The information in this prospectus supplement is not complete and may be changed. This prospectus supplement and the accompanying prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

**Filed Pursuant to Rule 424(b)(5)
Registration No. 333-147715**

Subject to Completion, dated December 12, 2007

**PROSPECTUS SUPPLEMENT
(To Prospectus dated November 29, 2007)**

15,000,000 Shares

Common Stock

Nuance Communications, Inc. is offering 9,600,000 of the shares to be sold in this offering. The selling stockholders identified in this prospectus supplement are offering an additional 5,400,000 shares. Nuance Communications, Inc. will not receive any of the proceeds from the sale of the shares being sold by the selling stockholders.

Our common stock is listed on the Nasdaq Global Select Market under the symbol NUAN. The last reported sale price of our common stock on December 10, 2007 was \$21.82 per share.

See Risk Factors beginning on page S-14 of this prospectus supplement to read about factors you should consider before buying shares of our common stock.

	Per Share	Total
Initial price to public	\$	\$
Underwriting discount	\$	\$
Proceeds, before expenses, to us	\$	\$
Proceeds, before expenses, to the selling stockholders	\$	\$

To the extent that the underwriters sell more than 15,000,000 shares of common stock, the underwriters have the option to purchase up to an additional 1,125,000 shares from Nuance Communications, Inc. and an additional 1,125,000 shares from certain selling stockholders on the same terms and conditions set forth above.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or accompanying prospectus. Any representation to the contrary is a criminal offense.

The underwriters expect to deliver the shares against payment in New York, New York on _____, 2007.

This document is in two parts. The first part is this prospectus supplement, which describes the terms of the offering of our common stock and also adds to and updates information contained in the accompanying prospectus and the documents incorporated by reference into the accompanying prospectus. The second part is the accompanying prospectus, which gives more general information, some of which may not apply to our common stock. To the extent there is a conflict between the information contained in this prospectus supplement, on the one hand, and the information contained in the accompanying prospectus or any document incorporated by reference as of the date of this prospectus supplement, on the other hand, the information in this prospectus supplement shall control. Unless otherwise expressly stated, all information in this prospectus supplement assumes that the underwriters' option to purchase additional shares is not exercised.

Table of Contents

FORWARD LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus, and the documents incorporated by reference into the accompanying prospectus contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties, as well as assumptions, that, if they never materialize or prove incorrect, could cause our consolidated results to differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements generally are identified by the words expects, anticipates, believes, intends, estimates, should, would, strategy, plan and similar expressions. All statements other than statements of historical fact are statements that could be deemed forward-looking statements. For example, forward-looking statements include projections of earnings, revenues, synergies or other financial items; any statements of the plans, strategies and objectives of management for future operations, including the execution of integration and restructuring plans and the anticipated timing of filings, approvals relating to, and the closing of, pending acquisitions; any statements concerning proposed new products, services, developments or industry rankings; any statements regarding future economic conditions or performance; statements of belief and any statement of assumptions underlying any of the foregoing. The risks, uncertainties and assumptions referred to above include the difficulty of managing expense growth while increasing revenues; the challenges of integration and restructuring associated with recent acquisitions and the challenges of achieving the anticipated synergies; and the other risks and uncertainties described in the section entitled Risk Factors beginning on page S-14 of this prospectus supplement.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, actual results may vary materially from those expected, estimated or projected. In addition to other factors that affect our operating results and financial position, neither past financial performance nor our expectations should be considered reliable indicators of future performance. Investors should not use historical trends to anticipate results or trends in future periods. Further, our stock price is subject to volatility. Any of the factors discussed above could have an adverse impact on our stock price. In addition, failure of sales or income in any quarter to meet the investment community's expectations, as well as broader market trends, could have an adverse impact on our stock price. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law, you are advised to consult any additional disclosures we make in our quarterly reports on Form 10-Q, annual report on Form 10-K and current reports on Form 8-K filed with the Securities and Exchange Commission. See Where You Can Find More Information.

PROSPECTUS SUPPLEMENT SUMMARY

This summary may not contain all of the information that may be important to you. You should read the entire prospectus supplement and the accompanying prospectus before making an investment decision. The terms Nuance, the Company, we and us in this prospectus supplement and the accompanying prospectus refer to Nuance Communications, Inc. and its subsidiaries, unless stated or implied otherwise. You should pay special attention to the Risk Factors section beginning on page S-14 of this prospectus supplement to determine whether an investment in our common stock is appropriate for you.

NUANCE

Overview

Nuance Communications, Inc. is a leading provider of speech-based solutions for businesses and consumers worldwide. Our speech solutions are designed to transform the way people interact with information systems, mobile devices and services. We have designed our solutions to make the user experience more compelling, convenient, safe and satisfying; unlocking the full potential of these systems, devices and services.

The vast improvements in the power and features of information systems and mobile devices have increased their complexity and reduced their ease of use. Many of the systems, devices and services designed to make our lives easier are cumbersome to use, involving complex touch-tone menus in call centers, counterintuitive and inconsistent user interfaces on computers and mobile devices, inefficient manual processes for transcribing medical records and automobile dashboards overrun with buttons and dials. These complex interfaces often limit the ability of the average user to take full advantage of the functionality and convenience offered by these products and services. By using the spoken word, our speech solutions help people naturally obtain information, interact with mobile devices and access services such as navigation, online banking and medical transcription.

We provide speech solutions to several rapidly growing markets:

Enterprise Speech. We deliver a portfolio of speech-enabled customer care solutions that improve the quality and consistency of customer communications. Our solutions are used to automate a wide range of customer services and business processes in a variety of information and process-intensive vertical markets such as telecommunications, financial services, travel and entertainment, and government.

Mobility. Our mobile speech solutions add voice control capabilities to mobile devices and services, allowing people to use spoken words or commands to dial a mobile phone, enter destination information into an automotive navigation system, dictate a text message or have emails and screen information read aloud. Our mobile solutions are used by many of the world's leading mobile device and automotive manufacturers.

Healthcare Dictation and Transcription. We provide comprehensive dictation and transcription solutions and services that improve the way patient data is captured, processed and used. Our healthcare dictation and transcription solutions automate the input and management of medical information and are used by many of the largest hospitals in the United States.

In addition to our speech offerings, we provide PDF and document solutions that reduce the time and cost associated with creating, using and sharing documents. Our solutions benefit from the widespread adoption of the PDF format and the increasing demand for networked solutions for managing electronic documents. Our solutions are used by millions of professionals and within large enterprises.

We leverage our global professional services organization and our extensive network of partners to design and deploy innovative speech and imaging solutions for businesses and organizations around the globe. We market and distribute our products indirectly through a global network of resellers, including systems integrators, independent software vendors, value-added resellers, hardware vendors, telecommunications carriers and distributors, and directly through our dedicated sales force and through our e-commerce website.

S-2

Table of Contents

We have built a world-class portfolio of speech solutions through both internal development and acquisitions. We expect to continue to pursue opportunities to broaden our solutions and customer base through acquisitions. Our recently completed transactions include:

On November 26, 2007, we acquired Viacore, Inc., a consulting and systems integration firm. The Viacore acquisition expands our professional services capabilities and complements our existing partnerships, allowing us to deliver end-to-end speech solutions and systems integration for speech-enabled customer care in key vertical markets including financial services, telecommunications, healthcare, utilities and government.

On November 2, 2007, we acquired Vocada, Inc., a provider of software and services for managing critical medical test results. The Vocada acquisition allows us to broaden the capabilities of our Dictaphone Healthcare solutions for the medical imaging industry, enhance our domain expertise within diagnostic specialties (including radiology, laboratory tests, pathology and cardiology), and increase our recurring revenue base derived from a software-as-a-service business model.

On September 28, 2007, we acquired Commissure Inc., a provider of speech-enabled radiology workflow optimization and data analysis solutions. The Commissure acquisition enhances the capabilities of our Dictaphone Healthcare solutions for the medical imaging industry, extends our domain expertise in the radiology market and increases our recurring revenue base derived from a term-based license model.

On August 24, 2007, we acquired Voice Signal Technologies, Inc., a global provider of speech technology for mobile devices. The VoiceSignal acquisition enhances our solutions and expertise to address the accelerating demand for speech-enabled mobile devices and services that allow people to use spoken commands to simply and effectively navigate and retrieve information and to control and operate mobile phones.

On August 24, 2007, we acquired Tegic Communications, Inc., a wholly owned subsidiary of AOL LLC and a developer of embedded software for mobile devices. The Tegic acquisition expands our presence in the mobile device industry and accelerates the delivery of a new mobile user interface that combines voice, text and touch to improve the user experience for consumers and mobile professionals.

On April 24, 2007, we acquired BeVocal, Inc., a provider of hosted self-service customer care solutions that address business requirements of wireless carriers and their customers. The BeVocal acquisition provides us with a portfolio of applications that serve the needs of wireless carriers and their customers and a recurring revenue base derived from a software-as-a-service business model.

On March 26, 2007, we acquired Focus Enterprises Limited, a leading healthcare transcription company. The Focus acquisition complements our Dictaphone iChart Web-based transcription solutions and expands our ability to deliver Web-based speech recognition solutions and to provide scalable Internet delivery of automated transcription.

On December 29, 2006, we acquired Mobile Voice Control, Inc., a provider of speech-enabled mobile search and messaging services. The Mobile Voice Control acquisition further accelerates our deployment of speech-enabled solutions in the wireless industry.

Our corporate headquarters are in Burlington, Massachusetts and we have offices across North America, Latin America, Europe, and Asia. As of September 30, 2007, we had approximately 3,900 full time employees in total, including approximately 600 in sales and marketing, approximately 650 in professional services, approximately 700 in research and development, approximately 350 in general and administrative and approximately 1,600 that provide transcription and editing services. Fifty-five percent of our employees are located outside of the United States,

the majority of whom are based in India.

Market Opportunity

Confronted by dramatic increases in electronic information, consumers, business personnel and healthcare professionals must use a variety of resources to retrieve information, transcribe patient records, conduct transactions and perform other job-related functions. We believe that the power of the spoken word will transform the way

S-3

Table of Contents

people use the Internet, telecommunications systems, wireless and mobile networks and related corporate infrastructure to conduct business. We believe that several key market trends will enhance our market position and create new business opportunities:

More than 90% of all customer service interactions begin with a phone call. With personnel expenditures representing approximately 75% of call center budgets, our solutions automate customer interactions to deliver significant cost savings to call centers that must reduce expenses and improve customer service to remain competitive.

With 80% of consumers reporting that quality of service is extremely or very influential, and with only 40% of consumers reporting that they were satisfied with their customer service experiences, customer care operations must address these challenges. Our speech-based solutions have significant advantages over more traditional automation capabilities using touchtone menus and are recognized for ease of use, clarity, speed of transaction and completeness of service.

Consumers in North America make approximately 6.1 billion calls to directory assistance each year. The emergence of new directory assistance business models such as free directory assistance services is expected to generate 1.5 billion calls per year. We provide tailored speech recognition solutions for this industry.

Mobile handset shipments are expected to reach 1.1 billion units in 2007, which represents approximately 12% growth over shipments in 2006. We provide an intuitive user interface based on voice commands that helps unlock the rich feature sets of mobile devices and services, thereby improving the customer experience.

Currently there are approximately 20 million users of wireless email globally and the number of users is expected to reach 350 million users by 2010. Our speech enabled mobile solutions provide a natural way to interact with wireless e-mail services.

Approximately \$12 billion is spent annually in North America on both in-house and outsourced medical transcription labor. Our healthcare dictation solutions reduce the cost of manual transcription while improving turnaround time and accuracy.

On average, an organization of 1,000 employees spends \$5.7 million each year on reformatting and recreating documents from multiple sources. Our PDF and document conversion and management solutions enable businesses to more efficiently create, manage and share documents.

Nuance Solutions

Our speech solutions enable enterprises, professionals and consumers to increase productivity, reduce costs and save time by using voice control to improve the user experience. Our imaging solutions build on decades of experience and technology development to deliver businesses, manufacturers and consumers a broad set of PDF and document offerings. We provide a broad set of speech and imaging offerings to our customers in the following areas:

Enterprise Speech

To remain competitive, organizations must improve the quality of customer care while reducing costs and ensuring a positive customer experience. Technological innovation, competitive pressures and rapid commoditization have made it increasingly difficult for organizations to achieve enduring market differentiation or to secure customer loyalty. In this environment, organizations need to satisfy the expectations of increasingly savvy and mobile consumers who demand high levels of customer service. This increase in consumer expectations necessitates a change in the way

organizations approach customer care and respond to customer needs.

We deliver a portfolio of customer service and business intelligence solutions enabled by speech that are designed to help companies better support, understand and communicate with their customers. Our solutions improve the customer experience, increase the use of self-service and enable new revenue opportunities. We also offer business intelligence solutions, which allow companies to draw knowledge from their customer care interactions to improve overall business performance.

S-4

Table of Contents

Our portfolio of enterprise speech solutions includes:

Customer Self Service. Our self-service solutions help companies improve the user experience, reduce costs through increased use of self-service solutions and create new revenue opportunities. Our solutions support applications such as flight information, personal banking, equipment repair and claims processing.

Voice-Driven Call Steering. Unlike touchtone systems that use complex menus that may lead to misrouted calls and poor customer experiences, our call steering solutions allow customers to describe their needs in their own words to navigate automated customer care systems, enabling organizations to direct inbound calls more accurately, more efficiently, and with higher caller satisfaction.

Authentication. Our voice authentication software enables businesses to provide secure access to sensitive information over the telephone, unobtrusively confirming a caller's identity using the unique characteristics of each voice, thereby providing enterprises a powerful defense against fraudulent activity.

Auto Attendant. Our auto attendant application, a natural speech-enabled turnkey solution, allows callers to speak the name of a person, department, service or location and be automatically transferred to the requested party, without the hassle of searching for phone numbers or waiting to speak to an operator.

Analytics. Our business intelligence solutions help enterprises draw knowledge from customer interactions. Powered by specialized customer behavior intelligence software, we offer tools and services that deliver fact-based insight about who is calling, why they are calling, and the quality of the caller experience.

We license our solutions to a wide variety of enterprises in customer-service intensive sectors, including telecommunications, financial services, travel and entertainment, and government, where customers include AOL, AT&T, Comcast, Charles Schwab and United Health. Our speech solutions are designed to serve our global partners and customers and are available in up to 49 languages and dialects worldwide. Although in certain cases we sell directly to end users, the majority of our solutions are fulfilled through our channel network that includes providers such as Avaya, Cisco, Genesys, Intervoice and Nortel, that integrate our solutions into their hardware and software platforms.

We complement our solutions and products with a global professional services organization that supports customers and partners with business and systems consulting project management, user-interface design, speech science, application development, and business performance optimization. Our acquisition of BeVocal expanded our existing product portfolio with a unique set of solutions for lifecycle management of customers of wireless carriers and a range of premium services for the wireless consumer, such as the Web and Short Message Service (SMS). The BeVocal acquisition also added numerous wireless carrier relationships to our network. Our recent acquisition of Viecore expands our professional services capabilities and complements our existing partnerships, allowing us to deliver end-to-end speech solutions and systems integration for speech-enabled customer care in key vertical markets including financial services, telecommunications, healthcare, utilities and government.

Mobility

Today, an increasing number of people worldwide rely on mobile devices to stay connected, informed and productive. We see an expanding opportunity in helping consumers use the powerful capabilities of their phones, cars and personal navigation devices by using voice commands to control these devices and to access the array of content and services available on the Internet through wireless mobile devices. We expect to serve more than one billion consumers within the next three years with voice-based mobile solutions that allow them to simply and effectively navigate and retrieve information and conduct transactions using these devices.

We offer solutions and expertise that help satisfy the accelerating demand for speech-enabled mobile devices and services. Our portfolio of mobile solutions includes:

Voice Search. Our voice search solutions allow users to quickly search local information databases such as business listings, yellow pages, restaurant guides and movie schedules, by naturally speaking their requests through a speech-enabled search interface that simplifies search capabilities and increases usage.

Voice-Activated Dialing. Our voice-activated dialing allows users to call anyone with just one command, avoiding the need to navigate complex menus and sort through an extensive list of contacts.

S-5

Table of Contents

Voice Control. Offered on a subscription basis through wireless carriers, our Nuance Voice Control service lets mobile consumers use their voice to dictate and send email or text messages, create calendar entries, dial a contact, and search the Web for business listings, news, weather, stock quotes, sport scores and more.

Mobile Messaging. Nuance Mobile provides users a more natural way to enter SMS messages, mobile instant messages, and mobile email into mobile wireless devices, significantly faster than with the traditional keypad.

Voice-Controlled MP3 Player Applications. An increasing number of phones on the market today are equipped with MP3 capabilities, allowing users to store and play hundreds of songs. Our speech-controlled MP3 applications provide a simple voice-activated interface to select a song, an artist or a playlist.

Automotive Solutions. Our integrated suite of automotive solutions enables voice-activated dialing, voice destination entry for navigation systems, and vehicle command and control for in-vehicle entertainment systems.

Our mobile solutions are used by mobile phone, automotive, personal navigation device and other consumer electronic manufacturers and their suppliers, including Mitsubishi Electronics, LG Electronics, Group Sense and Delphi. In addition, telecommunications carriers, Web search companies and content providers are increasingly using our mobile search and communication solutions to offer value-added services to their subscribers and customers.

The recent acquisitions of VoiceSignal and Tegic will enhance our offerings to mobile device manufacturers. The VoiceSignal acquisition provides voice-recognition technologies in mobile search, messaging, and command and control that complement our current capabilities. The Tegic acquisition provides us with predictive text and touch technologies. The combination of Nuance, VoiceSignal and Tegic sets the stage for a new mobile user interface that integrates predictive text, speech and touch inputs. This multimodal interface will provide easier access for users of mobile devices and will be available to all manufacturers across their product lines.

Healthcare Dictation and Transcription

The healthcare industry is under significant pressure to streamline operations and reduce costs and improve patient care. In recent years, healthcare organizations such as hospitals, clinics, medical groups, physicians' offices and insurance providers have increasingly turned to speech solutions to automate manual processes such as the dictation and transcription of patient records.

We provide comprehensive dictation and transcription solutions and services that automate the input and management of medical information. Since 2004, we have steadily increased our investments in solutions for the healthcare industry. We are dedicating substantial resources to product development, sales, business development and marketing in an effort to replace traditional manual transcription before the end of the decade.

Our healthcare dictation and transcription solutions include:

Dictation and Transcription Workflow Solutions. Our enterprise solutions provide centralized platforms to generate and distribute speech-driven medical documentation through the use of advanced dictation and transcription features.

Hosted Dictation Services. Dictaphone iChart, our subscription-based service, allows us to deliver hosted dictation, transcription and speech recognition solutions to customers seeking to outsource this function entirely.

Departmental Solutions. Dictaphone PowerScribe®, a speech recognition solution for radiology, cardiology, pathology and related specialties, enables the healthcare providers to dictate, edit, and sign reports without manual transcription, enhancing report turnaround time.

Dragon NaturallySpeaking Medical. This dictation software provides front-end speech recognition that is used by physicians and clinicians to create and navigate medical records.

Hospitals, clinics and group practices, including Adventist Health, Allina Health, Guthrie Healthcare, Mt. Kisco Medical, and Sarasota Memorial, and approximately 300,000 physicians use our Dictaphone healthcare solutions to manage the dictation and transcription of patient records. We utilize a focused, enterprise sales team and

S-6

Table of Contents

professional services organization to address the market and implementation requirements of the healthcare industry.

The acquisition of Focus expanded our ability to deliver healthcare transcription solutions. The combination of Focus proven technology portfolio and services capability and the Dictaphone iChart Web-based transcription solutions creates an efficient, scalable Web-based automated transcription service. Focus serves some of the largest U.S. healthcare organizations, combining the use of speech recognition, a Web-based editing platform and manual transcription services based in India to achieve superior customer satisfaction, turnaround time and cost efficiency. Our recent acquisitions of Commissure and Vocada expand the capabilities of our Dictaphone Healthcare solutions for the medical imaging industry, enhance our domain expertise in the radiology market and reporting of clinical test results, respectively, and increase our recurring revenue base derived from a software-as-a-service business model.

In addition to our healthcare-oriented dictation solutions, we also offer *Dragon NaturallySpeaking*, a suite of general purpose desktop dictation applications that increases productivity by using speech to create documents, streamline repetitive and complex tasks, input data, complete forms and automate manual transcription processes.

Our *Dragon NaturallySpeaking* family of products delivers enhanced productivity for professionals and consumers who need to create documents and transcripts. These solutions allow users to automatically convert speech into text at up to 160 words-per-minute, with support for over 300,000 words and with an accuracy rate of up to 99%. This vocabulary can be expanded by users to include specialized words and phrases and can be adapted to recognize individual voice patterns. Our desktop dictation software is currently available in eleven languages. We utilize a combination of our global reseller network and direct sales to distribute our speech recognition and dictation products.

PDF and Document Imaging

The proliferation of the Internet, email and other networks have greatly simplified the ability to share electronic documents, resulting in an ever-growing volume of documents to be used and stored. Our solutions reduce the costs associated with paper documents through easy to use scanning, document management and electronic document routing solutions. We offer versions of our products to hardware vendors, home offices, small businesses and enterprise customers.

Our PDF and document solutions include:

PDF Applications. Our PDF solutions offer comprehensive PDF capabilities for business users, including a combination of creation, editing and conversion features. Our PDF Converter product family is used to create PDF files and turn existing PDF files into fully-formatted documents that can be edited.

Optical Character Recognition and Document Conversion. Our OmniPage product uses optical character recognition technology to deliver highly accurate document and PDF conversion, replacing the need to manually re-create documents.

Digital Paper Management. Our PaperPort applications combine PDF creation with network scanning, allowing individuals to work quickly with scanned paper documents, PDF files and digital documents. Our software is typically used in conjunction with network scanning devices to preserve an image of a document and allows for easy archiving, indexing and retrieval.

We utilize a combination of our global reseller network and direct sales to distribute our document conversion and PDF products. We license our software to companies such as Brother, Canon, Dell, HP and Xerox, which bundle our solutions with multifunction devices, digital copiers, printers and scanners. We also license software development toolkits to independent software vendors who use our technology for production capture or desktop applications,

including vendors such as Autodesk, Canon, EMC/Captiva, Filenet, Kofax, Microsoft, Sharp and Verity.

S-7

Table of Contents

Growth Strategy

We focus on providing market-leading, value-added solutions for our customers and partners through a broad set of technologies, service offerings and channel capabilities. We intend to pursue growth through the following key elements of our strategy:

Extend Technology Leadership. Our solutions are recognized as among the best in their respective categories. We intend to leverage our global research and development organization and broad portfolio of technologies, applications and intellectual property to foster technological innovation and maintain customer preference for our solutions. We also intend to invest in our engineering resources and seek new technological advancements that further expand the addressable markets for our solutions.

Broaden Expertise in Vertical Markets. Businesses are increasingly turning to Nuance for comprehensive solutions rather than for a single technology product. We intend to broaden our expertise and capabilities to deliver targeted solutions for a range of industries including mobile device manufacturers, healthcare, telecommunications, financial services and government administration. We also intend to expand our global sales and professional services capabilities to help our customers and partners design, integrate and deploy innovative solutions.

Increase Subscription and Transaction Based Recurring Revenue. We intend to increase our subscription and transaction based offerings in our core industries. The expansion of our subscription or transaction based solutions will enable us to deliver applications that our customers use on a repeat basis, and pay for on a per use basis, providing us with the opportunity to enjoy the benefits of recurring revenue streams.

Expand Global Presence. We intend to further expand our international resources to better serve our global customers and partners and to leverage opportunities in emerging markets such as China, India, Latin America and Asia. We continue to add regional executives and sales employees in different geographic regions to better address demand for speech based solutions and services.

Pursue Strategic Acquisitions. We have selectively pursued strategic acquisitions to expand our technology, solutions and resources to complement our organic growth. We have proven experience in integrating businesses and technologies and in delivering enhanced value to our customers, partners, employees and shareholders. We intend to continue to pursue acquisitions that enhance our solutions, serve specific vertical markets and strengthen our technology portfolio.

Research and Development/Intellectual Property

In recent years, we have developed and acquired extensive technology assets, intellectual property and industry expertise in speech and imaging that provide us with a competitive advantage in markets where we compete. Our technologies are based on complex algorithms which require extensive amounts of linguistic and image data, acoustic models and recognition techniques. A significant investment in capital and time would be necessary to replicate our current capabilities.

We continue to invest in technologies to maintain our market-leading position and to develop new applications. Our technologies are covered by more than 540 issued patents and 490 patent applications. Our intellectual property, whether purchased or developed internally, is critical to our success and competitive position and, ultimately, to our market value. Our products and services build on a portfolio of patents, copyrights, trademarks, services marks, trade secrets, confidentiality provisions and licensing arrangements to establish and protect our intellectual property and proprietary rights.

Table of Contents

Recent Developments

Convertible Debt. On August 13, 2007, we closed the sale of \$250 million aggregate principal amount of 2.75% senior convertible debentures due 2027. The funds we received from the sale of the convertible debentures were used to fund the consideration for our acquisition of Tegic.

Term Loan. On August 24, 2007, we amended our existing credit agreement to provide for incremental term loans in the amount of \$225 million. The incremental term loans increased the outstanding term loans under our existing credit agreement from \$440.3 million to a total of \$665.3 million. The additional funds we received were used to fund the cash portion of the merger consideration for our acquisition of VoiceSignal, to pay related fees and expenses and for general corporate purposes.

Tegic Communications, Inc. On August 24, 2007, we completed our acquisition of Tegic. The aggregate consideration delivered to AOL, the former stockholder of Tegic, consisted of a payment of \$265.0 million in cash. The Tegic acquisition expands our presence in the mobile device industry and accelerates the delivery of a new mobile user interface that combines voice, text and touch to improve the user experience for consumers and mobile professionals.

Voice Signal Technologies, Inc. On August 24, 2007, we completed our acquisition of VoiceSignal. The aggregate consideration delivered to the former stockholders of VoiceSignal consisted of approximately 5.8 million shares of Nuance common stock and a payment of approximately \$193.6 million in cash, including \$30.0 million in cash placed into escrow for 12 months from the date of acquisition, net of the estimated cash closing balance of VoiceSignal. The VoiceSignal acquisition extends our solutions and expertise to address the accelerating demand for speech-enabled mobile devices and services that allow people to use spoken commands to navigate and retrieve information and to control and operate mobile phones, automobiles and personal navigation devices, simply and effectively.

Commissure Inc. On September 28, 2007, we completed our acquisition of Commissure. The aggregate consideration delivered to the former stockholders of Commissure consisted of approximately 1.4 million shares of Nuance common stock, including 0.2 million shares of stock placed into escrow for 15 months from the date of acquisition, and a contingent payment of up to an additional \$8.0 million, in cash or shares of our common stock at our election, in the form of an earnout to be paid, if at all, following the closing based on the acquired business achieving certain performance targets through 2010. The Commissure acquisition enhances the capabilities of our Dictaphone Healthcare solutions for the medical imaging industry, extends our domain expertise in the radiology market and increases our recurring revenue base derived from a term-based license model.

Vocada, Inc. On November 2, 2007, we completed our acquisition of Vocada. The aggregate consideration delivered to the former stockholders of Vocada consisted of approximately 900,000 shares of our common stock, including stock placed into escrow, and a contingent payment of up to an additional \$21.0 million, in cash or shares of our common stock at our election, in the form of an earnout to be paid, if at all, following the closing based on the acquired business achieving certain performance targets through 2010. The Vocada acquisition will allow us to broaden the capabilities of our Dictaphone Healthcare solutions for the medical imaging industry, extend our domain expertise within diagnostic specialties (including radiology, laboratory test, pathology and cardiology) and increase our recurring revenue base derived from a software-as-a-service business model.

Viecore, Inc. On November 26, 2007, we completed our acquisition of Viecore. The aggregate consideration delivered to the former stockholders of Viecore consisted of approximately 5.0 million shares of our common stock and a payment of approximately \$8.9 million in cash, including 0.6 million shares of stock placed into escrow. The Viecore acquisition expands our professional services capabilities and complements our existing partnerships, allowing us to deliver end-to-end speech solutions and systems integration for speech-enabled customer care in key

vertical markets including financial services, telecommunications, healthcare, utilities and government.

Table of Contents

THE OFFERING

Common stock offered by us	9,600,000 shares of common stock, par value \$0.001 per share.
Common stock offered by the selling stockholders	5,400,000 shares of common stock, par value \$0.001 per share.
Shares of common stock to be outstanding after this offering(1)	202,778,708 shares.
Use of proceeds	We estimate that our net proceeds from this offering, based upon an assumed public offering price of \$21.82 per share (the last reported sales price of our common stock on December 10, 2007), will be \$200.3 million, or \$223.9 million if the underwriters exercise their over-allotment option in full. We will not receive any of the proceeds from the sale of the shares of our common stock being offered by the selling stockholders. We intend to use approximately \$100 million of the net proceeds received by us from this offering to repay certain of our outstanding term loans under our existing credit agreement. We intend to apply the remainder of the net proceeds received by us from this offering for general corporate purposes, including working capital and to fund future acquisitions. See Use of Proceeds beginning on page S-24 for additional information.
Nasdaq Symbol for Our Common Stock	Our common stock trades on The Nasdaq Global Select Market under the symbol NUAN.

(1) The number of shares of common stock that will be outstanding after this offering is based on the number of shares outstanding at September 30, 2007, and excludes:

18,240,722 shares of common stock issuable upon the exercise of options outstanding at September 30, 2007, at a weighted average exercise price of \$6.48 per share;

6,808,800 shares of common stock issuable upon the vesting of restricted stock units outstanding at September 30, 2007;

4,753,204 shares of common stock available for future issuance under our equity compensation plans at September 30, 2007;

7,840,918 shares of common stock issuable upon the exercise of warrants outstanding at September 30, 2007, at a weighted average exercise price of \$4.63 per share;

3,562,238 shares of Series B Preferred Stock outstanding at September 30, 2007 that are convertible into common stock on a one-to-one basis;

Edgar Filing: Nuance Communications, Inc. - Form 424B5

5,939,686 shares of common stock issued in connection with acquisitions consummated after September 30, 2007; and

1,125,000 shares that may be sold by us if the underwriters exercise their option to purchase additional shares in full.

Risk Factors

Investing in our common stock involves substantial risk. See **Risk Factors** beginning on page S-14 of this prospectus supplement for a description of certain of the risks you should consider before investing in our common stock.

Selling Stockholders

Warburg Pincus Private Equity VIII, L.P. and two affiliated partnerships, each of which is affiliated with our directors William Janeway and Jeffrey Harris, are offering shares of common stock pursuant to this prospectus supplement. The other selling stockholders in this offering are members of our executive management team, including our Chairman and Chief Executive Officer. See **Selling Stockholders** on page S-26 of this prospectus supplement for a description of the selling stockholders and **Certain Relationships and Transactions** on page S-28 of this prospectus supplement for a discussion of our relationship with the selling stockholders.

Unless otherwise indicated herein, all information in this prospectus supplement assumes that the underwriters do not exercise the option that we and certain selling stockholders have granted to them to purchase additional shares in this offering, as described in the **Underwriting** section of this prospectus supplement.

Table of Contents**SUMMARY CONSOLIDATED FINANCIAL DATA**

The following table presents our summary historical consolidated financial data for the five most recent fiscal years. The financial data is derived from our consolidated financial statements. This table should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the fiscal year ended September 30, 2007, and our financial statements and related notes thereto, all of which are incorporated by reference into this prospectus supplement.

- (1) In October 2004, we changed our fiscal year-end to September 30, resulting in a nine-month fiscal year for 2004.
- (2) As a result of the acquisition of Speechworks in August 2003, professional services became a material component of our business. As a result of the acquisition, beginning in fiscal year 2004, we began to separately track and disclose professional services revenues and cost of revenue. Prior to fiscal year 2004, we did not separately disclose professional services revenue and cost of revenue as they were immaterial and it is not practical to reclassify these revenues and associated costs retrospectively.

RISK FACTORS

Investing in our common stock involves risks. You should carefully consider the risks described below and the other information contained or incorporated by reference in this prospectus supplement or the accompanying prospectus before making an investment decision. The risks and uncertainties described below and in our other filings with the SEC incorporated by reference herein are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently consider immaterial may also adversely affect us. If any of the following risks occur, our business, financial condition or results of operations could be materially harmed.

Risks Related to Our Business

Our operating results may fluctuate significantly from period to period, and this may cause our stock price to decline.

Our revenue and operating results have fluctuated in the past and are expected to continue to fluctuate in the future. Given this fluctuation, we believe that quarter to quarter comparisons of revenue and operating results are not necessarily meaningful or an accurate indicator of our future performance. As a result, our results of operations may not meet the expectations of securities analysts or investors in the future. If this occurs, the price of our stock would likely decline. Factors that contribute to fluctuations in operating results include the following:

slowing sales by our distribution and fulfillment partners to their customers, which may place pressure on these partners to reduce purchases of our products;

volume, timing and fulfillment of customer orders;

our efforts to generate additional revenue from our portfolio of intellectual property;

concentration of operations with one manufacturing partner and ability to control expenses related to the manufacture, packaging and shipping of our boxed software products;

customers delaying their purchasing decisions in anticipation of new versions of our products;

customers delaying, canceling or limiting their purchases as a result of the threat or results of terrorism;

introduction of new products by us or our competitors;

seasonality in purchasing patterns of our customers;

reduction in the prices of our products in response to competition or market conditions;

returns and allowance charges in excess of accrued amounts;

timing of significant marketing and sales promotions;

impairment charges against goodwill and other intangible assets;

delayed realization of synergies resulting from our acquisitions;

write-offs of excess or obsolete inventory and accounts receivable that are not collectible;

increased expenditures incurred pursuing new product or market opportunities;

general economic trends as they affect retail and corporate sales; and

higher than anticipated costs related to fixed-price contracts with our customers.

Due to the foregoing factors, among others, our revenue and operating results are difficult to forecast. Our expense levels are based in significant part on our expectations of future revenue and we may not be able to reduce our expenses quickly to respond to a shortfall in projected revenue. Therefore, our failure to meet revenue expectations would seriously harm our operating results, financial condition and cash flows.

S-14

Table of Contents

We have grown, and may continue to grow, through acquisitions, which could dilute our existing stockholders.

As part of our business strategy, we have in the past acquired, and expect to continue to acquire, other businesses and technologies. In connection with past acquisitions, we issued a substantial number of shares of our common stock as transaction consideration and also incurred significant debt to finance the cash consideration used for our acquisitions, including our acquisitions of Dictaphone, Focus, BeVocal, VoiceSignal, Tegic, Vocada, Commissure and Viecore. We may continue to issue equity securities for future acquisitions, which would dilute existing stockholders, perhaps significantly depending on the terms of such acquisitions. We may also incur additional debt in connection with future acquisitions, which, if available at all, may place additional restrictions on our ability to operate our business.

Our ability to realize the anticipated benefits of our acquisitions will depend on successfully integrating the acquired businesses.

Our prior acquisitions required, and our recently completed acquisitions continue to require, substantial integration and management efforts and we expect our pending and future acquisitions to require similar efforts. Acquisitions of this nature involve a number of risks, including:

- difficulty in transitioning and integrating the operations and personnel of the acquired businesses;
- potential disruption of our ongoing business and distraction of management;
- potential difficulty in successfully implementing, upgrading and deploying in a timely and effective manner new operational information systems and upgrades of our finance, accounting and product distribution systems;
- difficulty in incorporating acquired technology and rights into our products and technology;
- unanticipated expenses and delays in completing acquired development projects and technology integration;
- management of geographically remote business units both in the United States and internationally;
- impairment of relationships with partners and customers;
- customers delaying purchases of our products pending resolution of product integration between our existing and our newly acquired products;
- entering markets or types of businesses in which we have limited experience; and
- potential loss of key employees of the acquired business.

As a result of these and other risks, if we are unable to successfully integrate acquired businesses, we may not realize the anticipated benefits from our acquisitions. Any failure to achieve these benefits or failure to successfully integrate acquired businesses and technologies could seriously harm our business.

Accounting treatment of our acquisitions could decrease our net income or expected revenue in the foreseeable future, which could have a material and adverse effect on the market value of our common stock.

Under accounting principles generally accepted in the United States of America, we record the market value of our common stock or other form of consideration issued in connection with the acquisition and the amount of direct transaction costs as the cost of acquiring the company or business. We have allocated that cost to the individual assets

acquired and liabilities assumed, including various identifiable intangible assets such as acquired technology, acquired trade names and acquired customer relationships based on their respective fair values. Intangible assets generally will be amortized over a five to ten year period. Goodwill and certain intangible assets with indefinite lives, are not subject to amortization but are subject to an impairment analysis, at least annually, which may result in an impairment charge if the carrying value exceeds its implied fair value. As of September 30, 2007, we had identified intangible assets amounting to approximately \$391.2 million and goodwill of approximately \$1.2 billion. In addition, purchase accounting limits our ability to recognize certain revenue that otherwise would have been recognized by the acquired company as an independent business. The combined company may delay revenue

S-15

Table of Contents

recognition or recognize less revenue than we and the acquired company would have recognized as independent companies.

Our significant debt could adversely affect our financial health and prevent us from fulfilling our obligations under our credit facility and our convertible debentures.

We have a significant amount of debt. As of September 30, 2007, we had a total of \$913.7 million of gross debt outstanding, including \$663.7 million in term loans due in March 2013 and \$250.0 million in convertible debentures which investors may require us to redeem in August 2014. We also have a \$75.0 million revolving credit line due March 2012 available to us. As of September 30, 2007, there were \$17.3 million of letters of credit issued under the revolving credit line and there were no other outstanding borrowings under the revolving credit line. Our debt level could have important consequences, for example it could:

require us to use a large portion of our cash flow to pay principal and interest on debt, including the convertible debentures and the credit facility, which will reduce the availability of our cash flow to fund working capital, capital expenditures, acquisitions, research and development expenditures and other business activities;

restrict us from making strategic acquisitions or exploiting business opportunities;

place us at a competitive disadvantage compared to our competitors that have less debt; and

limit, along with the financial and other restrictive covenants in our debt, our ability to borrow additional funds, dispose of assets or pay cash dividends.

Our ability to meet our payment and other obligations under our debt instruments depends on our ability to generate significant cash flow in the future. This, to some extent, is subject to general economic, financial, competitive, legislative and regulatory factors as well as other factors that are beyond our control. We cannot assure you that our business will generate cash flow from operations, or that additional capital will be available to us, in an amount sufficient to enable us to meet our payment obligations under the convertible debentures and our other debt and to fund other liquidity needs. If we are not able to generate sufficient cash flow to service our debt obligations, we may need to refinance or restructure our debt, including the convertible debentures, sell assets, reduce or delay capital investments, or seek to raise additional capital. If we are unable to implement one or more of these alternatives, we may not be able to meet our payment obligations under the convertible debentures and our other debt.

In addition, a substantial portion of our debt bears interest at variable rates. If market interest rates increase, our debt service requirements will increase, which would adversely affect our cash flows. While we have entered into an interest rate swap agreement limiting our exposure for a portion of our debt, the agreement does not offer complete protection from this risk.

Our debt agreements contain covenant restrictions that may limit our ability to operate our business.

The agreement governing our senior credit facility contains, and any of our other future debt agreements may contain, covenant restrictions that limit our ability to operate our business, including restrictions on our ability to:

incur additional debt or issue guarantees;

create liens;

make certain investments;

enter into transactions with our affiliates;

sell certain assets;

redeem capital stock or make other restricted payments;

S-16

Table of Contents

declare or pay dividends or make other distributions to stockholders; and

merge or consolidate with any entity.

Our ability to comply with these covenants is dependent on our future performance, which will be subject to many factors, some of which are beyond our control, including prevailing economic conditions. As a result of these covenants, our ability to respond to changes in business and economic conditions and to obtain additional financing, if needed, may be significantly restricted, and we may be prevented from engaging in transactions that might otherwise be beneficial to us. In addition, our failure to comply with these covenants could result in a default under our debt, which could permit the holders to accelerate our obligation to repay the debt. If any of our debt is accelerated, we may not have sufficient funds available to repay the accelerated debt.

We have a history of operating losses, and may incur losses in the future, which may require us to raise additional capital on unfavorable terms.

We reported net losses of approximately \$14.0 million, \$22.9 million and \$5.4 million for fiscal years 2007, 2006 and 2005, respectively. We had an accumulated deficit of approximately \$204.1 million at September 30, 2007. If we are unable to achieve and maintain profitability, the market price for our stock may decline, perhaps substantially. We cannot assure you that our revenue will grow or that we will achieve or maintain profitability in the future. If we do not achieve profitability, we may be required to raise additional capital to maintain or grow our operations. The terms of any transaction to raise additional capital, if available at all, may be highly dilutive to existing investors or contain other unfavorable terms, such as a high interest rate and restrictive covenants.

Speech technologies may not achieve widespread acceptance, which could limit our ability to grow our speech business.

We have invested and expect to continue to invest heavily in the acquisition, development and marketing of speech technologies. The market for speech technologies is relatively new and rapidly evolving. Our ability to increase revenue in the future depends in large measure on acceptance of speech technologies in general and our products in particular. The continued development of the market for our current and future speech solutions will also depend on:

consumer and business demand for speech-enabled applications;

development by third-party vendors of applications using speech technologies; and

continuous improvement in speech technology.

Sales of our speech products would be harmed if the market for speech technologies does not continue to develop or develops more slowly than we expect, and, consequently, our business could be harmed and we may not recover the costs associated with our investment in our speech technologies.

The markets in which we operate are highly competitive and rapidly changing and we may be unable to compete successfully.

There are a number of companies that develop or may develop products that compete in our targeted markets. The individual markets in which we compete are highly competitive, and are rapidly changing. Within speech, we compete with AT&T, IBM, Microsoft and other smaller providers. Within healthcare dictation and transcription, we compete with eScription, Philips Medical, Spheris and other smaller providers. Within imaging, we compete directly with

ABBYY, Adobe, eCopy, I.R.I.S. and NewSoft. In speech, some of our partners such as Avaya, Cisco, Edify, Genesys and Nortel develop and market products that can be considered substitutes for our solutions. In addition, a number of smaller companies in both speech and imaging produce technologies or products that are in some markets competitive with our solutions. Current and potential competitors have established, or may establish, cooperative relationships among themselves or with third parties to increase the ability of their technologies to address the needs of our prospective customers.

S-17

Table of Contents

The competition in these markets could adversely affect our operating results by reducing the volume of the products we license or the prices we can charge. Some of our current or potential competitors, such as Adobe, IBM and Microsoft, have significantly greater financial, technical and marketing resources than we do. These competitors may be able to respond more rapidly than we can to new or emerging technologies or changes in customer requirements. They may also devote greater resources to the development, promotion and sale of their products than we do.

Some of our customers, such as IBM and Microsoft, have developed or acquired products or technologies that compete with our products and technologies. These customers may give higher priority to the sale of these competitive products or technologies. To the extent they do so, market acceptance and penetration of our products, and therefore our revenue, may be adversely affected. Our success will depend substantially upon our ability to enhance our products and technologies and to develop and introduce, on a timely and cost-effective basis, new products and features that meet changing customer requirements and incorporate technological advancements. If we are unable to develop new products and enhance functionalities or technologies to adapt to these changes, or if we are unable to realize synergies among our acquired products and technologies, our business will suffer.

The failure to successfully maintain the adequacy of our system of internal control over financial reporting could have a material adverse impact on our ability to report our financial results in an accurate and timely manner.

Our management's assessment of the effectiveness of our internal control over financial reporting, as of September 30, 2005, identified a material weakness in our internal controls related to tax accounting, primarily as a result of a lack of necessary corporate accounting resources and ineffective execution of certain controls designed to prevent or detect actual or potential misstatements in the tax accounts. While we have taken remediation measures to correct this material weakness, which measures are more fully described in Item 9A of our Annual Report on Form 10-K/A for our fiscal year ended September 30, 2006, we cannot assure you that we will not have material weaknesses in our internal controls in the future. Any failure in the effectiveness of our system of internal control over financial reporting could have a material adverse impact on our ability to report our financial results in an accurate and timely manner.

A significant portion of our revenue and a significant portion of our research and development are based outside the United States. Our results could be harmed by economic, political, regulatory and other risks associated with these international regions.

Because we operate worldwide, our business is subject to risks associated with doing business internationally. We anticipate that revenue from international operations will increase in the future. Reported international revenue, classified by the major geographic areas in which our customers are located, represented approximately \$130.4 million, \$100.2 million and \$71.5 million, representing approximately 22%, 26%, and 31% of our total revenue, respectively, for fiscal 2007, 2006 and 2005, respectively. Most of our international revenue is generated by sales in Europe and Asia. In addition, some of our products are developed and manufactured outside the United States. A significant portion of the development and manufacturing of our speech products are completed in Belgium, and a significant portion of our imaging research and development is conducted in Hungary. In connection with prior acquisitions we have added research and development resources in Aachen, Germany, Montreal, Canada and Tel Aviv, Israel. Accordingly, our future results could be harmed by a variety of factors associated with international sales and operations, including:

changes in a specific country's or region's economic conditions;

geopolitical turmoil, including terrorism and war;

trade protection measures and import or export licensing requirements imposed by the United States or by other countries;

compliance with foreign and domestic laws and regulations;

S-18

Table of Contents

negative consequences from changes in applicable tax laws;

difficulties in staffing and managing operations in multiple locations in many countries;

difficulties in collecting trade accounts receivable in other countries; and

less effective protection of intellectual property than in the United States.

We are exposed to fluctuations in foreign currency exchange rates.

Because we have international subsidiaries and distributors that operate and sell our products outside the United States, we are exposed to the risk of changes in foreign currency exchange rates or declining economic conditions in these countries. In certain circumstances, we have entered into forward exchange contracts to hedge against foreign currency fluctuations on intercompany balances with our foreign subsidiaries. We use these contracts to reduce our risk associated with exchange rate movements, as the gains or losses on these contracts are intended to offset any exchange rate losses or gains on the hedged transaction. We do not engage in foreign currency speculation. Forward exchange contracts hedging firm commitments qualify for hedge accounting when they are designated as a hedge of the foreign currency exposure and they are effective in minimizing such exposure. With our increased international presence in a number of geographic locations and with international revenue projected to increase, we are exposed to changes in foreign currencies including the Euro, British Pound, Canadian Dollar, Japanese Yen, Israeli New Shekel, Indian Rupee and the Hungarian Forint. Changes in the value of the Euro or other foreign currencies relative to the value of the U.S. dollar could adversely affect future revenue and operating results.

Impairment of our intangible assets could result in significant charges that would adversely impact our future operating results.

We have significant intangible assets, including goodwill and intangibles with indefinite lives, which are susceptible to valuation adjustments as a result of changes in various factors or conditions. The most significant intangible assets are patents and core technology, completed technology, customer relationships and trademarks. Customer relationships are amortized on an accelerated basis based upon the pattern in which the economic benefit of customer relationships are being utilized. Other identifiable intangible assets are amortized on a straight-line basis over their estimated useful lives. We assess the potential impairment of identifiable intangible assets on an annual basis, as well as whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors that could trigger an impairment of such assets, include the following:

significant underperformance relative to historical or projected future operating results;

significant changes in the manner of or use of the acquired assets or the strategy for our overall business;

significant negative industry or economic trends;

significant decline in our stock price for a sustained period; and

a decline in our market capitalization below net book value.

Future adverse changes in these or other unforeseeable factors could result in an impairment charge that would impact our results of operations and financial position in the reporting period identified. As of September 30, 2007, we had identified intangible assets amounting to approximately \$391.2 million and goodwill of approximately \$1.2 billion.

We depend on limited or sole source suppliers for critical components of our healthcare-related products. The inability to obtain sufficient components as required, and under favorable purchase terms, could harm our business.

We are dependent on certain suppliers, including limited and sole source suppliers, to provide key components used in our healthcare-related products. We have experienced, and may continue to experience, delays in component deliveries, which in turn could cause delays in product shipments and require the redesign of certain

S-19

Table of Contents

products. In addition, if we are unable to procure necessary components under favorable purchase terms, including at favorable prices and with the order lead-times needed for the efficient and profitable operation of our business, our results of operations could suffer.

If we are unable to attract and retain key personnel, our business could be harmed.

If any of our key employees were to leave, we could face substantial difficulty in hiring qualified successors and could experience a loss in productivity while any successor obtains the necessary training and experience. Our employment relationships are generally at-will and we have had key employees leave in the past. We cannot assure you that one or more key employees will not leave in the future. We intend to continue to hire additional highly qualified personnel, including software engineers and operational personnel, but may not be able to attract, assimilate or retain qualified personnel in the future. Any failure to attract, integrate, motivate and retain these employees could harm our business.

Our medical transcription services may be subject to legal claims for failure to comply with laws governing the confidentiality of medical records.

Healthcare professionals who use our medical transcription services deliver to us health information about their patients including information that constitutes a record under applicable law that we may store on our computer systems. Numerous federal and state laws and regulations, the common law and contractual obligations govern collection, dissemination, use and confidentiality of patient-identifiable health information, including:

state and federal privacy and confidentiality laws;

our contracts with customers and partners;

state laws regulating healthcare professionals;

Medicaid laws; and

the Health Insurance Portability and Accountability Act of 1996 and related rules proposed by the Health Care Financing Administration.

The Health Insurance Portability and Accountability Act of 1996 establishes elements including, but not limited to, federal privacy and security standards for the use and protection of protected health information. Any failure by us or by our personnel or partners to comply with applicable requirements may result in a material liability to the Company. Although we have systems and policies in place for safeguarding protected health information from unauthorized disclosure, these systems and policies may not preclude claims against us for alleged violations of applicable requirements. There can be no assurance that we will not be subject to liability claims that could have a material adverse affect on our business, results of operations and financial condition.

Risks Related to Our Intellectual Property and Technology

Unauthorized use of our proprietary technology and intellectual property could adversely affect our business and results of operations.

Our success and competitive position depend in large part on our ability to obtain and maintain intellectual property rights protecting our products and services. We rely on a combination of patents, copyrights, trademarks, service marks, trade secrets, confidentiality provisions and licensing arrangements to establish and protect our intellectual property and proprietary rights. Unauthorized parties may attempt to copy aspects of our products or to obtain, license,

sell or otherwise use information that we regard as proprietary. Policing unauthorized use of our products is difficult and we may not be able to protect our technology from unauthorized use. Additionally, our competitors may independently develop technologies that are substantially the same or superior to our technologies and that do not infringe our rights. In these cases, we would be unable to prevent our competitors from selling or licensing these similar or superior technologies. In addition, the laws of some foreign countries do not protect our proprietary rights to the same extent as the laws of the United States. Although the source code for our proprietary

S-20

Table of Contents

software is protected both as a trade secret and as a copyrighted work, litigation may be necessary to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others, or to defend against claims of infringement or invalidity. Litigation, regardless of the outcome, can be very expensive and can divert management efforts.

Third parties have claimed and may claim in the future that we are infringing their intellectual property, and we could be exposed to significant litigation or licensing expenses or be prevented from selling our products if such claims are successful.

From time to time, we are subject to claims that we or our customers may be infringing or contributing to the infringement of the intellectual property rights of others. We may be unaware of intellectual property rights of others that may cover some of our technologies and products. If it appears necessary or desirable, we may seek licenses for these intellectual property rights. However, we may not be able to obtain licenses from some or all claimants, the terms of any offered licenses may not be acceptable to us, and we may not be able to resolve disputes without litigation. Any litigation regarding intellectual property could be costly and time-consuming and could divert the attention of our management and key personnel from our business operations. In the event of a claim of intellectual property infringement, we may be required to enter into costly royalty or license agreements. Third parties claiming intellectual property infringement may be able to obtain injunctive or other equitable relief that could effectively block our ability to develop and sell our products.

On November 9, 2007, Autotext Technologies, a subsidiary of Acacia Research, filed an action against us in the United States District Court for the Northern District of Ohio. The complaint alleges that our T9 Predictive Text software infringes U.S. Patent No. 5,305,205 entitled Computer-assisted transcription apparatus. The patent generally relates to a predictive word processing system, where a list of word choices is presented when a user inputs just a few letters of a word. Damages are sought in an unspecified amount. Because the complaint was only filed recently, we have not yet been able to assess the merits of the claim or identify the defenses available to us.

On May 31, 2006, GTX Corporation filed an action against us in the United States District Court for the Eastern District of Texas claiming patent infringement. Damages were sought in an unspecified amount. In the lawsuit, GTX Corporation alleged that we are infringing United States Patent No. 7,016,536 entitled Method and Apparatus for Automatic Cleaning and Enhancing of Scanned Documents. We believe these claims have no merit and intend to defend the action vigorously.

On November 27, 2002, AllVoice Computing plc filed an action against us in the United States District Court for the Southern District of Texas claiming patent infringement. In the lawsuit, AllVoice Computing plc alleges that we are infringing United States Patent No. 5,799,273 entitled Automated Proofreading Using Interface Linking Recognized Words to their Audio Data While Text is Being Changed. Such patent generally discloses techniques for manipulating audio data associated with text generated by a speech recognition engine. Although we have several products in the speech recognition technology field, we believe that our products do not infringe AllVoice Computing plc's patent because, in addition to other defenses, we do not use the claimed techniques. Damages are sought in an unspecified amount. We filed an Answer on December 23, 2002. The United States District Court for the Southern District of Texas entered summary judgment against AllVoice Computing plc and dismissed all claims against us on February 21, 2006. AllVoice Computing plc filed a notice of appeal from this judgment on April 26, 2006. On October 12, 2007, the U.S. Court of Appeals for the Federal Circuit reversed and remanded the summary judgement. We believe these claims have no merit and intend to defend the action vigorously.

We believe that the final outcome of the current litigation matters described above will not have a significant adverse effect on our financial position and results of operations. However, even if our defense is successful, the litigation could require significant management time and could be costly. Should we not prevail in these litigation matters, we

may be unable to sell and/or license certain of our technologies which we consider to be proprietary, and our operating results, financial position and cash flows could be adversely impacted.

S-21

Table of Contents

Our software products may have bugs, which could result in delayed or lost revenue, expensive correction, liability to our customers and claims against us.

Complex software products such as ours may contain errors, defects or bugs. Defects in the solutions or products that we develop and sell to our customers could require expensive corrections and result in delayed or lost revenue, adverse customer reaction and negative publicity about us or our products and services. Customers who are not satisfied with any of our products may also bring claims against us for damages, which, even if unsuccessful, would likely be time-consuming to defend, and could result in costly litigation and payment of damages. Such claims could harm our reputation, financial results and competitive position.

Risks Related to our Corporate Structure, Organization and Common Stock

The holdings of our two largest stockholders may enable them to influence matters requiring stockholder approval.

On March 19, 2004, Warburg Pincus, a global private equity firm agreed to purchase all outstanding shares of our stock held by Xerox Corporation for approximately \$80.0 million. Additionally, on May 9, 2005 and September 15, 2005 we sold shares of common stock, and warrants to purchase common stock to Warburg Pincus for aggregate gross proceeds of approximately \$75.1 million. As of September 30, 2007, Warburg Pincus beneficially owned approximately 21% of our outstanding common stock, including warrants exercisable for up to 7,066,538 shares of our common stock and 3,562,238 shares of our outstanding Series B Preferred Stock, each of which is convertible into one share of our common stock. Following the completion of this offering Warburg Pincus will beneficially own approximately 17.6% of our outstanding shares of common stock. Fidelity is our second largest stockholder, owning approximately 7.0% of our common stock. Because of their large holdings of our capital stock relative to other stockholders, each of these two stockholders acting individually, or together, have a strong influence over matters requiring approval by our stockholders.

The market price of our common stock has been and may continue to be subject to wide fluctuations, and this may make it difficult for you to resell the common stock when you want or at prices you find attractive.

Our stock price historically has been, and may continue to be, volatile. Various factors contribute to the volatility of the stock price, including, for example, quarterly variations in our financial results, new product introductions by us or our competitors and general economic and market conditions. Sales of a substantial number of shares of our common stock by our two largest stockholders, or the perception that such sales could occur, could also contribute to the volatility of our stock price. While we cannot predict the individual effect that these factors may have on the market price of our common stock, these factors, either individually or in the aggregate, could result in significant volatility in our stock price during any given period of time. Moreover, companies that have experienced volatility in the market price of their stock often are subject to securities class action litigation. If we were the subject of such litigation, it could result in substantial costs and divert management's attention and resources.

Compliance with changing regulation of corporate governance and public disclosure may result in additional expenses.

Changing laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002, new regulations promulgated by the Securities and Exchange Commission and the rules of The Nasdaq Global Select Market, are resulting in increased general and administrative expenses for companies such as ours. These new or changed laws, regulations and standards are subject to varying interpretations in many cases, and as a result, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies, which could result in higher costs necessitated by ongoing revisions to disclosure and governance practices. We are committed to maintaining high standards of corporate governance and public disclosure.

As a result, we intend to invest resources to comply with evolving laws, regulations and standards, and this investment may result in increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities. If our efforts to comply with new or

S-22

Table of Contents

changed laws, regulations and standards differ from the activities intended by regulatory or governing bodies, our business may be harmed.

We have implemented anti-takeover provisions, which could discourage or prevent a takeover, even if an acquisition would be beneficial to our stockholders.

Provisions of our certificate of incorporation, bylaws and Delaware law, as well as other organizational documents could make it more difficult for a third party to acquire us, even if doing so would be beneficial to our stockholders. These provisions include:

- authorized blank check preferred stock;
- prohibiting cumulative voting in the election of directors;
- limiting the ability of stockholders to call special meetings of stockholders;
- requiring all stockholder actions to be taken at meetings of our stockholders; and
- establishing advance notice requirements for nominations of directors and for stockholder proposals.

Risks Related to this Offering

We will have broad discretion over the use of the proceeds to us from this offering and may apply it to uses that do not improve our operating results or the value of your securities.

We have significant flexibility in applying the proceeds that we receive from this offering, and investors will be relying solely on the judgment of our board of directors and management regarding the application of these proceeds. Because the proceeds are not allocated to any specific purpose and/or investment or transaction, other than as set forth in this prospectus supplement under Use of Proceeds, investors will not have the opportunity, as part of their investment decision, to assess whether the proceeds are being used appropriately. Our use of the proceeds may not improve our operating results or increase the value of the securities being offered by us in this offering

Future sales of our common stock in the public market could adversely affect the trading price of our common stock and our ability to raise funds in new stock offerings.

Future sales of substantial amounts of our common stock in the public market, or the perception that such sales could occur, could adversely affect prevailing trading prices of our common stock and could impair our ability to raise capital through future offerings of equity or equity-related securities. In connection with past acquisitions, we issued a substantial number of shares of our common stock as transaction consideration. We may continue to issue equity securities for future acquisitions, which would dilute existing stockholders, perhaps significantly depending on the terms of such acquisitions. In addition, we recently registered for resale 7,309,417 shares of our common stock that were originally issued in connection with the acquisitions of Viecore, Vocada and Commissure. After giving effect to this offering and assuming Warburg Pincus sells 4,800,000 shares of our common stock in connection with this offering, Warburg Pincus will beneficially own approximately 17.6% of our outstanding common stock. Warburg Pincus has the right to request that we register their shares for public offering. No prediction can be made as to the effect, if any, that future sales of shares of common stock or the availability of shares of common stock for future sale, will have on the trading price of our common stock.

Table of Contents**USE OF PROCEEDS**

Based on our last reported stock price of \$21.82 per share on December 10, 2007, we estimate that our net proceeds from this offering will be approximately \$200.3 million, after deducting underwriting discounts and commissions and estimated offering expenses, or approximately \$223.9 million if the underwriters exercise their option to purchase additional shares in full. We intend to use approximately \$100 million of the net proceeds received by us from this offering to repay certain of our outstanding term loans under our existing credit agreement. The term loans bear interest at a rate equal to LIBOR plus 2.0% (7.13% as of September 30, 2007) and mature on March 31, 2013. The remainder of the net proceeds from this offering will be used for general corporate purposes, including working capital and to fund possible investments in and acquisitions of complementary businesses, partnerships, minority investments, products or technologies. We will not receive any proceeds from the sale of the common stock by the selling stockholders.

A \$1.00 increase (decrease) in the assumed public offering of \$21.82 per share would increase (decrease) the net proceeds to us from this offering by approximately \$9.2 million (or approximately \$10.3 million if the underwriters exercise their option to purchase additional shares in full), assuming the number of shares offered by us, as set forth on the cover page of this prospectus supplement, remains the same and after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.

PRICE RANGE OF OUR COMMON STOCK

Our common stock trades on the Nasdaq Global Select Market under the symbol NUAN. The following table sets forth, for our fiscal quarters indicated, the high and low sales prices of our common stock, in each case as reported on the Nasdaq Global Select Market.

	High	Low
2006		
First Quarter	\$ 7.89	\$ 4.60
Second Quarter	\$ 12.04	\$ 7.42
Third Quarter	\$ 13.48	\$ 7.37
Fourth Quarter	\$ 10.39	\$ 6.94
2007		
First Quarter	\$ 12.02	\$ 7.64
Second Quarter	\$ 16.63	\$ 11.00
Third Quarter	\$ 18.85	\$ 14.94
Fourth Quarter	\$ 20.24	\$ 14.81
2008		
First Quarter (through December 10, 2007)	\$ 22.56	\$ 18.04

The foregoing table shows only historical comparisons. These comparisons may not provide meaningful information to you in determining whether to purchase shares of our common stock. You are urged to obtain current market quotations for our common stock and to review carefully the other information contained in this prospectus supplement or incorporated by reference into the accompanying prospectus. See the section entitled "Where You Can Find More Information" on page S-38.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our common stock. We currently expect to retain future earnings, if any, to finance the growth and development of our business and do not anticipate paying any cash dividends in the foreseeable future. The terms of our credit facility place restrictions on our ability to pay dividends except for stock dividends.

S-24

Table of Contents**CAPITALIZATION**

The following table sets forth our capitalization as of September 30, 2007 on an actual basis and on an as adjusted basis to reflect the completion of this offering and the anticipated use of proceeds. This table should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and our financial statements and related notes thereto, which are incorporated by reference in this prospectus supplement.

	As of September 30, 2007	
	Actual	As Adjusted(1)
	(In thousands)	
Cash and cash equivalents	\$ 184,335	\$ 284,590
Current portion of long-term debt	7,003	7,003
Long-term debt (less current portion)		
Expanded 2006 Credit Facility	656,963	556,963
2.75% Convertible Debenture, net of \$7,366 discount	242,634	242,634
Stockholders' equity		
Preferred stock \$.001 par value, authorized 40,000,000 shares; 3,562,238 shares issued and outstanding, actual and as adjusted	4,631	4,631
Common stock \$.001 par value, authorized 560,000,000 shares; 196,368,445 shares issued and 193,178,708 shares outstanding, actual, 205,968,445 shares issued and 202,778,708 shares outstanding, as adjusted;	196	206
Additional paid-in capital	1,078,020	1,278,265
Accumulated other comprehensive income, net	14,979	14,979
Accumulated deficit	(204,141)	(204,141)
Treasury stock, at cost	(15,418)	(15,418)
Total stockholders' equity	878,267	1,078,522
Total long-term debt and stockholders' equity	\$ 1,777,864	\$ 1,878,119

(1) For purposes of the as adjusted column, we have assumed that our net proceeds from this offering, based on an assumed public offering price of \$21.82 per share, will be approximately \$200.3 million after deducting underwriting discounts and commissions and estimated offering expenses payable by us. A \$1.00 increase (decrease) in the assumed public offering price of \$21.82 per share would increase (decrease) each of cash and cash equivalents, additional paid-in capital, total stockholders' equity and total capitalization by approximately \$9.2 million, assuming the number of shares offered by us, as set forth on the cover page of this prospectus supplement, remains the same and after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.

For purposes of the table above, the number of shares of common stock outstanding is based on the number of shares outstanding as of September 30, 2007 and excludes:

Edgar Filing: Nuance Communications, Inc. - Form 424B5

18,240,722 shares of common stock issuable upon the exercise of options outstanding at September 30, 2007, at a weighted average exercise price of \$6.48 per share;

6,808,800 shares of common stock issuable upon the vesting of restricted stock units at September 30, 2007;

4,753,204 shares of common stock available for future issuance under our equity compensation plans at September 30, 2007;

7,840,918 shares of common stock issuable upon the exercise of warrants outstanding at September 30, 2007, at a weighted average exercise price of \$4.63 per share;

3,562,238 shares of Series B Preferred Stock that are convertible into common stock on a one-to-one basis;

5,939,686 shares of common stock issued in connection with acquisitions consummated after September 30, 2007; and

1,125,000 shares that may be sold by us if the underwriters exercise their option to purchase additional shares in full.

S-25

Table of Contents**SELLING STOCKHOLDERS**

The following table sets forth the name of the selling stockholders, the number of shares and percentage of our common stock beneficially owned by the selling stockholders as of September 30, 2007, the number of shares of common stock being sold in this offering and the number of shares to be beneficially owned by the selling stockholders after the completion of this offering, in each case assuming the underwriters do not exercise their option to purchase additional shares.

Name of Beneficial Owner	Shares Beneficially Owned Prior to Offering(1)		Number of Shares Offered	Shares Beneficially Owned After This Offering	
	Number	Percent of Class		Number	Percent of Class
Selling Stockholders:					
Warburg Pincus(2)	42,277,057	20.7%	4,800,000	37,477,057(3)	17.6%
Paul A. Ricci(4)	3,784,888	1.9	100,000	3,684,888	1.9
James R. Arnold(5)	423,958	*	98,000	325,958	*

Donald W. Hunt(8)	708,333	*	125,000	583,333	*
Robert N. Wise(9)	281,841	*	100,000	181,841	*

* Less than 1%

- (1) Beneficial ownership is a term broadly defined by the Securities and Exchange Commission in Rule 13d-3 under the Securities Exchange Act of 1934, and includes more than the typical form of stock ownership, that is, stock held in the person's name. The term also includes what is referred to as indirect ownership, meaning ownership of shares as to which a person has or shares investment power. As of any particular date, a person or group of persons is deemed to have beneficial ownership of any shares underlying convertible securities beneficially held by such person or group if the holder of such convertible securities has the right to convert such convertible securities into common stock as of such date or within 60 days after such date.
- (2) Includes 40,970,696 shares owned directly by Warburg Pincus Private Equity VIII, L.P. (WP VIII) and 1,306,361 shares owned by two affiliated partnerships, Warburg Pincus Netherlands Private Equity VIII, C.V.I (WPNPE) and WP-WPVIII Investors, L.P. (WP-WPVIII Investors). WP VIII, WPNPE and WP-WPVIII Investors are selling 4,651,686, 134,831 and 13,483 shares, respectively, in this offering. Warburg Pincus Partners LLC (WP Partners), a direct subsidiary of Warburg Pincus & Co. (WP), is the sole general partner of WP VIII. WP VIII is managed by Warburg Pincus LLC (WP LLC) and together with WP VIII, WPNPE, WP-WPVIII Investors, WP Partners and WP, the Warburg Pincus Entities). The total number of shares includes four Warrants that were exercisable, within sixty days of December 10, 2007, for up to 525,732, 2,500,000, 863,236 and 3,177,570 shares of our Common Stock, respectively, and 3,562,238 shares of nonvoting Series B Preferred Stock. The shares that underlie the Warrants and the Series B shares have not been converted into our Common Stock and are factored into the calculation of Warburg Pincus Entities beneficial ownership only for the purposes of this table. Charles R. Kaye and Joseph P. Landy are each Managing General Partners of WP and

Managing Members and Co-Presidents of WP LLC and may be deemed to control the Warburg Pincus Entities. Messrs. Kaye and Landy disclaim beneficial ownership of all shares held by the Warburg Pincus Entities.

- (3) If the underwriters exercise their option to purchase additional shares in full, the Warburg Pincus Entities will sell an additional 1,125,000 shares in this offering, and will beneficially own 36,352,057 shares, representing beneficial ownership of 16.9% of our outstanding stock.
- (4) Includes options to acquire 3,034,888 shares of our common stock that are exercisable within 60 days of September 30, 2007 and 375,000 unvested restricted stock units. Mr. Ricci, our Chairman and Chief Executive Officer, does not have voting rights with respect to the shares underlying the restricted stock units.

Table of Contents

- (5) Includes options to acquire 355,208 shares of our common stock that are exercisable within 60 days of September 30, 2007 and 68,750 unvested restricted stock units. Mr. Arnold, our Senior Vice President and Chief Financial Officer, does not have voting rights with respect to the shares underlying the restricted stock units.
- (6) Includes options to acquire 311,667 shares of our common stock that are exercisable within 60 days of September 30, 2007 and 200,000 unvested restricted stock units. Mr. Chambers, our President, Mobile and Consumer Services Division, does not have voting rights with respect to the shares underlying the restricted stock units.
- (7) Includes options to acquire 34,375 shares of our common stock that are exercisable within 60 days of September 30, 2007 and 15,598 unvested restricted stock units. Mr. Hebert, our Chief Accounting Officer, does not have voting rights with respect to the shares underlying the restricted stock units.
- (8) Includes options to acquire 108,333 shares of our common stock that are exercisable within 60 days of September 30, 2007 and 412,500 unvested restricted stock units. Mr. Hunt, our President, Global Sales, does not have voting rights with respect to the shares underlying the restricted stock units.
- (9) Includes options to acquire 70,833 shares of our common stock that are exercisable within 60 days of September 30, 2007 and 181,008 unvested restricted stock units. Mr. Wise, our President, Dictaphone Healthcare Division, does not have voting rights with respect to the shares underlying the restricted stock units.

Table of Contents

CERTAIN RELATIONSHIPS AND TRANSACTIONS

On March 19, 2004, Xerox Imaging Systems entered into a Securities Purchase Agreement by and among Warburg Pincus Private Equity VIII, L.P., and certain affiliated funds (collectively, Warburg Pincus), and, solely for purposes of certain sections of the agreement, us, pursuant to which Xerox Imaging Systems agreed to sell, transfer, assign and convey to Warburg Pincus 11,853,602 shares of our common stock, 3,562,238 shares of our Series B Preferred Stock, and a warrant that, as of March 15, 2004, was exercisable for up to 525,732 shares of our common stock, representing the entirety of Xerox's interest in our securities (the Xerox/Warburg Transaction). In conjunction with the Xerox/Warburg Transaction, we agreed to sell Warburg Pincus a warrant to purchase 2.5 million shares of our common stock.

On May 5, 2005, we entered into a Securities Purchase Agreement (the Securities Purchase Agreement) with Warburg Pincus pursuant to which Warburg Pincus agreed to purchase and we agreed to sell 3,537,736 shares of our common stock and warrants to purchase 863,236 shares of our common stock for an aggregate purchase price of \$15.1 million. The warrants have an exercise price of \$5.00 per share and a term of four years. On May 9, 2005, the sale of the shares and the warrants pursuant to the Securities Purchase Agreement was completed. On May 5, 2005, we also entered into a Stock Purchase Agreement (the Stock Purchase Agreement) with Warburg Pincus pursuant to which Warburg Pincus agreed to purchase and we agreed to sell 14,150,943 shares of our common stock and warrants to purchase 3,177,570 shares of our common stock for an aggregate purchase price of \$60.0 million. The warrants have an exercise price of \$5.00 per share and a term of four years. On September 15, 2005, the sale of the shares and the warrants pursuant to the Stock Purchase Agreement was completed.

In connection with the financings, we granted Warburg Pincus registration rights giving Warburg Pincus the right to request that we use commercially reasonable efforts to register some or all of the shares of common stock issued to Warburg Pincus under both the Securities Purchase Agreement and Stock Purchase Agreement, including shares of common stock underlying the warrants. In connection with the foregoing transactions, we and Warburg Pincus entered into an Amended and Restated Stockholders Agreement dated May 5, 2005 (the Amended and Restated Stockholders Agreement), which amended and restated the previous Stockholders Agreement dated March 19, 2004. The Amended and Restated Stockholders Agreement provides Warburg Pincus with the opportunity to designate two directors to the Board, until the later of (i) the date that Warburg Pincus shall cease to beneficially own at least 25,000,000 shares of our voting stock, or (ii) the date that Warburg Pincus's percentage beneficial ownership of our voting stock is less than the quotient of (x) two divided by (y) the then authorized number of directors of the Company. Messrs. Janeway and Harris, who are each members of the Board, are the designees of Warburg Pincus.

In addition, each of Paul A. Ricci, James R. Arnold, Steven G. Chambers, Steven E. Hebert, Donald W. Hunt and Robert N. Wise receive compensation and other benefits from Nuance in their capacity as officers. See the sections entitled *Executive Compensation* and *Certain Relationships and Related Transactions* in our annual report on Form 10-K/A, filed with the Securities and Exchange Commission on January 29, 2007, and the other information incorporated by reference in this prospectus supplement for a description of any material relationships between the selling stockholders and us.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

Our certificate of incorporation authorizes us to issue 560,000,000 shares of common stock, \$0.001 par value, and 40,000,000 shares of preferred stock, \$0.001 par value.

Common Stock

As of September 30, 2007, there were 193,178,708 shares of our common stock outstanding, excluding 3,189,737 shares of common stock issued and held by us in treasury.

The holders of our common stock are entitled to one vote per share on all matters to be voted upon by the stockholders. Subject to preferences that may be applicable to any outstanding preferred stock, the holders of our common stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by the board of directors out of funds legally available therefore. In the event of a liquidation, dissolution or winding up of the Company, the holders of our common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to prior rights of preferred stock, if any, then outstanding. Our common stock has no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions available to our common stock. The rights, preferences, and privileges of holders of our common stock are subject to, and may be adversely affected by, the rights of holders of shares of our preferred stock, as discussed below.

Preferred Stock

Our certificate of incorporation authorizes us to issue up to 40,000,000 shares of preferred stock, par value \$0.001 per share. We have designated 100,000 shares as Series A participating preferred stock and 15,000,000 shares as Series B preferred stock. The Series B preferred stock is convertible into shares of common stock on a one-for-one basis. The Series B preferred stock has a liquidation preference of \$1.30 per share plus all declared but unpaid dividends. The holders of Series B preferred stock are entitled to non-cumulative dividends at the rate of \$0.05 per annum per share, payable when, and if declared by the board of directors. To date, no dividends have been declared by the board of directors. Holders of Series B preferred stock have no voting rights, except those rights provided under Delaware law. We have reserved 3,562,238 shares of our common stock for issuance upon conversion of the Series B preferred stock. The undesignated shares of preferred stock will have rights, preferences, privileges and restrictions, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences, as shall be determined by our board of directors upon issuance of the preferred stock.

Our right to issue shares of preferred stock may have the effect of delaying, deferring or preventing a change in control of the Company without further action by the stockholders. Additionally, the issuance of preferred stock may adversely affect the rights of the holders of common stock as follows:

Dividends. Our preferred stock is entitled to receive dividends out of any legally available assets, when and if declared by our board of directors and prior and in preference to any declaration or payment of any dividend on the common stock. In addition, after the first issuance of the Series A participating preferred stock, we cannot declare a dividend or make any distribution on the common stock unless we concurrently declare a dividend on such Series A participating preferred stock. Moreover, we cannot pay dividends or make any distribution on the common stock as long as dividends payable to the Series A participating preferred stock are in arrears. With respect to the Series B preferred stock, we cannot declare a dividend or make any distribution on the common stock unless full dividends on the Series B preferred stock have been paid or declared and the sum sufficient for the payment set apart.

Voting Rights. Each share of Series A participating preferred stock entitles its holder to 1,000 votes on all matters submitted to a vote of our stockholders. In addition, the Series A participating preferred stock and the common stock holders vote together as one class on all matters submitted to a vote of our stockholders. The holders of Series B preferred stock are not entitled to vote on any matter (except as provided in Delaware law in connection with amendments to our certificate of incorporation that, among other things, would alter or

S-29

Table of Contents

change the rights and preferences of the class, in which case each share of Series B preferred stock would be entitled to one vote). However, the Series B preferred stock is convertible into common stock, and as a result, may dilute the voting power of the common stock.

Liquidation, Dissolution or Winding Up. The preferred stock is entitled to certain liquidation preferences upon the occurrence of a liquidation, dissolution or winding up of the Company. If there are insufficient assets or funds to permit this preferential amount, then our entire assets and all of our funds legally available for distribution will be distributed ratably among the preferred stockholders. The remaining assets, if any, will be distributed to the common stockholders on a pro rata basis.

Preemptive Rights. Our Series A participating preferred stock and Series B preferred stock do not have any preemptive rights.

Options, Restricted Stock and Warrants

As of September 30, 2007, 25,049,522 shares of our common stock were reserved for issuance upon exercise of outstanding restricted stock units and options to purchase shares of our common stock and 4,753,204 shares of our common stock remain available for future issuance pursuant to our equity compensation plans. As of September 30, 2007, there were warrants outstanding to purchase an aggregate of 7,840,918 shares of our common stock at a weighted average exercise price of \$4.63 per share. Conversion of any or all of these options or warrants into shares of our common stock will result in dilution to other holders of our common stock.

Anti-Takeover Provisions

Certain provisions of Delaware law and our certificate of incorporation and bylaws could make the acquisition of the Company by means of a tender offer, or the acquisition of control of the Company by means of a proxy contest or otherwise more difficult. These provisions, summarized below, are intended to discourage certain types of coercive takeover practices and inadequate takeover bids, and are designed to encourage persons seeking to acquire control of us to negotiate with our board of directors. We believe that the benefits of increased protection against an unfriendly or unsolicited proposal to acquire or restructure the Company outweigh the disadvantages of discouraging such proposals. Among other things, negotiation of such proposals could result in an improvement of their terms.

Delaware Anti-Takeover Law. We are subject to Section 203 of the Delaware General Corporation Law, an anti-takeover law. In general, Section 203 prohibits a publicly-held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years following the date the person became an interested stockholder, unless the business combination or the transaction in which the person became an interested stockholder is approved by our board of directors in a prescribed manner. Generally, a business combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. Generally, an interested stockholder is a person who, together with affiliates and associates, owns or, within three years prior to the determination of interested stockholder status, did own, 15% or more of a corporation's voting stock. The existence of this provision may have an anti-takeover effect with respect to transactions not approved in advance by the board of directors, including discouraging attempts that might result in a premium over the market price for the shares of common stock held by stockholders.

Other Provisions in our certificate of incorporation and bylaws. Our certificate of incorporation and bylaws provide other mechanisms that may help to delay, defer or prevent a change in control. For example, our certificate of incorporation provides that stockholders may not take action by written consent without a meeting, but must take any action at a duly called annual or special meeting. This provision makes it more difficult for stockholders to take actions opposed by our board of directors.

Our certificate of incorporation does not provide for cumulative voting in the election of directors. Cumulative voting provides for a minority stockholder to vote a portion or all of its shares for one or more candidates for seats on

S-30

Table of Contents

the board of directors. Without cumulative voting, a minority stockholder will not be able to gain as many seats on our board of directors based on the number of shares of our stock that such stockholder holds than if cumulative voting were permitted. The elimination of cumulative voting makes it more difficult for a minority stockholder to gain a seat on our board of directors to influence the board of directors' decision regarding a takeover.

Under our certificate of incorporation, 24,900,000 shares of preferred stock remain undesignated. The authorization of undesignated preferred stock makes it possible for the board of directors, without stockholder approval, to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to obtain control of the Company.

Our bylaws contain advance notice procedures that apply to stockholder proposals and the nomination of candidates for election as directors by stockholders other than nominations made pursuant to the notice given by us with respect to such meetings or nominations made by or at the direction of the board of directors.

Lastly, our bylaws eliminate the right of stockholders to act by written consent without a meeting.

These and other provisions may have the effect of deferring hostile takeovers or delaying changes in control or management of the Company.

Transfer Agent and Registrar

Our transfer agent and registrar for common stock is Computershare.

Table of Contents

CERTAIN MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following is a summary of certain material United States federal income and estate tax consequences of the acquisition, ownership and disposition of our common stock by a beneficial owner that is a non-U.S. holder, as further defined below. This summary is based upon current provisions of the United States Internal Revenue Code, Treasury regulations promulgated thereunder, judicial opinions, administrative rulings of the United States Internal Revenue Service, or IRS, and other applicable authorities, all as in effect as of the date hereof. These authorities may be changed, possibly with retroactive effect, thereby resulting in United States federal tax consequences that differ from those set forth below. We have not sought, and will not seek, any ruling from the IRS or opinion of counsel with respect to the statements made in the following summary, and there can be no assurance that the IRS will not take a position contrary to such statements or that any such contrary position taken by the IRS would not be sustained.

This summary is limited to non-U.S. holders who hold our common stock as a capital asset (generally, property held for investment). This summary also does not address the tax considerations arising under the laws of any foreign, state or local jurisdiction, or under United States federal estate or gift tax laws (except as specifically described below). In addition, this summary does not address all aspects of United States federal tax considerations that may be applicable to an investor's particular circumstances.

A non-U.S. holder is a person or entity that, for U.S. federal income tax purposes, is a:

non-resident alien individual, other than certain former citizens and residents of the United States subject to United States taxation as expatriates,

foreign corporation, or

foreign estate or trust.

A non-U.S. holder does not include an individual who is present in the United States for 183 days or more in the taxable year of disposition and is not otherwise a resident of the United States for United States federal income tax purposes. Such an individual should consult his or her own tax advisors regarding the U.S. federal income tax consequences of the sale, exchange or other disposition of common stock.

If a partnership holds our common stock, the United States federal income tax treatment of a partner in the partnership generally will depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our common stock, you should consult your own tax advisors regarding the United States federal income tax consequences to you of the acquisition, ownership and disposition of our common stock.

PROSPECTIVE NON-U.S. INVESTORS SHOULD CONSULT THEIR OWN TAX ADVISORS REGARDING THE UNITED STATES FEDERAL, STATE, LOCAL AND NON-UNITED STATES INCOME AND OTHER TAX CONSIDERATIONS WITH RESPECT TO ACQUIRING, HOLDING AND DISPOSING OF SHARES OF OUR COMMON STOCK.

Dividends

If distributions are paid on shares of our common stock, such distributions will constitute dividends for United States federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under United States federal income tax principles, and any excess will constitute a return of capital that is applied against and reduces your adjusted tax basis in our common stock and any remainder will constitute gain on the

common stock. Dividends paid to a non-U.S. holder generally will be subject to withholding of United States federal income tax at the rate of 30% or such lower rate as may be specified by an applicable income tax treaty. If, however, the dividend is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States, or, if an income tax treaty applies, attributable to a U.S. permanent establishment maintained by such non-U.S. holder, the dividend will not be subject to any withholding tax (provided certain certification requirements are met, as described below) but will be subject to United States federal income tax imposed on net income on the same basis that applies to U.S. persons, generally, and, for corporate holders under certain circumstances, the branch profits tax imposed at a rate of 30% (or a lower treaty rate if applicable).

S-32

Table of Contents

In order to claim the benefit of an income tax treaty or to claim exemption from withholding because the income is effectively connected with the conduct of a trade or business in the United States, a non-U.S. holder must provide a properly executed IRS Form W-8BEN to claim the benefit of an income tax treaty or IRS Form W-8ECI for effectively connected income (or such successor forms as the IRS designates) prior to the payment of dividends. These forms must be periodically updated. Non-U.S. holders generally may obtain a refund from the IRS of any excess amounts withheld by timely filing an appropriate claim for refund.

Gain on Disposition

A non-U.S. holder generally will not be subject to United States federal income tax, including by way of withholding, on gain recognized on a sale or other disposition of our common stock unless:

the gain is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States, or, if an income tax treaty applies, is attributable to a U.S. permanent establishment maintained by such non-U.S. holder; or

our common stock constitutes a United States real property interest by reason of our status as a United States real property holding corporation, or USRPHC, for United States federal income tax purposes at any time during the shorter of (i) the period during which you hold our common stock or (ii) the five-year period ending on the date you dispose of our common stock.

We believe that we are not currently and will not become a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our United States real property interests relative to the fair market value of our other business assets, there can be no assurance that we will not become a USRPHC in the future. Even if we were treated as a USRPHC, as long as our common stock is regularly traded on an established securities market and has not ceased to be so traded prior to the beginning of the calendar year in which the sale or disposition occurs, such common stock generally will not be treated as United States real property interests. However, the preceding rule will not apply if the non-U.S. holder owned, actually or constructively, at some time during the shorter of the periods described above, more than 5% of our common stock.

United States Federal Estate Taxes

Our common stock owned or treated as owned by an individual who at the time of death is a non-U.S. holder will be included in his or her estate and be treated as United States situs property subject to United States federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

Information Reporting and Backup Withholding

Information returns will be filed with the IRS in connection with payments of dividends and the proceeds from a sale or other disposition of common stock. You may be required to comply with certification procedures to establish that you are not a United States person in order to avoid information reporting and backup withholding tax requirements. The certification procedures required to claim a reduced rate of withholding under an income tax treaty will satisfy the certification requirements necessary to avoid the backup withholding tax as well. The amount of any backup withholding from a payment to you will be allowed as a credit against your United States federal income tax liability and may entitle you to a refund, provided that the required information is furnished to the IRS.

Table of Contents**UNDERWRITING**

Citigroup Global Markets Inc. (Citi) and Goldman, Sachs & Co. are acting as joint book-running managers of the offering and as representatives of the underwriters named below. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, each underwriter named below has agreed to purchase, and we and the selling stockholders have agreed to sell to that underwriter, the number of shares set forth opposite the underwriter's name.

Underwriters	Number of Shares
Citigroup Global Markets Inc.	
Goldman, Sachs & Co.	
Lehman Brothers Inc.	
Thomas Weisel Partners LLC	
Craig-Hallum Capital Group	
Needham & Company, LLC	
Raymond James & Associates, Inc.	
Total	15,000,000

The underwriting agreement provides that the obligations of the underwriters to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the shares (other than those covered by the over-allotment option described below) if they purchase any of the shares.

The underwriters propose to offer some of the shares directly to the public at the public offering price set forth on the cover page of this prospectus and some of the shares to dealers at the public offering price less a concession not to exceed \$ per share. If all of the shares are not sold at the initial offering price, the representatives may change the public offering price and the other selling terms.

To the extent the underwriters sell more than 15,000,000 shares of common stock, the underwriters have an option, exercisable for 30 days from the date of this prospectus, to purchase up to an aggregate of 2,250,000 shares of common stock from us and certain selling stockholders at the public offering price less the underwriting discount, consisting of 1,125,000 shares to be sold by us and 1,125,000 shares to be sold by certain selling stockholders. To the extent the option is exercised, each underwriter must purchase a number of additional shares approximately proportionate to that underwriter's initial purchase commitment, and the number of additional shares sold by us and the selling stockholders shall be approximately proportionate to the total number of additional shares that we and the selling stockholders have agreed to sell.

We, our executive officers and directors and the selling stockholders have agreed, subject to certain exceptions, that we and they will not offer, sell, contract to sell, pledge, hedge or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act (or a prospectus supplement relating to any existing registration statement) relating to any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose our intention to make any offer, sale, pledge, hedge, disposition or filing, without the prior written consent of Citi and Goldman, Sachs & Co., for a period of

90 days from the date of this prospectus. If we release earnings results or announce material news during the last 17 days of the applicable lock-up period, including the lock-up period discussed below, or if prior to the expiration of the applicable lock-up period we announce that we will release earnings during the 15-day period following the last day of the applicable lock-up period, then the applicable lock-up period will automatically be extended until the end of the 18-day period beginning with the earnings release or material news announcement. Citi and Goldman, Sachs & Co. in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

Notwithstanding the foregoing, the underwriters have agreed that we may (i) issue and sell capital stock or securities convertible into or exchangeable for capital stock pursuant to any employee stock option plan, stock

S-34

Table of Contents

ownership plan or dividend reinvestment plan in effect on the date hereof that is described in the registration statement, (ii) issue capital stock issuable upon the conversion of securities outstanding on the date hereof or the exercise of warrants outstanding on the date hereof and described in the registration statement and (iii) offer, sell, contract to sell, otherwise dispose of, directly or indirectly, or file with the SEC a registration statement (or prospectus supplement relating to any existing registration statement) in respect of, shares of capital stock in connection with an acquisition (whether through merger, share purchase, share exchange or otherwise) of a company, division, business or assets or strategic transactions (a) in an amount not to exceed \$75 million, (b) in an amount not to exceed an additional \$75 million, *provided*, that such additional shares are subject to the same restrictions as those contained in the lockup applicable to us for a period equal to the lesser of 45 days from the issuance of such shares and the remainder of the 90-day restricted period applicable to us, and (c) in an amount not to exceed an additional \$150 million, *provided* that such additional shares are subject to the same restrictions as those contained in the lock-up applicable to us for the remainder of the 90-day restricted period applicable to us, and *provided further*, that in the case of clauses (a), (b) and (c), the amount of such shares is calculated as of the date of the relevant acquisition agreement. In addition, notwithstanding the lock-up agreements applicable to our directors, executive officers and the selling shareholders, the underwriters have agreed that such directors, executive officers and selling stockholders may, subject to certain restrictions, (1) make transfers as a bona fide gift or gifts or pledge, (2) make transfers either during their lifetime or on death by will or intestacy to their immediate family or to a trust, (3) make transfers to an affiliate, (4) make transfers of shares acquired in the open market on or after the date of the purchase agreement, (5) make transfers pursuant to an acquisition resulting in the exchange of our outstanding shares for securities or consideration issued, or caused to be issued, by the acquiring person, group of affiliated persons or entity, (6) sell shares of capital stock pursuant to an existing trading plan that complies with Rule 10b5-1 under the Exchange Act, (7) establish a trading plan that complies with Rule 10b5-1 under the Exchange Act or (8) dispose of shares of restricted stock to us to satisfy tax withholding obligations or upon termination of employment with us.

We have agreed to indemnify the underwriters against liabilities or to contribute to payments which they may be required to make in that respect.

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a relevant member state), with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the relevant implementation date), an offer of shares described in this prospectus may not be made to the public in that relevant member state prior to the publication of a prospectus in relation to the shares that has been approved by the competent authority in that relevant member state or, where appropriate, approved in another relevant member state and notified to the competent authority in that relevant member state, all in accordance with the Prospectus Directive, except that, with effect from and including the relevant implementation date, an offer of securities may be offered to the public in that relevant member state at any time:

to any legal entity that is authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities or

to any legal entity that has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts or

in any other circumstances that do not require the publication of a prospectus pursuant to Article 3 of the Prospectus Directive or

to fewer than 100 natural or legal person (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer.

Each purchaser of shares described in this prospectus located within a relevant member state will be deemed to have represented, acknowledged and agreed that it is a qualified investor within the meaning of Article 2(1)(e) of the Prospectus Directive.

For purposes of this provision, the expression an offer to the public in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe the securities, as the expression may be

S-35

Table of Contents

varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each relevant member state.

The sellers of the shares have not authorized and do not authorize the making of any offer of shares through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the shares as contemplated in this prospectus. Accordingly, no purchaser of the shares, other than the underwriters, is authorized to make any further offer of the shares on behalf of the sellers or the underwriters.

This prospectus is only being distributed to, and is only directed at, persons in the United Kingdom that are qualified investors within the meaning of Article 2(1)(e) of the Prospectus Directive (Qualified Investors) that are also (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the Order) or (ii) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as relevant persons). This prospectus and its contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other persons in the United Kingdom. Any person in the United Kingdom that is not a relevant persons should not act or rely on this document or any of its contents.

The shares may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap.571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), and no advertisement, invitation or document relating to the shares may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

The shares have not been and will not be registered under the Securities and Exchange Law of Japan (the Securities and Exchange Law) and each representative has agreed that it will not offer or sell any shares, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SEA.

Where the shares are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of

which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the shares under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transferor; (3) by operation of law.

S-36

Table of Contents

Our common stock is quoted on the Nasdaq Global Select Market under the symbol NUAN.

The following table shows the underwriting discounts and commissions that we and the selling stockholders are to pay to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares of common stock.

	Paid by Us		Paid by Selling Stockholders	
	No Exercise	Full Exercise	No Exercise	Full Exercise
Per share	\$	\$	\$	\$
Total				

In connection with the offering, Citi and Goldman, Sachs & Co, on behalf of the underwriters, may purchase and sell shares of common stock in the open market. These transactions may include short sales, syndicate covering transactions and stabilizing transactions. Short sales involve syndicate sales of common stock in excess of the number of shares to be purchased by the underwriters in the offering, which creates a syndicate short position. Covered short sales are sales of shares made in an amount up to the number of shares represented by the underwriters' over-allotment option. In determining the source of shares to close out the covered syndicate short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. Transactions to close out the covered syndicate short involve either purchases of the common stock in the open market after the distribution has been completed or the exercise of the over-allotment option. The underwriters may also make naked short sales of shares in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing shares of common stock in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of bids for or purchases of shares in the open market while the offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when Citi and Goldman, Sachs & Co. repurchase shares originally sold by that syndicate member in order to cover syndicate short positions or make stabilizing purchases.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the common stock. They may also cause the price of the common stock to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions on the Nasdaq Global Select Market or in the over-the-counter market, or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

In addition, in connection with this offering, some of the underwriters (and selling group members) may engage in passive market making transactions in the common stock on the Nasdaq Global Select Market, prior to the pricing and completion of the offering. Passive market making consists of displaying bids on the Nasdaq Global Select Market no higher than the bid prices of independent market makers and making purchases at prices no higher than those independent bids and effected in response to order flow. Net purchases by a passive market maker on each day are limited to a specified percentage of the passive market maker's average daily trading volume in the common stock during a specified period and must be discontinued when that limit is reached. Passive market making may cause the price of the common stock to be higher than the price that otherwise would exist in the open market in the absence of

those transactions. If the underwriters commence passive market making transactions, they may discontinue them at any time.

We estimate that our portion of the total expenses of this offering will be \$1.1 million.

The underwriters have performed investment banking and advisory services for us from time to time for which they have received customary fees and expenses. The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business. In addition, certain of the underwriters or their affiliates are agents and lenders under our credit agreement. Since more than 10% of the proceeds of this offering will be paid to affiliates of the underwriters to repay loans extended under our credit agreements, this offering will be made in compliance with the applicable provisions of Rule 2720 of the NASD Conduct Rules.

A prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters. The representatives may agree to allocate a number of shares to underwriters for sale to their online

Table of Contents

brokerage account holders. The representatives will allocate shares to underwriters that may make Internet distributions on the same basis as other allocations. In addition, shares may be sold by the underwriters to securities dealers who resell shares to online brokerage account holders.

We and the selling stockholders have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

We expect that the delivery of the shares will be made against payment therefor on or about the settlement date specified on the cover page of this prospectus supplement, which will be the second business day following the date of the pricing of the shares or T+2.

LEGAL MATTERS

The validity of the shares of our common stock offered by this prospectus supplement will be passed upon for us by Wilson Sonsini Goodrich & Rosati, Professional Corporation, Palo Alto, California. Certain legal matters in connection with this offering will be passed upon for the underwriters by Davis Polk & Wardwell, New York, New York. Certain legal matters in connection with this offering will be passed upon for the management selling stockholders by Wilson Sonsini Goodrich & Rosati, Professional Corporation, Palo Alto, California, and for the Warburg Pincus selling stockholders by Willkie Farr & Gallagher LLP, New York, New York.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission (the SEC or the Commission). You may read and copy any materials we file at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-888-SEC-0330. Copies of these materials can also be obtained by mail at prescribed rates from the Public Reference Section of the SEC, 100 F Street N.E., Washington, D.C. 20549. The SEC also maintains a website at www.sec.gov that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

Our SEC filings are also available to the public from our website at www.nuance.com. Information on our website is not incorporated by reference in and is not otherwise intended to be part of this prospectus supplement. You may also obtain these documents by requesting them in writing or by telephone from us at:

PROSPECTUS

**Debt Securities
Common Stock
Preferred Stock
Depository Shares
Warrants
Subscription Rights**

We, or selling security holders under this prospectus, may offer from time to time debt securities, common stock, preferred stock, depository shares, warrants, or subscription rights. The debt securities, preferred stock, warrants and subscription rights may be convertible into or exercisable or exchangeable for common or preferred stock or other securities of our company or debt or equity securities of one or more other entities. We will provide the specific terms of any offering and the offered securities in supplements to this prospectus. You should read this prospectus and any supplement carefully before you invest.

We, or selling security holders, may offer and sell these securities to or through one or more underwriters, dealers and agents, or directly to purchasers, on an immediate, continuous or delayed basis. The names of any underwriters will be stated in the applicable prospectus supplement.

This prospectus may not be used to sell securities unless accompanied by a prospectus supplement which will describe the method and terms of the related offering.

Investing in these securities involves certain risks. See Item 1A Risk Factors beginning on page 9 of our annual report on Form 10-K for the fiscal year ended September 30, 2007, which is incorporated by reference herein.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

This prospectus is dated November 29, 2007.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement on Form S-3 that we filed with the Securities and Exchange Commission, or the SEC, using a shelf registration process. Under this shelf process, we may sell any combination of the securities described in this prospectus in one or more offerings.

This prospectus provides you with a general description of the securities offered by us. Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add to, update or change information contained in the prospectus and, accordingly, to the extent inconsistent, information in this prospectus is superseded by the information in the prospectus supplement.

The prospectus supplement to be attached to the front of this prospectus may describe, as applicable, the terms of the securities offered, the initial public offering price, the price paid for the securities, net proceeds and the other specific terms related to the offering of these securities.

You should only rely on the information contained or incorporated by reference in this prospectus and/or any prospectus supplement. We have not authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making offers to sell these securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information in this prospectus or any prospectus supplement is accurate as of any date other than the date on the cover of the applicable document and that any information we have incorporated by reference is accurate only as of the date of the document incorporated by reference. Our business, financial condition, results of operations and prospects may have changed since that date.

In this prospectus, unless we state otherwise, the Company, we, us, our and Nuance refer to Nuance Communications, Inc. and its consolidated subsidiaries.

THE COMPANY

Nuance Communications, Inc. is a leading provider of speech and imaging solutions for businesses and consumers worldwide. Our technologies, applications and solutions are transforming the way people create, use and interact with information, content and services and are designed to make the end user experience more compelling, convenient and satisfying.

Nuance was incorporated in 1992 as Visioneer, Inc. In 1999, we changed our name to ScanSoft, Inc. and also changed our ticker symbol to SSFT. In October 2004, we changed our fiscal year end to September 30, resulting in a nine-month fiscal year for 2004. In October 2005, we changed our name to Nuance Communications, Inc., to reflect our core mission of being the world's most comprehensive and innovative provider of speech solutions, and in November 2005 we changed our ticker symbol to NUAN. Our corporate headquarters and executive offices are located at 1 Wayside Road, Burlington, Massachusetts 01803. Our telephone number is 781-565-5000.

Table of Contents

FORWARD LOOKING STATEMENTS

This prospectus and the documents incorporated by reference in this prospectus contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties, as well as assumptions, that, if they never materialize or prove incorrect, could cause our results and the results of our consolidated subsidiaries to differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements generally are identified by the words expects, anticipates, believes, intends, estimates, should, would, strategy, plan and similar expressions. All statements other than statements of historical fact are statements that could be deemed forward-looking statements. For example, forward-looking statements include:

projections of earnings, revenues, synergies or other financial items;

any statements of the plans, strategies and objectives of management for future operations, including the execution of integration and restructuring plans and the anticipated timing of filings, approvals relating to, and the closing of, pending acquisitions;

any statements concerning proposed new products, services, developments or industry rankings;

any statements regarding future economic conditions or performance;

statements of belief; and

any statement of assumptions underlying any of the foregoing.

The risks, uncertainties and assumptions referred to above include the difficulty of managing expense growth while increasing revenues; the challenges of integration and restructuring associated with recent and pending acquisitions and the challenges of achieving the anticipated synergies; and the other risks and uncertainties described under Item 1A Risk Factors in our annual report on Form 10-K for the fiscal year ended September 30, 2007, which is incorporated by reference herein.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, actual results may vary materially from those expected, estimated or projected. In addition to other factors that affect our operating results and financial position, neither past financial performance nor our expectations should be considered reliable indicators of future performance. Investors should not use historical trends to anticipate results or trends in future periods. Further, our stock price is subject to volatility. Any of the factors discussed above could have an adverse impact on our stock price. In addition, failure of sales or income in any quarter to meet the investment community's expectations, as well as broader market trends, could have an adverse impact on our stock price. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law, you are advised to consult any additional disclosures we make in our quarterly reports on Form 10-Q, annual report on Form 10-K and current reports on Form 8-K filed with the Securities and Exchange Commission. See Where You Can Find More Information.

USE OF PROCEEDS

Unless otherwise indicated in the applicable prospectus supplement, we intend to use the net proceeds from this offering for general corporate purposes, including working capital, to repay indebtedness and to fund possible investments in and acquisitions of complimentary businesses, partnerships, minority investments, products or technologies. Unless otherwise specified in the applicable prospectus supplement, we will not receive any proceeds

from the sale of securities by selling security holders.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

	Fiscal Year Ended			Nine Months Ended	Fiscal Year Ended
	September 30, 2007	September 30, 2006	September 30, 2005	September 30, 2004	December 31, 2003
Ratio of earnings to fixed charges(1)(2)	1.2x		1.3x		

- (1) The ratio of earnings to fixed charges is calculated by dividing (a) earnings before income taxes, adjusted for fixed charges, by (b) fixed charges. Fixed charges include interest expense under operating leases deemed to be a reasonable approximation of the interest factor.
- (2) For the fiscal year ended September 30, 2006, the nine months ended September 30, 2004 and the fiscal year ended December 31, 2003, income before income taxes was insufficient to cover the fixed charges by approximately \$12.9 million, \$6.4 million and \$3.7 million, respectively.

DESCRIPTION OF THE SECURITIES

We may issue from time to time, in one or more offerings, the following securities:

- debt securities, which may be senior or subordinated, and which may be convertible into our common stock or be non-convertible;
- shares of common stock;
- shares of preferred stock;
- depository shares;
- warrants exercisable for debt securities, common stock or preferred stock; and
- subscription rights.

We will set forth in the applicable prospectus supplement a description of the debt securities, preferred stock, depository shares, warrants and/or subscription rights that may be offered under this prospectus. The terms of the offering of securities, the initial offering price and the net proceeds to us will be contained in the applicable prospectus supplement, and other offering material, relating to such offer.

DESCRIPTION OF THE DEBT SECURITIES

This section describes the general terms and provisions of any debt securities that we may offer in the future. A prospectus supplement relating to a particular series of debt securities will describe the material terms of that particular series and to the extent to which the general terms and provisions contained herein apply to that particular series.

Senior debt securities and subordinated debt securities may be issued in one or more series under one or more indentures without limitation as to aggregate principal amount. We may specify a maximum aggregate principal amount for the debt securities of any series. We are not limited as to the amount of debt securities we may issue under an indenture. Unless otherwise provided in a prospectus supplement, a series of debt securities may be reopened for issuance of additional debt securities of such series.

Events of Default

The indenture will, unless otherwise provided, define an event of default with respect to any series of debt securities as one or more of the following events:

failure to pay principal of or any premium on any debt security of that series when due;

failure to pay any interest on any debt security of that series for 30 days when due;

failure to make any sinking fund payment for 30 days when due;

Table of Contents

failure to perform any other covenant in the indenture if that failure continues for 90 days after we are given the notice required in the indenture;

our bankruptcy, insolvency or reorganization; and

any other event of default specified in the prospectus supplement.

An event of default of one series of debt securities is not necessarily an event of default for any other series of debt securities.

If an event of default, other than an event of default relating to our bankruptcy, insolvency or reorganization, shall occur and be continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the outstanding securities of that series may declare the principal amount of the debt securities of that series to be due and payable immediately. If an event of default relating to our bankruptcy, insolvency or reorganization shall occur, the principal amount of all the debt securities of that series will automatically become immediately due and payable.

After acceleration of the principal amount of the debt securities, the holders of a majority in aggregate principal amount of the outstanding securities of that series, under certain circumstances, may rescind and annul such acceleration if all events of default, other than the non-payment of accelerated principal, or other specified amount, have been cured or waived.

If a default or event of default has occurred and the trustee has received notice of the default or event of default in accordance with the indenture, the trustee must give to the registered holders a notice of the default or event of default within 90 days after receipt of the notice. However, the trustee need not mail the notice if the default or event of default (a) has been cured or waived, or (b) is not in the payment of any amounts due with respect to any security and the trustee in good faith determines that withholding the notice is in the best interests of holders. In addition, the trustee shall give the holders of securities of such series notice of such default or event of default actually known to it as and to the extent provided by the Trust Indenture Act.

Satisfaction and Discharge

We may be discharged from our obligations on the debt securities of any series if we deposit enough cash or U.S. government obligations with the trustee to pay all of the principal, interest and any premium due to the stated maturity date or redemption date of the debt securities and satisfy certain other conditions precedent. We may be so discharged only if (i) all of the securities of such series have been delivered to the trustee for cancellation (subject to certain exceptions) or (ii) all such securities not theretofore delivered to the trustee for cancellation have become due and payable, or will become due and payable at their stated maturity within one year, or if redeemable at our option, are to be called for redemption within one year under arrangements satisfactory to the trustee for the giving of notice of redemption by the trustee in our name and at our expense.

Upon such satisfaction and discharge of the indenture with respect to any series of securities, the indenture shall cease to be of further effect with respect to such series of securities, except as to any surviving rights of registration of transfer or exchange of securities expressly provided for in the indenture or any other surviving rights expressly provided for in a supplemental indenture for a series of securities.

Compliance Certificates and Opinions

Upon any application or request by us to the trustee to take any action under any provision of the indenture, we will furnish to the trustee such certificates and opinions as may be required under the Trust Indenture Act.

Table of Contents

SELLING SECURITY HOLDERS

Selling security holders may use this prospectus in connection with resales of securities. The applicable prospectus supplement, post-effective amendment or other filings we make with the SEC under the Securities Exchange Act of 1934, as amended, will identify the selling security holders, the terms of the securities and the transaction in which the selling security holders acquired the securities. Selling security holders may be deemed to be underwriters in connection with the securities they resell and any profits on the sales may be deemed to be underwriting discounts and commission under the Securities Act of 1933, as amended. Unless otherwise specified in the applicable prospectus supplement, we will not receive any proceeds from the sale of securities by selling security holders.

PLAN OF DISTRIBUTION

We, or any selling security holders, may sell the offered securities through agents, underwriters or dealers, or directly to one or more purchasers, or through a combination of these methods of sale. We will identify the specific plan of distribution, including any agents, underwriters, dealers or direct purchasers, and any compensation paid in connection therewith, in the applicable prospectus supplement.

LEGAL MATTERS

Unless otherwise specified in a prospectus supplement accompanying this prospectus, Wilson Sonsini Goodrich & Rosati, Professional Corporation, Palo Alto, California will pass upon the validity of the issuance of the securities offered by any prospectus supplement for us.

INCORPORATION BY REFERENCE

The SEC allows us to incorporate by reference into this prospectus the information we filed with it. This means that we can disclose important information by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus. Information that we file later with the SEC will automatically update and supersede this information. We incorporate by reference the documents listed below (other than any portions of such documents that are not deemed filed under the Exchange Act in accordance with the Exchange Act and applicable SEC rules) and any future filings made by us with the SEC (other than any portions of such documents that are not deemed filed under the Exchange Act in accordance with the Exchange Act and applicable SEC rules) under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act until the completion of the offering in the relevant prospectus supplement to which this prospectus relates or this offering is terminated:

1. Our Annual Report on Form 10-K for the fiscal year ended September 30, 2007, filed on November 29, 2007;
2. Our Annual Report on Form 10-K/A for the fiscal year ended September 30, 2006, filed on January 29, 2007 (but only with respect to Items 10, 11, 12, 13, and 14 of such report);
3. Our Current Reports on Form 8-K filed on November 29, 2007, November 13, 2007, October 25, 2007, October 22, 2007, October 4, 2007 (as amended on November 29, 2007), October 2, 2007, August 30, 2007, March 28, 2007 (as amended on April 17, 2007), December 19, 2006 (as amended December 27, 2006), December 11, 2006, November 8, 2006, March 31, 2006 (as amended June 2, 2006), September 16, 2005 and February 7, 2005 (as amended April 18, 2005); and
4. The description of our common stock contained in the registration statement on Form 8-A, filed with the SEC on October 20, 1995, and any amendment or report filed for the purpose of updating such description.
