Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements****1. Basis of Presentation**

The Unaudited Consolidated Financial Statements of M.D.C. Holdings, Inc. (MDC or the Company, which refers to M.D.C. Holdings, Inc. and its subsidiaries) have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Accordingly, they do not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. These statements reflect all normal and recurring adjustments which, in the opinion of management, are necessary to present fairly the financial position, results of operations and cash flows of MDC at September 30, 2006 and for all periods presented. These statements should be read in conjunction with MDC s Consolidated Financial Statements and Notes thereto included in MDC s Form 10-K/A for the year ended December 31, 2005, filed October 11, 2006.

The Company has experienced seasonality and quarter-to-quarter variability in homebuilding activity levels. In general, the number of homes closed and associated home sales revenue historically have increased during the third and fourth quarters, compared with the first and second quarters. The Company believes that this seasonality reflects the historical tendency of homebuyers to purchase new homes in the spring with the goal of closing in the fall or winter, as well as the scheduling of construction to accommodate seasonal weather conditions. Also, the Company has experienced seasonality in the financial services operations because loan originations correspond with the closing of homes from the homebuilding operations. Due to reduced home closing levels during 2006, this pattern did not continue for the third quarter of 2006, and there can be no assurance that it will continue in the future. The Consolidated Statements of Income for the three and nine months ended September 30, 2006 and Consolidated Statements of Cash Flows for the nine months ended September 30, 2006 are not necessarily indicative of the results to be expected for the full year. Refer to economic conditions described under the caption Risk Factors in Part II, Item 1A of this Quarterly Report on Form 10-Q and Risk Factors Relating to our Business in Item 1A of the Company s December 31, 2005 Form 10-K/A. There are no assurances as to the results of operations for the fourth quarter of 2006.

The following table summarizes, by quarter, home sales revenue during 2006, 2005 and 2004 (in thousands).

	Three Months Ended			
	March 31,	June 30,	September 30,	December 31,
2006	\$ 1,119,308	\$ 1,195,083	\$ 1,058,408	N/A
2005	\$ 916,831	\$ 1,029,553	\$ 1,147,757	\$ 1,708,734
2004	\$ 746,429	\$ 861,537	\$ 1,007,134	\$ 1,316,913

2. Reclassifications

The Company has reclassified the presentation of the Consolidated Statements of Income for the three and nine months ended September 30, 2005. The Consolidated Statements of Income previously disclosed revenue and expenses by each reportable segment and have been reclassified to disclose revenue and expenses on a consolidated basis. The Company s total revenue and net income for the three and nine months ended September 30, 2005 have not been affected as a result of this reclassification. Certain other prior year balances have been reclassified to conform to the current year s presentation.

Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements (Continued)****3. Inventory Impairment**

On a quarterly basis, the Company evaluates its inventory for impairment in accordance with Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. As a result of much slower than anticipated paces of home orders and significantly increased sales incentives required to generate new home orders, the Company recorded asset impairments of its housing completed and under construction and land and land under development inventories of \$6.2 million and \$13.7 million, respectively, during the 2006 third quarter. For purposes of these impairment calculations, the Company determined the fair value of each impaired asset based upon the present value of the estimated future cash flows on a subdivision-by-subdivision basis using discount rates which are commensurate with the risk of the subdivision. The Company did not record any inventory impairment during the three and nine months ended September 30, 2005. The impairments recorded during the three and nine months ended September 30, 2006 by segment (as defined in Note 12) are as follows (in thousands).

	Three Months Ended September 30, 2006	Nine Months Ended September 30, 2006
West	\$ 15,241	\$ 15,241
Mountain	626	626
East	1,357	1,357
Other Homebuilding	2,691	3,551
Total impairment	\$ 19,915	\$ 20,775

4. Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Earlier application is encouraged provided that the reporting entity has not yet issued financial statements for that fiscal year including financial statements for an interim period within that fiscal year. The Company currently is evaluating the impact, if any, that SFAS 157 may have on its financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106 and 132(R) (SFAS 158). SFAS 158 requires the balance sheet recognition of the funded status of defined benefit pension and other postretirement plans, along with a corresponding after-tax adjustment to stockholders equity. The recognition of funded status provision of SFAS 158 applies prospectively and is effective December 31, 2006. SFAS 158 also requires measurement of plan assets and benefit obligations at the fiscal year end effective December 31, 2008. The Company does not expect SFAS 158 to have a material impact on its financial position, results of operations or cash flows.

In July 2006, the FASB issued FASB Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 is an interpretation of SFAS No. 109, Accounting for Income Taxes. FIN 48 provides interpretive guidance for the financial statement recognition and measurement of a tax position taken, or expected to be taken, in a tax return. FIN 48 requires the affirmative evaluation that it is more-likely-than-not, based on the technical merits of a tax position, that an enterprise is entitled to economic benefits resulting from positions taken in income tax returns. If a tax position does not meet the more-likely-than-not recognition threshold, the benefit of that position is not recognized in the financial statements. FIN 48 also requires companies to disclose additional quantitative and qualitative information in their financial statements about uncertain tax positions. FIN 48 is effective for fiscal years

Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements (Continued)**

beginning after December 15, 2006, and the cumulative effect of applying FIN 48 shall be reported as an adjustment to the opening balance of retained earnings for that fiscal year. The Company currently is evaluating the impact, if any, that FIN 48 may have on its financial position, results of operations or cash flows.

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments*, an amendment of FASB Statements No. 133 and 140 (*SFAS 155*). SFAS 155 eliminates the exemption from applying SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, to interests in securitized financial assets so that similar instruments are accounted for similarly regardless of the form of the instrument. SFAS 155 also allows a preparer to elect fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a remeasurement event, on an instrument-by-instrument basis, in cases in which a derivative would otherwise be bifurcated. At the adoption of SFAS 155, any difference between the total carrying amount of the individual components of any existing hybrid financial instrument and the fair value of the combined hybrid financial instrument should be recognized as a cumulative-effect adjustment to the Company's beginning retained earnings. SFAS 155 is effective for the Company for all financial instruments acquired or issued after January 1, 2007. The Company does not expect SFAS 155 to have a material impact on its financial position, results of operations or cash flows.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets* (*SFAS 156*), an amendment of SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS 156 requires that servicing assets and servicing liabilities be recognized at fair value, if practicable, when the Company enters into a servicing agreement and allows two alternatives, the amortization and fair value measurement methods, as subsequent measurement methods. This accounting standard is effective for all new transactions occurring as of the beginning of fiscal years beginning after September 15, 2006. The Company does not expect SFAS 156 to have a material impact on its financial position, results of operations or cash flows.

5. Stock-Based Compensation

Stock-Based Compensation Policy. Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123 (revised 2004), *Share-Based Payment* (*SFAS 123(R)*), using the modified prospective transition method and, therefore, has not restated results for prior periods. Under this transition method, stock-based compensation expense for the three and nine months ended September 30, 2006 includes compensation expense for all share-based payment awards granted prior to, but not yet vested at December 31, 2005, based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123, *Accounting for Stock-Based Compensation* (*SFAS 123*). Stock-based compensation expense for all share-based payment awards granted after December 31, 2005 is based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R). The Company recognizes these compensation costs net of an estimated annual forfeiture rate and recognizes the compensation costs for only those awards expected to vest on a straight-line basis over the requisite service period of the award, which is currently the option vesting term of up to seven years. Prior to the adoption of SFAS 123(R), the Company recognized stock-based compensation expense in accordance with Accounting Principles Board (*APB*) Opinion No. 25, *Accounting for Stock Issued to Employees* (*APB 25*).

In March 2005, the SEC issued Staff Accounting Bulletin No. 107, *Share-Based Payment* (*SAB 107*), regarding the SEC's interpretation of SFAS 123(R) and the valuation of share-based payment awards for public companies. The Company has applied the provisions of SAB 107 in its adoption of SFAS 123(R). Additionally, upon the adoption of SFAS 123(R), tax benefits resulting from tax deductions in excess of the compensation cost recognized for those options are classified as financing cash flows. Prior to the adoption of SFAS 123(R), the Company presented the tax benefit of stock option exercises as operating cash flows.

Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements (Continued)**

As a result of adopting SFAS 123(R), income before income taxes for the three and nine months ended September 30, 2006 was \$2.8 million and \$8.8 million lower, respectively, and net income for the three and nine months ended September 30, 2006 was \$1.8 million and \$5.5 million lower, respectively, than if the Company had continued to account for share-based payment awards under APB 25. The Company has recorded all stock-based compensation expense to general and administrative expenses in the Consolidated Statements of Income.

Pro Forma Disclosures Pursuant to SFAS 123. As of December 31, 2005, the Company had only granted stock options with exercise prices that were equal to or greater than the fair market value of the Company's common stock on the date of grant. Accordingly, prior to January 1, 2006, stock-based compensation expense was recorded only in association with the vesting of restricted stock and unrestricted stock awards and was recorded to expense ratably over the associated service period, which was generally the vesting term. Additionally, prior to January 1, 2006, the Company provided pro forma disclosure amounts in accordance with SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure (SFAS 148), as if the fair value method defined by SFAS 123 had been applied to all share-based payment awards. The following table illustrates the effect on net income and earnings per share if the fair value method prescribed by SFAS 123, as amended by SFAS 148, had been applied to all outstanding and unvested share-based payment awards during the three and nine months ended September 30, 2005 (in thousands, except per share amounts).

	Three Months Ended September 30, 2005	Nine Months Ended September 30, 2005
Net income, as reported	\$ 120,990	\$ 308,244
Deduct stock-based compensation expense determined using the fair value method, net of related tax effects	(2,647)	(7,944)
Pro forma net income	\$ 118,343	\$ 300,300
Earnings per share		
Basic as reported	\$ 2.73	\$ 7.03
Basic pro forma	\$ 2.67	\$ 6.85
Diluted as reported	\$ 2.62	\$ 6.70
Diluted pro forma	\$ 2.56	\$ 6.53

Determining Fair Value of Share-Based Awards. As part of the adoption of SFAS 123(R), the Company examined its historical pattern of option exercises in an effort to determine if there were any discernable activity patterns based on certain employee and non-employee populations. Based upon this evaluation, the Company identified three distinct populations: (1) executives consisting of the Company's Chief Executive Officer, Chief Operating Officer, Chief Financial Officer and General Counsel (collectively, the Executives); (2) non-Executive employees (Non-Executives); and (3) non-employee members of the Company's board of directors (Directors). The Company has used the Black-Scholes option pricing model to value stock options for each of these populations.

Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements (Continued)**

The fair values for stock options granted during the three and nine months ended September 30, 2006 and 2005 were estimated using the Black-Scholes option pricing model with the following weighted-average assumptions.

	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2006	2005	2006	2005
Expected volatility	46.4%	44.0%	46.1%	44.4%
Risk-free interest rate	4.7%	3.9%	4.7%	3.9%
Dividend yield rate	1.2%	0.8%	1.2%	0.7%
Expected lives of options	3.8	5.8	3.8	5.9
	yrs.	yrs.	yrs.	yrs.

Based on calculations using the Black-Scholes option pricing model, the weighted average grant date fair values of stock options were \$17.46 and \$32.80 for the three months ended September 30, 2006 and 2005, respectively, and \$22.13 and \$32.16 for the nine months ended September 30, 2006 and 2005, respectively. These assumptions were used for the stock options granted only to Non-Executives during the three and nine months ended September 30, 2006 and 2005. No stock option awards were granted during these periods to Executives or Directors.

The expected volatility is based on the historical volatility in the price of the Company's common stock over the most recent period commensurate with the estimated expected life of the Company's stock options, adjusted for the impact of unusual fluctuations not reasonably expected to recur and other relevant factors. The risk-free interest rate assumption is determined based upon observed interest rates appropriate for the expected term of the Company's employee stock options. The dividend yield assumption is based on the Company's history and expectation of dividend payouts. The expected life of employee stock options represents the weighted-average period for which the stock options are expected to remain outstanding and are derived primarily from historical exercise patterns.

SFAS 123(R) requires an annual forfeiture rate to be estimated at the time of grant for all share-based payment awards granted subsequent to January 1, 2006, and revised, if necessary, in subsequent periods if the actual forfeiture rate differs from the Company's estimate. Additionally, in accordance with SFAS 123(R), the Company has estimated an annual forfeiture rate to be applied to all share-based payment awards which were unvested at December 31, 2005 in determining the number of awards expected to vest in the future. The Company estimated the annual forfeiture rate to be 25% for share-based payment awards granted to Non-Executives and 0% for share-based payment awards granted to Executives and Directors, based on the terms of their awards, as well as historical forfeiture experience. In the Company's pro forma information required under SFAS 123 for the periods prior to 2006, the Company accounted for forfeitures as they occurred.

Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements (Continued)**

The aggregate intrinsic values in the tables above represent the total pre-tax intrinsic values (the difference between the closing price of MDC's common stock on the last trading day of the 2006 third quarter and the exercise price, multiplied by the number of in-the-money stock options) that would have been received by the option holders had all outstanding stock options been exercised on September 30, 2006. This amount changes based on changes in the fair market value of the Company's common stock. The total intrinsic value of options exercised during the nine months ended September 30, 2006 was \$5.8 million.

Total stock-based compensation expense relating to stock options granted by the Company was \$2.8 million and \$8.8 million, respectively, for the three and nine months ended September 30, 2006. At September 30, 2006, \$37.6 million of total unrecognized compensation cost related to stock options is expected to be recognized as an expense by the Company in the future over a weighted-average period of 4.0 years.

Cash received from stock option exercises was \$3.2 million and the associated tax benefit realized totaled \$2.2 million for the nine months ended September 30, 2006.

Restricted and Unrestricted Stock Award Activity. Non-vested restricted stock awards at September 30, 2006 and changes during the nine months ended September 30, 2006 were as follows.

	Number of Shares	Weighted-Average Grant Date Fair Value
Non-vested at December 31, 2005	43,312	\$ 57.16
Granted	31,851	\$ 64.58
Vested	(19,777)	\$ 61.16
Forfeited	(5,623)	\$ 60.55
Non-vested at September 30, 2006	49,763	\$ 59.94

Total stock-based compensation expense relating to restricted stock and unrestricted stock awards was \$0.3 million and \$0.1 million for the three months ended September 30, 2006 and 2005, respectively, and was \$1.4 million and \$0.7 million for the nine months ended September 30, 2006 and 2005, respectively. At September 30, 2006, there was \$1.8 million of unrecognized stock-based compensation expense related to non-vested restricted stock awards that is expected to be recognized as an expense by the Company in the future over a weighted-average period of 2.8 years.

6. Equity Incentive Plans

A summary of the Company's equity incentive plans follows:

Employee Equity Incentive Plans. In April 1993, the Company adopted the Employee Equity Incentive Plan (the Employee Plan). The Employee Plan provided for an initial authorization of 2,100,000 shares of MDC common stock for issuance thereunder, subject to adjustment for stock dividends and stock splits, plus an additional annual authorization equal to 10% of the then authorized shares of MDC common stock under the Employee Plan as of each succeeding annual anniversary of the date the Employee Plan was adopted. Under the Employee Plan, the Company could grant awards of restricted stock, incentive and non-statutory stock options and dividend equivalents, or any combination thereof, to officers and employees of the Company or any of its subsidiaries. The incentive and non-statutory stock options granted under the Employee Plan are exercisable at prices not less than the market value on the date of grant and vest over periods of up to four years and expire within six years. The Company's ability to make further grants under the Employee Plan terminated pursuant to its terms on April 20, 2003.

Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements (Continued)**

Effective March 2001, the Company adopted the M.D.C. Holdings, Inc. 2001 Equity Incentive Plan (the Equity Incentive Plan). The Equity Incentive Plan provided for an initial authorization of 2,000,000 shares of MDC common stock for issuance thereunder, subject to adjustment for stock dividends and stock splits, plus an additional annual authorization equal to 10% of the then authorized shares of MDC common stock under the Equity Incentive Plan as of each succeeding annual anniversary of the date the Equity Incentive Plan was adopted. In April 2003, an additional 1,000,000 shares (also subject to adjustment for stock dividends and stock splits) were authorized for issuance by vote of the Company's shareowners. The Equity Incentive Plan provides for the grant of non-qualified stock options, incentive stock options, stock appreciation rights, restricted stock, stock bonuses and other stock grants to employees of the Company. Incentive stock options granted under the Equity Incentive Plan must have an exercise price that is at least equal to the fair market value of the common stock on the date the incentive stock option is granted. Non-qualified option awards generally vest over periods of up to seven years and expire in ten years. Restricted stock awards are granted with vesting terms of up to four years.

Director Equity Incentive Plan. Effective March 2001, the Company adopted the M.D.C. Holdings, Inc. Stock Option Plan for Non-Employee Directors (the Director Stock Option Plan). Under the Director Stock Option Plan, non-employee directors of the Company are granted non-qualified stock options. The Director Stock Option Plan provided for an initial authorization of 500,000 shares of MDC common stock for issuance thereunder, subject to adjustment for stock dividends and stock splits, plus an additional annual authorization equal to 10% of the then authorized shares of MDC common stock under the Director Stock Option Plan as of each succeeding annual anniversary of the date the Director Stock Option Plan was adopted. Pursuant to the Director Stock Option Plan, on October 1 of each year, each non-employee director of the Company is granted options to purchase 25,000 shares of MDC common stock. Each option granted under the Director Stock Option Plan vests immediately and expires ten years from the date of grant. The option exercise price must be equal to the fair market value (as defined in the plan) of MDC common stock on the date of grant of the option. In October 2003, the Director Stock Option Plan, which was approved by the shareowners on May 21, 2001, was amended to terminate on May 21, 2011.

7. Balance Sheet Components

The following tables set forth information relating to accrued liabilities (in thousands).

	September 30, 2006	December 31, 2005
Accrued liabilities		
Warranty reserves	\$ 95,193	\$ 82,238
Accrued compensation and related expenses	83,115	99,541
Land development and home construction accruals	52,304	74,955

Stock options, net	896	1,879	1,021	2,157
Diluted weighted-average shares outstanding	45,868	46,258	45,932	46,006
Per share amounts	\$ 1.06	\$ 2.62	\$ 4.80	\$ 6.70

9. Interest Activity

The Company capitalizes interest incurred on its senior notes and Homebuilding Line (as defined below) during the period of active development and through the completion of construction of its homebuilding inventories. Interest incurred on the senior notes or Homebuilding Line that is not capitalized is reported as interest expense. Interest incurred by the Mortgage Line (as defined below) is charged to interest expense. Interest activity is shown below (in thousands).

	Three Months		Nine Months	
	Ended September 30, 2006	2005	Ended September 30, 2006	2005

Total interest income, net	\$ 2,695	\$ 1,348	\$ 5,548	\$ 4,263

10. Warranty Reserves

Warranty reserves presented in the table below relate to general and structural reserves, as well as reserves for known, unusual warranty-related expenditures not covered by the Company's general and structural warranty reserve. Warranty reserves are reviewed at least quarterly, using historical data and other relevant information, to determine the reasonableness and adequacy of both the reserve and the per unit reserve amount originally included in home cost of sales, as well as the timing of the reversal of any excess reserve. If warranty payments for an individual house exceed the related reserve, then payments in excess of the reserve are evaluated in the aggregate to determine if an adjustment to the warranty reserve should be recorded, which could result in a corresponding adjustment to home cost of sales. Warranty reserves are included in accrued liabilities in the Consolidated Balance Sheets, and totaled \$95.2 million and \$82.2 million at September 30, 2006 and December 31, 2005, respectively. Warranty reserve activity for the three and nine months ended September 30, 2006 and 2005 is shown below (in thousands).

	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2006	2005	2006	2005
Warranty reserve balance at beginning of period	\$ 92,010	\$ 60,750	\$ 82,238	\$ 64,424
Warranty expense provision	11,041	8,153	34,334	24,640
Warranty cash payments	(8,309)	(10,852)	(24,220)	(31,013)
Warranty reserve adjustments	451	2,775	2,841	2,775
Warranty reserve balance at end of period	\$ 95,193	\$ 60,826	\$ 95,193	\$ 60,826

11. Insurance Reserves

The Company records expenses and liabilities for costs to cover liabilities related to: (1) insurance policies issued by StarAmerican Insurance Ltd. (StarAmerican) and Allegiant Insurance Company, Inc., A Risk Retention Group (Allegiant); (2) self-insurance; (3) deductible amounts under the Company's insurance policies; and (4) losses and loss adjustment expenses associated with claims in excess of coverage limits or not covered by insurance policies. The establishment of the provisions for outstanding losses and loss adjustment expenses is based on actuarial studies that include known facts and interpretation of circumstances, including the Company's experience with similar cases and historical trends involving claim payment patterns, pending levels of unpaid claims, product mix or concentration, claim severity, frequency patterns such as those caused by natural disasters, fires, or accidents, depending on the business conducted and changing regulatory and legal environments.

Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements (Continued)**

The following table summarizes the insurance reserve activity for the three and nine months ended September 30, 2006 and 2005 (in thousands).

	Three Months		Nine Months	
	Ended September 30, 2006	2005	Ended September 30, 2006	2005
Insurance reserve balance at beginning of period	\$ 38,187	\$ 26,795	\$ 32,166	\$ 21,188

Insurance cash payments	(141)	(288)	(1,099)	(433)
Insurance reserve adjustments	(468)		1,420	202
Insurance reserve balance at end of period	\$ 40,890	\$ 29,456	\$ 40,890	\$ 29,456

12. Information on Business Segments

SFAS No. 131, Disclosures About Segments of an Enterprise and Related Information (SFAS 131), defines operating segments as a component of an enterprise for which discrete financial information is available and is reviewed regularly by the chief operating decision-maker, or decision-making group, to evaluate performance and make operating decisions. The Company has identified its chief operating decision-makers (CODMs) as three key executives the Chief Executive Officer, Chief Operating Officer and Chief Financial Officer. During the 2006 third quarter, management determined that the homebuilding operations for the three and nine months ended September 30, 2005 should be restated by disaggregating its one homebuilding reportable segment into four reportable segments. Accordingly, the Company has restated its segment disclosure for the three and nine months ended September 30, 2005. The restatement has no impact on the Company's net income or earnings per share amounts included in the Consolidated Statements of Income or the Consolidated Statements of Cash Flows for the 2005 periods presented.

The Company has identified each homebuilding subdivision as an operating segment in accordance with SFAS 131. Each homebuilding subdivision engages in business activities from which it earns revenue primarily from the sale of single-family detached homes, generally to first-time and first-time move-up homebuyers. Subdivisions in the reportable segments noted below have been aggregated because they have similar: (1) economic characteristics; (2) housing products; (3) class of homebuyer; (4) regulatory environments; and (5) methods used to construct and sell homes. The Company's homebuilding reportable segments are as follows:

- (1) West (Arizona, California and Nevada markets)
- (2) Mountain (Colorado and Utah markets)
- (3) East (Virginia and Maryland markets)
- (4) Other Homebuilding (Delaware Valley, Florida, Illinois and Texas markets)

The Company's Financial Services and Other segment consists of the operations of the following operating segments: (1) HomeAmerican Mortgage Corporation (HomeAmerican); (2) American Home Insurance Agency, Inc. (American Home Insurance); (3) American Home Title and Escrow Company (American Home Title); (4) Allegiant; and (5) StarAmerican. Because these operating segments do not individually exceed 10 percent of the consolidated revenue, net income or total assets, they have been aggregated into one reportable segment. American Home Title, Allegiant and StarAmerican were previously included in the Company's homebuilding segment and are now included in the Financial Services and Other segment. The Company's Corporate reportable segment incurs general and administrative expenses that are not identifiable specifically to another operating segment.

Supervisory fees, which are included in income before income taxes, are charged by the Company's Corporate segment to the homebuilding segments and the Financial Services and Other

Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements (Continued)**

segment. Supervisory fees represent costs incurred by the Company's Corporate segment associated with certain resources that support the Company's other reportable segments. Transfers between segments are recorded at cost.

The following table summarizes revenue and income before income taxes for each of the Company's six reportable segments (in thousands).

13. Other Comprehensive Income

Total other comprehensive income includes net income plus unrealized gains or losses on securities available for sale and minimum pension liability adjustments which have been reflected as a component of stockholders' equity and have not affected consolidated net income. The Company's other comprehensive income was \$48.7 million and \$220.6 million for the three and nine months ended September 30, 2006, respectively, and \$121.0 million and

\$308.2 million for the three and nine months ended September 30, 2005, respectively.

- 16 -

Table of Contents**M.D.C. HOLDINGS, INC.****Notes to Unaudited Consolidated Financial Statements (Continued)****14. Commitments and Contingencies**

The Company often is required to obtain bonds and letters of credit in support of its obligations relating to subdivision improvement, homeowner association dues and start-up expenses, warranty work, contractor license fees and earnest money deposits. At September 30, 2006, MDC had issued and outstanding performance bonds and letters of credit totaling \$424.7 million and \$87.3 million, respectively, including \$28.2 million in letters of credit issued by HomeAmerican, a wholly owned subsidiary of MDC. In the event any such bonds or letters of credit issued by third parties are called, MDC would be obligated to reimburse the issuer of the bond or letter of credit.

15. Lines of Credit and Total Debt Obligations

Homebuilding. The Company's homebuilding line of credit (Homebuilding Line) is an unsecured revolving line of credit with a group of lenders for support of our homebuilding operations. On March 22, 2006, the Company amended and restated the Homebuilding Line, increasing the aggregate commitment amount to \$1.25 billion, and extending the maturity date to March 21, 2011. The facility's provision for letters of credit is available in the aggregate amount of \$500 million. The amended and restated facility permits an increase in the maximum commitment amount to \$1.75 billion upon the Company's request, subject to receipt of additional commitments from existing or additional participant lenders. Interest rates on outstanding borrowings are determined by reference to LIBOR, with a spread from LIBOR which is determined based on changes in the Company's credit ratings and leverage ratio, or to an alternate base rate. At September 30, 2006, the Company did not have any borrowings and had \$56.3 million in letters of credit issued under the Homebuilding Line.

Mortgage Lending. The Company's mortgage line of credit (Mortgage Line) has a borrowing limit of \$225 million with terms that allow for increases of up to \$175 million in the borrowing limit to a maximum of \$400 million, subject to concurrence by the participating banks. The terms of the Mortgage Line are set forth in the Fourth Amended and Restated Warehousing Credit Agreement dated as of September 5, 2006. Available borrowings under the Mortgage Line are collateralized by mortgage loans and mortgage-backed securities and are limited to the value of eligible collateral, as defined. At September 30, 2006, \$152.4 million was borrowed and an additional \$28.2 million was collateralized and available to be borrowed. The Mortgage Line is cancelable upon 120 days notice.

General. The agreements for the Company's bank lines of credit and the indentures for the Company's senior notes require compliance with certain representations, warranties and covenants. The Company believes that it is in compliance with these requirements, and the Company is not aware of any covenant violations. The agreements containing these representations, warranties and covenants for the bank lines of credit and the indentures for the Company's senior notes are on file with the SEC and are listed in the Exhibit Table in Part IV of the Company's Annual Report on Form 10-K for the year ended December 31, 2005, in Part II, Item 6, of the Company's Quarterly Report on Form 10-Q for the period ended March 31, 2006 and in Part II, Item 6 of this Quarterly Report on Form 10-Q.

16. Related Party Transactions

During the first quarter of 2006, the Company accrued \$1.6 million of contributions that were pledged to the MDC/Richmond American Homes Foundation (the Foundation), a Delaware non-profit corporation. These contributions were paid during the second quarter of 2006. No contributions to the Foundation were accrued in the second or third quarters of 2006 or the first nine months of 2005.

17. Income Taxes

The Company's overall effective income tax rates were 36.3% and 37.2% for the three and nine months ended September 30, 2006, and were 37.4% and 37.5% for the three and nine months ended September 30, 2005, respectively.

18. Supplemental Guarantor Information

The Company's senior notes and Homebuilding Line are fully and unconditionally guaranteed on an unsecured basis, jointly and severally by the following subsidiaries (collectively, the "Guarantor Subsidiaries"), which are 100%-owned subsidiaries of the Company.

M.D.C. Land Corporation

RAH of Florida, Inc.

RAH of Texas, LP

RAH Texas Holdings, LLC

Richmond American Construction, Inc.

Richmond American Homes of Arizona, Inc.

Richmond American Homes of California, Inc.

Richmond American Homes of Colorado, Inc.

Richmond American Homes of Delaware, Inc.

Richmond American Homes of Florida, LP

Richmond American Homes of Illinois, Inc.

Richmond American Homes of Maryland, Inc.

Richmond American Homes of Nevada, Inc.

Richmond American Homes of New Jersey, Inc.

Richmond American Homes of Pennsylvania, Inc.

Richmond American Homes of Texas, Inc.

Richmond American Homes of Utah, Inc.

Richmond American Homes of Virginia, Inc.

Richmond American Homes of West Virginia, Inc.

Subsidiaries that do not guarantee the Company's senior notes and Homebuilding Line (collectively, the Non-Guarantor Subsidiaries) include:

American Home Insurance

American Home Title

HomeAmerican

Lion Insurance Company

StarAmerican

Allegiant

The Company has determined that separate, full financial statements of the Guarantor Subsidiaries would not be material to investors and, accordingly, supplemental financial information for the Guarantor Subsidiaries is presented.

Table of Contents**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion should be read in conjunction with, and is qualified in its entirety by, the Unaudited Consolidated Financial Statements and Notes thereto included elsewhere in this Quarterly Report on Form 10-Q. This item contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those indicated in such forward-looking statements. Factors that may cause such a difference include, but are not limited to, those discussed in Item 1A: Risk Factors Relating to our Business of our Annual Report on Form 10-K for the year ended December 31, 2005 and this Quarterly Report on Form 10-Q.

INTRODUCTION

M.D.C. Holdings, Inc. is a Delaware Corporation. We refer to M.D.C. Holdings, Inc. as the Company, MDC, we or our in this Form 10-Q, and these designations include our subsidiaries unless we state otherwise. Our primary business is owning and managing subsidiary companies that build and sell homes under the name Richmond American Homes. Richmond American Homes maintains operations in certain markets within the United States, including Arizona, California, Colorado, Delaware Valley (which includes Pennsylvania, Delaware and New Jersey), Florida, Illinois, Maryland, Nevada, Texas (although we are in the final stages of exiting this market), Utah and Virginia. Our Financial Services and Other segment consists of HomeAmerican Mortgage Corporation (HomeAmerican), which originates mortgage loans primarily for our homebuyers, American Home Insurance Agency, Inc. (American Home Insurance), which offers third party insurance products to our homebuyers, and American Home Title and Escrow Company (American Home Title), which provides title agency services to our homebuyers in Colorado, Delaware, Florida, Illinois, Maryland, Texas, Virginia, and West Virginia. Also included in our Financial Services and Other segment is Allegiant Insurance Company, Inc., A Risk Retention Group (Allegiant), which provides general liability coverage for products and completed operations to the Company and, in most of the Company's markets, to subcontractors of homebuilding subsidiaries of MDC. Pursuant to agreements beginning in June 2004, StarAmerican Insurance Ltd. (StarAmerican), a Hawaii corporation and a wholly owned subsidiary of MDC, agreed to re-insure all Allegiant claims in excess of \$50,000 per occurrence, up to \$3.0 million.

EXECUTIVE SUMMARY

The Company closed 2,955 and 9,529 homes, respectively, during the three and nine months ended September 30, 2006, compared with 3,686 and 10,356 homes closed, respectively, during the same periods in 2005. We received 2,120 and 8,658 net home orders, respectively, during the third quarter and first nine months of 2006, compared with 3,551 and 12,929 net home orders, respectively, during the same periods of 2005.

The homebuilding industry continued to experience significant challenges that have impacted our financial and operating results for the third quarter and first nine months of 2006. These challenges include: uncertainty surrounding Federal Reserve policy on interest rates; increases in the cost of living; higher energy costs; fluctuations in consumer confidence; reduced affordability of new homes; and homebuyer concerns about the housing market and the lack of home price appreciation. These factors have contributed to, among other things: (1) lower demand for new homes; (2) significant increases in Cancellation Rates (as defined below) in nearly all markets in which we operate; (3) speculators exiting the new home market; (4) increases in the supply of new and existing homes available to be purchased; (5) increases in competition for new home orders; (6) prospective homebuyers having a more difficult time selling their existing homes in this more competitive environment; and (7) higher incentives required to stimulate new home orders and maintain previous home orders in Backlog (as defined below). This weaker homebuilding market has resulted in fewer closed homes, decreased net home orders, reduced

Table of Contents

year-over-year Backlog, inventory impairments, project cost write-offs, and lower Home Gross Margins (as defined below). As a result, net income for the three and nine months ended September 30, 2006 decreased to \$48.7 million and \$220.6 million, respectively, compared with \$121.0 million and \$308.2 million, respectively, for the same periods in 2005.

In response to these challenges, our management has continued to focus on: (1) initiatives that generate net home orders and maintain home orders in Backlog until they close; (2) controlling our costs of building and selling homes, as well as our general and administrative costs; and (3) adjusting our portfolio of lots controlled to accommodate the current pace of net new home orders in our markets. Accordingly, and in response to the foregoing market conditions, we have continued to modify our sales and marketing strategies to address each sub-market and subdivision. In many cases, this has required increases in the level of incentives we have offered as a means of generating homebuyer interest and minimizing order cancellations. These incentives have reduced our selling prices on new home orders and have adversely impacted, and will adversely impact in the future, our Home Gross Margins. A continued slowdown in net new home orders could have a greater negative impact on our Home Gross Margins and net income in future periods. Additionally, during the third quarter of 2006, compared with the same period in 2005, we experienced increases in hard costs associated with the construction of new homes and in land costs as a percent of home sales revenue. In response to these increases, and in an effort to control our costs of building homes, we have been actively pursuing price concessions from our existing vendors and have been renegotiating our lot option contracts with our land sellers. Also, during the third quarter of 2006, we began to realize benefits from previous measures taken to reduce general and administrative expenses, compared with the 2006 second quarter, primarily resulting from personnel reductions and the consolidation of several homebuilding operating divisions. These benefits were offset by write-offs of option deposits and project costs, as discussed below. In addition, we implemented a customer experience initiative focused on enhancing our customer's home buying experience. See **Forward-Looking Statements** below.

Consistent with our homebuilding inventory valuation policy, we evaluated facts and circumstances existing at September 30, 2006 to determine whether the carrying values of our homebuilding inventories were recoverable on a subdivision-by-subdivision basis. Based upon the procedures performed at September 30, 2006, we determined that certain inventory assets, primarily in our California markets, and also in our Delaware Valley, Virginia and Colorado markets, were not recoverable. Accordingly, we recorded \$19.9 million of inventory impairments during the 2006 third quarter. These impairments primarily were the result of continued slow sales paces and significantly increased incentives offered to generate new home orders. As market conditions for the homebuilding industry can fluctuate significantly period-to-period, we will continue to assess facts and circumstances existing at each future period-end to determine whether the carrying values of our homebuilding inventories are recoverable. See **Forward-Looking Statements** below.

We continue to have the objective of maintaining approximately a two-year supply of lots in our markets to avoid over-exposure to any single sub-market and to create flexibility to react to changes in market conditions, but a continued slowdown in the pace of net new home orders could work contrary to this strategy. In an effort to bring the number of lots we own and control closer to this objective, we limited our new land acquisitions through our tightened underwriting criteria and elected not to purchase lots under existing lot option contracts that did not meet these criteria. As a result, the write-offs of deposits and preacquisition costs associated with lot option contracts that we chose not to exercise increased by approximately \$7.0 million and \$17.8 million during the third quarter and first nine months of 2006, respectively, compared with the same periods in 2005. Because we chose not to purchase certain lots under existing option contracts, we reduced our total lots under option by 42% from December 31, 2005 and 23% from June 30, 2006. In addition, we pursued cost control measures associated with land

Table of Contents

acquisition costs through reduced option deposit requirements and modifications of lot takedown prices, as well as extending the dates for specified lot takedowns. See **Forward-Looking Statements** below.

During the third quarter of 2006, we continued to maintain a high level of cash and borrowing capacity, reaching \$1.36 billion at September 30, 2006. This provides us flexibility to take advantage of potential opportunities that we believe may be presented by these changing market conditions. We will continue to evaluate our cash management strategies during this challenging period, including but not limited to lot acquisitions, potential repurchases of MDC common stock and dividend payments. See **Forward-Looking Statements** below.

CRITICAL ACCOUNTING ESTIMATES AND POLICIES

The preparation of financial statements in conformity with accounting policies generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Management evaluates such estimates and judgments on an on-going basis and makes adjustments as deemed necessary. Actual results could differ from these estimates using different estimates and assumptions, or if conditions are significantly different in the future. See **Forward-Looking Statements** below.

The accounting policies and estimates which we believe are critical and require the use of complex judgment in their application are those related to (1) homebuilding inventory valuation; (2) revenue recognition; (3) segment reporting; (4) stock-based compensation; (5) warranty costs; (6) estimates to complete land development and home construction; and (7) land options. With the exception of homebuilding inventory valuation, revenue recognition, segment reporting and stock-based compensation, our other critical accounting estimates and policies have not changed from those reported in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2005.

Homebuilding Inventory Valuation. Homebuilding inventories, which include housing completed or under construction and land and land under development, are carried at cost unless events and circumstances indicate that the carrying value of the underlying subdivision may not be recoverable. In making this determination, we review, among other things, actual and trending Operating Profit, which is defined as home sales revenue less home cost of sales and all direct incremental costs associated with the home closing, for homes closed, forecasted Operating Profit for homes in Backlog (as defined below) and known or current expectations that the carrying value may not be recoverable. In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144), if the carrying value of long-lived assets is determined not to be recoverable, the assets are reviewed for impairment by comparing the undiscounted estimated future cash flows from an individual subdivision to its carrying value. If such cash flows are less than the subdivision's carrying value, the carrying value of the subdivision is written down to its estimated fair value. Management determines the fair value by present valuing the estimated future cash flows at a discount rate commensurate with the risk of the subdivision under evaluation. Changes in management's estimates, particularly the timing of the estimated future cash inflows, future cash outflows and the present value discount rate used in the fair value calculation, can materially affect any impairment calculation. Due to uncertainties in the estimation process, actual results could differ from those estimates. We continue to evaluate the carrying value of our inventory, and a continued slowdown in the homebuilding market could result in additional impairments.

Table of Contents

Revenue Recognition. We recognize revenue from home closings in accordance with SFAS No. 66, *Accounting for Sales of Real Estate* (SFAS 66). Accordingly, revenue is recognized when the home closing has occurred, title has passed, adequate initial and continuing investment from the homebuyer is received, possession and other attributes of ownership have been transferred to the buyer and we are not obligated to perform significant additional activities after closing and delivery. We evaluate the initial investment provided under Federal Housing Administration-insured and Veterans Administration-guaranteed loans in accordance with Emerging Issues Task Force (EITF) No. 87-9, *Profit Recognition on Sales of Real Estate with Insured Mortgages or Surety Bonds*, and in EITF No. 88-24 *Effect of Various Forms of Financing under FASB Statement No. 66*, and all other loans in accordance with SFAS 66. Revenue from homes that close with the buyer providing a sufficient initial and continuing investment, assuming all other revenue recognition criteria have been met, is recognized using the full accrual method as provided in SFAS 66 on the date of closing. For a home closing in which HomeAmerican originates the mortgage loan and the homebuyer does not provide a sufficient initial and continuing investment, we utilize the installment method of accounting in accordance with SFAS 66. Accordingly, the corresponding Operating Profit is deferred and subsequently recognized on the date that HomeAmerican sells the homebuyer's loan to a third party purchaser. Our loans currently are sold to third party investors with anti-fraud, warranty and early payment default provisions. We deferred \$18.5 million and \$7.7 million in Operating Profits associated with homes that closed for which all revenue recognition criteria were not met as of September 30, 2006 and December 31, 2005, respectively.

In accordance with SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (SFAS 140), sale of a homebuyer loan has occurred when the following criteria have been met: (1) the payment from the third party purchaser is not subject to future subordination; (2) we have transferred all the usual risks and rewards of ownership that is in substance a sale; and (3) we do not have a substantial continuing involvement with the loan. Factors that we consider in assessing whether a sale of a loan has occurred in accordance with SFAS 140 include, among other things, (1) the amount of recourse, if any, to HomeAmerican for credit and interest rate risk; (2) the right or obligation, if any, of HomeAmerican to repurchase the loan; and (3) the amount of control HomeAmerican retains, or is perceived to retain, over the administration of the assets post closing.

Income with respect to loan origination fees, net of certain direct loan origination costs incurred, and loan commitment fees are deferred and amortized over the life of the loan. Loan servicing fees are recorded as revenue when the mortgage loan payments are received. Revenues from the sale of mortgage loan servicing are recognized upon the exchange of consideration for the mortgage loans and related servicing rights between us and the third party purchaser in accordance with the provisions of SFAS 140. Based upon the current terms of our contracts, exchange of consideration is deemed effective when we receive the proceeds from the third party purchaser and when the collateral data records are delivered, either electronically or manually, to the third party purchaser.

Segment Reporting. The application of SFAS No. 131, *Disclosures About Segments of an Enterprise and Related Information* (SFAS 131), is complex and requires significant judgment in determining our operating segments. SFAS 131 defines operating segments as a component of an enterprise for which discrete financial information is available and is reviewed regularly by the chief operating decision-maker, or decision-making group, to evaluate performance and make operating decisions. We have identified our chief operating decision-makers (CODMs) as three key executives the Chief Executive Officer, Chief Operating Officer and Chief Financial Officer.

We have identified each homebuilding subdivision as an operating segment in accordance with SFAS 131. Each homebuilding subdivision engages in business activities from which it earns revenue primarily from the sale of single-family detached homes, generally to first-time and first-time move-up

Table of Contents

homebuyers. Markets in our reportable segments (as defined in Note 12 to our Unaudited Consolidated Financial Statements) have been aggregated because they have similar: (1) economic characteristics; (2) housing products; (3) class of homebuyer; (4) regulatory environments; and (5) methods used to construct and sell homes. In making the determination of whether or not our markets demonstrate similar economic characteristics, we review, among other things, actual and trending Home Gross Margins (as defined below) for homes closed within each market and forecasted Home Gross Margins. Accordingly, we may be required to reclassify our reportable segments if markets that currently are being aggregated do not continue to demonstrate similar economic characteristics.

Stock-Based Compensation. Effective January 1, 2006, we adopted SFAS No. 123 (revised 2004), Share-Based Payment (SFAS 123(R)) and have included it as a critical accounting estimate and policy given the significant judgment and estimates required when applying SFAS 123(R). See Note 5 to the Unaudited Consolidated Financial Statements for a further discussion on share-based payment awards.

Stock-based compensation expense for all share-based payment awards granted after December 31, 2005 is based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R). Determining the appropriate fair value model and calculating the fair value of share-based payment awards requires judgment, including estimating stock price volatility, annual forfeiture rates and the expected life of an award. We estimated the fair value for stock options granted during the three and nine months ended September 30, 2006 using the Black-Scholes option pricing model. The Black-Scholes option pricing model includes making estimates and judgments associated with the (1) expected stock option life; (2) expected volatility; (3) risk-free interest rate; and (4) dividend yield rate.

The expected volatility is based on the historical volatility in the price of our common stock over the most recent period commensurate with the estimated expected life of our employee stock options, adjusted for the impact of unusual fluctuations not reasonably expected to recur and other relevant factors. The risk-free interest rate assumption is determined based upon observed interest rates appropriate for the expected term of our employee stock options. The dividend yield assumption is based on our historical and expected dividend payouts. The expected life of employee stock options represents the weighted-average period for which the stock options are expected to remain outstanding and is derived primarily from historical exercise patterns.

SFAS 123(R) requires an annual forfeiture rate to be estimated at the time of grant for all awards granted subsequent to January 1, 2006, and revised, if necessary, in subsequent periods if the actual forfeiture rate differs from our estimate. Additionally, in accordance with SFAS 123(R), we have estimated an annual forfeiture rate to be applied to all share-based payment awards that were unvested at December 31, 2005 in determining the number of awards expected to vest in the future. We estimated the annual forfeiture rate to be 25% for share-based payment awards granted to Non-Executives (as defined in Note 5 to our Unaudited Consolidated Financial Statements) and 0% for share-based payment awards granted to Executives and Directors (as defined in Note 5 to our Unaudited Consolidated Financial Statements), based on the terms of their awards, as well as historical forfeiture experience.

Table of Contents**RESULTS OF OPERATIONS**

Income Before Income Taxes. The table below summarizes our income before income taxes by segment, consolidated net income and earnings per share (dollars in thousands, except per share amounts).

	Three Months Ended September 30,				Nine Months Ended September 30,

Diluted	\$ 1.06	\$ 2.62	\$ (1.56)	-60%	\$ 4.80	\$ 6.70	\$ (1.90)	-28%

Consolidated income before income taxes for the three and nine months ended September 30, 2006 decreased 60% and 29%, respectively, from the three and nine months ended September 30, 2005, primarily resulting from decreases in income from our homebuilding segments.

Income before income taxes of our homebuilding segments decreased 61% and 31% during the 2006 third quarter and first nine months of 2006, respectively, compared with the same periods in 2005. These decreases primarily resulted from significant declines in Home Gross Margins in all of our segments. In addition, we closed fewer homes in each homebuilding segment during the 2006 third quarter and fewer homes in our Mountain and East segments during the first nine months of 2006, compared to the same periods during 2005. Additionally, we recorded \$19.9 million of asset impairments during the 2006 third quarter, primarily related to subdivisions in each homebuilding segment, most notably in the West, Other Homebuilding and East. Income before income taxes decreased during the 2006 periods in our Other Homebuilding segment, primarily resulting from closing fewer homes in Texas, as we continued to exit this market, and recording impairments discussed above, primarily in our Delaware Valley market. We deferred \$18.5 million in Operating Profits associated with closed homes for which all revenue recognition criteria were not met as of September 30, 2006. However, this deferral was more than offset by the recognition of \$30.7 million in Operating Profits that had been deferred from the 2006 second quarter, resulting in a net \$12.2 million favorable impact to our 2006 third quarter income before income taxes.

The decreases in income from our homebuilding segments partially were offset by increases in the income before income taxes from our Financial Services and Other segment, primarily resulting from higher gains on sales of mortgage loans and reduced general and administrative expenses. Additionally, the losses before income taxes from our Corporate segment decreased year-over-year by \$8.7 million and

Table of Contents

\$15.0 million during the three and nine months ended September 30, 2006, respectively, primarily resulting from lower general and administrative expenses.

Total Revenue. The table below summarizes total revenue by segment (dollars in thousands).

	Three Months Ended September		Change	
	2006	30, 2005	Amount	%
Homebuilding				
West	\$ 653,932	\$ 631,171	\$ 22,761	4%
Mountain	168,193	228,024	(59,831)	-26%
East	137,050	185,504	(48,454)	-26%
Other Homebuilding	105,553	105,558	(5)	0%
Total Homebuilding	1,064,728	1,150,257	(85,529)	-7%
Financial Services and Other	18,105	17,318	787	5%
Corporate	60	237	(177)	-75%
Consolidated	\$ 1,082,893	\$ 1,167,812	\$ (84,919)	-7%

	2006	30, 2005	Amount	%
Homebuilding				
West	\$ 2,061,708	\$ 1,734,412	\$ 327,296	19%
Mountain	519,107	603,756	(84,649)	-14%
East	444,765	470,220	(25,455)	-5%
Other Homebuilding	374,299	293,266	81,033	28%
Total Homebuilding	3,399,879	3,101,654	298,225	10%
Financial Services and Other	57,969	44,955	13,014	29%
Corporate	675	1,459	(784)	-54%
Consolidated	\$ 3,458,523	\$ 3,148,068	\$ 310,455	10%

Total revenue decreased by \$84.9 million during the three months ended September 30, 2006, compared with the same period in 2005, primarily resulting from a decline in home sales revenue in our Mountain and East segments, offset in part by an increase in homes sales revenue from our West segment.

Total revenue for the nine months ended September 30, 2006 increased by \$310.5 million from the nine months ended September 30, 2005. This increase primarily resulted from an increase in home sales revenue from our West and Other Homebuilding segments and an increase in gains on sales of mortgage loans from our Financial Services and Other segment. These increases were offset in part by lower home sales revenue in our Mountain and East segments.

Table of Contents

Home Sales Revenue. The table below summarizes home sales revenue by segment (dollars in thousands).

	Three Months Ended September		30,		Change	
	2006	2005	Amount	%		
West	\$ 652,043	\$ 629,940	\$ 22,103	4%		
Mountain	167,422	226,560	(59,138)	-26%		
East	135,629	185,457	(49,828)	-27%		
Other Homebuilding	103,314	105,800	(2,486)	-2%		
Total Home Sales Revenue	\$ 1,058,408	\$ 1,147,757	\$ (89,349)	-8%		

	Nine Months Ended September		30,		Change	
	2006	2005	Amount	%		
West	\$ 2,057,359	\$ 1,730,511	\$ 326,848	19%		
Mountain	517,301	601,605	(84,304)	-14%		
East	441,480	469,628	(28,148)	-6%		
Other Homebuilding	356,659	292,397	64,262	22%		
Total Home Sales Revenue	\$ 3,372,799	\$ 3,094,141	\$ 278,658	9%		

Home sales revenue decreased 8% during the three months ended September 30, 2006, compared with the same period in 2005, primarily resulting from decreases in our Mountain and East segments. The declines in these two segments were the result of closing fewer homes in nearly all markets within these segments, most notably in Colorado and Virginia. Adding to the decline in home sales revenue for the East segment was a \$29,700 decrease in the average selling price for closed homes in Virginia. The revenue impact to the Mountain segment of fewer home closings was offset partially by a \$94,600 increase in the average selling price for closed homes in Utah. Home sales revenue increased in our West segment, resulting from a \$90,600 increase in the average selling price for homes closed in Arizona, which more than offset closing 191 fewer homes in this segment. Refer to Homebuilding Operating Activities below for explanations of the changes in homes closed and average selling prices.

Home sales revenue increased 9% during the nine months ended September 30, 2006, compared with the same period in 2005. This improvement primarily resulted from increases in our West and Other Homebuilding segments, offset in part by decreases in our Mountain and East segments. The increase in our West segment primarily resulted from the impact of increases in the average selling prices for markets within this segment, most notably, Arizona. Home sales revenue increased in our Other Homebuilding segment as a result of increases in the average selling prices for homes closed in each market within this segment, offset in part by closing 197 fewer homes. Home sales revenue decreased in our Mountain and East segments, primarily because we closed 521 and 168 fewer homes, respectively, during the first nine months of 2006, compared with the same period in 2005. These declines were offset in part by the impact of increases in the average selling prices for homes closed during the first nine months of 2006 in nearly all markets within these two segments.

Land Sales. Land sales revenue was \$18.8 million and \$2.6 million during the nine months ended September 30, 2006 and 2005, respectively. The increase primarily resulted from the sale of land in our Texas market as we continued to exit this market during the first nine months of 2006.

Table of Contents

Other Revenue. The table below sets forth the components of other revenue (dollars in thousands).

	Three Months				Nine Months			
	Ended September		Change		Ended September		Change	
	2006	2005	Amount	%	2006	2005	Amount	%
Broker origination fees	\$ 2,255	\$ 3,162	\$ (907)	-29%	\$ 6,678	\$ 7,995	\$ (1,317)	-16%
Gains on sales of mortgage loans, net	12,950	10,747	2,203	20%	41,416	27,394	14,022	51%
Other	3,249	3,529	(280)	-8%	13,270	11,710	1,560	13%
Interest income, net	2,695	1,348	1,347	100%	5,548	4,263	1,285	30%
Total other revenue	\$ 21,149	\$ 18,786	\$ 2,363		\$ 66,912	\$ 51,362	\$ 15,550	

Total other revenue increased \$2.4 million and \$15.6 million, respectively, during the three and nine months ended September 30, 2006, compared with the same periods in 2005, primarily resulting from increases in gains on sales of mortgage loans. Increased dollar volumes of mortgage loan originations and mortgage loans sold during the 2006 periods drove the higher gains. We achieved these increased volumes by improving our Capture Rate (as defined below), largely due to the expanded offering of mortgage loan products that we were able to originate directly for our homebuyer, and increased average loan amounts, associated with the higher average selling prices of homes closed.

Home Cost of Sales. Home cost of sales were \$818.0 million and \$817.3 million during the three months ended September 30, 2006 and 2005, respectively, and \$2.6 billion and \$2.2 billion during the nine months ended September 30, 2006 and 2005, respectively. Refer to explanations of Home Gross Margins, homes closed and average selling prices in the Homebuilding Operating Activities below for explanations of the changes in home cost of sales.

Inventory Impairments. During the 2006 third quarter, we recorded impairments of our housing completed and under construction and land and land under development in the amounts of \$6.2 million and \$13.7 million, respectively. These impairments were recorded in each homebuilding segment, most notably with respect to subdivisions in California, and also in our Delaware Valley, Virginia and Colorado markets, resulting primarily from slower than anticipated paces of home orders and increases in the sales incentives required to generate new home orders.

Marketing Expenses. Marketing expenses (which include advertising, amortization of deferred marketing costs, model home expenses and other selling costs) were \$31.3 million and \$26.1 million for the three months ended September 30, 2006 and 2005, respectively. The \$5.2 million increase in 2006 primarily was due to increases of (1) \$4.1 million in advertising expenses incurred in an effort to generate homebuyer traffic in our subdivisions; and (2) \$0.8 million in sales office expenses associated with the increase in our active subdivisions and model homes from 2005.

Marketing expenses increased \$18.5 million to \$91.9 million for the nine months ended September 30, 2006, compared with the same period in 2005, primarily due to increases of (1) \$9.3 million in advertising expenses incurred in an effort to generate homebuyer traffic in our subdivisions; and (2) \$3.8 million in amortization of deferred marketing costs, \$2.4 million in salaries and benefits and \$2.2 million in sales office expenses, primarily attributable to the increase in our active subdivisions and model homes from 2005.

Table of Contents

Commission Expenses. Commission expenses (which include direct incremental commissions paid for closed homes) were \$36.4 million and \$30.7 million for the three months ended September 30, 2006 and 2005, respectively, and \$106.6 million and \$85.3 million for the nine months ended September 30, 2006 and 2005, respectively. The 2006 increases primarily were attributable to increases in commission rates paid to outside brokers in response to more competitive markets, as well as higher outside and in-house commissions resulting from increases in the average selling prices of homes closed during the third quarter and first nine months of 2006, compared with the same periods in 2005.

General and Administrative Expenses. The following table summarizes our general and administrative expenses (in thousands).

	Three Months Ended		Change	
	September 30,			
	2006	2005	Amount	%
Homebuilding segments	\$ 69,317	\$ 62,018	\$ 7,299	12%
Financial Services and Other	9,295	9,765	(470)	-5%
Corporate	18,946	27,774	(8,828)	-32%
Total general and administrative expenses	\$ 97,558	\$ 99,557	\$ (1,999)	-2%

	Nine Months Ended September		Change	
	30,			
	2006	2005	Amount	%
Homebuilding segments	\$ 219,820	\$ 171,133	\$ 48,687	28%
Financial Services and Other	29,598	28,381	1,217	4%
Corporate	68,635	86,036	(17,401)	-20%
Total general and administrative expenses	\$ 318,053	\$ 285,550	\$ 32,503	11%

General and administrative expenses for our homebuilding segments were \$69.3 million and \$62.0 million during the three months ended September 30, 2006 and 2005, respectively. The increase primarily resulted from a \$7.0 million increase in write-offs of due diligence costs and deposits on lot option contracts that we elected not to exercise. Additionally, we decreased our compensation and other employee benefit-related costs by \$2.2 million during the 2006 period, which partially was offset by an increase in supervisory fees of \$1.8 million. See Note 12 to our Unaudited Consolidated Financial Statements regarding supervisory fees.

General and administrative expenses for our homebuilding segments for the nine months ended September 30, 2006 and 2005 were \$219.8 million and \$171.1 million, respectively. The increase primarily resulted from increases of (1) \$17.8 million in write-offs of due diligence costs and deposits on land projects under option that we elected not to exercise; (2) \$12.0 million in compensation and other employee benefit-related costs; (3) \$8.4 million in supervisory fees; and (4) \$10.1 million in other general and administrative costs, including rent, depreciation and legal related costs.

Corporate general and administrative expenses totaled \$18.9 million and \$27.8 million for the three months ended September 30, 2006 and 2005, respectively. The decrease primarily was attributable to a \$9.6 million reduction in salaries and bonuses and an increase of \$1.8 million in supervisory costs charged to the homebuilding and Financial Services and Other segments, offset in part by an increase of approximately \$2.8 million in stock-based compensation expense resulting from our adoption of SFAS 123(R) in January 2006.

Table of Contents

Corporate general and administrative expenses totaled \$68.6 million and \$86.0 million for the nine months ended September 30, 2006 and 2005, respectively. The decrease was attributable to a \$14.1 million reduction in salaries and bonuses and an increase of \$8.4 million in supervisory costs. These expense reductions were offset in part by stock-based compensation expense of approximately \$9.4 million.

Income Taxes. Our overall effective income tax rates were 36.3% and 37.2% for the three and nine months ended September 30, 2006, and were 37.4% and 37.5% for the three and nine months ended September 30, 2005, respectively. The decrease in the effective tax rate during the third quarter and first nine months of 2006 primarily related to the reversal of previously accrued taxes due to the expiration of certain statutes of limitation.

Homebuilding Operating Activities

Cancellation Rate 48.5% 25.7% 22.8% 40.1% 21.5% 18.6%

Orders for Homes. During the three and nine months ended September 30, 2006, we received 2,120 and 8,658 net home orders, respectively, compared with 3,551 and 12,929 net home orders, respectively, for the same periods in 2005. Each of our homebuilding segments experienced year-over-year declines in net home orders, driven in part by significant increases in our Cancellation Rate (as defined below), as well as increases in competition resulting from higher inventory levels of new and existing homes. We believe that prospective homebuyers have been delaying home purchases during this

- 35 -

Table of Contents

period of uncertainty. We continued to respond to the increased Cancellation Rate and the uncertainty in the homebuilding market by increasing incentives and offering limited time sales promotions, with the objective of improving our sales velocity.

Home Gross Margins. We define Home Gross Margins to mean home sales revenue less home cost of sales (which primarily includes land and construction costs, capitalized interest, closing costs, and reserves for warranty expenses and excludes commissions, amortization of deferred marketing costs and impairment charges) as a percent of home sales revenue. Home Gross Margins were 22.7% and 24.4% during the third quarter and first nine months of 2006, respectively, compared with 28.8% and 28.6% during the same periods in 2005. The 2006 decreases primarily were attributable to reduced Home Gross Margins in California, Nevada and Virginia. These decreases primarily resulted from offering higher sales incentives in order to generate home orders and subsequent home closings, as well as increases in the cost of land and home construction materials used in building new homes. With respect to the 2006 third quarter, we deferred \$18.5 million in Operating Profits associated with closed homes for which all revenue recognition criteria provided in SFAS 66 were not met as of September 30, 2006. However, this deferral was more than offset by the recognition of \$30.7 million in Operating Profits that had been deferred under SFAS 66 in the 2006 second quarter.

Future Home Gross Margins may be impacted by, among other things: (1) increased competition and continued high levels of cancellations, which would affect our ability to raise home prices and maintain lower levels of incentives; (2) the impact of changes in demand for homes in our markets; (3) adverse weather; (4) shortages of subcontractor labor, finished lots and other resources, which can result in delays in the delivery of homes under construction and increases in related cost of sales; (5) increases in the costs of subcontracted labor, finished lots, building materials, and other resources, to the extent that market conditions prevent the recovery of increased costs through higher selling prices; (6) the impact of being unable to sell mortgage loans on a timely basis given the increase in low or no down payment mortgage products being offered by HomeAmerican, as this may affect the timing of recognizing the Operating Profit on closed homes pursuant to SFAS 66; and (7) other general risk factors. See **Forward-Looking Statements** below.

Cancellation Rate. We define our home order Cancellation Rate as total cancelled home order contracts during a specified period of time as a percent of total home orders received during such time period. Our Cancellation Rates were 48.5% and 25.7% for the three months ended September 30, 2006 and 2005, respectively, and 40.1% and 21.5% for the nine months ended September 30, 2006 and 2005, respectively. Cancellation Rates during the third quarter of 2006, compared with the third quarter of 2005, increased significantly in nearly all markets, most notably Arizona, California, Florida and Virginia. The increases in Cancellation Rates in these markets resulted primarily from (1) what appears to be an exit of speculators from the new home market; (2) an increased supply of new and previously owned homes available to be purchased, which has made it more difficult for homebuyers to sell their existing homes; (3) increased uncertainty regarding the housing market and the lack of home price appreciation; (4) increased incentives being offered by competitors; and (5) other factors related to higher mortgage interest rates.

Total	2,955	3,686	(731)	-20%	9,529	10,356	(827)	-8%

Our home closings were down in each homebuilding segment during the 2006 third quarter and each homebuilding segment except for the West segment during the first nine months of 2006, compared with the same periods in 2005. Each homebuilding segment was impacted by a significant increase in the number of home order cancellations and a higher percentage of our cancellations occurring subsequent to the start of construction of the homes. The decreases in closed homes during both 2006 periods in our West and East segments primarily were driven by fewer home closings in the Colorado and Virginia markets, respectively, resulting from lower Backlogs at the beginning of the three and nine months ended September 30, 2006, compared with the same periods in 2005. The decreases in our Other Homebuilding segment primarily resulted from closing fewer homes in our Florida and Texas markets, offset in part by increased home closings in our Delaware Valley and Illinois markets. We closed fewer homes during both 2006 periods in Florida primarily due to lower Backlogs at the beginning of the three and nine month periods ended September 30, 2006, compared with the same periods in 2005. Additionally, we closed fewer homes in Texas, as we continued to close down our operations in this market. Our closed homes increased in Delaware Valley and Illinois primarily due to these start-up markets becoming more established during the 2006 periods.

Edgar Filing: MDC HOLDINGS INC - Form 10-Q

In our West segment, we closed 191 fewer homes during the 2006 third quarter, compared with the 2005 third quarter, and 59 more homes during the nine months ended September 30, 2006, compared with the same period in 2005. In our Arizona market, we closed fewer homes during both 2006 periods, primarily resulting from lower Backlogs at the beginning of the three and nine month periods ended September 30, 2006, compared with the same periods in 2005. Additionally, we closed fewer homes in California during the 2006 third quarter, compared with the same period in 2005, also as a result of having a lower Backlog at the beginning of the 2006 third quarter. We closed more homes in Nevada during the 2006 third quarter, primarily due to increased closings of speculative homes. Additionally, we

- 37 -

Table of Contents

closed more homes during the first nine months of 2006 in Nevada, compared with the same period in 2005, primarily resulting from a higher Backlog at the beginning of the 2006 period, compared with the 2005 period.

Backlog. The following table below set forth information relating to Backlog by market.

	September 30, 2006	December 31, 2005	September 30, 2005
Arizona	2,040	2,099	2,633
California	722	765	1,306
Nevada	648	1,023	1,683
West	3,410	3,887	5,622
Colorado	361	577	804

Delaware Valley	169	181	161
Florida	427	599	723
Illinois	43	80	91
Texas	30	238	312
Other Homebuilding	669	1,098	1,287
Total	5,661	6,532	9,078
Backlog Estimated Sales Value	\$ 2,100,000	\$ 2,440,000	\$ 3,290,000
Estimated Average Selling Price of Homes in Backlog	\$ 371.0	\$ 373.5	\$ 362.4

We define Backlog as homes under contract but not yet delivered. At September 30, 2006 and 2005, we had 5,661 and 9,078 homes in Backlog, respectively. Because our Backlog equals total net home orders less homes closed, refer to the previous discussion on Homes Closed and Orders for Homes for an explanation of the change in the number of homes in Backlog. The estimated Backlog sales value decreased from \$3.3 billion at September 30, 2005 to \$2.1 billion at September 30, 2006, primarily due to the 38% decrease in homes in Backlog, offset in part by a 2% increase in the estimated average selling price of homes in Backlog.

Company average	\$358.2	\$311.4	\$ 46.8	15%	\$354.0	\$298.8	\$ 55.2	18%

During the third quarter and first nine months of 2006, we experienced 15% and 18% increases, respectively, in the average selling prices of homes closed, compared with the same periods in 2005, as the average selling prices of homes closed increased in most of our markets during both periods. Increases during the 2006 third quarter and first nine months were most notable in Arizona, Florida,

- 39 -

Table of Contents

Maryland and Utah, where the average selling prices for homes closed increased in excess of \$49,000, primarily due to changes in style and size of our single-family detached homes being closed in these markets. The average selling price for our homes closed in Virginia decreased during the 2006 third quarter, compared with the same period in 2005, primarily resulting from increased sales incentives being offered in response to the lower demand for new homes in this market. Our average selling prices of homes closed in 2006 were impacted favorably by closing fewer homes in Texas during the three and nine months ended September 30, 2006, compared with the same periods in 2005, where the average selling prices were more than \$185,000 below the Company average.

Other Homebuilding	2,920	4,751	5,659
Total	10,952	18,819	22,327
Total Lots Owned and Controlled (excluding lots in work-in-process)	31,565	42,264	43,987
Non-refundable Option Deposits			
Cash	\$ 34,034	\$ 48,157	\$ 50,681
Letters of Credit	16,069	23,142	25,728
Total Non-refundable Option Deposits	\$ 50,103	\$ 71,299	\$ 76,409

At September 30, 2006, we owned a total of 20,613 lots, excluding lots in work-in-process, representing a 12% decrease from December 31, 2005. Of these total lots owned, 10,003 were finished, of which 1,264 lots were subject to home sales contracts for which construction had not started. The remaining 10,610 lots were unfinished and in the process of being developed for future home sales. Additionally, the total lots controlled under options decreased 42%

to 10,952 from December 31, 2005. The decrease in total lots owned and controlled primarily resulted from our efforts to adjust our lot supply, given the current pace of net new home orders, to bring our lot supply closer to our objective of keeping a two-year supply of lots under control at any one point in time.

- 42 -

Table of Contents**Other Operating Results**

HomeAmerican Operating Activities. The following table sets forth information relating to our HomeAmerican operations (in thousands).

	Three Months		Change		Nine Months		Change	
	Ended September 30, 2006	2005	Amount	%	Ended September 30, 2006	2005	Amount	%
Principal amount of loans originated	\$541,446	\$470,637	\$ 70,809	15%	\$1,672,096	\$1,197,053	\$ 475,043	40%
Principal amount of loans brokered	\$162,783	\$225,627	\$(62,844)	-28%	\$ 492,464	\$ 666,939	\$(174,475)	-26%
Capture Rate Including brokered loans	60%	50%	10%		58%	46%	12%	
Mortgage products (% of loans originated)	78%	73%	5%		75%	72%	3%	
Fixed rate	53%	58%	-5%		50%	56%	-6%	
Adjustable rate interest only	39%	32%	7%		42%	33%	9%	
Adjustable rate other	8%	10%	-2%		8%	11%	-3%	

The principal amount of originated mortgage loans increased 15% and 40% during the third quarter and first nine months of 2006, respectively, compared with the same periods in 2005. These increases primarily were due to increases in our Capture Rate, as well as increases in the average principal amount of loans originated by HomeAmerican. The increases in our Capture Rate primarily resulted from having more loan products offered to our homebuyers through HomeAmerican, which include, among other things, interest only loans and mortgage programs with low or no down payments, as well as increased management focus on providing competitive mortgage loan products rather than brokering these loans to third parties. The Capture Rate is defined as the number of mortgage loans originated by HomeAmerican for our homebuyers as a percent of total MDC home closings. Brokered loans, for which HomeAmerican received a fee, have been excluded from the computation of the Capture Rate.

Forward Sales Commitments. HomeAmerican is exposed to market risks related to fluctuations in interest rates on its mortgage loan inventory. Derivative instruments utilized in the normal course of business by HomeAmerican include forward sales securities commitments, private investor sales commitments and commitments to originate mortgage loans. HomeAmerican utilizes the sales commitments to manage the price risk on fluctuations in interest rates on our mortgage loans owned and commitments to originate mortgage loans. Such contracts are the only significant financial derivative instruments utilized by us and are generally settled within 45 days of origination. Certain mortgage loans originated by HomeAmerican are sold pursuant to early purchase programs and generally are settled within five days of origination. Due to this hedging philosophy, the market risk associated with HomeAmerican's mortgages is limited. Reported gains on sales of mortgage loans may vary significantly from period to period depending on the volatility in the interest rate market. See **Forward-Looking Statements** below.

Table of Contents

Interest Activity. We capitalize interest on our homebuilding inventories during the period of active development and through the completion of construction. All Corporate and homebuilding interest incurred in 2006 and 2005 was capitalized. Interest incurred by the Financial Services and Other segment is charged to interest expense, which is deducted from interest income. Total interest incurred by our Corporate and homebuilding segments was \$14.2 million and \$44.0 million for the three and nine months ended September 30, 2006, respectively, compared with \$14.6 million and \$36.5 million for the same periods in 2005. These increases were the result of our issuance of \$250 million principal amount of debt in July 2005. For a reconciliation of interest incurred, capitalized and expensed, see Note 9 to our Unaudited Consolidated Financial Statements.

Insurance Operations. Allegiant was organized as a risk retention group under the Federal Liability Risk Retention Act of 1981. Allegiant is licensed as a Class 3 stock insurance company by the Division of Insurance of the State of Hawaii and began operations in June 2004. Allegiant provides general liability coverage for products and completed operations to the Company and, in most of the Company's markets, to subcontractors of homebuilding subsidiaries of MDC. Pursuant to agreements beginning in June 2004, StarAmerican agreed to re-insure all Allegiant claims in excess of \$50,000 per occurrence, up to \$3.0 million. The results of insurance operations were not material for any of the periods presented.

LIQUIDITY AND CAPITAL RESOURCES

We use our liquidity and capital resources to (1) support our operations, including our homebuilding inventories; (2) provide working capital; and (3) provide mortgage loans for our homebuyers. Liquidity and capital resources are generated internally from operations and from external sources. Additionally, we have an effective shelf registration statement, which allows us to issue equity, debt or hybrid securities up to \$1.0 billion, with \$500 million earmarked for our medium-term senior notes program.

Capital Resources

Our capital structure is a combination of (1) permanent financing, represented by stockholders' equity; (2) long-term financing, represented by our publicly traded 7% senior notes due 2012, 5¹/₂% senior notes due 2013, 5³/₈% medium-term senior notes due 2014 and 2015 and our homebuilding line of credit (the Homebuilding Line); and (3) current financing, primarily our mortgage lending line of credit (the Mortgage Line). Based upon our current capital resources and additional capacity available under existing credit agreements, we believe that our current financial condition is both balanced to fit our current operating structure and adequate to satisfy our current and near-term capital requirements. We continue to monitor and evaluate the adequacy of our Homebuilding Line and Mortgage Line. However, we believe that we can meet our long-term capital needs (including meeting future debt payments and refinancing or paying off other long-term debt as it becomes due) from operations and external financing sources, assuming that no significant adverse changes in our business or capital and credit markets occur as a result of the various risk factors described in Item 1A Risk Factors Relating to our Business which are included in our Annual Report on Form 10-K for the year ended December 31, 2005 and this Quarterly Report on Form 10-Q. See **Forward-Looking Statements** below.

Lines of Credit and Senior Notes

Homebuilding. Our Homebuilding Line is an unsecured revolving line of credit with a group of lenders for support of our homebuilding operations. On March 22, 2006, we amended and restated the Homebuilding Line, increasing the aggregate commitment amount to \$1.25 billion, and extending the maturity date to March 21, 2011. The facility's provision for letters of credit is available in the aggregate

Table of Contents

amount of \$500 million. The amended and restated facility permits an increase in the maximum commitment amount to \$1.75 billion upon our request, subject to receipt of additional commitments from existing or additional participant lenders. Interest rates on outstanding borrowings are determined by reference to LIBOR, with a spread from LIBOR which is determined based on changes in our credit ratings and leverage ratio, or to an alternate base rate. At September 30, 2006, we did not have any borrowings and had \$56.3 million in letters of credit issued under the Homebuilding Line.

Mortgage Lending. Our Mortgage Line has a borrowing limit of \$225 million with terms that allow for increases of up to \$175 million in the borrowing limit to a maximum of \$400 million, subject to concurrence by the participating banks. The terms of the Mortgage Line are set forth in the Fourth Amended and Restated Warehousing Credit Agreement dated as of September 5, 2006. Available borrowings under the Mortgage Line are collateralized by mortgage loans and mortgage-backed securities and are limited to the value of eligible collateral, as defined. At September 30, 2006, \$152.4 million was borrowed and an additional \$28.2 million was collateralized and available to be borrowed. The Mortgage Line is cancelable upon 120 days notice.

General. The agreements for our bank lines of credit and the indentures for our senior notes require compliance with certain representations, warranties and covenants. We believe that we are in compliance with these requirements, and we are not aware of any covenant violations. The agreements containing these representations, warranties and covenants for the bank lines of credit and the indentures for our senior notes are on file with the Securities and Exchange Commission and are listed in the Exhibit Table in Part IV of our Annual Report on Form 10-K for the year ended December 31, 2005, in Part II, Item 6, of our Quarterly Report on Form 10-Q for the period ended March 31, 2006 and in Part II, Item 6, of this Quarterly Report on Form 10-Q.

The financial covenants contained in the Homebuilding Line agreement include a leverage test and a consolidated tangible net worth test. Under the leverage test, generally, our consolidated indebtedness is not permitted to exceed 55% (subject to adjustment in certain circumstances) of the sum of consolidated indebtedness and our adjusted consolidated tangible net worth, as defined. Under the consolidated tangible net worth test, our consolidated tangible net worth, as defined, must not be less than (1) \$1.360 billion; plus (2) 50% of consolidated net income, as defined, of the borrower, as defined, and the guarantors, as defined, earned after September 30, 2005; plus (3) 50% of the net proceeds or other consideration received for the issuance of capital stock after September 30, 2005; minus (4) the lesser of (A) the aggregate amount paid by borrower after September 30, 2005 to repurchase its common stock and (B) \$300 million. Failure to satisfy the foregoing financial covenant tests could result in a scheduled term-out of the facility. In addition, consolidated tangible net worth, as defined, must not be less than the sum of (1) \$850 million; (2) 50% of the quarterly consolidated net income of borrower and the guarantors earned after September 30, 2005; and (3) 50% of the net proceeds or other consideration received for the issuance of capital stock after September 30, 2005. Failure to satisfy this covenant could result in a termination of the facility. We believe that we are in full compliance with these covenants, and we are not aware of any covenant violations.

Our senior notes are not secured and, while the senior notes indentures contain some restrictions on secured debt and other transactions, they do not contain financial covenants. Our senior notes are fully and unconditionally guaranteed on an unsecured basis, jointly and severally, by most of our homebuilding segment subsidiaries.

Table of Contents

MDC Common Stock Repurchase Program

At September 30, 2006, we were authorized to repurchase up to 4,000,000 shares of our common stock. We did not repurchase any shares of our common stock during the three or nine months ended September 30, 2006 or 2005.

Consolidated Cash Flow

During the first nine months of 2006, we used \$41.3 million of cash in our operating activities. We used \$264.8 million of cash to increase our home inventory levels from December 31, 2005. Our income tax payables decreased \$85.6 million from December 31, 2005, primarily relating to payments made in 2006 associated with our 2005 income tax obligations. Additionally, we used \$64.4 million to increase prepaid and other assets, net. We used \$16.2 million in cash to reduce accounts payable and accrued liabilities, primarily due to the payment of executive bonuses, as well as homebuilding construction payables. The increases in cash used for operations were offset by \$93.2 million in cash provided by changes in mortgage loans held in inventory and home sales receivables, primarily resulting from closing more homes during the 2005 fourth quarter, compared with the 2006 third quarter, and selling the high volume of mortgage loans that were originated for these closed homes in 2006. Also offsetting these cash uses was net income of \$220.6 million and non-cash charges of \$72.9 million. Our non-cash expenses included primarily depreciation and amortization, the write-off of land option deposits and preacquisition costs, impairments of inventory assets and stock-based compensation expense.

During the nine months ended September 30, 2006, we used a total of \$33.1 million of cash from financing activities. This cash use primarily was the result of dividend payments of \$33.7 million and net payments under our Homebuilding Line and Mortgage Line of \$4.2 million, partially offset by \$4.7 million in proceeds and tax benefits from the exercise of stock options. As discussed in Note 5 to our Unaudited Consolidated Financial Statements, tax benefits from the exercise of stock options previously were reported as an operating activity and, pursuant to SFAS 123(R), are now reported as a financing activity.

We used \$7.2 million of cash from investing activities in the first nine months of 2006, primarily due to the purchase of property and equipment.

During the nine months ended September 30, 2005, we used \$557.0 million of cash for operating activities. Cash used from operations in 2005 primarily was the result of increases of \$1.0 billion in our homebuilding inventories, prepaid expenses and other assets in conjunction with our expanded homebuilding operations, and \$77.3 million in mortgage loans held in inventory and home sales receivable, partially offset by non-cash expenses of \$39.8 million and net income of \$308.2 million.

Financing activities provided cash of \$294.0 million during the nine months ended September 30, 2005, primarily due to \$43.2 million in net borrowings on our lines of credit, net proceeds from the issuance of medium term senior notes in July 2005 of \$247.6 million and cash proceeds of \$25.6 million from the exercise of stock options, partially offset by dividends paid of \$22.4 million. The proceeds received upon the issuance of the medium term senior notes in July were used primarily for the purchase of homebuilding inventories as noted above.

Additionally, we used \$18.1 million of cash in investing activities during the nine months ended September 30, 2005, primarily due to the purchase of property and equipment.

Table of Contents

Off-Balance Sheet Arrangements

In the ordinary course of business, we enter into lot option purchase contracts in order to procure lots for the construction of homes. Lot option contracts enable us to control lot positions with a minimal capital investment, which substantially reduces the risks associated with land ownership and development. At September 30, 2006, we had non-refundable deposits of \$34.0 million in the form of cash and \$16.1 million in the form of letters of credit to secure option contracts to purchase lots. At September 30, 2006, we had approximately \$600 million in land available to be purchased under lot option contracts. In limited circumstances, in the event that we exercise our right to purchase the lots or land under option, in addition to our purchase price, our obligation also includes certain costs we are required to reimburse the seller. Refer to Critical Accounting Estimates and Policies included in our Annual Report on Form 10-K for the year ended December 31, 2005 for additional information with respect to accounting for lot option purchase contracts that have been evaluated in accordance with the Financial Accounting Standards Board Interpretation No. 46, Consolidation of Variable Interest Entities, as amended, and SFAS No. 49, Accounting for Product Financing Arrangements.

At September 30, 2006, we had outstanding performance bonds (Bonds) and letters of credit totaling approximately \$424.7 million and \$87.3 million, respectively, including \$28.2 million in letters of credit issued by HomeAmerican, with the remaining issued by third parties, to secure our performance under various contracts. We expect that the obligations secured by these Bonds and letters of credit generally will be performed in the ordinary course of business and in accordance with the applicable contractual terms. To the extent that the obligations are performed, the related Bonds and letters of credit should be released and we should not have any continuing obligations.

We have made no material guarantees with respect to third-party obligations.

Contractual Obligations

Our contractual obligations have not changed materially from those reported in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2005.

IMPACT OF INFLATION, CHANGING PRICES AND ECONOMIC CONDITIONS

Real estate and residential housing prices are affected by a number of factors, including but not limited to inflation, interest rate changes and the supply of new and existing homes to be purchased. Inflation can cause increases in the price of land, raw materials and subcontracted labor. Unless these increased costs are recovered through higher sales prices, Home Gross Margins would decrease. If interest rates increase, construction and financing costs, as well as the cost of borrowings, could also increase, which can result in lower Home Gross Margins. Increases in home mortgage interest rates make it more difficult for our customers to qualify for home mortgage loans, potentially decreasing home sales revenue. Increases in interest rates also may affect adversely the volume of mortgage loan originations. Increases in the supply of unsold new and existing homes has had an adverse effect on our ability to generate new home orders and maintain home orders in Backlog, and has impacted negatively our Home Gross Margins, homes sales revenue and net income. For additional economic factors affecting real estate and residential housing prices, refer to conditions described under the caption Executive Summary in Part I, Item 2 of this Quarterly Report on Form 10-Q.

Table of Contents

The volatility of interest rates could have an adverse effect on our future operations and liquidity. Reported gains on sales of mortgage loans may vary significantly from period to period depending on the volatility in the interest rate market. Derivative instruments utilized in the normal course of business by HomeAmerican include forward sales securities commitments, private investor sales commitments and commitments to originate mortgage loans. We utilize these commitments to manage the price risk on fluctuations in interest rates on our mortgage loans held in inventory and commitments to originate mortgage loans. Such contracts are the only significant financial derivative instruments we utilize.

Among other things, an increase in interest rates may affect adversely the demand for housing and the availability of mortgage financing and may reduce the credit facilities offered to us by banks, investment bankers and mortgage bankers.

We continue to have the objective of maintaining approximately a two-year supply of lots in our markets to avoid over-exposure to any single sub-market and to create flexibility to react to changes in market conditions, but a continued slowdown in the pace of net new home orders could work contrary to this strategy.

OTHER

Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q, as well as statements made by us in periodic press releases, oral statements made by our officials in the course of presentations about the Company and conference calls in connection with quarterly earnings releases, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements regarding our business, financial condition, results of operation, cash flows, strategies and prospects. These forward-looking statements may be identified by terminology such as may, will, should, expects, plans, anticipates, believes, predicts, potential or continue, or the negative of such terms and other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements contained in this Report are reasonable, we cannot guarantee future results. These statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from those expressed or implied by the forward-looking statements. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. However, any further disclosures made on related subjects in subsequent reports on Forms 10-K, 10-Q and 8-K should be consulted. Additionally, information about issues that could lead to material changes in performance and risk factors that have the potential to affect us is contained under the caption Risk Factors Relating to our Business in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2005 and Item 1A of Part II of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes from the 2005 Annual Report on Form 10-K related to the Company's exposure to market risk from interest rates.

Table of Contents

Item 4. Controls and Procedures

(a) *Conclusion regarding the effectiveness of disclosure controls and procedures* - An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures was performed under the supervision, and with the participation, of our management, including the Chief Executive Officer and the Chief Financial Officer. Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective at September 30, 2006.

(b) *Changes in internal control over financial reporting* - There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2006 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**M.D.C. HOLDINGS, INC.
FORM 10-Q/A
PART II**

Item 1. Legal Proceedings

The Company and certain of its subsidiaries and affiliates have been named as defendants in various claims, complaints and other legal actions arising in the ordinary course of business, including moisture intrusion and related mold claims. In the opinion of management, the outcome of these matters will not have a material adverse effect upon the financial condition, results of operations or cash flows of the Company. See **Forward-Looking Statements** above.

The U.S. Environmental Protection Agency (EPA) filed an administrative action against Richmond American Homes of Colorado, Inc. (RAH Colorado), alleging that RAH Colorado violated the terms of Colorado s general permit for discharges of stormwater from construction activities at two of RAH Colorado s development sites. In its complaint, the EPA sought civil penalties against RAH Colorado in the amount of \$0.1 million. On November 11, 2003, the EPA filed a motion to withdraw the administrative action so that it could refile the matter in United States District Court as part of a consolidated action against RAH Colorado for alleged stormwater violations at not only the original two sites, but also two additional sites. The EPA s motion to withdraw was granted by the Administrative Law Judge on February 9, 2004. The EPA has not yet refiled the matter. The EPA has inspected a number of sites under development in Colorado and by RAH Colorado affiliates in Virginia, Maryland, Arizona and California, and claims to have found additional stormwater permit violations. RAH Colorado has substantial defenses to the allegations made by the EPA and also is exploring methods of resolving this matter with the EPA.

The EPA has issued two Notices of Violation against Richmond American Homes of Arizona, Inc. (RAH Arizona) alleging violations of the Clean Air Act. The EPA asserts that RAH Arizona has not controlled dust generated at construction sites in Maricopa County in that it has not operated a water application system or other approved control measures, installed suitable track-out control devices and/or cleaned-up materials tracked-out from project sites. RAH Arizona has substantial defenses to the EPA s allegations and is exploring methods of resolving these matters with the EPA.

Because of the nature of the homebuilding business, and in the ordinary course of its operations, the Company from time to time may be subject to product liability claims.

Item 1A. Risk Factors

An adverse change in economic conditions could reduce the demand for homes and, as a result, could have a significant negative impact on our earnings.

Changes in national and regional economic conditions, as well as local economic conditions where our subsidiaries conduct operations and where prospective purchasers of our homebuilding subsidiaries homes live, can have a significant negative impact on our business. Adverse changes in employment levels, job growth, consumer confidence, housing demand, interest rates and population growth may reduce demand and depress prices for our homebuilding subsidiaries homes. This, in turn, can reduce our earnings through slower orders for new homes, increased cancellations for existing home orders and decreased Backlog, as well as require increased incentive levels in an effort to maintain homes in Backlog. A material decline in the value of new residential housing also could result in a decreased

Table of Contents

value for the land, housing inventory and housing work-in-progress that we own. Further decline during this pronounced down cycle in the homebuilding industry, particularly in Nevada, California, Arizona, Colorado and Virginia, could cause demand for our homes and land that we own to weaken significantly and have a significant negative impact on our Home Gross Margins, revenue and operating profit in future reporting periods.

Increases in our Cancellation Rate could have a significant negative impact on our Home Gross Margins, revenue and operating profits.

Our Cancellation Rate has increased significantly during 2006, compared with 2004 and 2005 levels, which has negatively impacted the number of closed homes and levels of home sales revenue and operating profits. Continued increases to our Cancellation Rates potentially resulting from a number of factors, including but not limited to, slower home price appreciation, increases in the supply of homes available to be purchased, higher mortgage interest rates and adverse changes in economic conditions, could have a significant negative impact on our Home Gross Margins, revenue and operating profit in future reporting periods.

If the market value of our homes or carrying value of our land drops significantly, our profits could decrease.

The market value of our land and housing inventories depends on market conditions. Our homebuilding subsidiaries acquire land for expansion into new markets and for replacement of land inventory and expansion within our current markets. If demand for new homes continues to decrease, we may not be able to recover our costs when our homebuilding subsidiaries build and sell homes, which could have a significant negative impact on our homebuilding profits and net income. Additionally, in future periods, if it should appear that we may not be able to recover our costs of inventory upon building and selling homes, we may be required to record additional impairments of our inventory, which could have a significant negative impact on our homebuilding profits and net income.

Competition in the homebuilding industry could hurt our profits.

The real estate industry is fragmented and highly competitive. Our homebuilding subsidiaries compete with numerous homebuilders, including a number that are substantially larger and have greater financial resources. Our homebuilding subsidiaries also compete with subdivision developers and land development companies, some of which are themselves homebuilders or affiliates of homebuilders. Homebuilders compete for customers, desirable financing, land, building materials and subcontractor labor. Competition for home orders primarily is based upon price, style, financing provided to prospective purchasers, location of property, quality of homes built, customer service and general reputation in the community. We, through our mortgage lending subsidiary, HomeAmerican, also compete with numerous banks, thrifts and other mortgage bankers, many of which are larger and have greater resources than we do. During the first nine months of 2006, we have experienced increased competition affecting our ability to raise home prices and maintain lower levels of incentives, which has negatively impacted our home sales revenue and operating profits. Continued increased competition could affect our ability to maintain existing home prices and current levels of incentives, which would negatively impact our home sales revenue and operating profits.

Table of Contents

We depend on certain markets, and reduced demand for homes in these markets could reduce home sales revenue and earnings.

Although we have increased our geographic diversification in recent years, we still conduct a significant portion of our business in the California, Nevada, Arizona and Colorado markets and generate a disproportionate amount of our revenues and profits in these states. Demand for new homes and home price appreciation has declined during 2006 in each of these markets. If we continue to experience a slowdown in our operations within these markets, our earnings and financial position will continue to be negatively impacted.

Except as discussed above, there has been no material change in our risk factors as previously disclosed in our Form 10-K/A for the year ended December 31, 2005. For a more complete discussion of risk factors that affect our business, see **Risk Factors Relating to our Business** in our Form 10-K/A for the year ended December 31, 2005, which include the following:

If land is not available at reasonable prices, our sales and earnings could decrease.

If our home prices continue to increase, our homes could become less affordable to the first-time and first-time move-up homebuyer and as such, they may not qualify for mortgage loans.

If the market value of our homes drops significantly, our profits could decrease.

Interest rate increases or changes in federal lending programs could lower demand for our home and our mortgage lending services.

Increased competition in the homebuilding industry could affect our ability to raise home prices and maintain lower levels of incentives, which could negatively impact our home sales revenue and operating profits.

Natural disasters could cause an increase in home construction costs, as well as delays, and could result in reduced profits.

Our business is subject to numerous environmental and other governmental regulations. These regulations could give rise to significant additional liabilities or expenditures, or restrictions on our business.

Product liability litigation and warranty claims that arise in the ordinary course of business may be costly.

The interest of certain control persons may be adverse to investors.

We depend on certain markets, and reduced demand for homes in these markets could reduce home sales revenue and earnings.

Labor and material shortages could cause delays in the construction of our homes.

Because of the seasonal nature of our business, our quarterly operating results fluctuate.

We are reliant on a small number of third party purchasers of mortgage loans originated by HomeAmerican which could impact our results of operations.

If our potential homebuyers are not able to obtain suitable financing, our business may decline.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company did not repurchase any shares during the third quarter of 2006. Additionally, there were no sales of unregistered equity securities during the third quarter of 2006.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 5. Other Information

On October 23, 2006, MDC's Board of Directors declared a quarterly cash dividend of twenty five cents (\$0.25) per share. The dividend will be paid on November 21, 2006 to shareowners of record on November 7, 2006.
