broker-dealers or agents who may receive compensation in the form of discounts, concessions or commissions from the selling security holders or the purchasers of the notes and the common stock issuable upon conversion of the notes. These discounts, concessions or commissions may be in excess of those customary in the types of transactions involved.

The selling security holders and any underwriters, broker-dealers or agents who participate in the distribution of the notes and the common stock issuable upon conversion of the notes may be underwriters within the meaning of the Securities Act of 1933, as amended, or the Securities Act. To the extent any of the selling security holders are broker-dealers, they are, under the interpretation of the SEC, underwriters within the meaning of the Securities Act. Any profits on the sale of the notes and the common stock issuable upon the conversion of the notes by selling security holders and any discounts, commissions or concessions received by any such broker-dealers or agents may be deemed to be underwriting discounts and underwriters within the meaning of the Securities Act will be subject to prospectus delivery requirements of the Securities Act. If the selling security holders underwriters, the selling security holders may be subject to certain statutory liabilities of the Securities Act and the Securities Exchange Act of 1934, as amended, or the Exchange Act. We will pay all expenses of the registration of the notes and the common stock issuable under the conversion of the notes pursuant to the registration rights agreement, estimated to be \$107,000 in total, including, without limitation, Securities and Exchange Commission filing fees and expenses of compliance with state securities or blue sky laws; provided, however, that if the notes and the common stock issuable upon conversion of the notes are sold through underwriters, broker dealers or agents, the selling security holders will be responsible for underwriting discounts or commissions or agent s commissions.
