MCRAE INDUSTRIES, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

NOTE A - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended October 27, 2001 are not necessarily indicative of the results that may be expected for the year ending August 3, 2002. For further information, refer to the consolidated financial statements and footnotes thereto included in the McRae Industries, Inc. Annual Report on Form 10-K for the year ended July 28, 2001.

Certain reclassifications have been made to the prior year's financial statements to conform with the current year's presentation.

NOTE B - INVENTORIES

An actual valuation of inventory under the LIFO method can be made only at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. Because these are subject to forces beyond management's control, interim calculations are subject to change based on the final year-end LIFO inventory valuation.

The components of inventory consist of the following (in thousands):

Edgar Filing: MCRAE INDUSTRIES INC - Form 10-Q

	October 27, 2001 -----	July 28, 2001 -----
Raw materials	\$ 2,608,000	\$ 2,843,000
Work-in-process	723,000	746,000
Finished goods	14,207,000	10,217,000
	-----	-----
	\$17,538,000	\$13,806,000
	=====	=====

NOTE C - DISCONTINUED OPERATIONS OF BUSINESS SEGMENT

In August 2000, the Company's management decided to phase out and discontinue the operations of the printing and packaging business. Normal business operations ceased on April 28, 2001. Assets with an estimated fair market value of \$200,000 were transferred to the parent company at July 28, 2001.

For the quarter ending October 28, 2000, the printing business reported net earnings of \$52,000, net of \$34,000 of tax expense. A reserve for estimated loss on discontinuance of this business amounted to \$290,000, net of \$185,000 of tax benefit. Net earnings per share as a result of the discontinued operations were reduced by \$.09 per share for the first quarter of fiscal 2001. The results of the printing and packaging business operations have been reported separately as discontinued operations in the Condensed Consolidated Statement of Operations.

7

NOTE D - SUBSEQUENT EVENTS

On November 28, 2001, the Company declared a cash dividend of \$.05 cents per share on its Class A Common Stock payable on December 28, 2001 to shareholders of record on December 14, 2001.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the attached unaudited condensed consolidated financial statements and notes thereto, and with the Company's Annual Report on Form 10-K for the fiscal year ended July 28, 2001, including the financial information and management's discussion and analysis contained therein.

FINANCIAL CONDITION AND LIQUIDITY

The Company's financial condition remained strong as of October 27, 2001 as cash and cash equivalents and working capital amounted to \$2.8 million and \$20.2 million, respectively. The current ratio was a solid 3.1 to 1 at the end of the quarter.

Cash used in operating activities amounted to approximately \$2.9 million. Net income from operations, adjusted for depreciation and amortization, provided a positive cash flow of approximately \$600,000. The increase in accounts and notes receivable used approximately \$2.7 million of cash primarily attributable to increased sales in the western boot business and the timing in the collection of open accounts in the footwear and office products businesses. Approximately \$3.7

Edgar Filing: MCRAE INDUSTRIES INC - Form 10-Q

million of cash was used to expand inventories in the footwear and office products businesses because of increased combat boot requirements by the U.S Government, anticipated market demand for the new branded products in the western boot business, and scheduled delivery in the second quarter of office equipment to several large county-wide educational systems. Of this \$3.7 million amount, approximately \$1.6 million reflects cash used to acquire inventories in connection with the Company's acquisition of the "Dan Post" brand name for western boots in October 2001. Payment for a significant portion of the inventory build-up was not made until after quarter-end, providing approximately \$2.7 million of cash and increasing trade accounts payable for the first quarter. Income tax refunds and lower estimated tax payments produced a positive cash flow of approximately \$332,000.

Investing activities used approximately \$1.5 million of cash. Capital expenditures used approximately \$798,000 of cash, primarily for rental equipment to support county-wide school programs and certain equipment related to the recent Dan Post acquisition. This equipment related to the Dan Post brand name was purchased for approximately \$200,000. In addition, the "Dan Post" brand name was purchased for \$800,000.

The Company used \$93,000 of cash to pay quarterly dividends and \$105,000 to reduce the principal amount of long-term debt.

The Company currently has two lines of credit with a bank totaling \$4.75 million, all of which was available at October 27, 2001. It is management's opinion that the future cash flows from operations, currently available cash and cash equivalents, and unused lines of credit will be sufficient to meet the Company's future working capital, capital expenditures, and debt repayment requirements.

8

FIRST QUARTER FISCAL 2002, COMPARED TO FIRST QUARTER FISCAL 2001

Consolidated net revenues for the first quarter of fiscal 2002 amounted to \$14.6 million, down 12% from \$16.5 million reported for the first quarter of fiscal 2001. This decrease in net revenues was primarily attributable to the following factors: (1) military combat boot net revenues declined approximately \$1.0 million as a result of the Government satisfying portions of their current boot requirements by utilizing the Contract's Vendor Enhanced Storage and Transportation (VEST) program. Military combat boots related to the VEST program were purchased in fiscal 1997 and fiscal 1998 and stored for the Government's future use; (2) bar code net revenues decreased approximately \$1.3 million due to economic and competitive pressures in the high technology market; and (3) office products net revenues fell \$1.1 million as several large county-wide educational system sales were pushed to the second quarter. The decrease in net revenues was partially offset by the \$1.3 million increase in the western boot business that resulted from higher demand for imported and newly-acquired branded products.

Consolidated gross profit amounted to \$3.7 million for the first quarter of fiscal 2002 as compared to \$3.9 million for the first quarter of fiscal 2001. This 4.5% decrease in gross profit resulted primarily from lower net revenues for the current reporting period as compared to the same period of fiscal 2001. Gross profit as a percentage of net revenues improved from 23.6% for the first quarter of fiscal 2001 to 25.6% for the first quarter of fiscal 2002. This 8.4% gain in gross profit percentage resulted from lower unit costs associated with production efficiencies in the military boot business, increased sales of higher-margin imported and branded western boots, and the negotiation of favorable buy-out arrangements for county-wide educational system equipment

Edgar Filing: MCRAE INDUSTRIES INC - Form 10-Q

associated with the office products business.

Selling, general and administrative (SG&A) expenditures for the first quarter of fiscal 2002 were \$3.2 million as compared to \$3.3 million for the first quarter of fiscal 2001. The SG&A expense reductions were primarily the result of lower sales-related personnel costs, reduced sales travel expenditures, and smaller outlays for sales and marketing material for the bar code business. The office products business also experienced a slight reduction in SG&A expenditures primarily attributable to reduced advertising costs. These decreases were partially offset by increased SG&A expenses associated with the western boot business as sales salaries, commissions, and related promotional materials were higher for the first quarter of fiscal 2002. Professional fees for the first quarter of fiscal 2002 were higher than those for the same period of fiscal 2001 as a result of expenditures related to the purchase of the Dan Post boot brand name.

The Company's military footwear business is in the final year of the most recent contract (the Contract) awarded by the United States Government (the Government) in April 1997. The Contract provides for a base year and four one-year extensions that may be exercised by the Government at its sole discretion for the purchase of additional option quantities of military combat boots. The current option will expire in April 2002. Although the Government continues to evaluate a new military combat boot construction that is not compatible with the Company's current manufacturing process, the Company expects the Government to solicit bids for a new contract that will be similar in all material respects to the one that expires in April 2002, except for a reduction in the maximum and minimum quantity of boots to be purchased. While the Company has taken the appropriate actions to accommodate any military combat boot specification changes, there can be no assurances that the Company will be successful in obtaining another contract with the Government upon termination of the current Contract.

9

In September 2001, the Government notified the Company to increase its production levels of military combat boots as a result of the deployment of U.S. troops on the war against terrorism. The increased production levels represent an approximate 60% increase over the quantities normally purchased by the Government under the Contract. This increase is expected to have a favorable impact on the Company's net revenues of an additional \$2 million to \$4 million for fiscal 2002, or more of the increased production levels are sustained throughout the remainder of fiscal 2002.

In August 2000, the Company's management decided to phase out the operation of the printing and packaging business. Net revenues from this business for the first quarter of fiscal 2001 were \$749,000. Net earnings from operations of the discontinued business for the first quarter of fiscal 2001 amounted to \$52,000 and included a gain on sale of assets of \$65,000. For the first quarter of fiscal 2001, an estimated loss on discontinuance of this business amounted to \$290,000, net of the tax benefit. This estimated loss consisted of the expected earnings from the phase-out period of operations less the difference in the carrying value and estimated fair value of the business assets and the expected payments to settle all liabilities. Normal business operations for the printing and packaging business ceased on April 28, 2001.

IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In June 2001, SFAS No. 141, "Business Combinations", was issued and established the accounting and reporting standards for business combinations. SFAS No. 141 is effective for the Registrant for periods after June 30, 2001. The Registrant

Edgar Filing: MCRAE INDUSTRIES INC - Form 10-Q

is in compliance with this reporting requirement.

In June 2001, SFAS No. 142, "Goodwill and Other Intangible Assets", was issued and established the accounting and reporting standards for acquired goodwill and other intangible assets. SFAS No. 142 is effective for the Registrant for periods beginning after December 15, 2001. The Registrant is evaluating the effects of this pronouncement on recorded goodwill and trade names.

In July 2001, SFAS No. 143, "Accounting for Asset Retirement Obligations", was issued and established the accounting and reporting standards associated with the retirement of tangible long-lived assets. SFAS No. 143 is effective for the Registrant for fiscal years beginning after June 15, 2002. The Registrant currently has no assets subject to the provisions of this statement.

In August 2001, SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", was issued and established the accounting and reporting requirements associated with long-lived asset impairment and disposal. SFAS No. 144 is effective for the Registrant for fiscal years beginning after December 15, 2001. The Registrant is evaluating the effects of this pronouncement on its long-lived assets.

FORWARD-LOOKING STATEMENTS

In addition to historical information, this Interim Report includes certain forward-looking statements as such term is defined in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including but not limited to statements about the Company's ability to meet future working capital, capital expenditure, and debt repayment requirements. These forward-looking statements involve certain risks and uncertainties, including but not limited to the effect of acquisitions, the ability to meet additional financing requirements, the successful development and marketing of new products and services, the effect of competitive products and pricing, risks unique to selling goods to the U.S. Government (including the impact of the war on terrorism, termination of the Contract

10

and changes in the types of military boots used by the U.S. Government), and the effect of general economic conditions, that could cause actual results to differ materially from those in such forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to the impact of interest rate changes due to its aggregate \$4.75 million lines of credit and a term loan through its wholly owned subsidiary, American West Trading Company. As of October 27, 2001, there was no outstanding indebtedness under the lines of credit and \$4.7 million was outstanding on the term loan. The Company does not buy or sell derivative financial instruments for trading or other purposes. Borrowings under the Company's credit facilities described above bear interest at rates based upon the "prime rate" or "prime rate" less a margin of one-half percent offered by the applicable lender. The Company has not entered into any swap agreements or engaged in any other hedging activities with respect to this variable rate indebtedness. A 10% increase in the interest rates under the Company's credit facilities would increase annual interest expense by approximately \$25,000 (assuming the Company's aggregate borrowings under the credit facilities averaged \$4.6 million during a fiscal year).

PART II. OTHER INFORMATION

Edgar Filing: MCRAE INDUSTRIES INC - Form 10-Q

ITEM 1. LEGAL PROCEEDINGS

While the Registrant and its subsidiaries are engaged in litigation from time to time in the ordinary course of business incidental to their respective operations, management does not believe that any such litigation is likely to have a material adverse effect on the Registrant's consolidated financial position or operations.

ITEMS 2, 3, 4, AND 5.

These items are not applicable and have been omitted.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits

- 2 Asset Purchase Agreement dated October 3, 2001 between American West Trading Company and Lucchese, Inc.
- 3.1 Certificate of Incorporation (Incorporated by reference to Exhibit 3.1 to the Registrant's Form S-14, Registration No. 2-85908).
- 3.2 Amendment to the Certificate of Incorporation (Incorporated by reference to Exhibit 3 to the Registrant's Form 10-K for the year ended August 1, 1987).
- 3.3 Restated Bylaws of the Registrant effective May 29, 2001. (Incorporated by reference to Exhibit 3.3 to the Registrant's Form 10-K for the year ended July 28, 2001).

(b) No reports on Form 8-K were filed during the quarter ended October 27, 2001.

11
