First Quarter Review

Sales in the first quarter of 2008 decreased 23.2% as compared to the same quarter in 2007 mainly as a consequence of a decline in business from our telecommunication components assembly (TCA) product segment. Net sales in the TCA segment for the first quarter of 2008 decreased by 50.7% compared to the same quarter of 2007. Our TCA product segment is primarily dependent on the mobile phone market. We, together with one of our indirect customers, suffered a substantial drop in sales volume of its devices used in mobile phones, a trend we began experiencing in 2007 and which has continued and accelerated as a result of declining demand experienced in the mobile phone market and persistent pressure to lower unit prices. The challenging environment in the TCA segment is expected to continue and may increase in the coming quarters. Although the business environment remains competitive and difficult, from our efforts focusing on sales in other segments, sales of our LCD products (LCDP) segment grew by 7.2% during the first quarter and sales in our consumer electronics and communication products (CECP) segment grew by 27.9% during the first quarter, the latter particularly from increased sales of home entertainment products, optical products and educational devices. By continuing to concentrate our efforts to improving manufacturing efficiencies, broadening our product offerings and diversifying our customer base our gross profit margin improved over 4%, to 13.3% in the first quarter of 2008 from 9.0% in the first quarter of 2007. Gross profit in the first quarter of 2008 improved by over \$2.3 million, to \$19.5 million from \$17.2 million in the first quarter of 2007, a 13.5% increase.

Net sales in the first quarter of 2008 were \$147.1 million, a decrease of 23.2% as compared to \$191.6 million in the first quarter of 2007. Operating income in the first quarter of 2008 was \$7.8 million, or \$0.17 per share (diluted), compared to operating income of \$7.2 million, or \$0.16 per share (diluted) in the first quarter of 2007. Net income in the first quarter of 2008 was \$28.4 million (of which approximately \$20.2 million resulted from on a gain on our sale of our equity interest in JIC), compared to net income of \$8.4 million in the first quarter of 2007. Basic and diluted

earnings per share in the first quarter of 2008 were \$0.63 per share (of which \$0.45 per share resulted from the gain on our sale of our equity interest in JIC), compared to earnings per share of \$0.19 in the first quarter of 2007.

The date of this Prospectus Supplement No. 1 is May 5, 2008

Our financial position remained strong at the end of the first quarter, with \$267.2 million cash and cash equivalents at March 31, 2008. During the first quarter, we made capital expenditures of \$1.9 million, made a prepayment for the purchase of land of \$0.7 million and paid fourth quarter dividends of \$9.3 million to shareholders on January 21, 2008.

Settlement of Former Class Action Litigation

On March 17, 2008, we settled the remaining individual claims of the plaintiff, Douglas Ward, in litigation that, until class certification was denied by the U.S. District Court in 2007, had been asserted as a class action against us and certain of our directors and officers. In the settlement, we denied any wrongdoing or liability and paid no penalty or material amount to dispose of the litigation, which has been dismissed by the court with prejudice.
