**CLEAR CHANNEL COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Preparation of Interim Financial Statements

The consolidated financial statements have been prepared by Clear Channel Communications, Inc. (the Company) pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments (consisting of normal recurring accruals and adjustments necessary for adoption of new accounting standards) necessary to present fairly the results of the interim periods shown. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted pursuant to such SEC rules and regulations. Management believes that the disclosures made are adequate to make the information presented not misleading. Due to seasonality and other factors, the results for the interim periods are not necessarily indicative of results for the full year. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2005 Annual Report on Form 10-K.

The consolidated financial statements include the accounts of the Company and its subsidiaries. Investments in companies in which the Company owns 20 percent to 50 percent of the voting common stock or otherwise exercises significant influence over operating and financial policies of the company are accounted for under the equity method. All significant intercompany transactions are eliminated in the consolidation process.

Certain Reclassifications

The Company has reclassified prior year operating gains and losses to be included as a component of operating income, reclassified non-cash compensation to be included in the same operating expense line items as cash compensation, reclassified minority interest expense below its provision for income taxes and reclassified certain other assets to current assets to conform to current year presentation. The Company completed the spin-off of Live Nation on December 21, 2005. The historical results of Live Nation have been reflected as discontinued operations in the underlying financial statements and related disclosures for all periods presented. As a result, the historical footnote disclosures have been revised to exclude amounts related to Live Nation. Revenue of \$440.8 million and a net loss of \$31.8 million before income tax benefit of \$12.6 million is included in discontinued operations for Live Nation during the three months ended March 31, 2005.

Recent Accounting Pronouncements

In February 2006, the Financial Accounting Standards Board (FASB) issued Statement No. 155, *Accounting for Certain Hybrid Financial Instruments* (Statement 155). Statement 155 is an amendment of FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (Statement 133) and FASB Statement 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (Statement 140) and allows companies to elect to measure at fair value entire financial instruments containing embedded derivatives that would otherwise have to be accounted for separately. Statement 155 also requires companies to identify interest in securitized financial assets that are freestanding derivatives or contain embedded derivatives that would have to be accounted for separately, clarifies which interest- and principal-only strips are subject to Statement 133, and amends Statement 140 to revise the conditions of a qualifying special purpose entity due to the new requirement to identify whether interests in securitized financial assets are freestanding derivatives or contain embedded derivatives. Statement 155 is effective for all financial instruments acquired or issued in fiscal years beginning after September 15, 2006. The Company will adopt Statement 155 on January 1, 2007 and anticipates that adoption will not materially impact its financial position or results of operations.

Note 2: SHARE BASED PAYMENTS

The Company has granted options to purchase its common stock to employees and directors of the Company and its affiliates under various stock option plans at no less than the fair market value of the underlying stock on the date of grant. These options are granted for a term not exceeding ten years and are forfeited, except in certain circumstances, in the event the employee or director terminates his or her employment or relationship with the Company or one of its affiliates. These options generally vest over three to five years. All option plans contain anti-dilutive provisions that

permit an adjustment of the number of shares of the Company's common stock represented by each option for any change in capitalization.

The Company adopted the fair value recognition provisions of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment* (Statement 123(R)), on January 1, 2006, using the modified-prospective-transition method. The fair value of the options is estimated using a Black-Scholes option-pricing model and amortized straight-line to expense over five years. Prior to adoption of

- 7 -

Table of Contents

Statement 123(R), the Company accounted for share based payments under the recognition and measurement provisions of APB Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25), and related Interpretations, as permitted by Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (Statement 123). The Company did not recognize employee compensation cost related to its stock option grants in its Consolidated Statement of Operations prior to adoption of Statement 123(R), as all options granted had an exercise price equal to the market value of the underlying common stock on the date of grant. The amounts recorded as share based payments prior to adopting Statement 123(R) primarily related to the expense associated with restricted stock awards. Under the modified-prospective-transition method, compensation cost recognized beginning in 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of Statement 123(R). Results for prior periods have not been restated.

As a result of adopting Statement 123(R), the Company's income before income taxes, minority interest and discontinued operations and net income for the three months ended March 31, 2006, was \$8.5 million and \$5.0 million lower, respectively, than if it had continued to account for share-based compensation under APB 25. Basic and diluted earnings per share for the three months ended March 31, 2006 would have been \$0.20 and \$0.20, respectively, if the Company had not adopted Statement 123(R), compared to reported basic and diluted earnings per share of \$0.19 and \$0.19, respectively.

Prior to the adoption of Statement 123(R), the Company presented all tax benefits of deductions resulting from the exercise of stock options as operating cash flows in the Statement of Cash Flows. Statement 123(R) requires the cash flows resulting from the tax benefits resulting from tax deductions in excess of the compensation cost recognized for those options (excess tax benefits) to be classified as financing cash flows. The excess tax benefit of \$0.9 million classified as a financing cash inflow would have been classified as an operating cash flow if the Company had not adopted Statement 123(R).

The following table illustrates the effect on net income and earnings per share for the three months ended March 31, 2005 as if the company had applied the fair value recognition provisions of Statement 123 to options granted under the company's stock option plans in all periods presented. For purposes of this pro forma disclosure, the value of the options is estimated using a Black-Scholes option-pricing model and amortized to expense over the options' vesting periods.

The fair value of each option awarded is estimated on the date of grant using a Black-Scholes option-pricing model. Expected volatilities are based on implied volatilities from traded options on the Company's stock, historical volatility on the Company's stock, and other factors. The Company uses historical data to estimate option exercises and employee terminations within the valuation model. Prior to the adoption of Statement 123(R), the Company recognized forfeitures as they occurred in its Statement 123 pro forma disclosures. Beginning January 1, 2006, the Company includes estimated forfeitures in its compensation cost and updates the estimated forfeiture rate through the final vesting date of awards. The expected life is based on historical data of options granted and represents the period of time that options granted are expected to be outstanding. The risk free rate for periods within the life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The following assumptions were used to calculate the fair value of the Company's options on the date of grant during the three months ended March 31, 2006 and 2005:

	2006	2005
Risk-free interest rate	4.61% - 4.68%	3.76% - 4.09%
Dividend yield	2.61%	1.46% - 1.59%
Volatility factors	25%	25%
Expected life in years	5.0 - 7.5	5.0 - 7.5

The following table presents a summary of the Company's stock options outstanding at and stock option activity during the three months ended March 31, 2006 (Price reflects the weighted average exercise price per share):

	Options	Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
<i>(In thousands, except per share data)</i>				
Outstanding, beginning of year	42,696	\$ 41.34		
Granted	15	28.70		
Exercised (1)	(598)	17.61		
Forfeited	(438)	36.13		

Expired	(1,306)	46.04		
Outstanding, March 31	40,369	41.49	3.8	\$ 32,675
Exercisable, March 31	29,717	43.90	2.9	\$ 32,379
Weighted average fair value per option granted	\$ 7.17			

(1) Cash received from option exercises for the three months ended March 31, 2006 and 2005 was \$10.5 million and \$13.5 million, respectively. The Company received an income tax benefit of \$1.8 million and \$0.04 million relating to the options exercised during the three months ended March 31, 2006 and 2005, respectively.

The weighted average grant date fair value of options granted during the three months ended March 31, 2006 and 2005 was \$7.17 and \$8.53, respectively. The total intrinsic value of options exercised during the three months ended March 31, 2006 and 2005 was \$7.0 million and \$5.9 million, respectively.

Table of Contents

A summary of the Company's nonvested options at December 31, 2005, and changes during the three months ended March 31, 2006, is presented below:

<i>(In thousands, except per share data)</i>	Options	Weighted Average Grant Date Fair Value
Nonvested, beginning of year	13,086	\$ 15.03
Granted	15	7.17
Vested	(2,011)	25.95
Forfeited	(438)	13.84
Nonvested, March 31	10,652	13.04

There were 34.5 million shares available for future grants under the various option plans at March 31, 2006. Vesting dates range from February 1996 to December 2010, and expiration dates range from April 2006 to December 2015 at exercise prices and average contractual lives as follows:

<i>(In thousands of shares)</i>	Outstanding as of 3/31/06	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Exercisable as of 3/31/06	Weighted Average Exercise Price

80.01 91.35	51	.9	85.99	51	85.99
	40,369	3.8	41.49	29,717	43.90

Restricted Stock Awards

The Company began granting restricted stock awards to employees and directors of the Company and its affiliates in 2003. These common shares hold a legend which restricts their transferability for a term of from three to five years and are forfeited, except in certain circumstances, in the event the employee terminates his or her employment or relationship with the Company prior to the lapse of the restriction. The restricted stock awards were granted out of the Company's stock option plans. Recipients of the restricted stock awards are entitled to all cash dividends as of the date the award was granted.

The following table presents a summary of the Company's restricted stock outstanding at and restricted stock activity during the three months ended March 31, 2006 (Price reflects the weighted average share price at the date of grant):

<i>(In thousands, except per share data)</i>	2006 Awards	Price
Outstanding, beginning of year	2,452	\$ 32.62
Granted	3	28.70

Table of Contents

affiliates. These options generally vest over three to five years. The incentive stock plan contains anti-dilutive provisions that permit an adjustment of the number of shares of CCO's common stock represented by each option for any change in capitalization.

Prior to the Initial Public Offering (IPO), CCO did not have any compensation plans under which it granted stock awards to employees. However, the Company had granted certain of CCO's officers and other key employees stock options to purchase shares of the Company's common stock. All prior options granted to CCO employees were converted into options to purchase CCO Class A common shares concurrent with the closing of the IPO.

The fair value of each option awarded is estimated on the date of grant using a Black-Scholes option-pricing model. Expected volatilities are based on implied volatilities from traded options on CCO's stock, historical volatility on CCO's stock, and other factors. CCO uses historical data to estimate option exercises and employee terminations within the valuation model. Prior to the adoption of Statement 123(R), the Company recognized forfeitures as they occurred in its Statement 123 pro forma disclosures. Beginning January 1, 2006, the Company includes estimated forfeitures in its compensation cost and updates the estimated forfeiture rate through the final vesting date of awards. The expected life is based on historical data of options granted and represents the period of time that options granted are expected to be outstanding. The risk free rate for periods within the life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The following assumptions were used to calculate the fair value of the CCO's options on the date of grant during the three months ended March 31, 2006:

Risk-free interest rate	4.58% - 4.64%
Dividend yield	0%
Volatility factors	27%
Expected life in years	5.0 - 7.5

The following table presents a summary of CCO's stock options outstanding at and stock option activity during the three months ended March 31, 2006 (Price reflects the weighted average exercise price per share):

<i>(In thousands, except per share data)</i>	Options	Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding, beginning of year	8,509	\$24.05		
Granted	177	19.85		
Exercised				
Forfeited	(26)	21.23		
Expired	(258)	31.14		
Outstanding, March 31	8,402	23.71	4.8	\$21,937
Exercisable, March 31	3,236	29.80	2.6	\$ 756
Weighted average fair value per option granted	\$ 6.55			

A summary of CCO's nonvested options at December 31, 2005, and changes during the three months ended March 31, 2006, is presented below:

<i>(In thousands, except per share data)</i>	Options	Weighted Average Grant Date Fair Value
Nonvested, beginning of year	5,634	\$ 4.56
Granted	177	6.55

Nonvested, March 31	5,166	5.05

- 11 -

Table of Contents

There were 33.4 million shares available for future grants under CCO's option plan at March 31, 2006. Vesting dates range from April 2004 to February 2011, and expiration dates range from April 2006 to February 2016 at exercise prices and average contractual lives as follows:

(In thousands of shares)

	Outstanding as of 3/31/06	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Exercisable as of 3/31/06	Weighted Average Exercise Price
Range of Exercise Prices					
\$15.01 - \$20.00	3,479	7.0	\$17.97	43	\$17.20
20.01 - 25.00	1,181	4.6	21.06	230	21.51
25.01 - 30.00	2,283	3.3	26.12	1,608	26.03
30.01 - 35.00	797	2.8	32.72	693	32.89
35.01 - 40.00	509	.9	37.93	509	37.93
40.01 - 45.00	114	3.9	42.80	114	42.80
45.01 - 50.00	39	.7	49.52	39	49.52
	8,402	4.8	23.71	3,236	29.80

CCO also grants restricted stock awards to employees and directors of CCO and its affiliates. These common shares hold a legend which restricts their transferability for a term of from three to five years and are forfeited, except in certain circumstances, in the event the employee terminates his or her employment or relationship with CCO prior to the lapse of the restriction. The restricted stock awards were granted out of the CCO's stock option plan.

The following table presents a summary of CCO's restricted stock outstanding at and restricted stock activity during the three months ended March 31, 2006 (Price reflects the weighted average share price at the date of grant):

(In thousands, except per share data)

	2006	
	Awards	Price
Outstanding, beginning of year	236	\$ 18.00
Granted	5	19.85
Vested (restriction lapsed)		
Forfeited	(1)	18.00
Outstanding, March 31	240	18.04

Unrecognized share based compensation cost

As of March 31, 2006, there was \$64.5 million of unrecognized compensation cost related to nonvested share-based compensation arrangements. The cost is expected to be recognized over a weighted average period of approximately three years.

Note 3: INTANGIBLE ASSETS AND GOODWILL

The Company has definite-lived intangible assets which consist primarily of transit and street furniture contracts and other contractual rights in the outdoor segments, talent and program right contracts in the radio segment, and contracts for non-affiliated radio and television stations in the Company's media representation operations, all of which are amortized over the respective lives of the agreements. Other definite-lived intangible assets are amortized over the period of time the assets are expected to contribute directly or indirectly to the Company's future cash flows.

Table of Contents

The following table presents the gross carrying amount and accumulated amortization for each major class of definite-lived intangible assets at March 31, 2006 and December 31, 2005:

<i>(In thousands)</i>	March 31, 2006		December 31, 2005	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Transit, street furniture, and other outdoor contractual rights	\$ 660,952	\$ 428,971	\$ 651,455	\$ 408,018
Talent contracts	125,270	103,023	202,161	175,553
Representation contracts	317,181	143,711	313,004	133,987
Other	96,713	69,610	135,782	104,054
Total	\$ 1,200,116	\$ 745,315	\$ 1,302,402	\$ 821,612

Total amortization expense from definite-lived intangible assets for the three months ended March 31, 2006 and for the year ended December 31, 2005 was \$35.3 million and \$154.2 million, respectively. The following table presents the Company's estimate of amortization expense for each of the five succeeding fiscal years for definite-lived intangible assets:

<i>(In thousands)</i>	
2007	\$ 84,729
2008	48,064
2009	41,258
2010	29,337
2011	24,218

As acquisitions and dispositions occur in the future and as purchase price allocations are finalized, amortization expense may vary.

The Company's indefinite-lived intangible assets consist of FCC broadcast licenses and billboard permits. FCC broadcast licenses are granted to both radio and television stations for up to eight years under the Telecommunications Act of 1996. The Act requires the FCC to renew a broadcast license if: it finds that the station has served the public interest, convenience and necessity; there have been no serious violations of either the Communications Act of 1934 or the FCC's rules and regulations by the licensee; and there have been no other serious violations which taken together constitute a pattern of abuse. The licenses may be renewed indefinitely at little or no cost. The Company does not believe that the technology of wireless broadcasting will be replaced in the foreseeable future. The Company's billboard permits are issued in perpetuity by state and local governments and are transferable or renewable at little or no cost. Permits typically include the location for which the permit allows the Company the right to operate an advertising structure. The Company's permits are located on either owned or leased land. In cases where the Company's permits are located on leased land, the leases are typically from 10 to 30 years and renew indefinitely, with rental payments generally escalating at an inflation based index. If the Company loses its lease, the Company will typically obtain permission to relocate the permit or bank it with the municipality for future use.

The Company does not amortize its FCC broadcast licenses or billboard permits. The Company tests these indefinite-lived intangible assets for impairment at least annually using the direct method. Under the direct method, it is assumed that rather than acquiring indefinite-lived intangible assets as a part of a going concern business, the buyer hypothetically obtains indefinite-lived intangible assets and builds a new operation with similar attributes from scratch. Thus, the buyer incurs start-up costs during the build-up phase which are normally associated with going concern value. Initial capital costs are deducted from the discounted cash flows model which results in value that is directly attributable to the indefinite-lived intangible assets.

Under the direct method, the Company continues to aggregate its indefinite-lived intangible assets at the market level for purposes of impairment testing. The Company's key assumptions using the direct method are market revenue growth rates, market share, profit margin, duration and profile of the build-up period, estimated start-up capital costs and losses incurred during the build-up period, the risk-adjusted discount rate and terminal values. This data is populated using industry normalized information.

Goodwill

The Company tests goodwill for impairment using a two-step process. The first step, used to screen for potential impairment, compares the fair value of the reporting unit with its carrying amount, including goodwill. The second step, used to measure the amount of the impairment loss, compares the implied fair value of the reporting unit goodwill with the carrying amount of that goodwill. The following table presents the changes in the carrying amount of goodwill in each of the Company's reportable segments for the three-month period ended March 31, 2006:

- 13 -

Table of Contents

<i>(In thousands)</i>	Radio	Americas Outdoor	International Outdoor	Other	Total

Balance as of March 31, 2006	\$ 6,320,937	\$ 448,203	\$ 351,250	\$ 40,984	\$ 7,161,374

Note 4: DERIVATIVE INSTRUMENTS

The Company holds a net purchased option (the collar) under a secured forward exchange contract that limits its exposure to and benefit from price fluctuations in XM Satellite Radio Holding, Inc. (XMSR) over the term of the contract. The collar is accounted for as a hedge of the forecasted sale of the underlying shares. At March 31, 2006 and December 31, 2005, the fair value of the collar was a liability recorded in Other long-term obligations of \$75.6 million and \$116.8 million, respectively, and the amount recorded in other comprehensive income (loss), net of tax, related to the change in fair value of the collar for the three months ended March 31, 2006 and the year ended December 31, 2005 was \$25.6 million and \$56.6 million, respectively.

The Company also holds options under two secured forward exchange contracts that limit its exposure to and benefit from price fluctuations in American Tower Corporation (AMT) over the terms of the contracts. These options are not designated as hedges of the underlying shares of AMT. The AMT contracts had a value of \$2.9 million and \$11.7 million at March 31, 2006 and December 31, 2005, respectively, recorded in Other assets. For the three months ended March 31, 2006 and year ended December 31, 2005, the Company recognized losses of \$8.8 million and \$18.2 million, respectively, in Gain (loss) on marketable securities related to the change in fair value of the options. To offset the change in the fair value of these contracts, the Company has recorded AMT shares as trading securities. During the three months ended March 31, 2006 and year ended December 31, 2005, the Company recognized gains of \$6.5 million and \$17.5 million, respectively, in Gain (loss) on marketable securities related to the change in the fair value of the shares.

As a result of the Company's foreign operations, the Company is exposed to foreign currency exchange risks related to its investment in net assets in foreign countries. To manage this risk, the Company entered into two United States dollar Euro cross currency swaps with an aggregate Euro notional amount of 706.0 million and a corresponding aggregate U.S. dollar notional amount of \$877.7 million. These cross currency swaps had a value of \$19.5 million at March 31, 2006, which was recorded in Other long-term obligations. These cross currency swaps require the Company to make fixed cash payments on the Euro notional amount while it receives fixed cash payments on the equivalent U.S. dollar notional amount, all on a semiannual basis. The Company has designated these cross currency swaps as a hedge of its net investment in Euro denominated assets. The Company selected the forward method under the guidance of the Derivatives Implementation Group Statement 133 Implementation Issue H8, *Foreign Currency Hedges: Measuring the Amount of Ineffectiveness in a Net Investment Hedge*. The forward method requires all changes in the fair value of the cross currency swaps and the semiannual cash payments to be reported as a cumulative translation adjustment in other comprehensive income (loss) in the same manner as the underlying hedged net assets. As of March 31, 2006, a \$10.5 million loss, net of tax, was recorded as a cumulative translation adjustment to other comprehensive income (loss) related to the cross currency swap.

Note 5: RECENT DEVELOPMENTS**Company Share Repurchase Program**

On February 1, 2005 (February 2005 Program), the Company's Board of Directors authorized its third share repurchase program of up to \$1.0 billion effective immediately. On August 9, 2005, the Company's Board of Directors authorized a \$692.6 million increase to the existing balance of the February 2005 Program, bringing the authorized

amount to an aggregate of \$1.0 billion. On March 9, 2006, the Company's Board of Directors authorized an additional share repurchase program, permitting it to repurchase an additional \$600.0 million of its common stock. As of March 31, 2006, the Company had purchased 113.8 million shares for an aggregate purchase price of \$3.8 billion, including commission and fees, under its repurchase programs.

Debt Offering

On March 21, 2006 the Company completed a debt offering of \$500.0 million 6.25% Senior Notes due 2011. Interest is payable on March 15 and September 15 of each year. The net proceeds of approximately \$497.5 million were used to repay borrowings under the Company's bank credit facility.

- 14 -

Table of Contents

Disposition of Assets

The Company disposed of programming rights in its radio broadcasting segment and recognized a gain of \$22.5 million and exchanged assets in one of its Americas outdoor markets for assets located in a different market and recognized a gain of \$17.1 million. Both of these gains were recorded in Gain on disposition of assets net during the first quarter of 2006.

Recent Legal Proceedings

On September 9, 2003, the Assistant United States Attorney for the Eastern District of Missouri caused a Subpoena to Testify before Grand Jury to be issued to us. The Subpoena requires us to produce certain information regarding commercial advertising run by us on behalf of offshore and/or online (Internet) gambling businesses, including sports bookmaking and casino-style gambling. We are cooperating with such requirements.

On February 7, 2005, the Company received a subpoena from the State of New York Attorney General's office, requesting information on policies and practices regarding record promotion on radio stations in the state of New York. We are cooperating with this subpoena.

On April 19, 2006, the Company received a letter of inquiry (LOI) from the Federal Communications Commission (the FCC) requesting information about whether consideration was provided by record labels to the Company in exchange for the broadcast of music without disclosure of such consideration to the public. The Company is cooperating with the FCC in responding to this request for information.

We are currently involved in certain legal proceedings and, as required, have accrued our estimate of the probable costs for the resolution of these claims. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible, however, that future results of operations for any particular period could be materially affected by changes in our assumptions or the effectiveness of our strategies related to these proceedings.

Note 6: RESTRUCTURING

The Company has restructuring liabilities related to its 2000 acquisition of AMFM Inc. (AMFM), and the 2002 acquisition of The Ackerley Group, Inc. (Ackerley). The balance at March 31, 2006 of \$6.3 million was comprised of \$0.7 million of severance costs and \$5.6 million of lease termination costs. No amounts were paid and charged to severance during the three months ended March 31, 2006.

In addition to the AMFM and Ackerley restructurings, the Company restructured its outdoor operations in France in the third quarter of 2005. As a result, the Company recorded \$26.6 million in restructuring costs as a component of selling, general and administrative expenses. Of the \$26.6 million, \$22.5 million was related to severance costs and \$4.1 million was related to other costs. During 2006, \$0.5 million of related costs were paid and charged to the restructuring accrual. As of March 31, 2006, the accrual balance was \$21.1 million.

Note 7: COMMITMENTS AND CONTINGENCIES

Certain agreements relating to acquisitions provide for purchase price adjustments and other future contingent payments based on the financial performance of the acquired companies. The Company will continue to accrue additional amounts related to such contingent payments if and when it is determinable that the applicable financial performance targets will be met. The aggregate of these contingent payments, if performance targets are met, would not significantly impact the financial position or results of operations of the Company.

As discussed in Note 5, there are various lawsuits and claims pending against the Company. Based on current assumptions, the Company has accrued its estimate of the probable costs for the resolution of these claims. Future results of operations could be materially affected by changes in these assumptions.

Table of Contents**Note 8: GUARANTEES**

Within the Company's \$1.75 billion credit facility, there exists a \$150.0 million sub-limit available to certain of the Company's international subsidiaries. This \$150.0 million sub-limit allows for borrowings in various foreign currencies, which are used to hedge net assets in those currencies and provides funds to the Company's international operations for certain working capital needs. Subsidiary borrowings under this sub-limit are guaranteed by the Company. At March 31, 2006, this portion of the \$1.75 billion credit facility's outstanding balance was \$15.4 million, which is recorded in Long-term debt on the Company's financial statements.

Within the Company's bank credit facility agreement is a provision that requires the Company to reimburse lenders for any increased costs that they may incur in an event of a change in law, rule or regulation resulting in their reduced returns from any change in capital requirements. In addition to not being able to estimate the potential amount of any future payment under this provision, the Company is not able to predict if such event will ever occur.

The Company currently has guarantees that provide protection to its international subsidiary's banking institutions related to overdraft lines up to approximately \$39.9 million. As of March 31, 2006, no amounts were outstanding under these agreements.

As of March 31, 2006, the Company has outstanding commercial standby letters of credit and surety bonds of \$142.4 million and \$37.8 million, respectively. These letters of credit and surety bonds relate to various operational matters including insurance, bid, and performance bonds as well as other items. These letters of credit reduce the borrowing availability on the Company's bank credit facilities, and are included in the Company's calculation of its leverage ratio covenant under the bank credit facilities. The surety bonds are not considered as borrowings under the Company's bank credit facilities.

Note 9: SEGMENT DATA

The Company has three reportable segments, which it believes best reflects how the Company is currently managed radio broadcasting, Americas outdoor advertising and international outdoor advertising. The Americas outdoor advertising segment consists of our operations in the United States, Canada and Latin America, and the international outdoor segment includes operations in Europe, Asia, Africa and Australia. The category "other" includes television broadcasting, media representation and other general support services and initiatives. Revenue and expenses earned and charged between segments are recorded at fair value and eliminated in consolidation.

Revenue of \$346.4 million and \$339.4 million and identifiable assets of \$2.3 billion and \$2.4 billion derived from the Company's foreign operations are included in the data above for the three months ended March 31, 2006 and 2005, respectively.

Note 10: SUBSEQUENT EVENTS

On April 26, 2006, the Company's Board of Directors declared a quarterly cash dividend of \$0.1875 per share on the Company's Common Stock. The dividend is payable on July 15, 2006 to shareholders of record at the close of business on June 30, 2006.

From April 1, 2006 through May 5, 2006, 5.9 million shares were repurchased for an aggregate purchase price of \$170.2 million, including commissions and fees, under the Company's share repurchase program. At May 5, 2006 \$342.4 million remained available for repurchase through the Company's repurchase program authorized on March 9, 2006.

Table of Contents**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Executive Summary**

Our consolidated revenue increased \$56.6 million during the three months ended March 31, 2006 as compared to the same period of 2005. The growth was led by \$35.3 million from our radio broadcasting segment primarily from an increase in revenue per minute and average unit rates. Our Americas outdoor segment contributed \$20.3 million to the growth primarily as a result of growth in average rates across most of our inventory. Revenue in our international outdoor segment declined \$0.8 million. This included a decline from movements in foreign exchange of \$29.5 million, partially offset by \$15.4 million related to our consolidation of Clear Media Limited, a Chinese outdoor advertising company. We acquired a controlling majority interest in Clear Media during the third quarter of 2005 and began consolidating its results. We had previously accounted for Clear Media as an equity method investment.

We adopted FAS 123(R), Share Based Payment, on January 1, 2006 under the modified-prospective approach which requires us to recognize non-cash compensation cost in the same line items as cash compensation in the 2006 financial statements for all options granted after the date of adoption as well as for any options that were granted prior to adoption but not yet vested. Under the modified-prospective approach, no stock option expense is reflected in the financial statements for 2005 attributable to these options. Non-cash compensation expense recognized in the financial statements during 2005 related primarily to restricted stock awards. As a result of adoption, we recognized \$4.3 million, \$4.5 million, and \$3.4 million of non-cash compensation expense in direct operating, SG&A and corporate expenses, respectively, during the three months ended March 31, 2006. As of March 31, 2006, there was \$64.5 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements. This cost is expected to be recognized over a weighted average period of approximately three years. The following table details share based payments by segment for the three months ended March 31, 2006:

(In millions)

Radio Broadcasting	
Direct Operating Expenses	\$ 2.8
SG&A	3.5
Americas Outdoor Advertising	
Direct Operating Expenses	\$ 0.8

Direct Operating Expenses	\$ 0.5
SG&A	0.6

Format of Presentation

Management's discussion and analysis of our results of operations and financial condition should be read in conjunction with the consolidated financial statements and related footnotes. Our discussion is presented on both a consolidated and segment basis. Our reportable operating segments are Radio Broadcasting, which includes our national syndication business, Americas Outdoor Advertising and International Outdoor Advertising. Included in the other segment are television broadcasting, our media representation business, Katz Media, as well as other general support services and initiatives.

We manage our operating segments primarily focusing on their operating income, while corporate expenses, gain on disposition of assets net, interest expense, gain (loss) on marketable securities, equity in earnings of nonconsolidated affiliates, other income (expense) net, income tax benefit (expense), minority interest net of tax, and discontinued operations are managed on a total company basis and are, therefore, included only in our discussion of consolidated results.

Radio Broadcasting

Our local radio markets are run predominantly by local management teams who control the formats selected for their programming. The formats are designed to reach audiences with targeted demographic characteristics that appeal to our advertisers. Our advertising rates are principally based on how many people in a targeted audience listen to our stations, as measured by an independent ratings service. The size of the market influences rates as well, with larger markets typically receiving higher rates than

Table of Contents

smaller markets. Also, our advertising rates are influenced by the time of day the advertisement airs, with morning and evening drive-time hours typically the highest. Radio advertising contracts are typically less than one year.

Management monitors macro level indicators to assess our radio operations performance. Due to the geographic diversity and autonomy of our markets, we have a multitude of market specific advertising rates and audience demographics. Therefore, management reviews average unit rates across our stations.

Management looks at our radio operations overall revenues as well as local advertising, which is sold predominately in a station's local market, and national advertising, which is sold across multiple markets. Local advertising is sold by our local radio stations sales staffs while national advertising is sold, for the most part, through our national representation firm.

Local advertising, which is our largest source of advertising revenue, and national advertising revenues are tracked separately, because these revenue streams have different sales forces and respond differently to changes in the economic environment. Management also looks at radio revenue by market size, as defined by Arbitron. Typically, larger markets can reach larger audiences with wider demographics than smaller markets. Additionally, management reviews our share of target demographics listening to the radio in an average quarter hour. This metric gauges how well our formats are attracting and keeping listeners.

A significant portion of our radio segment's expenses vary in connection with changes in revenue. These variable expenses primarily relate to costs in our sales department, such as salaries, commissions and bad debt. Our programming and general and administrative departments incur most of our fixed costs, such as talent costs, rights fees, utilities and office salaries. Lastly, our highly discretionary costs are in our marketing and promotions department, which we primarily incur to maintain and/or increase our audience share.

Americas and International Outdoor Advertising

Our revenues are derived from selling advertising space on the displays that we own or operate in key markets worldwide, consisting primarily of billboards, street furniture displays and transit displays. We own the majority of our advertising displays, which typically are located on sites that we either lease or own or for which we have acquired permanent easements. Our advertising contracts with clients typically outline the number of displays reserved, the duration of the advertising campaign and the unit price per display. The margins on our billboard contracts tend to be higher than those on contracts for our other displays.

Generally, our advertising rates are based on the gross rating points, or total number of impressions delivered expressed as a percentage of a market population, of a display or group of displays. The number of impressions delivered by a display is measured by the number of people passing the site during a defined period of time and, in some international markets, is weighted to account for such factors as illumination, proximity to other displays and the speed and viewing angle of approaching traffic. To monitor our business, management typically reviews the average rates, average revenues per display, occupancy, and inventory levels of each of our display types by market. In addition, because a significant portion of our advertising operations are conducted in foreign markets, principally France and the United Kingdom, management reviews the operating results from our foreign operations on a constant dollar basis. A constant dollar basis allows for comparison of operations independent of foreign exchange movements. Because revenue-sharing and minimum guaranteed payment arrangements are more prevalent in our international operations, the margins in our international operations typically are less than the margins in our Americas operations.

The significant expenses associated with our operations include (i) direct production, maintenance and installation expenses, (ii) site lease expenses for land under our displays and (iii) revenue-sharing or minimum guaranteed amounts payable under our street furniture and transit display contracts. Our direct production, maintenance and installation expenses include costs for printing, transporting and changing the advertising copy on our displays, the related labor costs, the vinyl and paper costs and the costs for cleaning and maintaining our displays. Vinyl and paper costs vary according to the complexity of the advertising copy and the quantity of displays. Our site lease expenses include lease payments for use of the land under our displays, as well as any revenue-sharing arrangements we may have with the landlords. The terms of our Americas site leases generally range from 1 to 50 years. Internationally, the terms of our site leases generally range from 3 to 15 years, but vary across our networks.

Table of Contents

The comparison of Three Months Ended March 31, 2006 to Three Months Ended March 31, 2005 is as follows:

<i>(In thousands)</i>	Three Months Ended March 31,

Consolidated Revenue

Consolidated revenue increased \$56.6 million during the three months ended March 31, 2006 as compared to the same period of 2005. The growth was led by \$35.3 million from our radio broadcasting segment primarily from an increase in revenue per minute and average unit rates. Our Americas outdoor segment contributed \$20.3 million to the growth primarily as a result of an increase in average rates across most of our inventory. Revenue in our international outdoor segment declined \$0.8 million. This decline includes movements in foreign exchange of \$29.5 million, partially offset by \$15.4 million related to our consolidation of Clear Media Limited, a Chinese outdoor advertising company. We acquired a controlling majority interest in Clear Media during the third quarter of 2005 and began consolidating its results. We had previously accounted for Clear Media as an equity method investment.

Consolidated Direct Operating Expenses

Consolidated direct operating expenses increased \$24.7 million during the first quarter of 2006 as compared to the first quarter of 2005. Our radio broadcasting segment contributed \$22.6 million principally from expenses related

to programming initiatives. Our Americas outdoor segment contributed \$3.3 million primarily from an increase in site-lease expense as well as \$0.6 million from movements in foreign exchange. Direct operating expenses in our international outdoor segment declined \$0.6 million primarily related to \$19.5 million from foreign exchange movements, which was partially offset by \$8.4 million related to our consolidation of Clear Media. Included in our consolidated direct operating expenses for 2006 is \$4.3 million related to our adoption of FAS 123(R).

Consolidated Selling, General and Administrative Expenses, or SG&A

SG&A increased \$16.4 million during the first quarter of 2006 as compared to the first quarter of 2005. Our SG&A increased \$12.2 million and \$3.3 million in our radio and Americas segments, respectively, primarily from an increase in bonus and commission expenses associated with the increase in revenue. Included in our Americas segment is an increase of \$0.2 million related to movements in foreign exchange. SG&A in our international segment declined \$2.1 million primarily from \$7.6 million related to

- 20 -

Table of Contents

movements in foreign exchange during the first quarter of 2006 compared to the same period of 2005. Partially offsetting this decline was \$4.5 million related to our consolidation of Clear Media. Included in our consolidated SG&A for 2006 is \$4.5 million related to our adoption of FAS 123(R).

Corporate Expenses

Corporate expenses increased \$5.6 million during the first quarter of 2006 compared to the same period of 2005. The increase primarily relates to an increase in share based payment expense of \$2.1 million related to the adoption of FAS 123(R) and \$1.1 million from an increase in bonus expenses and outside professional services.

Gain on Disposition of Assets Net

Gain on disposition of assets net increased \$46.6 million mostly related to \$17.1 million in our Americas outdoor segment from the swap of assets in one of our markets for the assets of a third party located in a different market and \$22.5 million in our radio segment primarily from the sale of programming rights in one of our markets, both of which occurred during the first quarter of 2006.

Interest Expense

Interest expense increased \$7.7 million primarily due to an increase in our weighted average cost of debt. Our weighted average cost of debt during the three months ended March 31, 2006 was 6.1% which compares to 5.6% during the same period of 2005.

Income Tax Benefit (Expense)

Current tax expense decreased \$6.8 million primarily due to current tax benefits of approximately \$22.5 million recorded in the quarter ended March 31, 2006, related to the filing of an amended tax return and the disposition of certain operating assets in the period. The benefit was partially offset by additional current tax expense recorded in the quarter ended March 31, 2006 due to an increase in Income before income taxes of approximately \$50.9 million.

Deferred tax expense increased \$29.3 million primarily due to deferred tax expense of approximately \$22.5 million recorded in the quarter ended March 31, 2006, related to the filing of an amended tax return and the disposition of certain operating assets in the period.

Segment Revenue and Divisional Operating Expenses**Radio Broadcasting**

	Three Months Ended March		% Change 2006 v. 2005
	2006	2005	
<i>(In thousands)</i>			
Revenue	\$ 808,896	\$ 773,562	5%
Direct operating expenses	247,957	225,396	10%
Selling, general and administrative expense	298,255	286,023	4%
Depreciation and amortization	33,877	35,694	(5%)
Operating income	\$ 228,807	\$ 226,449	1%

Our radio broadcasting revenues increased 5% during the first quarter of 2006 as compared to the first quarter of 2005 primarily from an increase in both local and national advertising revenues. This growth was driven by an increase in revenue per minute and average unit rates. The number of 30 second and 15 second commercials broadcast as a percent of total minutes sold increased in the first quarter of 2006 as compared to the first quarter of 2005. Our larger markets (markets 1 - 50) were the main drivers of the radio revenue growth. Strong advertising categories during the first quarter of 2006 were services, entertainment and health and beauty. Non-cash trade revenues were essentially unchanged during the first quarter of 2006 as compared to the same period of 2005.

Our radio broadcasting direct operating expenses increased \$22.6 million for the first quarter of 2006 as compared to the first quarter of 2005. This growth includes non-cash compensation expense of \$2.8 million as result of adopting FAS 123(R). Also contributing to the increase were increased costs of approximately \$14.6 million from programming and other long-term initiatives. Our SG&A expenses increased \$12.2 million primarily as a result of

approximately \$7.2 million in selling expenses as well as \$3.5 million from the adoption of FAS 123(R).

- 21 -

Table of Contents**Americas Outdoor Advertising**

<i>(In thousands)</i>	Three Months Ended March 31,		% Change 2006 v. 2005
	2006	2005	
Revenue	\$ 274,102	\$ 253,850	8%
Direct operating expenses	120,011	116,671	3%
Selling, general and administrative expenses	48,194	44,925	7%
Depreciation and amortization	42,232	43,103	(2%)
Operating income	\$ 63,665	\$ 49,151	30%

Our Americas revenue increased 8% during the first quarter of 2006 as compared to the first quarter of 2005 primarily attributable to growth in average rates across most of our inventory. Local revenues performed better than national revenues during the quarter across the majority of our markets. Strong market revenue growth during the quarter included Los Angeles, San Francisco, Orlando, San Antonio and Cleveland. The Company's Latin American markets also contributed to the revenue growth during the quarter. Strong advertising client categories included entertainment and amusements, business and consumer services and insurance and real estate.

Direct operating expenses increased \$3.3 million in the first quarter of 2006 over the first quarter of 2005 primarily from an increase in site-lease expense of approximately \$3.4 million primarily associated with a new street furniture contract and the increase in revenue as well as \$0.8 million related to the adoption of FAS 123(R). Partially offsetting this increase was a decline of \$2.4 million in direct production expenses primarily from lower production expenses associated with our Spectacolor displays. Our SG&A expenses increased \$3.3 million in the first quarter of 2006 over the first quarter of 2005 primarily from an increase in bonus and commission expenses of \$2.9 million related to the increase in revenue, and an increase in non-cash compensation expense of \$0.3 million related to the adoption of FAS 123(R).

International Outdoor Advertising

<i>(In thousands)</i>	Three Months Ended March 31,		% Change 2006 v. 2005
	2006	2005	
Revenue	\$ 324,267	\$ 325,109	0%
Direct operating expenses	208,615	209,227	0%
Selling, general and administrative expenses	82,611	84,672	(2%)
Depreciation and amortization	54,088	55,163	(2%)
Operating income	\$ (21,047)	\$ (23,953)	N.A.

Revenue in our international outdoor segment declined \$0.8 million due to a decline in foreign exchange of approximately \$29.5 million partially offset by \$15.4 million in revenue related to our consolidation of Clear Media Limited, a Chinese outdoor advertising company as well as revenue growth primarily from our street furniture and billboard inventory. We acquired a controlling majority interest in Clear Media during the third quarter of 2005 and began consolidating its results. We had previously accounted for Clear Media as an equity method investment. Strong markets for the first quarter of 2006 as compared to the first quarter of 2005 included France, Italy and Australia.

Direct operating expenses decreased \$0.6 million during the first quarter of 2006 as compared to the first quarter of 2005. The decline was primarily attributable to foreign exchange movements of approximately \$19.5 million. Before the effects of foreign exchange, our direct operating expenses increased primarily from

\$8.4 million related to our consolidation of Clear Media and an increase in site lease expenses primarily from the renewal of a street furniture contract in the United Kingdom. Also included in the increase is \$0.2 million in non-cash compensation expense related to the adoption of FAS 123(R). Our SG&A expenses declined \$2.1 million primarily attributable to foreign exchange movements of approximately \$7.6 million. Before the effects of foreign exchange, our SG&A expenses increased primarily from \$4.5 million related to our consolidation of Clear Media and \$0.1 million in non-cash compensation expense related to the adoption of FAS 123(R).

LIQUIDITY AND CAPITAL RESOURCES**Cash Flow**

<i>(In thousands)</i>	Three Months Ended March 31,	
	2006	2005
Cash provided by (used in):		
Operating activities	\$ 444,712	\$ 313,672
Investing activities	\$ (97,288)	\$ (41,894)
Financing activities	\$ (340,574)	\$ (252,804)
Discontinued operations	\$	\$ (744)

Operating Activities

Cash flow from operating activities for the three months ended March 31, 2006 principally reflects net income of \$96.8 million plus depreciation and amortization of \$151.3 million. Also contributing to cash flow from operating activities is a decrease in income taxes receivable of \$118.1 million primarily related to a tax refund from the overpayment of taxes in 2005 due to a foreign exchange loss from the restructuring of our international business in anticipation of our strategic realignment and from applying a portion of the capital loss generated from our spin-off of Live Nation to capital gains recognized in 2005. Cash flow from operating activities for the three months ended March 31, 2005 principally reflects income before discontinued operations of \$67.1 million plus depreciation and amortization of \$155.4 million. Cash flow from operating activities also reflects a positive change in working capital of approximately \$60.0 million.

Investing Activities

Cash used in investing activities for the three months ended March 31, 2006 principally reflects the acquisition of operating assets and property plant and equipment of \$125.6 million. Cash used in investing activities for the three months ended March 31, 2005 principally reflects the acquisition of operating assets and property plant and equipment of \$75.2 million

Financing Activities

Cash used in financing activities for the three months ended March 31, 2006 principally reflects net draws on our credit facility of \$127.2 million, net proceeds from our March, 2006 debt offering of \$497.5 million offset by \$876.3 million related to the purchase of our common stock and \$100.9 million in dividends paid. Cash used in financing activities for the three months ended March 31, 2005 principally reflects net draws on our credit facility of \$396.5 million offset by \$593.9 million related to the purchase of our common stock and \$70.9 million in dividends paid.

Discontinued Operations

We completed the spin-off of Live Nation, our former live entertainment and sports representation businesses, on December 21, 2005. In accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the*

Impairment of Disposal of Long-Lived Assets, we reported the results of operations of these businesses during 2005 in discontinued operations on our Consolidated Statement of Operations and reclassified cash flows from these businesses to discontinued operations on our Consolidated Statement of Cash Flows.

- 23 -

Table of Contents**Anticipated Cash Requirements**

We expect to fund anticipated cash requirements (including payments of principal and interest on outstanding indebtedness and commitments, acquisitions, anticipated capital expenditures, quarterly dividends and share repurchases) for the foreseeable future with cash flows from operations and various externally generated funds.

SOURCES OF CAPITAL

As of March 31, 2006 and December 31, 2005 we had the following debt outstanding:

<i>(In millions)</i>	March 31, 2006	December 31, 2005
Credit facility	\$ 419.4	\$ 292.4
Long-term bonds (a)	7,018.0	6,537.0
Other borrowings	218.2	217.1
Total Debt	7,655.6	7,046.5
Less: Cash and cash equivalents	89.6	82.8
	\$ 7,566.0	\$ 6,963.7

(a) Includes \$9.7 million and \$10.5 million in unamortized fair value purchase accounting adjustment premiums related to the merger with AMFM at March 31, 2006 and December 31, 2005, respectively. Also includes reductions of \$47.0 million and \$29.0 million related to fair value adjustments for interest rate swap agreements at March 31, 2006 and

December 31,
2005,
respectively.

Credit Facility

We have a multi-currency revolving credit facility in the amount of \$1.75 billion, which can be used for general working capital purposes including commercial paper support as well as to fund capital expenditures, share repurchases, acquisitions and the refinancing of public debt securities. At March 31, 2006, the outstanding balance on this facility was \$419.4 million and, taking into account letters of credit of \$140.6 million, \$1.2 billion was available for future borrowings, with the entire balance to be repaid on July 12, 2009.

During the three months ended March 31, 2006, we made principal payments totaling \$926.8 million and drew down \$1.1 billion on the credit facility. As of May 5, 2006, the credit facility's outstanding balance was \$693.7 million and, taking into account outstanding letters of credit, \$920.1 million was available for future borrowings.

Debt Offering

On March 21, 2006, we completed a debt offering of \$500.0 million 6.25% Senior Notes due 2011. Interest is payable on March 15 and September 15 of each year. The net proceeds of approximately \$497.5 million were used to repay borrowings under our bank credit facility.

Shelf Registration

On April 22, 2004, we filed a Registration Statement on Form S-3 covering a combined \$3.0 billion of debt securities, junior subordinated debt securities, preferred stock, common stock, warrants, stock purchase contracts and stock purchase units. The shelf registration statement also covers preferred securities that may be issued from time to time by our three Delaware statutory business trusts and guarantees of such preferred securities by us. The SEC declared this shelf registration statement effective on April 26, 2004. After debt offerings on September 15, 2004, November 17, 2004, December 16, 2004 and March 21, 2006 \$1.25 billion in securities remains available for issuance under this shelf registration statement.

Debt Covenants

The significant covenants on our \$1.75 billion five-year, multi-currency revolving credit facility relate to leverage and interest coverage contained and defined in the credit agreement. The leverage ratio covenant requires us to maintain a ratio of consolidated funded indebtedness to operating cash flow (as defined by the credit agreement) of less than 5.25x. The interest coverage covenant requires us to maintain a minimum ratio of operating cash flow (as defined by the credit agreement) to interest expense of 2.50x. In the event that we do not meet these covenants, we are considered to be in default on the credit facility at which time the credit facility may become immediately due. At March 31, 2006, our leverage and interest coverage ratios were 3.6x and 4.8x, respectively. This credit

- 24 -

Table of Contents

facility contains a cross default provision that would be triggered if we were to default on any other indebtedness greater than \$200.0 million.

Our other indebtedness does not contain provisions that would make it a default if we were to default on our credit facility.

The fees we pay on our \$1.75 billion, five-year multi-currency revolving credit facility depend on our long-term debt ratings. Based on our current ratings level of BBB-/Baa3, our fees on borrowings are a 45.0 basis point spread to LIBOR and are 17.5 basis points on the total \$1.75 billion facility. In the event our ratings improve, the fee on borrowings and facility fee decline gradually to 20.0 basis points and 9.0 basis points, respectively, at ratings of A/A3 or better. In the event that our ratings decline, the fee on borrowings and facility fee increase gradually to 120.0 basis points and 30.0 basis points, respectively, at ratings of BB/Ba2 or lower.

We believe there are no other agreements that contain provisions that trigger an event of default upon a change in long-term debt ratings that would have a material impact to our financial statements.

Additionally, our 8% senior notes due 2008, which were originally issued by AMFM Operating Inc., a wholly-owned subsidiary of Clear Channel, contain certain restrictive covenants that limit the ability of AMFM Operating Inc. to incur additional indebtedness, enter into certain transactions with affiliates, pay dividends, consolidate, or effect certain asset sales.

At March 31, 2006, we were in compliance with all debt covenants. We expect to remain in compliance throughout 2006.

USES OF CAPITAL

On August 9, 2005, we announced our intention to return approximately \$1.6 billion of capital to shareholders through either share repurchases, a special dividend or a combination of both. Since announcing our intent through May 5, 2006, we have returned approximately \$1.3 billion to shareholders by repurchasing 42.4 million shares of our common stock. Since announcing a share repurchase program in March 2004, we have repurchased approximately 119.8 million shares of our common stock for approximately \$4.0 billion. Subject to our financial condition, market conditions, economic conditions and other factors, it remains our intention to return the remaining balance of the approximately \$1.6 billion in capital to our shareholders through either share repurchases, a special dividend or a combination of both. We intend to fund any share repurchases and/or a special dividend from funds generated from the repayment of intercompany debt, the proceeds of any new debt offerings, available cash balances and cash flow from operations. The timing and amount of a special dividend, if any, is in the discretion of our Board of Directors and will be based on the factors described above.

Dividends

Our Board of Directors declared quarterly cash dividends as follows:

(In millions, except per share data)

Declaration	Amount per Common	Record	Payment	Total
Date	Share	Date	Date	Payment
October 26, 2005	0.1875	December 31, 2005	January 15, 2006	\$ 100.9
February 14, 2006	0.1875	March 31, 2006	April 15, 2006	95.5

Additionally, on April 26, 2006, the Company's Board of Directors declared a quarterly cash dividend of \$0.1875 per share on the Company's Common Stock. The dividend is payable on July 15, 2006 to shareholders of record at the close of business on June 30, 2006.

Acquisitions

During the three months ended March 31, 2006, we acquired a music scheduling company for \$47.2 million in cash and \$10.0 million of deferred purchase consideration. We also acquired outdoor display faces for \$9.1 million in cash. In addition, our national representation firm acquired representation contracts for \$5.2 million in cash.

Table of Contents**Capital Expenditures**

Capital expenditures were \$64.1 million and \$58.9 million in the three months ended March 31, 2006 and 2005, respectively.

<i>(In millions)</i>	Three Months Ended March 31, 2006 Capital Expenditures				
	Americas	International	Corporate and Other	Total	
	Radio	Outdoor Advertising	Outdoor Advertising		
Non-revenue producing	\$ 18.5	\$ 7.6	\$ 11.1	\$ 1.9	\$ 39.1
Revenue producing		6.6	18.4		25.0
	\$ 18.5	\$ 14.2	\$ 29.5	\$ 1.9	\$ 64.1

Treasury Stock Transactions

Our Board of Directors approved two separate share repurchase programs during 2004, each for \$1.0 billion. On February 1, 2005, our Board of Directors approved a third \$1.0 billion share repurchase program. On August 9, 2005, our Board of Directors authorized an increase in and extension of the February 2005 program, which had \$307.4 million remaining, by \$692.6 million, for a total of \$1.0 billion. On March 9, 2006, our Board of Directors authorized an additional share repurchase program, permitting us to repurchase \$600.0 million of our common stock. This increase expires on March 9, 2007, although the program may be discontinued or suspended at any time. As of May 5, 2006, 119.8 million shares had been repurchased for an aggregate purchase price of \$4.0 billion, including commissions and fees, under the share repurchase programs, with \$342.4 million remaining available.

Commitments, Contingencies and Guarantees**Commitments and Contingencies**

There are various lawsuits and claims pending against us. Based on current assumptions, we have accrued an estimate of the probable costs for the resolution of these claims. Future results of operations could be materially affected by changes in these assumptions.

Certain agreements relating to acquisitions provide for purchase price adjustments and other future contingent payments based on the financial performance of the acquired companies generally over a one to five year period. We will continue to accrue additional amounts related to such contingent payments if and when it is determinable that the applicable financial performance targets will be met. The aggregate of these contingent payments, if performance targets are met, would not significantly impact our financial position or results of operations.

Market Risk**Interest Rate Risk**

At March 31, 2006, approximately 25% of our long-term debt, including fixed-rate debt on which we have entered into interest rate swap agreements, bears interest at variable rates. Accordingly, our earnings are affected by changes in interest rates. Assuming the current level of borrowings at variable rates and assuming a two percentage point change in the quarter's average interest rate under these borrowings, it is estimated that our interest expense for the three months ended March 31, 2006 would have changed by \$9.6 million and that our net income for the three months ended March 31, 2006 would have changed by \$5.6 million. In the event of an adverse change in interest rates, management may take actions to further mitigate its exposure. However, due to the uncertainty of the actions that would be taken and their possible effects, this interest rate analysis assumes no such actions. Further, the analysis does not consider the effects of the change in the level of overall economic activity that could exist in such an environment.

At March 31, 2006, we had entered into interest rate swap agreements with a \$1.3 billion aggregate notional amount that effectively float interest at rates based upon LIBOR. These agreements expire from February 2007 to March 2012. The fair value of these agreements at March 31, 2006 was a liability of \$47.0 million.

Equity Price Risk

The carrying value of our available-for-sale and trading equity securities is affected by changes in their quoted market prices. It is estimated that a 20% change in the market prices of these securities would change their carrying value at March 31, 2006 by \$54.8 million and would change accumulated comprehensive income (loss) and net income by \$25.1 million and \$7.2 million, respectively. At March 31, 2006, we also held \$18.2 million of investments that do not have a quoted market price, but are subject to fluctuations in their value.

Table of Contents

We maintain derivative instruments on certain of our available-for-sale and trading equity securities to limit our exposure to and benefit from price fluctuations on those securities.

Foreign Currency

We have operations in countries throughout the world. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in the foreign markets in which we have operations. To mitigate a portion of the exposure of international currency fluctuations, we maintain a natural hedge through borrowings in currencies other than the U.S. dollar. In addition, we have U.S. dollar Euro cross currency swaps which are also designated as a hedge of our net investment in foreign denominated assets. These hedge positions are reviewed monthly. Our foreign operations reported a net loss of \$16.3 million for the three months ended March 31, 2006. It is estimated that a 10% change in the value of the U.S. dollar to foreign currencies would change net income for the three months ended March 31, 2006 by \$1.6 million.

Our earnings are also affected by fluctuations in the value of the U.S. dollar as compared to foreign currencies as a result of our investments in various countries, all of which are accounted for under the equity method. It is estimated that the result of a 10% fluctuation in the value of the dollar relative to these foreign currencies at March 31, 2006 would change our equity in earnings of nonconsolidated affiliates by \$0.7 million and would change our net income by approximately \$0.4 million for the three months ended March 31, 2006.

This analysis does not consider the implications that such fluctuations could have on the overall economic activity that could exist in such an environment in the U.S. or the foreign countries or on the results of operations of these foreign entities.

Recent Accounting Pronouncements

In February 2006, the Financial Accounting Standards Board (FASB) issued Statement No. 155, *Accounting for Certain Hybrid Financial Instruments* (Statement 155). Statement 155 is an amendment of FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (Statement 133) and FASB Statement 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (Statement 140) and allows companies to elect to measure at fair value entire financial instruments containing embedded derivatives that would otherwise have to be accounted for separately. Statement 155 also requires companies to identify interest in securitized financial assets that are freestanding derivatives or contain embedded derivatives that would have to be accounted for separately, clarifies which interest- and principal-only strips are subject to Statement 133, and amends Statement 140 to revise the conditions of a qualifying special purpose entity due to the new requirement to identify whether interests in securitized financial assets are freestanding derivatives or contain embedded derivatives. Statement 155 is effective for all financial instruments acquired or issued in fiscal years beginning after September 15, 2006. We will adopt Statement 155 on January 1, 2007 and anticipate that adoption will not materially impact our financial position or results of operations.

Critical Accounting Policies

Management believes certain critical accounting policies affect its more significant judgments and estimates used in the preparation of its consolidated financial statements. Due to the implementation of FAS 123 (R), we identified a new critical accounting policy related to share-based compensation, which is listed below. Our other critical accounting policies and estimates are disclosed in the Note A of our Annual Report on Form 10-K for the year ended December 31, 2005.

Stock Based Compensation

We account for stock based compensation in accordance with FAS 123(R). Under the fair value recognition provisions of this statement, stock based compensation cost is measured at the grant date based on the value of the award and is recognized as expense on a straight-line basis over the vesting period. Determining the fair value of share-based awards at the grant date requires assumptions and judgments about expected volatility and forfeiture rates, among other factors. If actual results differ significantly from these estimates, our results of operations could be materially impacted.

Inflation

Inflation has affected our performance in terms of higher costs for wages, salaries and equipment. Although the exact impact of inflation is indeterminable, we believe we have offset these higher costs in various manners.

Table of Contents**Ratio of Earnings to Fixed Charges**

The ratio of earnings to fixed charges is as follows:

Three Months Ended		Year Ended December 31,									
March 31,		2005		2004		2003		2002		2001	
2006	2005	2005	2004	2003	2002	2001					
1.79	1.57	2.32	2.86	3.64	2.59	*					

* For the year ended December 31, 2001, fixed charges exceeded earnings before income taxes and fixed charges by \$1.1 billion.

The ratio of earnings to fixed charges was computed on a total enterprise basis. Earnings represent income from continuing operations before income taxes less equity in undistributed net income (loss) of unconsolidated affiliates plus fixed charges. Fixed charges represent interest, amortization of debt discount and expense, and the estimated interest portion of rental charges. We had no preferred stock outstanding for any period presented.

Risks Regarding Forward Looking Statements

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by us or on our behalf. Except for the historical information, this report contains various forward-looking statements which represent our expectations or beliefs concerning future events, including the future levels of cash flow from operations. Management believes that all statements that express expectations and projections with respect to future matters, including the success of our strategic realignment of our businesses and our *Less is More* initiative; our ability to negotiate contracts having more favorable terms; and the availability of capital resources; are forward-looking statements within the meaning of the Private Securities Litigation Reform Act. We caution that these forward-looking statements involve a number of risks and uncertainties and are subject to many variables which could impact our financial performance. These statements are made on the basis of management's views and assumptions, as of the time the statements are made, regarding future events and business performance. There can be no assurance, however, that management's expectations will necessarily come to pass.

A wide range of factors could materially affect future developments and performance, including:

the impact of general economic and political conditions in the U.S. and in other countries in which we currently do business, including those resulting from recessions, political events and acts or threats of terrorism or military conflicts;

the impact of the geopolitical environment;

our ability to integrate the operations of recently acquired companies;

shifts in population and other demographics;

industry conditions, including competition;

fluctuations in operating costs;

technological changes and innovations;
changes in labor conditions;
fluctuations in exchange rates and currency values;
capital expenditure requirements;
the outcome of pending and future litigation settlements;
legislative or regulatory requirements;
interest rates;
the effect of leverage on our financial position and earnings;
taxes;
access to capital markets; and

certain other factors set forth in our filings with the Securities and Exchange Commission, including our Annual Report for the year ended December 31, 2005.

This list of factors that may affect future performance and the accuracy of forward-looking statements are illustrative, but by no means exhaustive. Accordingly, all forward-looking statements should be evaluated with the understanding of their inherent uncertainty.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Required information is within Item 2

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

Our principal executive and financial officers have concluded, based on their evaluation as of the end of the period covered by this Form 10-Q, that our disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, are effective to ensure that information we are required to disclose in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information we are required to disclose in such reports is accumulated and communicated to management, including our principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosure.

Subsequent to our evaluation, there were no significant changes in internal controls or other factors that could significantly affect these internal controls.

Table of Contents**Part II OTHER INFORMATION****Item 1. Legal Proceedings**

On April 19, 2006, we received a letter of inquiry (LOI) from the Federal Communications Commission (the FCC) requesting information about whether consideration was provided by record labels to us in exchange for the broadcast of music without disclosure of such consideration to the public. We are cooperating with the FCC in responding to this request for information.

We are currently involved in certain legal proceedings and, as required, have accrued our estimate of the probable costs for the resolution of these claims. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible, however, that future results of operations for any particular period could be materially affected by changes in our assumptions or the effectiveness of our strategies related to these proceedings.

Item 1A. Risk Factors

For information regarding risk factors, please refer to Item 1A in the Company s Annual Report on Form 10-K for the year ended December 31, 2005. Additional information relating to risk factors is described in Management s Discussion and Analysis of Financial Condition and Results of Operations under Risks Regarding Forward Looking Statements.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Purchases of Equity Securities by the Issuer and Affiliated Purchases.

On February 1, 2005, we publicly announced that our Board of Directors authorized a share repurchase program of up to \$1.0 billion effective immediately. On August 9, 2005, our Board of Directors authorized an increase in and extension of the February 2005 program, which had \$307.4 million remaining, by \$692.6 million, for a total of \$1.0 billion. On March 9, 2006, our Board of Directors authorized an additional share repurchase program, permitting us to repurchase an additional \$600.0 million of our common stock. This increase expires on March 9, 2007, although the program may be discontinued or suspended at anytime prior to its expiration. During the three months ended March 31, 2006, we repurchased the following shares:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Programs
January 1 through January 31	9,237,900	\$ 31.26	9,237,900	\$ 500,185,480
February 1 through February 28	12,412,000	\$ 28.79	12,412,000	\$ 142,853,211
March 1 through March 31	7,969,000	\$ 28.89	7,969,000	\$ 512,623,854
Total	29,618,900		29,618,900
