The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles. A rollforward of goodwill from December 31, 2006 through March 31, 2007 was as follows::

Goodwill	Cost
Balance December 31, 2006	\$ 65,397

Impact of changes in foreign currency	186

Other intangibles as of March 31, 2007 and December 31, 2006 consisted of the following:

Other Intangibles	March 31, 2007		December 31, 2006	
	Cost	Accumulated Amortization	Cost	Accumulated Amortization
Intangible assets not subject to amortization:

The Company recorded \$1.0 million and \$0.7 million of amortization expense for the quarters ended March 31, 2007 and 2006, respectively.

The estimated amortization expense for intangible assets is approximately \$3.9 million in each of the next five years and then \$14.9 million thereafter.

6. Warranty Costs

Changes in the carrying amount of accrued product warranty costs for the quarters ended March 31, 2007 and 2006 are as follows:

	March 31, 2007	March 31, 2006
Balance at beginning of period	\$ 2,083	\$ 1,876
Accrued warranty costs	326	449
Payments and adjustments	(208)	(458)
 Balance at end of period	 \$ 2,201	 \$ 1,867

7. Income Taxes

The effective income tax rates recorded for the quarters ended March 31, 2007 and 2006 were recorded based upon management's best estimate of the income effective tax rates for the entire respective years. The change in the income effective tax rate from 40.9% for the quarter ended March 31, 2006 to 37.4% for the same period in 2007 is the result of a greater proportion of taxable income in jurisdictions possessing lower statutory tax rates. The 2007 tax rate differs from the statutory rate due to the impact of non-U.S. tax rates and permanent differences.

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB No. 109 (FIN 48) at the beginning of fiscal 2007, which resulted in a decrease of approximately \$0.2 million to the December 31, 2006 retained earnings balance. FIN 48 provides a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns.

As of the date of adoption, the Company's unrecognized tax benefits totaled approximately \$2.3 million, of which \$1.2 million, if recognized, would favorably affect its effective tax rate in future periods. The Company recorded an increase of its unrecognized tax

Table of Contents**ALTRA HOLDINGS, INC.****Notes to Unaudited Condensed Consolidated Interim Financial Statements****Dollars in thousands, unless otherwise noted**

benefits by \$0.2 million in the quarter ended March 31, 2007 as a result of tax positions taken in prior periods, all of which, if recognized, would favorably affect its effective tax rate in future periods. Included in the balance of unrecognized tax benefits are amounts related to proposed tax filing positions currently under review by foreign taxing authorities. The Company expects this review to be completed within the next twelve months however it is unable to estimate the impact on its unrecognized tax benefits as of March 31, 2007.

The Company and its subsidiaries file consolidated and separate income tax returns in the U.S. federal jurisdiction as well as in various state and foreign jurisdictions. In the normal course of business, the Company is subject to examination by taxing authorities in all of these jurisdictions. With the exception of certain foreign jurisdictions, the Company is no longer subject to income tax examinations for years before 2003 in these major jurisdictions. Additionally, the Company has indemnification agreements with the sellers of the Colfax and Hay Hall entities which provide for reimbursement to the Company for payments made in satisfaction of tax liabilities relating to pre-acquisition periods.

The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense in the condensed consolidated statements of operations. At the date of adoption, the Company had \$0.3 million of accrued interest and penalties.

8. Pension and Other Employee Benefits***Defined Benefit (Pension) and Postretirement Benefit Plans***

The Company sponsors various defined benefit (pension) and postretirement (medical and life insurance coverage) plans for certain, primarily unionized, active employees (those in the employment of the Company at or hired since November 30, 2004). Additionally, the Company assumed all post-employment and post-retirement welfare benefit obligations with respect to active U.S. employees.

The following table represents the components of the net periodic benefit cost associated with the respective plans for the quarters ended March 31, 2007, and March 31, 2006:

	Pension Benefits		Other Benefits	
	March 31, 2007	March 31, 2006	March 31, 2007	March 31, 2006
Service cost	\$ 65	\$ 151	\$ 18	\$ 84
Interest cost	336	334	49	150
Expected return on plan assets	(268)	(207)		
Amortization of prior service cost	2	2	(243)	(101)
Amortization of net (gain) loss			(53)	17
Net periodic benefit cost (income)	\$ 135	\$ 280	\$ (229)	\$ 150

9. Long-Term Debt***Revolving Credit Agreement***

The Company maintains a \$30 million revolving borrowings facility with a commercial bank (the Revolving Credit Agreement). The Revolving Credit Agreement is subject to certain limitations resulting from the requirement of the Company to maintain certain levels of collateralized assets, as defined in the Revolving Credit Agreement. The Company may use up to \$10 million of its availability under the Revolving Credit Agreement for standby letters of credit issued on its behalf, the issuance of which will reduce the amount of borrowings that would otherwise be available to the Company. The Company may re-borrow any amounts paid to reduce the amount of outstanding borrowings; however, all borrowings under the Revolving Credit Agreement must be repaid in full as of November 30, 2009.

Substantially all of the Company's assets have been pledged as collateral against outstanding borrowings under the Revolving Credit Agreement. The Revolving Credit Agreement requires the Company to maintain a minimum fixed charge coverage ratio (when availability under the line falls below \$12.5 million) and imposes customary affirmative covenants and restrictions on the Company. The Company was in compliance with all requirements of the Revolving Credit Agreement at March 31, 2007.

Table of Contents**ALTRA HOLDINGS, INC.****Notes to Unaudited Condensed Consolidated Interim Financial Statements****Dollars in thousands, unless otherwise noted**

There were no borrowings under the Revolving Credit Agreement at March 31, 2007 and December 31, 2006, however, as of both dates, the lender had issued \$2.9 million of outstanding letters of credit on behalf of the Company.

In April 2007, the Company amended the Revolving Credit Agreement. See footnote 16 to the condensed consolidated financial statements for the updated terms of the agreement.

Overdraft Agreements

Certain of our foreign subsidiaries maintain overdraft agreements with financial institutions. There were no borrowings as of March 31, 2007 or December 31, 2006 under any of the overdraft agreements.

9% Senior Secured Notes

On November 30, 2004, Altra Industrial Motion, Inc., (Altra Industrial), a wholly owned subsidiary of the Company, issued 9% Senior Secured Notes (Senior Secured Notes), with a face value of \$165 million. Interest on the Senior Secured Notes is payable semiannually, in arrears, on June 1 and December 1 of each year, beginning June 1, 2005, at an annual rate of 9%. The effective interest rate on the Senior Secured Notes is approximately 10.0%, after consideration of the amortization of \$6.6 million related to initial offer discounts (included in long-term debt) and \$2.8 million of deferred financing costs (included in other assets). The Senior Secured Notes mature on December 1, 2011 unless previously redeemed by Altra Industrial.

The Senior Secured Notes are guaranteed by the Altra Industrial s U.S. domestic subsidiaries and are secured by a second priority lien, subject to first priority liens securing the Revolving Credit Agreement, on substantially all of the Altra Industrial s assets. The Senior Secured Notes contain numerous terms, covenants and conditions, which impose substantial limitations on Altra Industrial. Altra Industrial was in compliance with all covenants of the indenture governing the Senior Secured Notes at March 31, 2007.

In April 2007, the Company issued an additional \$105 million of Senior Secured Notes. Please refer to footnote 16 of the condensed consolidated financial statements for terms and conditions of the additional debt.

11.25% Senior Notes

Interest on the Senior Notes is payable semiannually, in arrears, on August 15 and February 15 of each year, beginning August 15, 2006, at an annual rate of 11.25%. The effective interest rate on the Senior Notes is approximately 11.7%, after consideration of the \$2.5 million of deferred financing costs (included in other assets). The Senior Secured Notes mature on February 13, 2013.

The Senior Notes are guaranteed on a senior unsecured basis by Altra Industrial s U.S. domestic subsidiaries. The Senior Notes contain numerous terms, covenants and conditions, which impose substantial limitations on Altra Industrial. Altra Industrial was in compliance with all covenants of the indenture governing the Senior Notes at March 31, 2007.

On February 27, 2007, using proceeds from the Company s initial public offering, Altra Industrial redeemed £11.6 million aggregate principal amount of the outstanding Senior Notes, at a redemption price of 111.25% of the principal amount of the Senior Notes, plus accrued and unpaid interest. In connection with the redemption Altra Industrial expensed \$0.8 million of deferred financing costs and incurred \$2.6 million of a pre-payment premium. The remaining principal amount of the Senior Notes matures on February 13, 2013, unless previously redeemed by Altra Industrial prior to such maturity date. As of March 31, 2007, the remaining principal balance outstanding was £21.4 million, or \$42.1 million.

There was no Preferred Stock issued or outstanding at March 31, 2007.

Stock-Based Compensation

The Company's Board of Directors established the 2004 Equity Incentive Plan (the Plan) that provides for various forms of stock based compensation to independent directors, officers and senior-level employees of the Company. The restricted shares of common stock issued pursuant to the plan generally vest ratably over each of the five years from the date of grant, provided, that the vesting of the restricted shares may accelerate upon the occurrence of certain liquidity events, if approved by the Board of Directors in connection with the transactions. Common stock awarded under the 2004 Equity Incentive Plan is generally subject to restrictions on transfer, repurchase rights, and other limitations and rights as set forth in the Stockholders Agreement and Registration Agreement.

The Plan permits the Company to grant restricted stock to key employees and other persons who make significant contributions to the success of the Company. The restrictions and vesting schedule for restricted stock granted under the Plan are determined by the Compensation Committee of the Board of Directors. Compensation expense recorded during the quarters ended March 31, 2007 and March 31, 2006 was \$0.3 million (\$0.2 million net of tax) and \$0.1 million, respectively. The fair market value of the shares in which the restrictions have lapsed was \$6.1 million in the first quarter of 2007.

Subsequent to the initial public offering restricted shares granted will be valued based on the fair market value of the stock on the date of grant.

In December 2006, the Genstar management agreement was terminated. There are no amounts in accruals or other liabilities payable to Genstar as of March 31, 2007.

12. Concentrations of Credit, Business Risks and Workforce

Financial instruments, which are potentially subject to concentrations of credit risk, consist primarily of trade accounts receivable. The Company manages this risk by conducting credit evaluations of customers prior to delivery or commencement of services. When the Company enters into a sales contract, collateral is normally not required from the customer. Payments are typically due within thirty days of billing. An allowance for potential credit losses is maintained, and losses have historically been within management's expectations.

Credit related losses may occur in the event of non-performance by counterparties to financial instruments. Counterparties typically represent international or well established financial institutions.

No one customer represented 10% or more of the Company's sales for the quarters ended March 31, 2007 and 2006.

Approximately 25.7% of the Company's labor force (22.0 % and 51.0% in the United States and Europe, respectively) is represented by collective bargaining agreements.

13 Geographic Information

The Company operates in a single business segment for the development, manufacturing and sales of mechanical power transmission products. The Company's chief operating decision maker reviews consolidated operating results to make decisions about allocating resources and assessing performance for the entire Company. Net sales to third parties and property, plant and equipment by geographic region are as follows (in thousands):

Net sales to third parties are attributed to the geographic regions based on the country in which the shipment originates. Amounts attributed to the geographic regions for long-lived assets are based on the location of the entity, which holds such assets.

The net assets of foreign subsidiaries at March 31, 2007 and December 31, 2006 were \$47.7 million and \$46.8 million, respectively.

The Company has not provided specific product line sales as our general purpose financial statements do not allow us to readily determine groups of similar product sales.

14. Commitments and Contingencies**General Litigation**

The Company is involved in various pending legal proceedings arising out of the ordinary course of business. None of these legal proceedings is expected to have a material adverse effect on the financial condition of the Company. With respect to these proceedings, management believes that it will prevail, has adequate insurance coverage or has established appropriate reserves to cover potential liabilities. Any costs that management estimates may be paid related to these proceedings or claims are accrued when the liability is considered probable and the amount can be reasonably estimated. There can be no assurance, however, as to the ultimate outcome of any of these matters, and if all or substantially all of these legal proceedings were to be determined adversely to the Company, there could be a material adverse effect on the financial condition of the Company.

We have been indemnified for certain pre-existing legal and environmental matters for matters prior to acquisition.

15. Restructuring, Asset Impairment and Transition Expenses

Beginning in the first quarter of 2007, the Company adopted a restructuring program intended to improve operational efficiency by reducing headcount, consolidating its operating facilities and relocating manufacturing to lower cost areas. The restructuring charges for the quarter ended March 31, 2007 were approximately \$0.8 million.

The Company's asset impairment and losses on sales of assets for the manufacturing consolidation program for the first quarter ended March 31, 2007 were \$0.1 million. The Company does not expect any additional asset impairment and losses on sale of assets through the completion of this program.

The Company's total transition expense for the manufacturing consolidation program for the quarter ended March 31, 2007 was approximately \$0.7 million. The Company expects to incur during 2007 an additional \$0.1 million of transition costs in connection with the completion of this program.

The Company's total transition expense by major component for the quarter ended March 31, 2007 and costs that are expected to be incurred through the completion of the program, were as follows:

	Costs incurred through March 31, 2007	Expected costs through program completion

16. Subsequent Events

On April 5, 2007, the Company completed its acquisition of TB Wood's Corporation ("TB Wood's") pursuant to a cash tender offer for all of the outstanding shares of TB Wood's common stock for \$24.80 per share. This was followed by a short form merger (the "Merger") of Forest Acquisition Corporation, the Company's indirect wholly-owned subsidiary, with and into TB Wood's. This resulted in TB Wood's becoming a wholly-owned subsidiary of the Company. In connection with the merger, all remaining outstanding shares of TB Wood's common stock (other than those held by shareholders who properly perfect dissenters' rights under Delaware law), were converted into the right to receive the same \$24.80 cash price per share paid in the tender offer (net to the holder without interest and less any required withholding taxes).

In connection with the acquisition of TB Wood's, on April 5, 2007, Altra Industrial completed a follow-on offering of an aggregate of \$105 million of the existing Senior Secured Notes. The additional \$105 million has the same terms and conditions as the previously issued Senior Secured Notes.

In connection with the acquisition of TB Wood's on April 5, 2007, Altra Industrial modified the Revolving Credit Agreement. The interest rate on any outstanding borrowings on the line of credit were reduced to the lenders Prime Rate plus 25 basis points or LIBOR plus 175 basis points. The rate on all outstanding letters of credit were reduced to 1.5% and .25% on any unused availability under the Revolving Credit Agreement. All borrowings under the amended plan must be repaid by November 11, 2010.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion of the financial condition and results of operations of Altra Holdings, Inc. should be read together with the financial statements of Altra Holdings, Inc. and its Predecessor and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. The following discussion includes forward-looking statements. For a discussion of important factors that could cause actual results to differ materially from the results referred to in the forward-looking statements, see Forward-Looking Statements. in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

General

We are a leading multinational designer, producer and marketer of a wide range of mechanical power transmission products. Our product portfolio includes industrial clutches and brakes, enclosed gear drives, open gearing, couplings, machined-race bearings and other related products which are sold across a wide variety of industries. Our products serve a wide variety of end markets including general industrial, material handling, mining, power generation, transportation, automotive and turf and garden. We primarily sell our products to OEMs such as John Deere, Carrier and General Electric and through long-standing relationships with industrial distributors such as Motion Industries, Applied Industrial Technologies, Kaman Industrial Technologies, Bearing Distributions, Inc. and W.W. Grainger.

Recent Acquisition

On April 5, 2007, the Company completed its acquisition of TB Wood's Corporation (TB Wood's) pursuant to a cash tender offer for all of the outstanding shares of TB Wood's common stock for \$24.80 per share. This was followed by a short form merger (the Merger) of Forest Acquisition Corporation, the Company's indirect wholly-owned subsidiary, with and into TB Wood's. This resulted in TB Wood's becoming a wholly-owned subsidiary of the Company. In connection with the merger, all remaining outstanding shares of TB Wood's common stock (other than those held by shareholders who properly perfect dissenters' rights under Delaware law), were converted into the right to receive the same \$24.80 cash price per share paid in the tender offer (net of the holder without interest and less any required withholding taxes).

Critical Accounting Policies

The preparation of our condensed consolidated financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make judgments, assumptions and estimates that affect our reported amounts of assets, revenues and expenses, as well as related disclosure of contingent assets and liabilities...Management believes there have been no significant changes in our critical accounting policies since December 31, 2006. See the discussion of critical accounting policies in our Annual Report on Form 10-K for the year ended December 31, 2006.

Recent Accounting Pronouncements

In June 2006, the FASB issued FASB Interpretation No. (FIN) 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109, which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Company adopted FIN 48 on January 1, 2007. See Note 7 to the condensed consolidated financial statements for the impact of adoption of this pronouncement.

Non-GAAP Financial Measures

The discussion of EBITDA (earnings before interest, income taxes, depreciation and amortization) included in the discussion of Results of Operations below is being provided because management considers EBITDA to be an important measure of financial performance. Among other things, management believes that EBITDA provides useful information for our investors because it is useful for trending, analyzing and benchmarking the performance and value of our business. Management also believes that EBITDA is useful in assessing current performance compared with our historical performance because significant line items within our statements of operations such as depreciation, amortization and interest expense are significantly impacted by acquisitions. Internally, EBITDA is used as a financial measure to assess the operating performance and is an important measure in our incentive compensation plans.

Table of Contents

EBITDA has important limitations, and should not be considered in isolation or as a substitute for analysis of our results as reported under generally accepted accounting principles in the United States (GAAP). For example, EBITDA does not reflect:

cash expenditures, or future requirements, for capital expenditures or contractual commitments;

changes in, or cash requirements for, working capital needs;

the significant interest expense, or the cash requirements necessary to service interest or principal payments, on debts;

tax distributions that would represent a reduction in cash available to us; and

any cash requirements for assets being depreciated and amortized that may have to be replaced in the future.

EBITDA is not a recognized measurement under GAAP, and when analyzing our operating performance, investors should use EBITDA in addition to, and not as an alternative for, operating income and net income (each as determined in accordance with GAAP). Because not all companies use identical calculations, our presentation of EBITDA may not be comparable to similarly titled measures of other companies. The amounts shown for EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

To compensate for the limitations of EBITDA we utilize several GAAP measures to review our performance. These GAAP measures include, but are not limited to, net income, operating income, cash provided by (used in) operations, cash provided by (used in) investing activities and cash provided by (used in) financing activities. These important GAAP measures allow our management to, among other things, review and understand our uses of cash period to period, compare our operations with competitors on a consistent basis and understand the revenues and expenses matched to each other for the applicable reporting period. We believe that the use of these GAAP measures, supplemented by the use of EBITDA, allows us to have a greater understanding of our performance and allows us to adapt to changing trends and business opportunities.

Quarter Ended March 31, 2007 Compared with Quarter Ended March 31, 2006

Net sales. Net sales increased by \$17.9 million, or 15.6%, from \$114.8 million for the quarter ended March 31, 2006 to \$132.7 million for the quarter ended March 31, 2007. Without including the impact of Hay Hall, acquired February 10, 2006 and Warner Linear, acquired May 18, 2006, sales increased 8.1%. The increase is due to the strength of the energy, primary metals, material handling and mining industries.

Table of Contents

Gross profit. Gross profit increased by \$6.2 million, or 19.4%, from \$31.9 million (27.8% of net sales), for the quarter ended March 31, 2006 to \$38.0 million (28.7% of net sales) for the same period of 2007. The increase is due to the inclusion of Hay Hall and Warner Linear for the full quarter ended March 31, 2007.

Selling, general and administrative expenses. Selling, general and administrative expenses increased by \$2.1 million, or 11.2%, from \$18.7 million for the quarter ended March 31, 2006 to \$20.8 million for the quarter ended March 31, 2007. The increase in selling, general and administrative expenses is primarily due to the inclusion of Hay Hall and Warner Linear for the full quarter ended March 31, 2007.

Research and development expenses. Research and development expenses were consistent for both periods.

Restructuring During the first quarter of 2007, we adopted a restructuring program intended to improve operational efficiency by reducing headcount, consolidating our operating facilities and relocating manufacturing to lower cost areas. We incurred approximately \$0.8 million of restructuring expense in the first quarter of 2007.

EBITDA. To reconcile net income to EBITDA for the quarter ended March 31, 2007, we added back to net income \$2.3 million provision of income taxes, \$9.1 million of interest expense and \$4.5 million of depreciation and amortization expenses. To reconcile net income to EBITDA for the quarter ended March 31, 2006, we added back to net income \$2.4 million provision of income taxes, \$6.4 million of interest expense and \$2.9 million of depreciation and amortization expenses. Taking into account the foregoing adjustments, our resulting EBITDA was \$19.6 million for the quarter ended March 31, 2007 and \$15.0 million for the quarter ended March 31, 2006. The increase is due to the acquisitions of Hay Hall and Warner Linear, price increases, volume, and cost savings measures.

Interest expense. We recorded interest expense of \$9.1 million during the quarter ended March 31, 2007, which was an increase of \$2.7 million, from the quarter ended March 31, 2006. The increase was due to the interest associated with the Senior Notes being outstanding for the entire first quarter of 2007, the pre-payment premium and the amortization of deferred financing costs associated with the pay-down of the Senior Notes. For a description of the Senior Notes please see Note 9 to our Condensed Consolidated Financial Statements in Item I of this Form 10-Q.

Provision for income taxes. The provision for income taxes was \$2.3 million, or 37.5%, of income before taxes, for the quarter ended March 31, 2007, versus a provision of \$2.4 million, or 43.2%, of income before taxes, for the quarter ended March 31, 2006. The 2007 provision as a percentage of income before taxes was lower than that of 2006, primarily due to a greater proportion of taxable income in jurisdictions having lower statutory tax rates.

Liquidity and Capital Resources**Net Cash**

Cash and cash equivalents totaled \$11.6 million at March 31, 2007 compared to \$42.5 million at December 31, 2006. Net cash used in operating activities for the quarter ended March 31, 2007 resulted mainly from cash provided by net income of \$3.8 million and the add-back of non-cash depreciation, amortization, stock based compensation, disposal of fixed assets, loss on foreign currency, accretion of debt discount and deferred financing costs of \$6.2 million offset by a net increase in operating assets of \$13.3 million and a net decrease in operating liabilities of \$2.7 million.

Net cash used in investing activities of \$1.0 million for the quarter ended March 31, 2007 resulted from \$1.0 million used in the purchases of property, plant and equipment primarily for investment in manufacturing equipment.

Net cash used in financing activities of \$24.0 million for the quarter ended March 31, 2007 consisted primarily of the payment of \$22.7 million for the pay down of the 11.25% senior notes and \$1.1 million for the payment of initial public offering costs.

Net cash flow used in operating activities, for the quarter ended March 31, 2006 resulted mainly from cash provided by net income of \$3.2 million and the add-back of non-cash depreciation, amortization, accretion and deferred financing costs of \$3.6 million, deferred tax expense of \$1.1 million, non-cash amortization of \$1.0 million for inventory step-ups recorded as part of the Hay Hall Acquisition and a net increase in operating liabilities of \$3.5 million, offset by cash used from a net increase in operating assets of \$12.2 million.

Table of Contents

Net cash used in investing activities of \$51.8 million for the quarter ended March 31, 2006 resulted from \$50.5 million used in the purchase of Hay Hall and \$1.2 million used in the purchases of property, plant and equipment primarily for investment in manufacturing equipment and for the consolidation of our IT infrastructure.

Net cash provided by financing activities of \$46.8 million for the quarter ended March 31, 2006 resulted primarily from the proceeds of \$57.6 million from the issuance of the senior notes in connection with the Hay Hall Acquisition, offset primarily by payment on the subordinated notes of \$9.0 and payment of debt issuance cost of \$1.8 million.

Liquidity

Our primary source of liquidity will be cash flow from operations and borrowings under our senior revolving credit facility. See footnote 9 to the Condensed Consolidated financial statements for explanation of our senior revolving credit facility. We expect that our primary ongoing requirements for cash will be for working capital, debt service, capital expenditures and pension plan funding.

We incurred substantial indebtedness in connection with the Colfax Corporation and Hay Hall Acquisitions. As of March 31, 2007, taking into account these transactions, we had approximately \$212.7 million of total indebtedness outstanding (including capital leases and mortgages). In April 2007, in connection with the acquisition of TB Woods, we issued an additional \$105 million of senior secured notes. We expect our interest expense, arising from our existing debt, including the additional \$105 million in debt, to be approximately \$30.1 million on an annual basis, through the maturity of the Senior Secured Notes, in 2011.

Our senior revolving credit facility provides for senior secured financing of up to \$30.0 million, including \$10.0 million available for letters of credit. As of March 31, 2007, there were no outstanding borrowings and \$2.9 million of outstanding letters of credit under our senior revolving credit facility.

We made capital expenditures of approximately \$1.0 million and \$1.2 million in the quarters ended March 31, 2007 and March 31, 2006, respectively. These capital expenditures will support on-going business needs.

We have cash funding requirements associated with our pension plan which are estimated to be \$2.8 million during the remainder of 2007, \$2.5 million in 2008, and \$1.9 million thereafter.

Our ability to make scheduled payments of principal and interest, to fund planned capital expenditures and to meet our pension plan funding obligations will depend on our ability to generate cash in the future. Based on our current level of operations, we believe that cash flow from operations and available cash, together with available borrowings under our senior revolving credit facility will be adequate to meet our future liquidity requirements for at least the next two years. However, our ability to generate cash is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. See the section entitled *Changes in general economic conditions or the cyclical nature of our markets could harm our operations and financial performance* in our Annual Report on Form 10-K for the year ended December 31, 2006 for further discussion.

We cannot assure you that our business will generate sufficient cash flow from operations, that any revenue growth or operating improvements will be realized or that future borrowings will be available under our senior secured credit facility in an amount sufficient to enable us to service our indebtedness, including the notes, or to fund our other liquidity needs. In addition, we cannot assure you that we will be able to refinance any of our indebtedness, including our senior revolving credit facility and the notes as they become due. Our ability to access capital in the long term will depend on the availability of capital markets and pricing on commercially reasonable terms at the time we are seeking funds. See *Our substantial level of indebtedness could adversely affect our financial condition, harm our ability to react to changes to our business and prevent us from fulfilling our obligations on the notes.* in our Annual Report on Form 10-K for the year ended December 31, 2006 for further discussion. In addition, our ability to borrow funds under our senior revolving credit facility will depend on our ability to satisfy the financial and non-financial covenants contained in that facility.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Information concerning market risk is contained in the Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2006. There were no material changes in our exposure to market risk from December 31, 2006.

Item 4. Controls and Procedures

Our management, with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of March 31, 2007.

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Based on our evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are designed at a reasonable assurance level and are effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There has been no change in our internal control over financial reporting (as defined in Rules 13(a)-15(f) and 15(d)-15(f) under the Exchange Act) that occurred during our fiscal quarter ended March 31, 2007, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 1. Legal Proceedings

The Company is involved in various pending legal proceedings arising out of the ordinary course of business. None of these legal proceedings is expected to have a material adverse effect on the financial condition of the Company. With respect to these proceedings, management believes that it will prevail, has adequate insurance coverage or has established appropriate reserves to cover potential liabilities. There can be no assurance, however, as to the ultimate outcome of any of these matters, and if all or substantially all of these legal proceedings were to be determined adversely to the Company, there could be a material adverse effect on the financial condition of the Company.

NOTES TO CONDENSED FINANCIAL STATEMENTS

1. Basis of Presentation

Altra Holdings, Inc. (Parent Company) was formed on November 30, 2004. In the parent-company-only financial statements, the Company's investment in subsidiaries is stated at cost plus equity in undistributed earnings of subsidiaries since the date of acquisition. The parent-company-only financial statements should be read in conjunction with the Parent Company's condensed consolidated financial statements.

2. Restriction

The Parent Company's wholly owned subsidiary, Altra Industrial Motion, Inc. (Altra Industrial), issued 9% senior secured notes in an aggregate principal amount of \$165.0 million due in 2011 (the Notes). The Notes are secured on a second-priority basis, by security interests in substantially all of the Parent Company's domestic restricted subsidiaries. The indenture governing the Notes contains covenants which restrict the Parent Company's restricted subsidiaries. These restrictions limit or prohibit, among other things, their ability to incur additional indebtedness; repay subordinated indebtedness prior to stated maturities; pay dividends on or redeem or repurchase stock or make other distributions; make investments or acquisitions; sell certain assets or merge with or into other companies; sell stock in the Parent Company's subsidiaries; and create liens. The net assets of the domestic restricted subsidiaries were \$221.4 million and \$211.4 million at March 31, 2007 and December 31, 2006, respectively.

In connection with the acquisition of TB Woods, on April 5, 2007, Altra Industrial completed a follow-on offering of an aggregate of \$105 million of the existing Notes. The additional \$105 million has the same terms and conditions as the previously issued Notes.
