Past performance is no guarantee of future results. Investment return, common share market price and net asset value will fluctuate and trust shares, when sold, may be worth more or less than their original cost.

As a result of recent market activity, current performance may vary from the figures shown. For more up-to-date information, please visit vankampen.com or speak with your financial advisor. Total return assumes an investment at the common share market price at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period. Distribution rate represents the monthly annualized distributions of the trust at the end of the period and not the earnings of the trust.

The Chase High Yield Index is generally representative of high-yield securities. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment.

Trust Report

FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2003

Van Kampen High Income Trust II is managed by the Adviser's High Yield team. Current members include Gordon Loery, Executive Director; Josh Givelber, Vice President and Chad Liu, Vice President.(1) The following discussion reflects their views on the trust's performance.

Q. BEFORE YOU DISCUSS HOW THE TRUST PERFORMED, PLEASE DESCRIBE THE OVERALL MARKET ENVIRONMENT.

A. The high-yield market roared ahead in the first half of 2003, posting its best six-month return since 1991. High-yield mutual fund inflows during the period were at their highest level ever, reflecting enormous demand on the part of individual and institutional investors. The market was also boosted by declining default rates and better earnings results from many companies.

Overall, performance was inversely related to credit rating, with some CCC credits strongly outperforming B and BB rated bonds. Sector performance was dominated by industries such as wireless communications, utilities, telecommunications and cable that were among the worst performers in 2002.

Q. HOW DID THE TRUST PERFORM DURING THE REPORTING PERIOD?

A. The trust outperformed its benchmark.

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

- The trust returned 26.16 percent for the six months ended June 30, 2003, based on common share market price.
- By comparison, the trust's benchmark, the Chase High Yield Index, returned 16.75 percent.
- The trust's monthly dividend of \$0.037 translated to a distribution rate of 9.08 percent, based on the trust's common share market price as of June 30, 2003.

See Performance Summary for additional information and index definition.

Q. WHAT HELPED PERFORMANCE DURING THE REPORTING PERIOD?

- A.
- Strong security selection in the wireless sector helped the trust's performance. American Cellular performed especially well, rebounding strongly from a low valuation on the basis of its solid fundamentals.
 - Housing companies such as CB Richard Ellis and Technical Olympic performed well as housing activity remained one of the economy's few bright spots.

(1) Team members may change at any time without notice.

2

- Our analysts found few compelling opportunities in the consumer-products sector, which led us to underweight the group relative to the benchmark. The sector's subsequent underperformance relative to the rest of the market supported their views.

Q. WHAT FACTORS HINDERED PERFORMANCE?

- A.
- The portfolio's relatively high aggregate credit quality did not allow it to capitalize on the strong performance of some of the lowest-rated credits.
 - The lack of compelling opportunities in the airline and utilities sectors led us to underweight those sectors, both of which enjoyed rallies coming off of their 2002 lows.

Q. PLEASE WALK US THROUGH HOW YOU POSITIONED THE PORTFOLIO, HIGHLIGHTING KEY THEMES.

- A.
- Strong performance in the energy sector led us to take some profits there, though we maintained the portfolio's overweight position.
 - Many of the transportation holdings are automobile parts-manufacturers; we reduced the portfolio's holdings in the sector because of concerns about the health of these companies going forward.
 - We increased the portfolio's holdings of utilities to keep it in line with that sector's rapidly growing weighting in the benchmark.

3

-- Through selective purchases, we added to the portfolio's cable holdings when our analysts were able to identify attractive companies.

Q. NOW THAT YOU'VE PROVIDED AN OVERVIEW OF THE TRUST, DO YOU HAVE ANY CLOSING THOUGHTS FOR THE SHAREHOLDERS?

A. After the strong rally of the past six months, we believe future gains in the high-yield market are more likely to come from yield than from price improvements. If this proves to be the case, security selection will assume increasing importance as a driver of total returns. We hope to see ongoing improvement in the economy, which should be supportive of the high-yield market, and will continue monitoring the market for opportunities to capture value.

NOTES TO FINANCIAL STATEMENTS

June 30, 2003 (Unaudited)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen High Income Trust II (the "Trust") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide high current income, while seeking to preserve shareholders' capital through investment in a professionally managed diversified portfolio of high yield, fixed income securities. The Trust commenced investment operations on April 28, 1989.

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Investments are stated at value using market quotations or indications of value obtained from an independent pricing service. For those securities where quotations or prices are not available, valuations are obtained from yield data relating to instruments or securities with similar characteristics in accordance with procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis.

The Trust may invest in repurchase agreements, which are short-term investments in which the Trust acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Trust may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Investment Advisory Corp. (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Trust will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Trust.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond discount is accreted and premium is amortized over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

18

NOTES TO FINANCIAL STATEMENTS

	2002

4. AUCTION PREFERRED SHARES

As of June 30, 2003, the Trust has outstanding 1,112 Auction Preferred Shares ("APS"). Dividends are cumulative and the dividend rate is currently reset every 28 days through an auction process. The rate in effect on June 30, 2003 was 1.150%. During the six months ended June 30, 2003, the rates ranged from 1.140% to 1.600%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of Preferred Share Maintenance expense.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

DIVIDEND REINVESTMENT PLAN

The Trust offers a Dividend Reinvestment Plan (the "Plan") pursuant to which Common Shareholders who are participants in the Plan may have all distributions of dividends and capital gains automatically reinvested in Common Shares of the Trust. All Common Shareholders are deemed to be participants in the Plan unless they specifically elect not to participate. Common Shareholders who elect not to participate in the Plan will receive all distributions of dividends and capital gains in cash paid by check mailed directly to the Common Shareholder by the Trust's dividend disbursing agent.

HOW THE PLAN WORKS

State Street Bank and Trust Company, as your Plan Agent, serves as agent for the Common Shareholders in administering the Plan. After the Trust declares a dividend or determines to make a capital gains distribution, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. The Trust will not issue any new Common Shares in connection with the Plan. All reinvestments are in full and fractional Common Shares, carried to three decimal places.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Trust reserves the right to amend or terminate the Plan as applied to any dividend or capital gains distribution paid subsequent to written notice of the change sent to all Common Shareholders of the Trust at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent, with the written consent of the

Trust, by providing at least 90 days written notice to all Participants in the Plan.

COSTS OF THE PLAN

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. No other charges will be made to participants for reinvesting dividends or capital gains distributions, except for certain brokerage commissions, as described above.

TAX IMPLICATIONS

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions.

RIGHT TO WITHDRAW

All Common Shareholders of the Trust are deemed to be participants in the Plan unless they specifically elect not to participate. You may withdraw from the Plan at any time by calling 1-800-341-2929 or by writing State Street Bank and Trust Company. If you withdraw, you will receive, without charge, a share certificate issued in your name for all full Common Shares credited to your account under the Plan, and a cash payment will be made for any fractional Common Share credited to your account under the Plan. You may again elect to participate in the Plan at any time by calling 1-800-341-2929 or writing to the Trust at:
