NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

1. Basis of Consolidated Financial Statement Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Sunair Services Corporation and its subsidiaries (the Company), required to be consolidated in accordance with U.S. generally accepted accounting principles (GAAP). The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the accounting policies described in the September 30, 2008 Annual Report on Form 10-K should be read in conjunction with the consolidated financial statements and notes thereto.

The unaudited condensed consolidated financial statements for the three months ended December 31, 2008 and 2007 included herein have been prepared in accordance with the instructions for Form 10-Q under the Securities Exchange Act of 1934, as amended, and Article 8 of Regulation S-X under the Securities Act of 1933, as amended. Certain information and footnote disclosures normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations relating to interim financial statements.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain only normal recurring adjustments necessary to present fairly the Company's financial position as of December 31, 2008, and the results of its operations and cash flows for the three months ended December 31, 2008 and 2007. Operating results for the three months ended December 31, 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2009.

2. Summary of Significant Accounting Policies

Revenue Recognition

The Company's revenue recognition policies are designed to recognize revenues at the time services are rendered or when goods change hands.

Lawn and ornamental services are primarily recurring in nature on a bi-monthly basis. In general lawn and ornamental customers sign an initial one year contract, and revenues are recognized when services are rendered. The Company offers a discount to those customers who prepay a full year of services. The Company defers recognition of these advance payments and the related discounts until the underlying services have been rendered.

Pest control services primarily are billed annually with services being rendered on a semi-annual basis. In general pest control customers sign an initial one year contract. The Company recognizes revenue over the life of these contracts in proportion to the direct costs incurred. These costs have a direct relationship to the fulfillment of the Company's obligations under the contracts and are representative of the value provided to the customer.

Termite baiting is primarily billed annually with revenues recognized as services are rendered. At the inception of a new baiting services contract the system is installed. The Company recognizes revenue for the installation of the monitoring stations, initial directed liquid termiticide treatment and rendering of the initial monitoring services. The remaining portion of the annual fees billed are deferred and recognized as the remaining inspection and monitoring services are rendered over the annual period. Baiting renewal revenue is deferred and recognized over the annual period when the inspection and monitoring services are actually rendered. Liquid and drywood termite application revenues, both initial and renewal, are recognized when the services are rendered.

Reclassification

Certain reclassifications of amounts previously reported have been made to the accompanying consolidated financial statements in order to maintain consistency and comparability between periods presented.

In September 2008, the Company sold Telecom FM Ltd. (Telecom FM). For purposes of comparability, the results of the operations have been reclassified from continuing operations to discontinued operations for the three months ended December 31, 2007 presented in the accompanying condensed consolidated statements of operations. See Note 9 Discontinued Operations.

Recently Adopted Accounting Pronouncements

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FASB No. 157). FASB No. 157 provides guidance for measuring the fair value of assets and liabilities and expands related disclosures. FASB No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. FASB No. 157 establishes market or observable inputs as the preferred source of values, followed by assumptions based on hypothetical transactions in the absence of market inputs. Effective October 1, 2008, the Company adopted FASB No. 157 for all financial instruments accounted for at fair value on a recurring basis. The adoption of FASB No. 157 did not have a material effect on the Company's financial condition or operating results. FASB No. 157 established a three level fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuations whose inputs are observable or whose significant value drivers are observable.

Level 3: Significant inputs to the valuation model are unobservable.

In October 2008, the FASB issued FASB Staff Position No. FAS 157-3, *Determining the Fair Value of a Financial Asset in a Market That Is Not Active* (FSP 157-3), which clarifies the application of FASB No. 157 when the market for a financial asset is inactive.

Specifically, FSP 157-3 clarifies how (1) management's internal assumptions should be considered in measuring fair value when observable data are not present, (2) observable market information from an inactive market should be taken into account, and (3) the use of broker quotes or pricing services should be considered in assessing the relevance of observable and unobservable data to measure fair value. The guidance in FSP 157-3 is effective immediately.

As of December 31, 2008, the Company did not have any financial liabilities or assets that are measured at fair value as defined under FASB No. 157.

In February 2008, the FASB issued FASB Staff Position (FSP) FAS 157-2 deferring the effective date of FASB No. 157 for nonfinancial assets and liabilities to fiscal years beginning after November 15, 2008. FSP 157-2 delays the effective date of FASB No. 157 to fiscal years beginning after November 15, 2008 for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) and will be adopted by the Company beginning in the first quarter of fiscal 2010. Although the Company will continue to evaluate the application of FSP 157-2, management does not currently believe adoption will have a material impact on the Company's financial condition or operating results.

The Company also adopted FASB No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FASB Statement No. 115* (FASB No. 159), during the first quarter of fiscal 2009. FASB No. 159 allows companies to choose to measure eligible financial instruments and certain other items at fair value that are not required to be measured at fair value. FASB No. 159 requires that unrealized gains and losses on items for which the fair value option has been elected be reported in earnings at each reporting date. The Company adopted FASB No. 159 but has not elected the fair value option for any eligible financial instruments as of December 31, 2008.

Recent Accounting Pronouncements

In June 2008, the FASB issued FSP No. EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities*. This FSP provides that unvested share-based payment awards that contain nonforfeitable rights to dividends are participating securities and shall be included in the computation of earnings per share pursuant to the two class method. This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008 and interim periods within those years. Upon adoption, a company is required to retrospectively adjust its earnings per share data to conform to the provisions in this FSP. The provisions of FSP No. EITF 03-6-1 are effective for the Company retroactively in the first quarter ended December 31, 2009. The Company is in the process of evaluating the impact of FSP No. EITF 03-6-1 on the calculation and presentation of earnings per share in its consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position (FSP) No. FAS 142-3, *Determination of the Useful Life of Intangible Assets*. FSP No. FAS 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine

Table of Contents

the useful life of a recognized intangible asset under FASB No. 142, Goodwill and Other Intangible Assets. This FSP is effective for fiscal years beginning after December 31, 2008 (fiscal year ended September 30, 2010 for the Company), and interim periods within those fiscal years (interim period December 31, 2009 for the Company). Early adoption is prohibited. The Company is currently assessing the impact that FSP No. FAS 142-3 will have on its financial position, cash flows, and results of operations.

In December 2007, the FASB issued SFAS No. 141 (revised 2007) *Business Combinations* (FASB No. 141(R)). FASB No. 141(R) retains the fundamental requirements of the original pronouncement requiring that the purchase method be used for all business combinations. FASB No. 141(R) defines the acquirer as the entity that obtains control of one or more businesses in the business combination, establishes the acquisition date as the date that the acquirer achieves control and requires the acquirer to recognize the assets acquired, liabilities assumed and any non-controlling interest at their fair values as of the acquisition date. FASB No. 141(R) also requires that acquisition-related costs be recognized separately from the acquisition. FASB No. 141(R) is effective for the Company for fiscal year ended September 30, 2010. The Company is currently assessing the impact of FASB No. 141(R) on its consolidated financial position and results of operations.

In December 2007, the FASB issued Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51* (FASB No. 160). The objective of FASB No. 160 is to improve the relevance, comparability, and transparency of the financial information that a reporting entity provides in its consolidated financial statements by establishing accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This Statement applies to all entities that prepare consolidated financial statements, except not-for-profit organizations. FASB No. 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It also amends certain of ARB 51's consolidation procedures for consistency with the requirements of FASB No. 141 (R). This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008 (that is, January 1, 2009, for entities with calendar year-ends). Earlier adoption is prohibited. The effective date of this Statement is the same as that of the related Statement 141(R). FASB No. 160 will be effective for the Company's fiscal year ended September 30, 2010. This Statement shall be applied prospectively as of the beginning of the fiscal year in which this Statement is initially applied, except for the presentation and disclosure requirements. The presentation and disclosure requirements shall be applied retrospectively for all periods presented. The Company is currently assessing the impact of FASB No. 160 on its consolidated financial statements.

3. Acquisition

On October 2, 2007, Middleton Pest Control, Inc. (Middleton) acquired substantially all the assets of Marshall Pest Control of SW FL, Inc. (Marshall), a lawn and pest control services company located in Naples, Florida for \$1.6 million, consisting of \$1.0 million in cash and \$600,000 in the form of a promissory note. In addition, the Company incurred working capital adjustments and transaction costs of approximately \$0.3 million.

The following table sets forth the allocation of the purchase price to Marshall tangible and intangible assets acquired and liabilities assumed as of October 2, 2007:

Goodwill	\$ 1,487,775
Customer list	225,204
Accounts receivable	68,989
Inventory	13,199
Fixed assets	62,475
Total	\$ 1,857,642

Pro-Forma Results of Operations

The pro-forma results of operations for the three months ended December 31, 2007 are not presented since there was an insignificant difference between pro-forma and actual results for the period as our sole acquisition Marshall was acquired on October 2, 2007.

Table of Contents**4. Revolving Line of Credit**

The Company has a line of credit with a financial institution collateralized by substantially all of the assets of the Company. The maximum credit limit was \$7.75 million as of December 31, 2008. Interest is compounded daily based upon the LIBOR plus 5.0%. The interest rate at December 31, 2008 was approximately 5.44%. Interest expense incurred on the line of credit amounted to \$120,628 and \$160,972 for the three months ended December 31, 2008 and 2007, respectively. The outstanding balance on the revolving line of credit at December 31, 2008 and September 30, 2008, respectively, amounted to \$6.8 million and \$9.6 million, of which \$1.3 million and \$4.1 million was classified as a current liability, respectively. At December 31, 2008, the availability under the revolving line of credit amounted to \$450,000, which is net of a \$500,000 outstanding letter of credit.

On January 28, 2009, the Company modified certain terms and conditions of its revolving line of credit representing the third amendment to the credit agreement. Among the amended terms and conditions was the extension of the maturity date to January 2, 2010 and reduction of the maximum credit limit from \$11.75 million on September 30, 2008 to \$7.75 million on December 31, 2008, to \$7.5 million on March 31, 2009, to \$6.75 million on June 30, 2009 and to \$5.5 million on September 30, 2009. In addition, there were amendments to the financial covenants relating to the consolidated EBITDA, leverage ratio and fixed charge coverage ratio, which amendments were effective for the quarter ended September 30, 2008. The consolidated EBITDA requirement and the fixed charge coverage ratio were reduced and the leverage ratio was increased. As of December 31, 2008, the Company was in compliance with its financial covenants.

5. Notes Payable

The Company has a capital lease for certain office equipment. The balance of the capital lease at December 31, 2008 and September 30, 2008, totaled \$11,842 and \$12,808, respectively.

The Company has notes payable with a financial institution for leased office build-out costs and computer equipment. The notes bear interest at 5.60% per annum, payable in monthly installments of principal and interest in the amount of \$3,285 through March 29, 2011. Balances at December 31, 2008 and September 30, 2008, totaled \$83,082 and \$91,680, respectively.

Fair Value

On January 1, 2006, the Company adopted the provisions of FASB No. 123R which requires the Company to recognize expense related to the fair value of stock-based compensation awards. The Company elected the modified prospective transition method as permitted by FASB No. 123R, under which stock-based compensation for the three months ended December 31, 2008 and 2007 is based on grant date fair value estimated in accordance with the provisions of FASB No. 123R and compensation expense for all stock-based compensation awards granted subsequent to January 1, 2006, as well as the unvested portion of previously granted awards that remained outstanding as of January 1, 2006 based on the grant date fair value estimated in accordance with the provisions of FASB No. 123R. In addition, options granted to certain members of the board of directors as payment for Board services

recorded in accordance with FASB No. 123R and the issuance of restricted stock awards and stock units are also included in stock-based compensation for the three months ended December 31, 2008 and 2007. Table of Contents

\$39,449 and \$142,012 of stock-based compensation expense which has been classified as selling, general and administrative expenses for the three months ended December 31, 2008 and 2007, respectively.

The fair value of stock-based awards was estimated using the Black-Scholes model, on the date of grant, with the following weighted-average assumptions:

	For the Three Months Ended December 31,	
	2008	2007
Expected dividend yield		
Expected price volatility	57.52-60.69%	61.75-70.07%
Risk-free interest rate	2.80 - 3.49%	3.76-4.76%
Expected life of options	4.5-8 years	5-8.25 years

The Company's computation of the expected volatility for the three months ended December 31, 2008 and 2007 is based primarily upon historical volatility and the expected term of the option. The Company continues to use the simplified method of determining the expected term provided under SAB 110 as sufficient historical data is not available. The interest rate is based on the U.S. Treasury yield in effect at the time of grant for a period commensurate with the estimated expected life.

As of December 31, 2008, approximately \$345,672 of total unrecognized compensation costs related to non-vested stock options is expected to be recognized over a weighted average period of 1.81 years.

13. Related Parties

Company Overview

Sunair Services Corporation (the Company we or us) is a Florida corporation organized in 1956. We changed our corporate name from Sunair Electronics, Inc. to Sunair Services Corporation in November of 2005. Previously, we operated through two business segments: Telephone Communications and High Frequency Radio. In June 2005 with the acquisition of Middleton Pest Control, Inc. (Middleton) we embarked on a new strategy to become a leading regional provider of lawn and pest control services focusing mainly on residential customers.

We have completed the execution of our strategy to divest our legacy businesses (Telephone Communications and High Frequency Radio) and will continue to focus on growing our core business, Lawn and Pest Control Services. The acquisitions and divestitures that have taken place since September 30, 2007 are as follows:

Acquisitions:

In October 2007 we acquired substantially all the assets of Marshall Pest Control of SW FL, Inc. (Marshall).

Dispositions:

In September 2008 we sold all the issued and outstanding stock of Telecom FM Limited, (Telecom FM), a wholly-owned subsidiary operating in our Telephone Communications business segment.

Cost of Sales

Cost of sales decreased by \$0.2 million or 3.6 % to \$5.1 million or 39.7% of revenue for the three months ended December 31, 2008 as compared to \$5.2 million or 38.9% of revenue for the three months ended December 31, 2007 due to the following factors:

Sales payroll costs decreased by \$0.4 million for the three months ended December 31, 2008 as compared to the same time period in 2007. The reduction in sales payroll costs was due to a decrease in sales commissions paid as a result of a decrease in new sales activity.
