Table of Contents**Forward-Looking Statements**

We caution that any forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) contained in this Annual Report on Form 10-K or made by our management involve risks and uncertainties and are subject to change based on various important factors, many of which may be beyond our control. Accordingly, our future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. Accordingly, investors should not place undue reliance on forward-looking statements as a prediction of actual results. You can identify these statements as those that may predict, forecast, indicate or imply future results, performance or advancements and by forward-looking words such as *believe, anticipate, expect, estimate, predict, intend, plan, project, will, will be, will continue, will result* any variations of such words or other words with similar meanings. Forward-looking statements address, among other things, our expectations, our growth strategies, including our plans to open new stores, our efforts to increase profit margins and return on invested capital, plans to grow our private label business, projections of our future profitability, results of operations, capital expenditures or our financial condition or other forward-looking information and includes statements about revenues, earnings, spending, margins, liquidity, store openings and operations, inventory, private label products, our actions, plans or strategies.

The following factors, among others, in some cases have affected and in the future could affect our financial performance and actual results and could cause actual results for 2007 and beyond to differ materially from those expressed or implied in any forward-looking statements included in this report or otherwise made by our management: the intense competition in the sporting goods industry and actions by our competitors; our inability to manage our growth, open new stores on a timely basis and expand successfully in new and existing markets; the availability of retail store sites on terms acceptable to us; the cost of real estate and other items related to our stores; our ability to access adequate capital; changes in consumer demand; risks relating to product liability claims and the availability of sufficient insurance coverage relating to those claims; our relationships with our suppliers, distributors and manufacturers and their ability to provide us with sufficient quantities of products; any serious disruption at our distribution or return facilities; the seasonality of our business; the potential impact of natural disasters or national and international security concerns on us or the retail environment; risks related to the economic impact or the effect on the U.S. retail environment relating to instability and conflict in the Middle East or elsewhere; risks relating to the regulation of the products we sell, such as hunting rifles; risks associated with relying on foreign sources of production; risks relating to the operation and implementation of new management information systems; risks relating to operational and financial restrictions imposed by our Credit Agreement; factors associated with our pursuit of strategic acquisitions (including our merger with Golf Galaxy); risks and uncertainties associated with assimilating acquired companies; the loss of our key executives, especially Edward W. Stack, our Chairman and Chief Executive Officer; our ability to meet our labor needs; changes in general economic and business conditions and in the specialty retail or sporting goods industry in particular; regional risks because our stores are generally concentrated in the eastern half of the United States; our ability to repay or make the cash payments under our senior convertible notes; the outcome of litigation or legal actions against us; changes in our business strategies and other factors discussed in other reports or filings filed by us with the Securities and Exchange Commission.

In addition, we operate in a highly competitive and rapidly changing environment; therefore, new risk factors can arise, and it is not possible for management to predict all such risk factors, nor to assess the impact of all such risk factors on our business or the extent to which any individual risk factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. We do not assume any obligation and do not intend to update any forward-looking statements except as may be required by the securities laws.

On February 13, 2007, Dick's Sporting Goods, Inc. acquired Golf Galaxy, Inc. (Golf Galaxy) which became a wholly owned subsidiary of Dick's by means of a merger of Dick's subsidiary with and into Golf Galaxy. Due to this acquisition, additional risks and uncertainties arise that could affect our financial performance and actual results and could cause actual results for 2007 and beyond to differ materially from those expressed or implied in any forward-looking statements included in this report or otherwise made by our management. Such risks, which are difficult to predict with a level of certainty and may be greater than expected, include, among others, risk associated with combining businesses and/or with assimilating Golf Galaxy.

Table of Contents

PART I

ITEM 1. BUSINESS

Acquisition of Golf Galaxy

On February 13, 2007, the Company acquired Golf Galaxy by means of merger of our wholly owned subsidiary with and into Golf Galaxy, with each Golf Galaxy shareholder receiving \$18.82 per share in cash, without interest and Golf Galaxy became a wholly owned subsidiary of the Company. The Company paid approximately \$226.0 million which was financed using approximately \$79 million of cash and cash equivalents and the balance from borrowings under our revolving line of credit. At closing, Golf Galaxy operated 65 stores in 24 states, ecommerce websites and catalog operations. Golf Galaxy had net sales totaling \$274.7 million for the 12 month period ending February 3, 2007. Golf Galaxy's results of operations will be included in the Company's consolidated statements of income beginning February 13, 2007.

Unless otherwise noted, none of the discussion contained within this Annual Report on Form 10-K includes the impact of this acquisition.

General

Dick's Sporting Goods, Inc. (referred to as the Company or Dick's or in the first person notations we, us, and unless specified otherwise) is an authentic full-line sporting goods retailer offering a broad assortment of brand name sporting goods equipment, apparel, and footwear in a specialty store environment. On July 29, 2004, a wholly owned subsidiary of Dick's Sporting Goods, Inc. completed the acquisition of Galyan's. The Consolidated Statements of Income include the operation of Galyan's from the date of acquisition forward for the year ended January 29, 2005 and thereafter. Our core focus is to be an authentic sporting goods retailer by offering a broad selection of high-quality, competitively-priced brand name sporting goods equipment, apparel and footwear that enhances our customers performance and enjoyment of their sports activities.

As of February 3, 2007 we operated 294 stores, with approximately 16.7 million square feet, in 34 states, the majority of which are located primarily throughout the eastern half of the United States. Dick's was founded in 1948 when Richard Dick Stack, the father of Edward W. Stack, our Chairman and Chief Executive Officer, opened his original bait and tackle store in Binghamton, New York. Edward W. Stack joined his father's business full-time in 1977, and, upon his father's retirement in 1984, became President and Chief Executive Officer of the then two-store chain.

We were incorporated in 1948 in New York under the name Dick's Clothing and Sporting Goods, Inc. In November 1997, we reincorporated as a Delaware corporation, and in April 1999 we changed our name to Dick's Sporting Goods, Inc. Our executive office is located at 300 Industry Drive, RIDC Park West, Pittsburgh, PA 15275 and our phone number is (724) 273-3400. Our website is located at www.dickssportinggoods.com. The information on our website does not constitute a part of this annual report. We include on our website, free of charge, copies of our prior annual and quarterly reports filed on Forms 10-K and 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to the Securities Exchange Act of 1934, as amended.

Dick's, Dick's Sporting Goods, DicksSportingGoods.com, Galyan's Trading Company, Inc., Northeast Outfitters, PowerBolt, Fitness Gear, Ativa, Walter Hagen, DBX, Highland Games, Acuity, Field & Stream (footwear only) and Quest are our primary trademarks. Each trademark, trade name or service mark of any other company appearing in this annual report belongs to its holder.

Acquisition of Galyan's

On July 29, 2004, Dick's Sporting Goods, Inc. acquired all of the common stock of Galyan's for \$16.75 per share in cash, and Galyan's became a wholly owned subsidiary of Dick's. The Company recorded \$156.6 million of goodwill as the excess of the purchase price of \$369.6 million over the fair value of the net amounts assigned to assets acquired and liabilities assumed. The Company obtained approximately \$193 million of these funds from cash, cash equivalents and investments and the balance from borrowings under our revolving line of credit.

Table of Contents**Business Strategy**

The key elements of our business strategy are:

Authentic Sporting Goods Retailer. Our history and core foundation is as a retailer of high quality authentic athletic equipment, apparel and footwear, intended to enhance our customers' performance and enjoyment of athletic pursuits, rather than focusing our merchandise selection on the latest fashion trend or style. We believe our customers seek genuine, deep product offerings, and ultimately this merchandising approach positions us with advantages in the market, which we believe will continue to benefit from new product offerings with enhanced technological features.

Competitive Pricing. We position ourselves to be competitive in price, but we do not attempt to be a price leader. We maintain a policy of matching our competitors' advertised prices. If a customer finds a competitor with a lower price on an item, we will match the lower price. Additionally, under our Right Price Promise, if within 30 days of purchasing an item from us, a customer finds a lower advertised price by us or a competitor, we will refund the difference. We seek to offer value to our customers and develop and maintain a reputation as a provider of value at each price point.

Broad Assortment of Brand Name Merchandise. We carry a wide variety of well-known brands, including Nike, North Face, Columbia, Adidas, Callaway and Under Armour, as well as private label products sold under names such as Ativa and Walter Hagen, which are available only in our stores. The breadth of our product selections in each category of sporting goods offers our customers a wide range of price points and enables us to address the needs of sporting goods consumers, from the beginner to the sport enthusiast.

Expertise and Service. We enhance our customers' shopping experience by providing knowledgeable and trained customer service professionals and value added services. For example, we were the first full-line sporting goods retailer to have active members of the Professional Golfers' Association (PGA) working in our stores, and as of February 3, 2007 employed 279 PGA professionals in our golf departments. We also had 325 bike mechanics to sell and service bicycles and 243 certified fitness trainers who provide advice on the best fitness equipment for our customers. All of our stores also provide support services such as golf club grip replacement, bicycle repair and maintenance and home delivery and assembly of fitness equipment.

Interactive Store-Within-A-Store. Our stores typically contain five stand-alone specialty stores. We seek to create a distinct look and feel for each specialty department to heighten the customer's interest in the products offered. A typical store has the following in-store specialty shops: (i) the Pro Shop, a golf shop with a putting green and hitting area and video monitors featuring golf tournaments and instruction on the Golf Channel or other sources; (ii) the Footwear Center, featuring hardwood floors, a track for testing athletic shoes and a bank of video monitors playing sporting events; (iii) the Cycle Shop, designed to sell and service bikes, complete with a mechanics' work area and equipment on the sales floor; (iv) the Sportsman's Lodge for the hunting and fishing customer, designed to have the look of an authentic bait and tackle shop; and (v) Total Sports, a seasonal sports area displaying sports equipment and athletic apparel associated with specific seasonal sports, such as football and baseball. Our stores provide interactive opportunities by allowing customers to test golf clubs in an indoor driving range, shoot bows in our archery range, or run on our footwear track.

Exclusive Brand Offerings. We offer our customers high-quality products at competitive prices marketed under exclusive brands. We have invested in a development and procurement staff that continually sources performance-based products generally targeted to the sporting enthusiast for sale under brands such as Ativa, Acuity, Walter Hagen, Northeast Outfitters, PowerBolt, Fitness Gear, Highland Games, DBX, Field & Stream and Quest. Many of our products incorporate technical features such as GORE-TEX, a waterproof breathable fabric, and CoolMax, a fabric that wicks moisture away from the skin to the fabric where the moisture evaporates faster, that are typically available only through well-known brand names. Our private label products offer value to our customers at each price point and provide us with higher gross margins than comparable products we sell. Private label products have grown to 14.1% in fiscal 2006 from 11.9% in fiscal 2005 of net sales on a combined company basis. We expect to continue to grow our exclusive private label offerings.

Merchandising

We offer a full range of sporting goods and active apparel at each price point in order to appeal to the beginner, intermediate and enthusiast sports consumer. The merchandise we carry includes one or more of the

Table of Contents

leading manufacturers in each category. Our objective is not only to carry leading brands, but a full range of products within each brand, including the premium items for the sports enthusiast. As beginners and intermediates move to higher levels in their sports, we expect to be prepared to meet their needs.

We believe that the range of the merchandise we offer, particularly for the enthusiast sports consumer, distinguishes us from other large format sporting goods stores. We also believe that the range of merchandise we offer allows us to compete effectively against all of our competitors, from traditional independent sporting goods stores and specialty shops to other large format sporting goods stores and mass merchant discount retailers.

The following table sets forth the approximate percentage of sales attributable to apparel, footwear and hardlines for the periods presented:

| Merchandise Category | Fiscal Year | | |
|----------------------|-------------|------|------|
| | 2006 | 2005 | 2004 |
| Apparel | 26% | 26% | 25% |
| Footwear | 17% | 17% | 17% |
| Hardlines (1) | 57% | 57% | 58% |
| Total | 100% | 100% | 100% |

(1) Includes items such as hunting and fishing gear, sporting goods equipment and golf equipment.

Apparel: This category consists of athletic apparel, outerwear and sportswear designed for a broad range of activities and performance levels as well as apparel designed and fabricated for specific sports, in men's, women's and children's assortments. Technical and performance specific apparel includes offerings for sports such as golf, tennis, running, fitness, soccer, baseball, football, hockey, swimming, cycling and licensed products. Basic sportswear includes T-shirts, shorts, sweats and warm-ups.

Footwear: The Footwear Center, featuring hardwood floors and a track for testing athletic shoes, offers a diverse selection of athletic shoes for running and walking, tennis, fitness and cross training, basketball, and hiking. In addition, we also carry specialty footwear including a complete line of cleated shoes for baseball, football, soccer and golf. Other important categories within the footwear department are boots, socks and accessories.

Hardlines:

Exercise and Team Sports. Our product lines include a diverse selection of fitness equipment including treadmills, elliptical trainers, stationary bicycles, home gyms, free weights, and weight benches. A full range of equipment and accessories are available for team sports such as football, baseball, basketball, hockey, soccer, bowling and lacrosse. Family recreation offerings include lawn games and table games such as ping-pong, foosball, and air hockey.

Outdoor Recreation. The Sportsman's Lodge, designed to have the look of an authentic bait and tackle shop, caters to the outdoorsman and includes a diverse offering of equipment for hunting, fishing, camping, and water sports. Hunting products include rifles, shotguns, ammunition, global positioning systems, hunting apparel, boots and optics including binoculars and scopes, knives and cutlery, archery equipment and accessories. Fishing gear such as rods, reels, tackle and accessories are offered along with camping equipment, including tents and sleeping bags. Equipment offerings for marine and water sports include navigational electronics, water skis, rafts, kayaks, canoes and accessories.

Golf. The Pro Shop, a golf shop with a putting green and indoor driving range, includes a complete assortment of golf clubs and club sets, bags, balls, shoes, teaching aids and accessories. We carry a full range of products

featuring major golf suppliers such as TaylorMade, Callaway, Titleist, Cleveland and Nike Golf as well as our exclusive brands, Walter Hagen, Slazenger and Acuity.

Cycling. Our Cycle Shop, which is designed to sell and service bicycles, complete with a mechanics work area, features a broad selection of BMX, all-terrain, freestyle, touring bicycles, scooters and skateboards. In addition, we also offer a full range of cycling accessories including helmets, bicycle carrier racks, gloves, water bottles and repair and maintenance parts.

Table of Contents**Our Stores**

Each of our stores typically contains five specialty stores. We believe our store-within-a-store concept creates a unique shopping environment by combining the convenience, broad assortment and competitive prices of large format stores with the brand names, deep product selection and customer service of a specialty store.

Store Design. We design our stores to create an exciting shopping environment with distinct departments that can stand on their own as authentic sporting goods specialty shops. Our primary prototype store is approximately 50,000 square feet. Signs and banners are located throughout the store allowing customers to quickly locate the various departments. A wide aisle through the middle of the store displays seasonal or special-buy merchandise. Video monitors throughout the store provide a sense of entertainment with videos of championship games, instructional sessions or live sports events. We also have another prototype two-level store of approximately 75,000 square feet as a growth vehicle for those trade areas that have sufficient in-profile customers to support it. The following table summarizes store openings and closings for 2006 and 2005:

| | Fiscal 2006 | Fiscal 2005 |
|------------------------------|----------------|-------------|
| Beginning stores | 255 | 234 |
| New: | | |
| 50,000 square foot prototype | 37 | 20 |
| Two-level stores | 2 | 6 |
| Total new stores | 39 | 26 |
| Closed | | (5) |
| Ending stores | 294 | 255 |
| Relocated stores | 2 | 4 |

In fiscal 2005, the five store closures were due to overlapping trade areas as a result of the Galyan's acquisition. In most of our stores, approximately 82% of store space is used for selling and approximately 18% is used for backroom storage of merchandise, receiving area and office space.

We seek to encourage cross selling and impulse buying through the layout of our departments. We provide a bright, open shopping environment through the use of glass, lights and lower shelving which enables customers to see the array of merchandise offered throughout our stores. We avoid the warehouse store look featured by some of our large format competitors.

Our stores are typically open seven days a week, generally from 9:00 a.m. to 9:30 p.m. Monday through Saturday, and 10:00 a.m. to 7:00 p.m. on Sunday.

New Store Openings. Future openings will depend upon several factors, including but not limited to general economic conditions, consumer confidence in the economy, unemployment trends, interest rates and inflation, the availability of retail store sites, real estate prices and the availability of adequate capital. Because our new store openings rely on many factors, they are subject to risks and uncertainties described below under Part I, Item 1A, Risks and Uncertainties.

Store Associates. We strive to complement our merchandise selection and innovative store design with superior customer service. We actively recruit sports enthusiasts to serve as sales associates because we believe that they are more knowledgeable about the products they sell. For example, we currently employ PGA golf professionals to work in our golf departments, bike mechanics to sell and service bicycles and certified fitness trainers to provide advice on the best fitness equipment for the individual. We believe that our associates' enthusiasm and ability to demonstrate and explain the advantages of the products lead to increased sales. We believe our prompt, knowledgeable and enthusiastic service fosters the confidence and loyalty of our customers and differentiates us from other large format sporting

goods stores.

We emphasize product knowledge at both the hiring and training stages. We hire most of our sales associates for a specific department or category. As part of our interview process, we test each prospective sales associate for knowledge specific to the department or category in which he or she is to work. We train new sales

Table of Contents

associates through a self-study and testing program that we have developed for each of our categories. We also use mystery shoppers to shop at each store at least monthly and encourage customer comments by making comment cards available for customers to complete and return. These programs allow us to identify stores in which improvements need to be made at the sales associate or managerial levels.

We typically staff our stores with a store manager, two sales managers, a sales support manager, six sales leaders, and approximately 50 full-time and part-time sales associates for a single-level store and proportionately more supervisory roles and associates for a two-level store, depending on store volume and time of year. The operations of each store are supervised by one of 37 district managers, each of whom reports to one of five regional vice-presidents of store operations who are located in the field. The vice president of field operations reports directly to the senior vice president of operations.

Support Services. We believe that we further differentiate our stores from other large-format sporting goods stores by offering support services for the products we sell. We offer a complete range of expert golf services, from club repair, to re-gripping, to private lessons with our PGA professionals. Although we do not receive a share of income from these lessons, allowing our PGA professionals to offer lessons not only helps us in recruiting them to work for us but also provides a benefit to our customers.

Our prototype stores feature bicycle maintenance and repair stations on the sales floor, allowing our bicycle mechanics to service bicycles in addition to assisting customers. We believe that these maintenance and repair stations are one of our most effective selling tools by enhancing the credibility of our specialty store concept and giving assurance to our customers that we can repair and tune the bicycles they purchase.

We also string tennis rackets, sharpen ice skates, provide home delivery and assembly of fitness equipment, provide scope mounting and bore sighting services, cut arrows, sell hunting and fishing licenses and fill CO₂ tanks for paintball.

Site Selection and Store Locations. We select geographic markets and store sites on the basis of demographic information, quality and nature of neighboring tenants, store visibility and accessibility. Key demographics include population density, household income, age and average number of occupants per household. We seek to locate our stores in primary retail centers with an emphasis on co-tenants including major discount retailers such as Wal-Mart or Target, or specialty retailers from other categories such as Barnes & Noble, Best Buy or Staples.

We seek to balance our store expansion between new and existing markets. In our existing markets, we add stores as necessary to cover appropriate market areas. By clustering stores, we seek to take advantage of economies of scale in advertising, promotion, distribution and supervisory costs. We seek to locate stores within separate trade areas within each metropolitan area, in order to establish long-term market penetration. We generally seek to expand in geographically contiguous areas to build on our experience in the same or nearby regions. We believe that local knowledge is an important part of success. In considering new markets, we locate our stores in areas we believe are underserved. In addition to larger metropolitan markets, we also target smaller population centers in which we locate single stores, generally in regional shopping centers with a wide regional draw.

Marketing and Advertising

Our marketing program is designed to promote our selection of brand name products at competitive prices. The program is centered on newspaper advertising supplemented by direct mail and seasonal use of local and national television and radio. The advertising strategy is focused on national television and other national media campaigns, weekly newspaper advertising utilizing multi-page, color inserts and standard run of press advertising, with emphasis on key shopping periods, such as the Christmas season, Father's Day, and back-to-school, and on specific sales and promotional events, including our annual Golf-a-thon sale.

We cluster stores in major markets to enable us to employ our advertising strategy on a cost-effective basis through the use of newspaper and local and national television and radio advertising. We advertise in major metropolitan newspapers as well as in regional newspapers circulated in areas surrounding our store locations. Our newspaper advertising typically consists of weekly promotional advertisements with full-color inserts. Our television advertising is generally concentrated during a promotional event or key shopping period. At other times, we advertise on television and radio nationally to highlight seasonal sports initiatives. Radio advertising is used primarily to publicize specific promotions in conjunction with newspaper advertising or to announce a public relations promotion

or grand opening. Vendor payments under cooperative advertising arrangements with us, as

Table of Contents

well as vendor participation in sponsoring sporting events and programs, have contributed to our advertising leverage.

Our advertising is designed to create an event in the stores and to drive customer traffic with advertisements promoting a wide variety of merchandise values appropriate for the current holiday or event.

We also sponsor professional sports teams, tournaments and amateur competitive events in an effort to align ourselves with both the serious sports enthusiast and the community in general.

Our Scorecard loyalty program provides reward certificates to customers based on purchases. After a customer registers, reward points build as a percentage of purchases. These rewards are systematically tracked, and once a customer reaches a minimum threshold purchase level of \$300 within a program year, a merchandise credit is mailed to the customer's home. This database is then used in conjunction with our direct marketing program. The direct marketing program consists of several direct mail pieces sent during holidays throughout the year. Additionally, several customer focused mailings are sent to members based on their past purchasing history.

Information Systems

We use the JDA Merchandising System and a new data warehouse that interfaces with all Merchandising Systems. We also use the E-3 Replenishment and Arthur Allocation retail software systems. These systems operate on a combination of IBM iSeries and Unix computers. We utilize Fujitsu, NCR, IBM, HP and Dell point-of-sale hardware that incorporates scanning and price look-up features that are supported by the RSA point-of-sale software. Our fully integrated management information systems track purchasing, sales and inventory transfers down to the stock keeping unit or SKU level and have allowed us to improve overall inventory management by identifying individual SKU activity and projecting trends and replenishment needs on a timely basis. We believe that these systems enable us to increase margins by reducing inventory investment, strengthening in-stock positions, and creating store level perpetual inventories and automatic inventory replenishment on basic items of merchandise.

We have a merchandise planning and allocation system that optimizes the distribution of most products to the stores through a combination of historical sales data and forecasted data at an individual store and item level. We believe this minimizes markdowns taken on merchandise and improves sales on these products. Our distribution centers utilize a suite of products from Manhattan Associates which are fully integrated with our JDA systems. Our store operations personnel in every location have online access to product signage, advertising information and e-mail through our wide area network. PeopleSoft Software is used for Payroll, Human Resource Management and Financial Systems.

Purchasing and Distribution

In addition to merchandise procurement, our buying staff is also responsible for determining initial pricing and product marketing plans and working with our allocation and replenishment groups to establish stock levels and product mix. Our buying staff also regularly communicates with our store operations personnel to monitor shifts in consumer tastes and market trends.

Our planning, replenishment, allocation, and merchandise control groups are responsible for merchandise allocation, inventory control, and the E-3 automatic replenishment systems. These groups act as the central processing intermediary between our buying staff and our stores. These groups also coordinate the inventory levels necessary for each advertising promotion with our buying staff and our advertising department, tracking the effectiveness of each advertisement to allow our buying staff and our advertising department to determine the relative success of each promotional program. In addition, these groups' other duties include implementation of price changes, creation of vendor purchase orders and determination of the adequate amount of inventory for each store.

We purchase merchandise from nearly 1,200 vendors, and we have no long-term purchase commitments. During fiscal 2006, Nike, our largest vendor, represented approximately 12% of our merchandise purchases. No other vendor represented 10% or more of our fiscal 2006 merchandise purchases. We do not have long-term contracts with any of our vendors and all of our purchases from vendors are done on a short-term purchase order basis.

We operate a 601,000 square foot distribution center in Smithton, Pennsylvania and we expanded our distribution center in Plainfield, Indiana from 364,000 to 725,000 square feet. The expansion in Plainfield was

Table of Contents

completed in January 2007. Vendors directly ship merchandise, including price tickets, to these distribution centers, where it is processed as necessary, before being shipped to the stores. We believe that our distribution system has the following advantages as compared to a direct delivery or drop shipping system utilized by some other retailers: reduced individual store inventory investment, more timely replenishment of store inventory needs, better use of store floor space, reduced transportation costs and easier vendor returns.

We also have a 75,000 square foot return center in Conklin, New York. Damaged or defective merchandise being returned to vendors is consolidated for cost efficient return at this return center. Inventory arriving at our distribution center is allocated directly to our stores, to the distribution center for temporary storage, or to both locations.

We have contracted with a dedicated fleet for the delivery of merchandise from our Smithton distribution center to our stores within a 300-mile radius of Smithton. We contract with common carriers to deliver merchandise from our Plainfield distribution center to our stores as well as any store outside of a 300-mile radius from Smithton.

Competition

The market for sporting goods retailers is highly fragmented and intensely competitive. The retail sporting goods industry comprises five principal categories of retailers:

Sporting goods stores (large format stores);

Traditional sporting goods retailers;

Specialty retailers;

Mass merchants; and

Catalog and Internet retailers.

Large Format Sporting Goods Stores. The large format stores generally range from 20,000 to 100,000 square feet and offer a broad selection of sporting goods merchandise. We believe that our strong performance with the large format store in recent years is due in part to our unique approach in blending the best attributes of a large format store with the best attributes of a specialty shop.

Traditional Sporting Goods Stores. These stores generally range in size from 5,000 square feet to 20,000 square feet and are frequently located in regional malls and multi-store shopping centers. They typically carry a varied assortment of merchandise. Compared to our stores, they offer a more limited product assortment. We believe these stores do not cater to the sports enthusiast.

Specialty Stores. These stores generally range in size from approximately 2,000 to 20,000 square feet. These retailers typically focus on a specific category, such as athletic footwear, or an activity, such as golf or skiing. While they may offer a deep selection of products within their specialty, they lack the wide range of products that we offer. We believe prices at these stores typically tend to be higher than prices at the large format sporting goods stores and traditional sporting goods stores.

Mass Merchants. These stores generally range in size from approximately 50,000 to over 200,000 square feet and are primarily located in shopping centers, freestanding sites or regional malls. Sporting goods merchandise and apparel represent a small portion of the total merchandise in these stores and the selection is often more limited than in other sporting goods retailers. We believe that this limited selection, particularly with well-known brand names, combined with the reduced service levels typical of a mass merchandiser, limit their ability to meet the needs of sporting goods customers. However, Wal-Mart is by far the largest retailer of sporting goods as measured by sales.

Catalog and Internet-Based Retailers. We believe that the relationships that we have developed with our suppliers and customers through our retail stores provide us with a significant advantage over catalog-based and Internet-only retailers. These retailers sell a full line of sporting goods through the use of catalogs and/or the Internet.

Employees

As of February 3, 2007, we had a total of approximately 8,359 full-time and approximately 11,561 part-time associates (less than 30 hours per week). Due to the seasonal nature of our business, total employment will fluctuate

during the year, which typically peaks in the fourth quarter. None of our associates are covered by a collective bargaining agreement. We believe that our relations with our associates are good.

Table of Contents**Proprietary Rights**

Each of Dick's, Dick's Sporting Goods, DicksSportingGoods.com, Walter Hagen, Northeast Outfitters, PowerBolt, Fitness Gear, Ativa, Acuity, Highland Games, DBX, Field & Stream (footwear only) and Qu registered as a service mark or trademark with the United States Patent and Trademark Office. In addition, we have numerous pending applications for trademarks. We have entered into licensing agreements for names that we do not own, which provide for exclusive rights to use names such as Slazenger and Umbro for specified product categories. The earliest that any of our licenses for these private label products expires, including extensions, is 2016. These licenses contain customary termination provisions at the option of the licensor including, in some cases, termination upon our failure to sell a minimum volume of private label products covered by the license. Our licenses are also subject to risks and uncertainties common to licensing arrangements that are described below under the heading Risks and Uncertainties.

Governmental Regulation

We must comply with federal, state and local regulations, including the federal Brady Handgun Violence Prevention Act, which require us, as a federal firearms licensee, to perform a pre-sale background check of purchasers of long guns. We perform this background check using either the FBI-managed National Instant Criminal Background Check System (NICS), or a state government-managed system that relies on NICS and any additional information collected by the state. These background check systems either confirm that a sale can be made, deny the sale, or require that the sale be delayed for further review, and provide us with a transaction number for the proposed sale. We are required to record the transaction number on Form 4473 of the Bureau of Alcohol, Tobacco and Firearms and retain a copy for our records for 5 years for auditing purposes for each denied sale. After all of these procedures are complete, we complete the sale.

In addition, many of our imported products are subject to existing or potential duties, tariffs or quotas that may limit the quantity of products that we may import into the U.S. and other countries or impact the cost of such products. To date, quotas in the operation of our business have not restricted us, and customs duties have not comprised a material portion of the total cost of our products.

Executive Officers of the Company

The executive officers of the Company, and their prior business experience, are as follows:

Edward W. Stack, 52, has served as our Chairman and Chief Executive Officer since 1984 when the founder and Edward Stack's father, Richard Dick Stack, retired from our then two store chain. Mr. Stack has served us full time since 1977 in a variety of positions, including President, Store Manager and Merchandise Manager.

William J. Colombo, 51, became our President and a board member in 2002 in addition to being Chief Operating Officer. From late in 1998 to 2000, Mr. Colombo served as President of dsports.com LLC, our Internet commerce subsidiary. Mr. Colombo served as Chief Operating Officer and an Executive Vice President from 1995 to 1998. Mr. Colombo joined us in 1988. From 1977 to 1988, he held various field and district positions with J.C. Penney Company, Inc. (a retailing company listed on the NYSE). He is also on the board of directors of Gibraltar Industries (a leading processor, manufacturer and provider of high value-added, high margin steel products and services listed on NASDAQ).

William R. Newlin, 66, joined us in October 2003 as our Executive Vice President and Chief Administrative Officer. Prior to that, he served as Chairman and CEO of Buchanan Ingersoll PC (law firm) for more than five years. Mr. Newlin is also a director (formerly the Chairman) of Kennametal Inc. (global manufacturer of cutting tools and systems listed on the NYSE). He also is on the board of directors of Arvin Meritor, Inc. (vehicle modules and components listed on the NYSE) and Calgon Carbon Corporation (solutions for making air and water safer listed on the NYSE). Mr. Newlin announced that he will retire in March 2007.

Michael F. Hines, 50, has been our Executive Vice President and Chief Financial Officer since 2001 and joined us in 1995 as the Chief Financial Officer. From 1990 to 1995, Mr. Hines was employed by Staples, Inc. (an office supply retailer listed on the NYSE), most recently as Vice President of Finance. Prior to that, Mr. Hines spent 12 years in public accounting, the last eight years with Deloitte & Touche LLP. Mr. Hines announced that he will retire during March 2007.

Gwendolyn K. Manto, 52, joined us in January 2006 as our Executive Vice President and Chief Merchandising Officer. Ms. Manto was employed by Sears Holding Co. (broadline retailer listed on the NYSE), as Executive Vice President and General Merchandise Manager, Apparel since February 2004. Prior to joining Sears, she was Vice Chairman/Chief Merchandising Officer of Stein Mart (an off-price specialty retailer listed on NASDAQ).

Table of Contents

ITEM 1A. RISK FACTORS

Risks and Uncertainties

Intense competition in the sporting goods industry could limit our growth and reduce our profitability.

The market for sporting goods retailers is highly fragmented and intensely competitive. Our current and prospective competitors include many large companies that have substantially greater market presence, name recognition, and financial, marketing and other resources than us. We compete directly or indirectly with the following categories of companies:

- large format sporting goods stores;
- traditional sporting goods stores and chains;
- specialty sporting goods shops and pro shops;
- mass merchandisers, warehouse clubs, discount stores and department stores; and
- catalog and Internet-based retailers.

Pressure from our competitors could require us to reduce our prices or increase our spending for advertising and promotion. Increased competition in markets in which we have stores or the adoption by competitors of innovative store formats, aggressive pricing strategies and retail sale methods, such as the Internet, could cause us to lose market share and could have a material adverse effect on our business, financial condition and results of operations.

Lack of available retail store sites on terms acceptable to us, rising real estate prices and other costs and risks relating to new store openings could severely limit our growth opportunities.

Our strategy includes opening stores in new and existing markets. We must successfully choose store sites, execute favorable real estate transactions on terms that are acceptable to us, hire competent personnel and effectively open and operate these new stores. Our plans to increase the number of our retail stores will depend in part on the availability of existing retail stores or store sites. We cannot assure you that stores or sites will be available to us, or that they will be available on terms acceptable to us. If additional retail store sites are unavailable on acceptable terms, we may not be able to carry out a significant part of our growth strategy. Rising real estate costs and acquisition, construction and development costs could also inhibit our ability to grow. If we fail to locate desirable sites, obtain lease rights to these sites on terms acceptable to us, hire adequate personnel and open and effectively operate these new stores, our financial performance could be adversely affected.

In addition, our expansion in new and existing markets may present competitive, distribution and merchandising challenges that differ from our current challenges, including competition among our stores, diminished novelty of our store design and concept, added strain on our distribution center, additional information to be processed by our management information systems and diversion of management attention from operations, such as the control of inventory levels in our existing stores, to the opening of new stores and markets. New stores in new markets, where we are less familiar with the target customer and less well-known, may face different or additional risks and increased costs compared to stores operated in existing markets, or new stores in existing markets. Expansion into new markets could also bring us into direct competition with retailers with whom we have no past experience as direct competitors. To the extent that we become increasingly reliant on entry into new markets in order to grow, we may face additional risks and our net income could suffer. To the extent that we are not able to meet these new challenges, our sales could decrease and our operating costs could increase.

There also can be no assurance that our new stores will generate sales levels necessary to achieve store-level profitability or profitability comparable to that of existing stores. New stores also may face greater competition and have lower anticipated sales volumes relative to previously opened stores during their comparable years of operation. We may not be able to advertise cost-effectively in new or smaller markets in which we have less store density, which could slow sales growth at such stores. We also cannot guarantee that we will be able to obtain and distribute adequate product supplies to our stores or maintain adequate warehousing and distribution capability at acceptable costs.

Table of Contents

If we are unable to predict or react to changes in consumer demand, we may lose customers and our sales may decline.

Our success depends in part on our ability to anticipate and respond in a timely manner to changing consumer demand and preferences regarding sporting goods. Our products must appeal to a broad range of consumers whose preferences cannot be predicted with certainty and are subject to change. We often make commitments to purchase products from our vendors several months in advance of the proposed delivery. If we misjudge the market for our merchandise our sales may decline significantly. We may overstock unpopular products and be forced to take significant inventory markdowns or miss opportunities for other products, both of which could have a negative impact on our profitability. Conversely, shortages of items that prove popular could reduce our net sales. In addition, a major shift in consumer demand away from sporting goods or sport apparel could also have a material adverse effect on our business, results of operations and financial condition.

We may be subject to claims and our insurance may not be sufficient to cover damages related to those claims.

We may be subject to lawsuits resulting from injuries associated with the use of sporting goods equipment that we sell. In addition, although we do not sell hand guns, assault weapons or automatic firearms, we do sell hunting rifles which are products that are associated with an increased risk of injury and related lawsuits. We may also be subject to lawsuits relating to the design, manufacture or distribution of our private label products. We may incur losses relating to these claims or the defense of these claims. We may also incur losses due to lawsuits relating to our performance of background checks on hunting rifle purchasers as mandated by state and federal law or the improper use of hunting rifles sold by us, including lawsuits by municipalities or other organizations attempting to recover costs from hunting rifle manufacturers and retailers relating to the misuse of hunting rifles. In addition, in the future there may be increased federal, state or local regulation, including taxation, of the sale of hunting rifles in our current markets as well as future markets in which we may operate. Commencement of these lawsuits against us or the establishment of new regulations could reduce our sales and decrease our profitability. There is a risk that claims or liabilities will exceed our insurance coverage. In addition, we may be unable to retain adequate liability insurance in the future. Although we have entered into product liability indemnity agreements with many of our vendors, we cannot assure you that we will be able to collect payments sufficient to offset product liability losses or in the case of our private label products, collect anything at all. In addition, we are subject to regulation by the Consumer Product Safety Commission and similar state regulatory agencies. If we fail to comply with government and industry safety standards, we may be subject to claims, lawsuits, fines and adverse publicity that could have a material adverse effect on our business, results of operations and financial condition.

If our suppliers, distributors or manufacturers do not provide us with sufficient quantities of products, our sales and profitability will suffer.

We purchase merchandise from nearly 1,200 vendors. In fiscal 2006, purchases from Nike represented approximately 12% of our merchandise purchases. Although in fiscal 2006, purchases from no other vendor represented more than 10% of our total purchases, our dependence on our principal suppliers involves risk. If there is a disruption in supply from a principal supplier or distributor, we may be unable to obtain the merchandise that we desire to sell and that consumers desire to purchase. Moreover, many of our suppliers provide us with incentives, such as return privileges, volume purchasing allowances and cooperative advertising. A decline or discontinuation of these incentives could reduce our profits.

We believe that a significant portion of the products that we purchase, including those purchased from domestic suppliers, is manufactured abroad in countries such as China, Taiwan and South Korea. In addition, we believe most, if not all, of our private label merchandise is manufactured abroad. Foreign imports subject us to the risks of changes in import duties, quotas, loss of most favored nation or MFN status with the United States for a particular foreign country, work stoppages, delays in shipment, freight cost increases and economic uncertainties (including the United States imposing antidumping or countervailing duty orders, safeguards, remedies or compensation and retaliation due to illegal foreign trade practices). If any of these or other factors were to cause a disruption of trade from the countries in which the suppliers of our vendors are located, our inventory levels may be reduced or the cost of our products may increase. In addition, to the extent that any foreign manufacturers from whom we purchase products directly or indirectly utilize labor and other practices that vary from those commonly accepted in the United States, we could be

hurt by any resulting negative publicity or, in some cases, face potential liability. To date, we have not experienced any difficulties of this nature.

Historically, instability in the political and economic environments of the countries in which our vendors or we obtain our products has not had a material adverse effect on our operations. However, we cannot predict the

Table of Contents

effect that future changes in economic or political conditions in such foreign countries may have on our operations. In the event of disruptions or delays in supply due to economic or political conditions in foreign countries, such disruptions or delays could adversely affect our results of operations unless and until alternative supply arrangements could be made. In addition, merchandise purchased from alternative sources may be of lesser quality or more expensive than the merchandise we currently purchase abroad.

Countries from which our vendors obtain these new products may, from time to time, impose new or adjust prevailing quotas or other restrictions on exported products, and the United States may impose new duties, quotas and other restrictions on imported products. The United States Congress periodically considers other restrictions on the importation of products obtained by our vendors and us. The cost of such products may increase for us if applicable duties are raised, or if import quotas with respect to such products are imposed or made more restrictive, we may not be able to obtain certain goods.

Problems with our information system software could disrupt our operations and negatively impact our financial results and materially adversely affect our business operations.

We utilize a suite of applications for our merchandise system that includes JDA Merchandising and Arthur Allocation. This system, if not functioning properly, could disrupt our ability to track, record and analyze the merchandise that we sell and cause disruptions of operations, including, among others, an inability to process shipments of goods, process financial information or credit card transactions, deliver products or engage in similar normal business activities, particularly if there are any unforeseen interruptions after implementation. Any material disruption, malfunction or other similar problems in or with this system could negatively impact our financial results and materially adversely affect our business operations.

We rely on two distribution centers along with a smaller return facility, and if there is a natural disaster or other serious disruption at one of these facilities, we may lose merchandise and be unable to effectively deliver it to our stores.

We operate a 601,000 square foot distribution center in Smithton, Pennsylvania and we expanded our distribution center in Plainfield, Indiana from 364,000 to 725,000 square feet. The expansion in Plainfield was completed in January 2007. We also operate a 75,000 square foot return center in Conklin, New York. Any natural disaster or other serious disruption to one of these facilities due to fire, tornado or any other cause would damage a significant portion of our inventory, could impair our ability to adequately stock our stores and process returns of products to vendors and could negatively affect our sales and profitability. Our growth could cause us to seek alternative facilities. Such expansion of the current facility or alternatives could affect us in ways we cannot predict.

Our business is seasonal and our annual results are highly dependent on the success of our fourth quarter sales.

Our business is highly seasonal in nature. Our highest sales and operating income historically occur during the fourth fiscal quarter, which is due, in part, to the holiday selling season and, in part, to our strong sales of cold weather sporting goods and apparel. The fourth quarter generated approximately 33% of our net sales and approximately 60% of our net income for fiscal 2006. Any decrease in our fourth quarter sales, whether because of a slow holiday selling season, unseasonable weather conditions, or otherwise, could have a material adverse effect on our business, financial condition and operating results for the entire fiscal year.

Our business is dependent on the general economic conditions in our markets.

In general, our sales depend on discretionary spending by our customers. A deterioration of current economic conditions or an economic downturn in any of our major markets or in general could result in declines in sales and impair our growth. General economic conditions and other factors that affect discretionary spending in the regions in which we operate are beyond our control and are affected by:

- interest rates and inflation;
- the impact of an economic recession;
- the impact of natural disasters;
- consumer credit availability;

- consumer debt levels;

14

Table of Contents

- consumer confidence in the economy;
- tax rates and tax policy;
- unemployment trends; and
- other matters that influence consumer confidence and spending.

Increasing volatility in financial markets may cause some of the above factors to change with an even greater degree of frequency and magnitude.

Because our stores are generally concentrated in the eastern half of the United States, we are subject to regional risks.

Many of our stores are located primarily in the eastern half of the United States. Because of this, we are subject to regional risks, such as the regional economy, weather conditions, increasing costs of electricity, oil and natural gas, natural disasters, as well as government regulations specific to the states in which we operate. If the region were to suffer an economic downturn or other adverse regional event, our net sales and profitability could suffer.

Our results of operations may be harmed by unseasonably warm winter weather conditions. Many of our stores are located in geographic areas that experience seasonably cold weather. We sell a significant amount of winter merchandise. Abnormally warm weather conditions could reduce our sales of these items and hurt our profitability. Additionally, abnormally wet or cold weather in the spring or summer months could reduce our sales of golf or other merchandise and hurt our profitability.

The Company may be subject to periodic litigation, including Fair Labor Standards Act and state wage and hour lawsuits that may adversely affect the Company's business and financial performance.

From time to time the Company or its subsidiaries may be involved in lawsuits, including class action lawsuits brought against the Company or its subsidiaries for alleged violations of the Fair Labor Standards Act and state wage and hour laws. Due to the inherent uncertainties of litigation, we cannot accurately predict the ultimate outcome of any such proceedings. We may incur losses relating to these claims. In addition, these proceedings could cause us to incur costs and may require us to devote resources to defend against these claims. For a description of current legal proceedings, see Part II, Item 3, Legal Proceedings.

The terms of our senior secured revolving credit facility impose operating and financial restrictions on us, which may impair our ability to respond to changing business and economic conditions. This impairment could have a significant adverse impact on our business.

Our current senior secured revolving credit facility contains provisions which restrict our ability to, among other things, incur additional indebtedness, issue additional shares of capital stock in certain circumstances, make particular types of investments, incur certain types of liens, pay dividends, redeem capital stock, consummate mergers and consolidations, enter into transactions with affiliates or make substantial asset sales. In addition, our obligations under the senior secured revolving credit facility are secured by interests in substantially all of our personal property excluding store and distribution center equipment and fixtures. In the event of our insolvency, liquidation, dissolution or reorganization, the lenders under our senior secured revolving credit facility would be entitled to payment in full from our assets before distributions, if any, were made to our stockholders.

If we are unable to generate sufficient cash flows from operations in the future, we may have to refinance all or a portion of our debt and/or obtain additional financing. We cannot assure you that refinancing or additional financing on favorable terms could be obtained or that we would be able to operate at a profit.

We may pursue strategic acquisitions, which could have an adverse impact on our business.

We may from time to time acquire complementary companies or businesses. Acquisitions may result in difficulties in assimilating acquired companies, and may result in the diversion of our capital and our management's attention from other business issues and opportunities. We may not be able to successfully integrate operations that we acquire, including their personnel, financial systems, distribution, operations and general store operating procedures. If we fail to successfully integrate acquisitions, our business could suffer. In addition, the integration of any acquired business, and their financial results, into ours may adversely affect our operating results.

Table of Contents

Our ability to expand our business will be dependent upon the availability of adequate capital.

The rate of our expansion will also depend on the availability of adequate capital, which in turn will depend in large part on cash flow generated by our business and the availability of equity and debt capital. We cannot assure you that we will be able to obtain equity or debt capital on acceptable terms or at all. Our current senior secured revolving credit facility contains provisions which restrict our ability to incur additional indebtedness, to raise capital through the issuance of equity or make substantial asset sales, which might otherwise be used to finance our expansion. Our obligations under the senior secured revolving credit facility are secured by interests in substantially all of our personal property excluding store and distribution center equipment and fixtures, which may further limit our access to certain capital markets or lending sources. Moreover, the actual availability under our credit facility is limited to the lesser of 70% of our eligible inventory or 85% of our inventory's liquidation value, in each case net of specified reserves and less any letters of credit outstanding, and opportunities for increased cash flows from reduced inventories would be partially offset by reduced availability through our senior secured revolving credit facility. As a result, we cannot assure you that we will be able to finance our current plans for the opening of new retail stores.

The loss of our key executives, especially Edward W. Stack, our Chairman of the Board and Chief Executive Officer, could have a material adverse effect on our business due to the loss of their experience and industry relationships.

Our success depends on the continued services of our senior management, particularly Edward W. Stack, our Chairman of the Board and Chief Executive Officer. If we were to lose any key senior executive, our business could be materially adversely affected.

Our business depends on our ability to meet our labor needs.

Our success depends on hiring and retaining quality managers and sales associates in our stores. We plan to expand our employee base to manage our anticipated growth. Competition for personnel, particularly for employees with retail expertise, is intense. Additionally, our ability to maintain consistency in the quality of customer service in our stores is critical to our success. Also, many of our store-level employees are in entry-level or part-time positions that historically have high rates of turnover. We are also dependent on the employees who staff our distribution and return centers, many of whom are skilled. We may be unable to meet our labor needs and control our costs due to external factors such as unemployment levels, minimum wage legislation and wage inflation. Although none of our employees are currently covered under collective bargaining agreements, we cannot guarantee that our employees will not elect to be represented by labor unions in the future. If we are unable to hire and retain sales associates capable of providing a high level of customer service, our business could be materially adversely affected.

Terrorist attacks or acts of war may seriously harm our business.

Among the chief uncertainties facing our nation and world and, as a result, our business is the instability and conflict in the Middle East. Obviously, no one can predict with certainty what the overall economic impact will be as a result of this. Clearly, events or series of events in the Middle East or elsewhere could have a very serious adverse impact on our business.

Terrorist attacks may cause damage or disruption to our Company, our employees, our facilities and our customers, which could significantly impact our net sales, costs and expenses, and financial condition. The potential for future terrorist attacks, the national and international responses to terrorist attacks, and other acts of war or hostility may cause greater uncertainty and cause our business to suffer in ways that we currently cannot predict. Our geographic focus in the eastern United States may make us more vulnerable to such uncertainties than other comparable retailers who may not have a similar geographic focus.

We are controlled by our Chief Executive Officer and his relatives, whose interests may differ from other stockholders.

We have two classes of common stock. The common stock has one vote per share and the Class B common stock has 10 votes per share. As of February 3, 2007, Mr. Edward W. Stack, our Chairman and Chief Executive Officer, and his relatives controlled approximately 77% of the combined voting power of our common stock and Class B common stock and would control the outcome of any corporate transaction or other matter submitted to the stockholders for approval, including mergers, consolidations and the sale of all or substantially all of our assets.

Table of Contents

Mr. Stack may also acquire additional shares of common stock upon the exercise of stock options. They will also have the power to prevent or cause a change in control. The interests of Mr. Stack and his relatives may differ from the interests of the other stockholders and they may take actions with which you disagree.

Our quarterly operating results may fluctuate substantially, which may adversely affect our business and the market price of our common stock.

Our net sales and results of operations have fluctuated in the past and may vary from quarter to quarter in the future. These fluctuations may adversely affect our business, financial condition and the market price of our common stock. A number of factors, many of which are outside our control, may cause variations in our quarterly net sales and operating results, including:

changes in demand for the products that we offer in our stores;

lockouts or strikes involving professional sports teams;

retirement of sports superstars used in marketing various products;

costs related to the closures of existing stores;

litigation;

pricing and other actions taken by our competitors;

adverse weather conditions in our markets; and

general economic conditions.

Our comparable store sales will fluctuate and may not be a meaningful indicator of future performance.

Changes in our comparable store sales results could affect the price of our common stock. A number of factors have historically affected, and will continue to affect, our comparable store sales results, including:

competition;

our new store openings;

general regional and national economic conditions;

actions taken by our competitors;

consumer trends and preferences;

changes in the other tenants in the shopping centers in which we are located;

new product introductions and changes in our product mix;

timing and effectiveness of promotional events;

lack of new product introductions to spur growth in the sale of various kinds of sports equipment; and

weather.

We cannot assure you that comparable store sales will continue to increase at the rates achieved in our last fiscal year. Moreover, our comparable store sales may decline. Our comparable store sales may vary from quarter to quarter, and an unanticipated decline in revenues or comparable store sales may cause the price of our common stock to

fluctuate significantly.

The market price of our common stock is likely to be highly volatile as the stock market in general has been highly volatile. Factors that could cause fluctuation in the stock price may include, among other things:

actual or anticipated variations in quarterly operating results;

changes in financial estimates by securities analysts;

our inability to meet or exceed securities analysts' estimates or expectations;

conditions or trends in our industry;

changes in the market valuations of other retail companies;

announcements by us or our competitors of significant acquisitions, strategic partnerships, divestitures, joint ventures or other strategic initiatives;

Table of Contents

capital commitments;

additions or departures of key personnel; and

sales of common stock.

Many of these factors are beyond our control. These factors may cause the market price of our common stock to decline, regardless of our operating performance.

Our anti-takeover provisions could prevent or delay a change in control of our company, even if such change of control would be beneficial to our stockholders.

Provisions of our amended and restated certificate of incorporation and amended and restated bylaws as well as provisions of Delaware law could discourage, delay or prevent a merger, acquisition or other change in control of our Company, even if such change in control would be beneficial to our stockholders. These provisions include: authorizing the issuance of Class B common stock; classifying the board of directors such that only one-third of directors are elected each year; authorizing the issuance of blank check preferred stock that could be issued by our board of directors to increase the number of outstanding shares and thwart a takeover attempt; prohibiting the use of cumulative voting for the election of directors; limiting the ability of stockholders to call special meetings of stockholders; if our Class B common stock is no longer outstanding, prohibiting stockholder action by partial written consent and requiring all stockholder actions to be taken at a meeting of our stockholders or by unanimous written consent; and establishing advance notice requirements for nominations for election to the board of directors or for proposing matters that can be acted upon by stockholders at stockholder meetings.

In addition, the Delaware General Corporation Law, to which we are subject, prohibits, except under specified circumstances, us from engaging in any mergers, significant sales of stock or assets or business combinations with any stockholder or group of stockholders who own at least 15% of our common stock.

We may not have the ability to purchase convertible notes at the option of the holders or upon a change in control or to raise the funds necessary to finance the purchases.

On February 18, 2004, the Company completed a private offering of \$172.5 million issue price of senior unsecured convertible notes in transactions pursuant to Rule 144A under the Securities Act of 1933, as amended.

On February 18, 2009, February 18, 2014 and February 18, 2019, holders of the convertible notes may require us to purchase their convertible notes. However, it is possible that we would not have sufficient funds at that time to make the required purchase of convertible notes or would otherwise be prohibited under our senior secured revolving credit facility or other future debt instruments from making such payments in cash. We may only pay the purchase price in cash and not in shares of our common stock.

In addition, upon the occurrence of certain specific kinds of change in control events, holders may require us to purchase for cash all or any portion of their convertible notes. However, it is possible that, upon a change in control, we may not have sufficient funds at that time to make the required purchase of convertible notes, and we may be unable to raise the funds necessary. In addition, the issuance of our shares upon a conversion of convertible notes could result in a default under our senior secured revolving credit facility to the extent that the issuance creates a change of control event under our credit facility. Such a default under the senior secured credit facility could in turn create a cross default under the convertible notes.

The terms of our senior secured revolving credit facility and of any future indebtedness we incur may also restrict our ability to fund the purchase of convertible notes upon a change in control or if we are otherwise required to purchase convertible notes at the option of the holder. If such restrictions exist, we would have to seek the consent of the lenders or repay those borrowings. If we were unable to obtain the necessary consent or unable to repay those borrowings, we would be unable to purchase the convertible notes and, as a result, would be in default under the convertible notes.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

Table of Contents**ITEM 2. PROPERTIES**

Our corporate headquarters is located at 300 Industry Drive, RIDC Park West, Pittsburgh, PA 15275, where we lease approximately 200,000 square feet of office space. The lease for this office space is for a term of 20 years through 2024.

We currently lease a 601,000 square foot distribution center in Smithton, Pennsylvania and a 725,000 square foot distribution center in Plainfield, Indiana. The term of these leases expire in 2019 and 2020, respectively. We also lease a 75,000 square foot return center in Conklin, New York, which is utilized for freight consolidation and the handling of damaged and defective merchandise. The term of this lease expires in 2009.

We lease all of our stores. Initial lease terms are generally for 10 to 25 years, and most leases contain multiple five-year renewal options and rent escalation provisions. We believe that our leases, when entered into, are at market rate rents. We generally select a new store site six to 18 months before its opening. Our stores are primarily located in shopping centers in regional shopping areas, as well as in freestanding locations and in malls. We currently have substantially all of our leases signed for the stores planned to open in fiscal 2007, and five signed leases for the stores planned to open in fiscal 2008.

As of February 3, 2007 we operated 294 stores in 34 states. The following table sets forth the number of stores by state:

| State | |
|----------------|----|
| Alabama | 4 |
| Colorado | 7 |
| Connecticut | 8 |
| Delaware | 2 |
| Florida | 2 |
| Georgia | 8 |
| Illinois | 16 |

Table of Contents**ITEM 3. LEGAL PROCEEDINGS**

The Company is a defendant in three cases which make claims concerning alleged failures to pay overtime wages as required by the Fair Labor Standards Act (FLSA) and applicable state labor law. The cases were filed in May and November of 2005, and April of 2006, and are currently pending in the U.S. District Court for the Western District of New York (Tamara Barrus v. Dick's Sporting Goods, Inc. and Galyan's Trading Company, Inc. (Barrus) and Daniel Parks v. Dick's Sporting Goods, Inc. (Parks)) and the U.S. Third Circuit Court of Appeals (James Premick v. Dick's Sporting Goods, Inc. (Premick)). Because until September 2006 none of these cases were certified as class actions, we deemed them to be claims that were incidental to our business. In September and October 2006, respectively, a magistrate judge for the U.S. District Court for the Western District of New York conditionally certified classes for notice purposes under the FLSA in the Barrus and Parks cases. We have appealed these conditional certifications by the magistrate judge in the Barrus and Parks cases to the U.S. District Court in the Western District of New York. The U.S. District Court has denied our appeal as to conditional class certification in the Barrus case. The parties and the Court agreed to stop the actions pending an attempt to resolve all claims through mediation. Mediation is scheduled for April 2007. The Premick case is on appeal following a favorable dismissal of all claims against the Company in the trial court.

We currently believe that none of these cases properly represent class actions, and we plan to vigorously defend these cases. Our management believes that the final resolution of these matters would not have a material effect on our consolidated financial position or liquidity.

In addition to the above matters, various claims and lawsuits arising in the normal course of business are pending against us. The subject matter of these proceedings primarily includes commercial disputes and employment issues not relating to the FLSA. The results of those other proceedings are not expected to have a material adverse effect on our consolidated financial position, liquidity or results of operations.

ITEM 4. SUBMISSIONS OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the fourth quarter of fiscal year 2006 through the solicitation of proxies or otherwise.

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON STOCK AND RELATED STOCKHOLDER MATTERS**

The shares of Dick's Sporting Goods, Inc. common stock are listed and traded on the New York Stock Exchange (NYSE), under the symbol DKS . The shares of the Company's Class B common stock are neither listed nor traded on any stock exchange or other market. These shares of Class B common stock can be converted to common stock at the holder's option and are automatically convertible upon other events. Our common stock began trading on October 16, 2002, following the Company's initial public offering. Set forth below, for the applicable periods indicated, are the high and low closing sales prices per share of the Company's common stock as reported by the NYSE.

| Fiscal Quarter Ended | High | Low |
|-----------------------------|-------------|------------|
| April 29, 2006 | \$42.25 | \$35.66 |
| July 29, 2006 | \$44.03 | \$35.24 |
| October 28, 2006 | \$49.50 | \$36.26 |
| February 3, 2007 | \$55.79 | \$48.23 |
| Fiscal Quarter Ended | High | Low |
| April 30, 2005 | \$36.73 | \$30.66 |
| July 30, 2005 | \$40.13 | \$30.56 |
| October 29, 2005 | \$40.08 | \$27.00 |
| January 28, 2006 | \$37.36 | \$29.93 |

Table of Contents

The number of holders of record of shares of the Company's common stock and Class B common stock as of March 21, 2007 was 179 and 9, respectively.

We currently intend to retain our earnings for the development of our business. We have never paid any cash dividends since our inception, and we do not anticipate paying any cash dividends in the future.

The information set forth under Item 12 Security Ownership of Certain Beneficial Owners and Management and Related Shareholder Matters is incorporated herein.

ITEM 6. SELECTED CONSOLIDATED FINANCIAL AND OTHER DATA

The following selected consolidated financial data for fiscal years 2006, 2005, 2004, 2003 and 2002 presented below under the captions Statement of Income Data , Other Data and Balance Sheet Data have been derived from our consolidated financial statements for those periods. The following selected consolidated financial data for fiscal years 2006, 2005, 2004, 2003 and 2002 presented below under the caption Store Data have been derived from internal records of our operations.

Our fiscal year consists of 52 or 53 weeks, ends on the Saturday nearest to the last day in January and is named for the calendar year ending closest to that date. All fiscal years presented include 52 weeks of operations except fiscal 2006, which includes 53 weeks. You should read the information set forth below in conjunction with other sections of this report, including Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and related notes.

| Retained earnings | \$ 315,453 | \$ 202,842 | \$ 129,862 | \$ 60,957 | \$ 8,549 |
| Total stockholders equity | \$ 620,550 | \$ 414,793 | \$ 313,667 | \$ 240,894 | \$ 138,823 |

(1) Cost of goods sold includes the cost of merchandise, occupancy, freight and distribution costs, and shrink expense.

(2) Gain on sale of investment resulted from the sale of a portion of the Company's non-cash investment in its third-party Internet commerce service provider. We converted to an equity ownership in that provider in lieu of royalties until Internet sales reached a predefined amount that

resulted in this
non-cash
investment.

- (3) The loss on
write-down of
non-cash
investment
resulted from a
write-down of
the investment
in our
third-party
Internet
commerce
service provider
due to a decline
in the value of
that company's
publicly traded
stock.

Table of Contents

(4) Earnings per share data gives effect to the two-for-one stock split, in the form of a stock dividend, which became effective on April 5, 2004.

(5) Comparable store sales begin in a store's 14th full month of operations after its grand opening. Comparable store sales are for stores that opened at least 13 months prior to the beginning of the period noted. Stores that were closed or relocated during the applicable period have been excluded from comparable store sales. Each relocated store is returned to the comparable store base after its 14th full month of operations. The former Galyan's stores will be included in the full year comparable store base beginning in

2007.

- (6) Calculated using net sales and gross square footage of all stores open at both the beginning and the end of the period. Gross square footage includes the storage, receiving and office space that generally occupies approximately 18% of total store space.
- (7) Calculated as cost of goods sold divided by the average monthly ending inventories of the last 13 months.
- (8) Defined as current assets less current liabilities.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with Selected Consolidated Financial and Other Data and our consolidated financial statements and related notes appearing elsewhere in this report. This Annual Report on Form 10-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. See PART I- Forward Looking Statements and PART I-Item 1A, Risks and Uncertainties .

Overview

The Company is an authentic full-line sporting goods retailer offering a broad assortment of brand-name sporting goods equipment, apparel and footwear in a specialty store environment. On July 29, 2004, a wholly owned subsidiary of Dick's Sporting Goods, Inc. completed the acquisition of Galyan's. The Consolidated Statements of Income include the operation of Galyan's from the date of acquisition forward for the year ended January 29, 2005.

As of February 3, 2007 we operated 294 stores, with approximately 16.7 million square feet, in 34 states, the majority of which are located primarily throughout the eastern half of the United States.

Executive Summary

The Company reported net income for the year ended February 3, 2007 of \$112.6 million or \$2.03 per diluted share as compared to net income of \$73.0 million and earnings per diluted share of \$1.35 in 2005. The increase in

earnings was attributable to an increase in sales as a result of a 6.0% increase in comparable store sales, new store sales and an increase in gross profit margins partially offset by an increase in selling, general and administrative expenses as a percentage of sales.

Net sales increased 19% to \$3,114 million in 2006 from \$2,625 million in 2005. This increase resulted primarily from a comparable store sales increase of 6.0%, or \$105.9 million on a 52 week to 52 week basis, and \$383.1 million from the net addition of new stores in the last five quarters which are not included in the comparable store base and the inclusion of a 53rd week of sales.

Income from operations increased 49% to \$197.7 million in 2006 from \$132.7 million in 2005 due primarily to the increase in gross profit, and the inclusion of merger integration and store closing costs in 2005 partially offset by an increase in selling, general and administrative costs.

As a percentage of net sales, gross profit increased to 28.79% in 2006 from 28.10% in 2005. The gross profit percentage increased primarily due to an increase in the merchandise margin percentage, lower freight and distribution costs as a percentage of sales and lower occupancy costs as a percentage of sales.

Selling, general and administrative expenses increased by 73 basis points. The increase as a percentage of sales was due primarily to recording stock compensation expense in fiscal 2006 upon the Company's adoption of SFAS 123R on January 29, 2006, an increase in net advertising expense and higher bonus expense this year.

Table of Contents

We ended the year with no borrowings on our line of credit and excess borrowing availability totaled \$333.5 million as of February 3, 2007.

Results of Operations

The following table presents for the periods indicated selected items in the consolidated statements of income as a percentage of the Company's net sales, as well as the basis point change in percentage of net sales from the prior year's period:

| | 2006^A | Fiscal Year 2005^A | 2004^A | Percentage of Net Sales from Prior Year 2005-2006^A | Percentage of Net Sales from Prior Year 2004-2005^A |
|--|-------------------------|---|-------------------------|--|--|
| Net sales (1) | 100.00% | 100.00% | 100.00% | N/A | N/A |
| Cost of goods sold, including occupancy and distribution costs (2) | 71.21 | 71.90 | 72.19 | (69) | (29) |
| Gross profit | 28.79 | 28.10 | 27.81 | 69 | 29 |
| Selling, general and administrative expenses (3) | 21.92 | 21.19 | 21.04 | 73 | 15 |
| Merger integration and store closing costs (4) | | 1.44 | 0.96 | (144) | 48 |
| Pre-opening expenses (5) | 0.53 | 0.41 | 0.55 | 12 | (14) |
| Income from operations | 6.35 | 5.06 | 5.26 | 129 | (20) |
| Gain on sale of investment (6) | | (0.07) | (0.52) | (7) | (45) |
| Interest expense, net (7) | 0.32 | 0.49 | 0.38 | (17) | 11 |
| Other income | | | (0.05) | | (5) |
| Income before income taxes | 6.03 | 4.63 | 5.44 | 140 | (81) |
| Provision for income taxes | 2.41 | 1.85 | 2.18 | 56 | (33) |
| Net income | 3.62% | 2.78% | 3.27% | 84 | (49) |

A: Column does not
add due to rounding

(1) Revenue from
retail sales is
recognized at
the point of sale,
net of sales tax.
A provision for
anticipated
merchandise
returns is
provided

through a reduction of sales and cost of sales in the period that the related sales are recorded.

Revenue from gift cards and returned merchandise credits (collectively the cards), are deferred and recognized upon the redemption of the cards.

These cards have no expiration date.

Income from unredeemed cards is recognized in the consolidated statements of income in selling, general and administrative expenses at the point at which redemption becomes remote. The Company performs an evaluation of the aging of the unredeemed cards, based on the elapsed time from the date of original issuance, to determine when redemption is remote.

Revenue from layaway sales is

recognized upon receipt of final payment from the customer.

- (2) Cost of goods sold includes the cost of merchandise, inventory shrinkage, freight, distribution and store occupancy costs. Store occupancy costs include rent, common area maintenance charges, real estate and other asset based taxes, store maintenance, utilities, depreciation, fixture lease expenses and certain insurance expenses.
- (3) Selling, general and administrative expenses include store and field support payroll and fringe benefits, advertising, bank card charges, information systems, marketing, legal, accounting, other store expenses and all

expenses associated with operating the Company's corporate headquarters.

- (4) Merger integration and store closing costs all pertain to the Galyan's acquisition and include the expense of closing Dick's stores in overlapping markets, advertising the re-branding of Galyan's stores, duplicative administrative costs, recruiting and system conversion costs. Beginning in the third quarter of 2005, the balance of the merger integration and store closing costs, which relate primarily to accretion of discounted cash flows on future lease payments on closed stores, was included in rent expense.
- (5) Pre-opening expenses consist primarily of rent, marketing, payroll and recruiting costs incurred prior to

a new store
opening.

- (6) Gain on sale of investment resulted from the sale of a portion of the Company's non-cash investment in its third-party Internet commerce provider.

Table of Contents

- (7) Interest expense, net, results primarily from interest on our senior convertible notes and Credit Agreement borrowings partially offset by interest income.

Fiscal 2006 (53 weeks) Compared to Fiscal 2005 (52 weeks)

Net Income

Net income increased to \$112.6 million in 2006 from \$73.0 million in 2005. This represented an increase in diluted earnings per share of \$0.68, or 50% to \$2.03 from \$1.35. The increase in earnings was attributable to an increase in net sales and gross profit margin percentage, partially offset by an increase in selling, general and administrative expenses as a percentage of sales.

Net Sales

Net sales increased 19% to \$3,114 million in 2006 from \$2,625 million in 2005. This increase resulted primarily from a comparable store sales increase of 6.0%, or \$105.9 million on a 52 week to 52 week basis, and \$383.1 million from the net addition of new stores in the last five quarters which are not included in the comparable store base and the inclusion of a 53rd week of sales.

The increase in comparable store sales is mostly attributable to sales increases in men's and women's apparel, kids, athletic and casual footwear, licensed merchandise, baseball, hunting, camping and guns, partially offset by lower sales of bikes, boots, snow sports and outerwear accessories.

Private Label Sales

For the year ended February 3, 2007, private label product sales in total for all stores represented 14.1% of sales, an increase from last year's 11.9% of sales. These private label sales are for the merchandise developed by Dick's.

Store Count

During 2006, we opened 39 stores and relocated two stores. As of February 3, 2007 we operated 294 stores, with approximately 16.7 million square feet, in 34 states.

Income from Operations

Income from operations increased 49% to \$197.7 million in 2006 from \$132.7 million in 2005 due primarily to the increase in gross profit, partially offset by an increase in selling, general and administrative costs.

Gross profit increased 22% to \$896.7 million in 2006 from \$737.6 million in 2005. As a percentage of net sales, gross profit increased to 28.79% in 2006 from 28.10% in 2005. The gross profit percentage increased primarily due to improved merchandise margins in the majority of the Company's product categories, lower freight and distributions costs as a percentage of sales (14 basis points) due to cost minimization practices at our distribution centers and lower occupancy costs as a percentage of sales (14 basis points) due to the leverage from higher sales.

Selling, general and administrative expenses increased to \$682.6 million in 2006 from \$556.3 million in 2005 due primarily to an increase in store count and continued investment in corporate and store infrastructure.

The 73 basis point increase over last year was due primarily to an increase in net advertising expense (29 basis points), the recording of stock compensation expense in 2006 due to the Company's adoption of FAS 123R (78 basis points) and higher bonus expense (19 basis points) partially offset by a decrease in store payroll (40 basis points) due to the leverage from higher sales.

Merger integration and store closing costs associated with the purchase of Galyan's of \$37.8 million were recognized in 2005. The cost relates primarily to closing Dick's stores in overlapping markets and advertising the

re-branding and re-grand opening of the former Galyan's stores.

Pre-opening expenses increased by \$5.6 million to \$16.4 million in 2006 from \$10.8 million in 2005. Pre-opening expenses were for the opening of 39 new stores and relocation of two stores in 2006 compared to the opening of 26 new stores and relocation of four stores in 2005. Pre-opening expenses in any year fluctuate depending on the timing and number of store openings and relocations. During 2006, Dick's recognized rental costs

Table of Contents

associated with its operating leases that were incurred during the construction period in accordance with FSP 13-1, Accounting for Rental Costs Incurred during a Construction Period.

Gain on Sale of Investment

Gain on sale of investment was \$1.8 million in 2005. The gain resulted from the sale of a portion of the Company's non-cash investment in its third-party Internet commerce provider.

Interest Expense, net

Interest expense, net, decreased by \$3.0 million to \$10.0 million in 2006 from \$13.0 million in 2005 due primarily to lower average borrowings on the Company's senior secured revolving credit facility.

Fiscal 2005 Compared to Fiscal 2004**Net Income**

Net income increased to \$73.0 million in 2005 from \$68.9 million in 2004. This represented an increase in diluted earnings per share of \$0.05, or 4% to \$1.35 from \$1.30. The increase in earnings was attributable to an increase in net sales and gross profit margin percentage, partially offset by an increase in selling, general and administrative expenses as a percentage of sales, a \$5.5 million after tax decrease in the gain on sale of investment and a \$10.5 million after tax increase in merger integration and store closing costs associated with the acquisition of Galyan's.

Net Sales

Net sales increased 24% to \$2,625 million in 2005 from \$2,109 million in 2004. This increase resulted primarily from a comparable store sales increase of 2.6%, or \$36.7 million, and \$478.9 million from the net addition of new stores in the last five quarters which are not included in the comparable store base and the former Galyan's stores which were included in the comparable store base beginning in the second quarter of 2006.

The increase in comparable store sales is mostly attributable to sales increases in men's and women's apparel, exercise, athletic and casual footwear, socks, licensed merchandise, baseball and accessories and guns, partially offset by lower sales of paintball, in-line skates, bikes, hockey and hunting.

Private Label Sales

For the year ended January 28, 2006, private label product sales in total for all stores represented 11.9% of sales, an increase from last year's 8.6% of proforma sales. These private label sales are for the merchandise developed by Dick's, and do not include any remaining private label products developed by Galyan's.

Store Count

During 2005, we opened 26 stores, relocated four stores and closed five stores. The store closures were a result of the Galyan's acquisition. As of January 28, 2006 we operated 255 stores, with approximately 14.7 million square feet, in 34 states.

Income from Operations

Income from operations increased 20% to \$132.7 million in 2005 from \$110.9 million in 2004 due primarily to the increase in gross profit, partially offset by an increase in merger integration and store closing costs and an increase in selling, general and administrative costs.

Gross profit increased 26% to \$737.6 million in 2005 from \$586.5 million in 2004. As a percentage of net sales, gross profit increased to 28.10% in 2005 from 27.81% in 2004. The gross profit percentage increased primarily due to improved merchandise margins in the majority of the Company's product categories, partially offset by higher occupancy costs as a percentage of sales (50 basis points) due primarily to higher occupancy costs in the former Galyan's stores, and higher freight expense as a percentage of sales (39 basis points). The increase in freight expense was primarily due to an increase in the fuel surcharge charged by our carriers.

Selling, general and administrative expenses increased to \$556.3 million in 2005 from \$443.8 million in 2004 due primarily to an increase in store count and continued investment in corporate and store infrastructure.

Table of Contents

The 15 basis point increase over last year was due primarily to an increase in store payroll costs (64 basis points), a portion of which is due to the negative leverage from lower sales in the former Galyan's stores, partially offset by lower bonus expense (28 basis points) and a decrease in corporate payroll expense (12 basis points), a portion of which is due to the synergies obtained from the acquisition of Galyan's.

Merger integration and store closing costs associated with the purchase of Galyan's increased to \$37.8 million in 2005 from \$20.3 million in 2004. The increase is primarily due to closing Dick's stores in overlapping markets and advertising the re-branding and re-grand opening of the former Galyan's stores.

Pre-opening expenses decreased by \$0.7 million to \$10.8 million in 2005 from \$11.5 million in 2004. Pre-opening expenses were for the opening of 26 new stores and relocation of four stores in 2005 compared to the opening of 29 new stores and relocation of three stores in 2004. Pre-opening expenses in any year fluctuate depending on the timing and number of store openings and relocations.

Gain on Sale of Investment

Gain on sale of investment was \$1.8 million in 2005 as compared to \$11.0 million in 2004. The gain resulted from the sale of a portion of the Company's non-cash investment in its third-party Internet commerce provider.

Interest Expense, net

Interest expense, net, increased by \$5.0 million to \$13.0 million in 2005 from \$8.0 million in 2004 due primarily to higher interest rates and higher average borrowings on the Company's senior secured revolving credit facility.

Other Income

Other income in 2004 included a \$1.0 million break-up fee related to our unsuccessful effort to acquire the assets of a bankrupt retailer.

Liquidity and Capital Resources

Our primary capital requirements are for working capital, capital improvements and to support expansion plans, as well as for various investments in store remodeling, store fixtures and ongoing infrastructure improvements. The Company's main source of liquidity in 2006 and 2005 was our net cash provided by financing activities.

The change in cash and cash equivalents is as follows:

| | Fiscal Year Ended | | |
|--|------------------------|---------------------|---------------------|
| | February 3, 2007 | January 28, 2006 | January 29, 2005 |
| Net cash provided by operating activities | \$ 196,216 | \$ 169,530 | \$ 107,841 |
| Net cash used in investing activities | (169,191) | (93,718) | (414,772) |
| Net cash provided (used in) by financing activities | 72,353 | (58,134) | 232,143 |
| Net increase (decrease) in cash and cash equivalents | \$ 99,378 | \$ 17,678 | \$ (74,788) |

Operating Activities

Cash flow from operations is seasonal in our business. Typically, we use cash flow from operations to increase inventory in advance of peak selling seasons, with the pre-Christmas inventory increase being the largest. In the fourth quarter, inventory levels are reduced in connection with Christmas sales and this inventory reduction, combined with proportionately higher net income, typically produces significantly positive cash flow.

Cash provided by operating activities increased by \$26.7 million in 2006 to \$196.2 million, which consists primarily of higher net income of \$39.6 million and an increase in the change in assets and liabilities of \$16.1 million.

Changes in Assets and Liabilities

The primary factors contributing to the increase in the change in assets and liabilities were the change in

Table of Contents

accounts receivable, accrued expenses and deferred construction allowances, partially offset by an increase in the change in inventory and prepaid expenses.

The increase in the change in accrued expenses was primarily due to higher bonus expense, an increase in advertising accruals and an increase in capital accruals due to higher store count and an increase in the number of new stores planned for 2007 compared to 2006. The increase in deferred construction allowances is primarily related to higher tenant allowances associated with our 2006 stores compared to 2005. Partially offsetting these cash inflows was the increase in inventory, which was primarily due to higher store count and business initiatives that accelerated inventory receipts at the end of 2006 compared to 2005 and the increase in prepaid expenses as a result of the 53rd week, which caused the first week of February 2007 to fall into fiscal January 2006.

The cash flows from operating the Company's stores is a significant source of liquidity, and will continue to be used in 2007 primarily to purchase inventory, make capital improvements and open new stores. All of the Company's revenues are realized at the point-of-sale in the stores.

Investing Activities

Cash used in investing activities increased by \$75.5 million in 2006 to \$169.2 million. Net capital expenditures increased \$72.3 million due to an increase in capital expenditures of \$78.3 million and partially offset by an increase in sale-leaseback proceeds of \$6.0 million.

Purchases of property and equipment were \$190.3 million in fiscal 2006, \$112.0 million in fiscal 2005 and \$104.9 million in fiscal 2004. Capital expenditures in fiscal 2006 relate primarily to the opening of 39 new stores and the relocation of two stores, information systems and administrative and distribution facilities. The Company generated proceeds from the sale and leaseback of property and equipment, primarily its store fixtures, totaling \$24.8 million, \$18.8 million and \$35.7 million in fiscal 2006, 2005 and 2004, respectively. In addition, the Company recognized landlord reimbursements totaling \$55.9 million, \$53.1 million and \$69.2 million in fiscal 2006, 2005 and 2004, respectively.

During 2006, we opened 39 stores and relocated two stores compared to opening 26 stores and the relocation of four stores during 2005. Sale-leaseback transactions covering store fixtures, buildings and information technology assets also have the effect of returning to the Company cash previously invested in these assets. There were no building sale-leasebacks during 2006 or 2005.

The Company also generated \$1.9 million in proceeds from the sale of a portion of the Company's non-cash investment in its third-party Internet commerce service provider during 2005.

Financing Activities

Cash provided in financing activities increased by \$130.5 million to \$72.4 million primarily due to a decrease in revolving credit payments of \$76.1 million as the Company had no outstanding borrowings at February 3, 2007 or January 28, 2006. In addition, the Company received \$23.0 million of proceeds from the exercise of stock options, an increase of \$15.6 million in 2006 compared to 2005.

The Company's liquidity and capital needs have generally been met by cash from operating activities, the proceeds from the convertible notes and borrowings under the \$350 million Credit Agreement. Borrowing availability under the Credit Agreement is generally limited to the lesser of 70% of the Company's eligible inventory or 85% of the Company's inventory's liquidation value, in each case net of specified reserves and less any letters of credit outstanding. Interest on outstanding indebtedness under the Credit Agreement currently accrues, at the Company's option, at a rate based on either (i) the prime corporate lending rate or (ii) at the LIBOR rate plus 1.25% to 1.75% based on the level of total borrowings during the prior three months. The Credit Agreement's term expires May 30, 2008.

There were no outstanding borrowings under the Credit Agreement as of February 3, 2007 and January 28, 2006. Total remaining borrowing capacity, after subtracting letters of credit as of February 3, 2007 and January 28, 2006 was \$333.5 million and \$275.6 million, respectively.

The Credit Agreement contains restrictions regarding the Company's and related subsidiary's ability, among other things, to merge, consolidate or acquire non-subsiary entities, to incur certain specified types of indebtedness or liens in excess of certain specified amounts, to pay dividends or make distributions on the Company's stock, to make certain investments or loans to other parties, or to engage in lending, borrowing or other

| | (Dollars in thousands) | |
|------------------------------------|-------------------------------|-----------|
| Other commercial commitments: | | |
| Documentary letters of credit | \$ 2,901 | \$ 2,901 |
| Standby letters of credit | 13,613 | 13,613 |
| Total other commercial commitments | \$ 16,514 | \$ 16,514 |

The Company expects to fund these commitments primarily with operating cash flows generated in the normal course of business.

Table of Contents

OUTLOOK

Full Year 2007 (52-Week Year) Comparisons to Fiscal 2006 (53-Week Year)

Based on an estimated 58 million shares outstanding, the Company anticipates reporting earnings per share of approximately \$2.37 to \$2.40. This represents an approximate 18% increase over earnings per share for the full year 2006 of \$2.03 and includes the expected results of Golf Galaxy.

Comparable store sales are expected to increase approximately 2% at Dick's Sporting Goods stores.

The Company expects to open 45 new Dick's stores, 17 new Golf Galaxy stores and relocate one Dick's store in 2007.

First Quarter 2007

Based on an estimated 57 million shares outstanding, the Company anticipates reporting earnings per share of \$0.35 to \$0.38 as compared to first quarter 2006 earnings per share of \$0.21.

Comparable store sales at Dick's Sporting Goods stores are expected to increase approximately 4-6%, or approximately 3%, adjusting for the shifted retail calendar due to the 53rd week in 2006.

The Company expects to open 11 new Dick's stores and 10 new Golf Galaxy stores in the first quarter.

Newly Issued Accounting Standards

In June 2006, the Emerging Issues Task Force (EITF) reached a consensus on Issue No. 06-3 (EITF 06-3),

Disclosure Requirements for Taxes Assessed by a Governmental Authority on Revenue-Producing Transactions, which provides that entities should present such taxes on either a gross or net basis based on their accounting policies. The Company's accounting policy is to record such taxes on a net basis. EITF 06-3 is effective for interim and annual reporting periods beginning after December 15, 2006. The implementation of EITF 06-3 in the first quarter of fiscal 2007 will not have a material impact on our financial statements.

In July 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 is an interpretation of FASB Statement No. 109, Accounting for Income Taxes, and it seeks to reduce the diversity in practice associated with certain aspects of measurement and recognition in accounting for income taxes. In addition, FIN 48 requires expanded disclosure with respect to the uncertainty in income taxes and is effective as of the beginning of our 2007 fiscal year. The cumulative effect, if any, of adopting FIN 48 will be recorded as an adjustment to retained earnings as of the beginning of fiscal 2007. The Company expects that the financial impact of applying the provisions of FIN 48 to all tax positions will not be material upon the initial adoption of FIN 48.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, established a framework for measuring fair value and expands disclosures about fair value measurements; however, SFAS 157 does not require any new fair value measurements. SFAS 157 is effective as of the beginning of our 2008 fiscal year. We are currently evaluating the impact, if any, that SFAS 157 will have on our financial statements.

Critical Accounting Policies and Use of Estimates

The Company's significant accounting policies are described in Note 1 of the Consolidated Financial Statements, which were prepared in accordance with accounting principles generally accepted in the United States of America. Critical accounting policies are those that the Company believes are both most important to the portrayal of the Company's financial condition and results of operations, and require the Company's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Judgments and uncertainties affecting the application of those policies may result in materially different amounts being reported under different conditions or using different assumptions.

The Company considers the following policies to be the most critical in understanding the judgments that are involved in preparing its consolidated financial statements.

Table of Contents***Inventory Valuation***

The Company values inventory using the lower of weighted average cost or market method. Market price is generally based on the current selling price of the merchandise. The Company regularly reviews inventories to determine if the carrying value of the inventory exceeds market value and the Company records a reserve to reduce the carrying value to its market price, as necessary. Historically, the Company has rarely experienced significant occurrences of obsolescence or slow moving inventory. However, future changes such as customer merchandise preference, unseasonable weather patterns, or business trends could cause the Company's inventory to be exposed to obsolescence or slow moving merchandise.

Shrink expense is accrued as a percentage of merchandise sales based on historical shrink trends. The Company performs physical inventories at the stores and distribution centers throughout the year. The reserve for shrink represents an estimate for shrink for each of the Company's locations since the last physical inventory date through the reporting date. Estimates by location and in the aggregate are impacted by internal and external factors and may vary significantly from actual results.

Vendor Allowances

Vendor allowances include allowances, rebates and cooperative advertising funds received from vendors. These funds are determined for each fiscal year and the majority are based on various quantitative contract terms. Amounts expected to be received from vendors relating to the purchase of merchandise inventories are recognized as a reduction of cost of goods sold as the merchandise is sold. Amounts that represent a reimbursement of costs incurred, such as advertising, are recorded as a reduction to the related expense in the period that the related expense is incurred. The Company records an estimate of earned allowances based on the latest projected purchase volumes and advertising forecasts. On an annual basis at the end of the year, the Company confirms earned allowances with vendors to ensure the amounts are recorded in accordance with the terms of the contract.

Goodwill, Intangible Assets and Impairment of Long-Lived Assets

Goodwill and other finite-lived intangible assets are tested for impairment on an annual basis. Our evaluation of goodwill for impairment requires accounting judgments and financial estimates in determining the fair value of the reporting unit. If these judgments or estimates change in the future, we may be required to record impairment charges for these assets.

The Company reviews long-lived assets whenever events and circumstances indicate that the carrying value of these assets may not be recoverable based on estimated undiscounted future cash flows. Assets are reviewed at the lowest level for which cash flows can be identified, which is the store level. In determining future cash flows, significant estimates are made by the Company with respect to future operating results of each store over its remaining lease term. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

Business Combinations

Our acquisitions are accounted for under the purchase method of accounting. The assets and liabilities are adjusted to their fair values and the excess of the purchase price over the net assets acquired is recorded as goodwill. The determination of fair value involves the use of an independent appraisal, estimates and assumptions which we believe provided a reasonable basis for determining fair value.

Self-Insurance

The Company is self-insured for certain losses related to health, workers' compensation and general liability insurance, although we maintain stop-loss coverage with third-party insurers to limit our liability exposure. Liabilities associated with these losses are estimated in part by considering historical claims experience, industry factors, severity factors and other actuarial assumptions.

Table of Contents***Stock-Based Compensation***

The Company accounts for stock-based compensation in accordance with the fair value recognition provisions of SFAS 123R. The Company uses the Black-Scholes option-pricing model which requires the input of assumptions. These assumptions include estimating the length of time employees will retain their vested stock options before exercising them (expected term), the estimated volatility of the Company s common stock price over the expected term and the number of options that will ultimately not complete their vesting requirements (forfeitures). Changes in the assumptions can materially affect the estimate of fair value of stock-based compensation and consequently, the related amount recognized in the consolidated statements of income.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**Interest Rate Risk**

The Company s net exposure to interest rate risk will consist primarily of borrowings under the senior secured revolving credit facility. The Company s senior secured revolving credit facility bears interest at rates that are benchmarked either to U.S. short-term floating rate interest rates or one-month LIBOR rates, at the Company s election. There were no borrowings outstanding under the senior secured revolving credit facility as of February 3, 2007 and January 28, 2006. The impact on the Company s annual net income of a hypothetical one percentage point interest rate change on the average outstanding balances under the senior secured revolving credit facility would be approximately \$0.3 million based upon fiscal 2006 average borrowings.

Credit Risk

In February 2004, the Company sold \$172.5 million issue price of senior unsecured convertible notes due 2024 (convertible notes). In conjunction with the issuance of these convertible notes, we also entered into a five-year convertible bond hedge and a five-year separate warrant transaction with one of the initial purchasers (the counterparty) and/or certain of its affiliates. Subject to the movement in our common stock price, we could be exposed to credit risk arising out of net settlement of the convertible bond hedge and separate warrant transaction in our favor. Based on our review of the possible net settlements and the credit strength of the counterparty and its affiliates, we believe that we do not have a material exposure to credit risk as a result of these share option transactions.

Impact of Inflation

The Company does not believe that operating results have been materially affected by inflation during the preceding three fiscal years. There can be no assurance, however, that operating results will not be adversely affected by inflation in the future.

Tax Matters

Presently, the Company does not believe that there are any tax matters that could materially affect the consolidated financial statements.

Seasonality and Quarterly Results

The Company s business is subject to seasonal fluctuations. Significant portions of the Company s net sales and profits are realized during the fourth quarter of the Company s fiscal year, which is due, in part, to the holiday selling season and, in part, to our sales of cold weather sporting goods and apparel. Any decrease in fiscal fourth quarter sales, whether because of a slow holiday selling season, unseasonable weather conditions, or otherwise, could have a material adverse effect on our business, financial condition and operating results for the entire fiscal year.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the chief executive officer and the chief financial officer, of the effectiveness of the design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act). Based upon that evaluation, the Company's chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures are effective, as of the end of the period covered by this Report (February 3, 2007), in ensuring that material information relating to the Company, including its consolidated subsidiaries, required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms. There were no changes in the Company's internal control over financial reporting during the quarter ended February 3, 2007, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Report of Management on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of our financial reporting for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes maintaining records that in reasonable detail accurately and fairly reflect our transactions; providing reasonable assurance that transactions are recorded as necessary for preparation of our financial statements; providing reasonable assurance that receipts and expenditures of company assets are made in accordance with management authorization; and providing reasonable assurance that unauthorized acquisition, use or disposition of company assets that could have a material effect on our financial statements would be prevented or detected on a timely basis. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected.

Our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework and criteria established in *Internal Control - Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission. This evaluation included review of the documentation of controls, evaluation of the design effectiveness of controls, testing of the operating effectiveness of controls and a conclusion on this evaluation. Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as of February 3, 2007. Management's assessment of the effectiveness of our internal control over financial reporting as of February 3, 2007 has been audited by Deloitte & Touche LLP, an independent registered public accounting firm.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Dicks Sporting Goods, Inc.

We have audited management's assessment, included in the accompanying *Report of Management on Internal Control Over Financial Reporting*, that Dicks Sporting Goods, Inc. and subsidiaries (the Company) maintained effective internal control over financial reporting as of February 3, 2007, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that the Company maintained effective internal control over financial reporting as of February 3, 2007, is fairly stated, in all material respects, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of February 3, 2007, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the fiscal year ended February 3, 2007 of the Company and our reports dated March 20, 2007 expressed an unqualified opinion on those financial statements and financial statement schedule and included an explanatory paragraph regarding the Company's adoption of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*, on January 29, 2006.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Dick's Sporting Goods, Inc.

We have audited the accompanying consolidated balance sheets of Dick's Sporting Goods, Inc. and subsidiaries (the Company) as of February 3, 2007 and January 28, 2006, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for each of the three fiscal years in the period ended February 3, 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Dick's Sporting Goods, Inc. and subsidiaries as of February 3, 2007 and January 28, 2006, and the results of their operations and their cash flows for each of the three fiscal years in the period ended February 3, 2007, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1 to the consolidated financial statements, on January 29, 2006, the Company adopted Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of February 3, 2007, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 20, 2007 expressed an unqualified opinion on management's assessment of the effectiveness of the Company's internal control over financial reporting and an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

**DICK S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED 2006, 2005 AND 2004**

1. Summary of Significant Accounting Policies

Operations Dick s Sporting Goods, Inc. (together with its subsidiaries, the Company) is a specialty retailer selling sporting goods, footwear and apparel through its 294 stores, the majority of which are located throughout the eastern half of the United States. On July 29, 2004, a wholly owned subsidiary of Dick s Sporting Goods, Inc. completed the acquisition of Galyan s Trading Company, Inc (Galyan s). The Consolidated Statements of Income include the operation of Galyan s from the date of acquisition forward.

Fiscal Year The Company s fiscal year ends on the Saturday closest to the end of January. Fiscal years 2006, 2005 and 2004 ended on February 3, 2007, January 28, 2006 and January 29, 2005, respectively. All fiscal years presented include 52 weeks of operations except fiscal 2006, which includes 53 weeks.

Principles of Consolidation The consolidated financial statements include Dick s Sporting Goods, Inc. and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates in the Preparation of Financial Statements The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents Cash and cash equivalents consist of cash on hand and all highly liquid instruments purchased with a maturity of three months or less at the date of purchase. Interest income was \$0.8 million, \$0.2 million and \$1.1 million for fiscal 2006, 2005 and 2004, respectively.

Cash Management The Company s cash management system provides for the reimbursement of all major bank disbursement accounts on a daily basis. Accounts payable at February 3, 2007 and January 28, 2006 include \$76.8 million and \$68.0 million, respectively, of checks drawn in excess of cash balances not yet presented for payment.

Accounts Receivable Accounts receivable consists principally of amounts receivable from vendors. The allowance for doubtful accounts totaled \$2.0 million and \$1.9 million, as of February 3, 2007 and January 28, 2006, respectively.

Inventories Inventories are stated at the lower of weighted average cost or market. Inventory cost consists of the direct cost of merchandise including freight. Inventories are net of shrinkage, obsolescence, other valuations and vendor allowances totaling \$52.3 million and \$38.2 million at February 3, 2007 and January 28, 2006, respectively.

Property and Equipment Property and equipment are recorded at cost and include capitalized leases. For financial reporting purposes, depreciation and amortization are computed using the straight-line method over the following estimated useful lives:

| | |
|-----------------------------------|-------------|
| Buildings | 40 years |
| Leasehold improvements | 10-25 years |
| Furniture, fixtures and equipment | 3-7 years |
| Vehicles | 5 years |

Table of Contents

DICK S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For leasehold improvements and property and equipment under capital lease agreements, depreciation and amortization are calculated using the straight-line method over the shorter of the estimated useful lives of the assets or the lease term.

Renewals and betterments are capitalized and repairs and maintenance are expensed as incurred.

The Company periodically evaluates its long-lived assets to assess whether the carrying values have been impaired, using the provisions of Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets.

Goodwill and Intangible Assets - In accordance with SFAS No. 142, Accounting for Goodwill and Other Intangible Assets, the Company will continue to assess on an annual basis whether goodwill is impaired. Additional impairment assessments may be performed on an interim basis if the Company deems it necessary. Finite-lived intangible assets are amortized over their estimated useful economic lives and are reviewed for impairment when factors indicate that an impairment may have occurred. No impairment of goodwill or intangible assets was recorded during fiscal 2006, 2005 or 2004.

Investments - Investments consist of shares of unregistered common stock and is carried at fair value within other assets in accordance with SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities. Fair value at the acquisition date was based upon the publicly quoted equity price of GSI Commerce Inc. (GSI) stock, less a discount resulting from the unregistered character of the stock. This discount was based on an independent appraisal obtained by the Company. Unrealized holding gains and losses on the stock are included in other comprehensive income and are shown as a component of stockholders' equity as of the end of each fiscal year (see Note 13).

Deferred Revenue and Other Liabilities - Deferred revenue and other liabilities is primarily comprised of gift cards, deferred rent, which represents the difference between rent paid and the amounts expensed for operating leases, deferred liabilities related to construction allowances, unamortized capitalized rent during construction that was previously capitalized prior to the adoption of FSP 13-1, amounts deferred relating to the investment in GSI (see Note 13) and advance payments under the terms of building sale-leaseback agreements. Deferred liabilities related to construction allowances and capitalized rent, net of related amortization, was \$100.1 million at February 3, 2007 and \$73.3 million at January 28, 2006. Deferred revenue related to gift cards at February 3, 2007 and January 28, 2006 was \$72.3 million and \$58.1 million, respectively.

Self-Insurance - The Company is self-insured for certain losses related to health, workers' compensation and general liability insurance, although we maintain stop-loss coverage with third-party insurers to limit our liability exposure. Liabilities associated with these losses are estimated in part by considering historical claims experience, industry factors, severity factors and other actuarial assumptions.

Pre-opening Expenses - Pre-opening expenses, which consist primarily of rent, marketing, payroll and recruiting costs, are expensed as incurred.

Merger Integration and Store Closing Costs - Merger integration and store closing costs include the expense of closing Dick's stores in connection with the Galyan's acquisition, advertising the re-branding of Galyan's stores, duplicative administrative costs, recruiting and system conversion costs. These costs were \$37.8 and \$20.3 for fiscal 2005 and 2004, respectively.

Earnings Per Share - The computation of basic earnings per share is based on the weighted average number of shares outstanding during the period. The computation of diluted earnings per share is based on the weighted average number of shares outstanding plus the incremental shares that would be outstanding assuming the exercise of dilutive stock options and warrants, calculated by applying the treasury stock method.

Stock-Based Compensation - The Company grants stock options to purchase common stock under the Company's 2002 Stock Option Plan (the Plan). The Company also has an employee stock purchase plan (ESPP) which provides for eligible employees to purchase shares of the Company's common stock.

Prior to the January 29, 2006 adoption of the Financial Accounting Standards Board (FASB) Statement No. 123(R), Share-Based Payment (SFAS 123R), the Company accounted for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued

to Employees and related interpretations. Accordingly, because the exercise price of the option was equal to or greater than the market value of the underlying common stock on the date of grant, and any purchase discounts

Table of Contents

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

under the Company's ESPP plan were within statutory limits, no compensation expense was recognized by the Company for stock-based compensation. As permitted by SFAS No. 123, Accounting for Stock-Based Compensation (SFAS 123), stock-based compensation was included as a proforma disclosure in the notes to the consolidated financial statements.

Effective January 29, 2006, the Company adopted the fair value recognition provisions of SFAS 123R, using the modified-prospective transition method. Under this transition method, stock-based compensation expense was recognized in the consolidated financial statements for granted, modified, or settled stock options and for expense related to the ESPP, since the related purchase discount exceeded the amount allowed under SFAS 123R for non-compensatory treatment. The provisions of SFAS 123R apply to new stock options and stock options outstanding, but not yet vested, on the effective date of January 29, 2006. Results for prior periods have not been restated, as provided for under the modified-prospective transition method.

Total stock-based compensation expense recognized for the year ended February 3, 2007 was \$24.3 million before income taxes and consisted of stock option and ESPP expense of \$23.1 million and \$1.2 million, respectively. Based upon the nature of the employees to which it relates, the expense was recorded in selling, general and administrative expenses in the consolidated statements of income. The related total tax benefit was \$9.3 million for the year ended February 3, 2007.

Prior to the adoption of SFAS 123R, the Company presented all tax benefits resulting from the exercise of stock options as operating cash inflows in the consolidated statements of cash flows, in accordance with the provisions of the Emerging Issues Task Force (EITF) Issue No 00-15, Classification in the Statement of Cash Flows of the Income Tax Benefit Received by a Company upon Exercise of a Nonqualified Employee Stock Option. SFAS 123R requires the benefits of tax deductions in excess of the compensation cost recognized for those options to be classified as financing cash inflows rather than operating cash inflows, on a prospective basis. This amount is shown as Excess tax benefit from stock-based compensation on the consolidated statements of cash flows.

In November 2005, the FASB issued Staff Position No. FAS 123(R)-3, Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards (FSP 123R-3). The Company has elected to adopt the alternative transition method provided in FSP 123R-3 for calculating the tax effects of stock-based compensation under SFAS 123R. The alternative transition method includes simplified methods to establish the beginning balance of the additional paid-in capital pool (APIC pool) related to the tax effects of stock-based compensation, and for determining the impact on the APIC pool and consolidated statements of cash flows of the tax effects of stock-based compensation awards that are outstanding upon adoption of SFAS 123R.

The following table illustrates the effect on the net income and net income per share if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation (see Note 9) (dollars in thousands, except per share data):

| | 2005 | 2004 |
|---|-------------|-------------|
| Net income, as reported | \$ 72,980 | \$ 68,905 |
| Deduct: stock-based compensation expense, net of tax of related tax effects | (13,484) | (11,761) |
| Proforma net income | \$ 59,496 | \$ 57,144 |
| Net income per common share - basic | | |
| As reported | \$ 1.47 | \$ 1.44 |
| Deduct: stock-based compensation expense, net of tax | (0.28) | (0.25) |
| Proforma | \$ 1.19 | \$ 1.19 |

Edgar Filing: DICKS SPORTING GOODS INC - Form 10-K

| | | |
|--|---------|---------|
| Net income per common share diluted: | | |
| As reported | \$ 1.35 | \$ 1.30 |
| Deduct: stock-based compensation expense, net of tax | (0.25) | (0.22) |
| Proforma | \$ 1.10 | \$ 1.08 |

Disclosures for 2006 are not presented because the amounts are recognized in the consolidated statements of income.

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The fair value of stock-based awards to employees is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

| Black-Scholes Valuation Assumptions (1) | Employee Stock Options | | | Employee Stock Purchase Plan | | |
|---|------------------------|------------------|------------------|------------------------------|------------------|------------------|
| | 2006 | Proforma 2005 | Proforma 2004 | 2006 | Proforma 2005 | Proforma 2004 |
| Expected life (years) (2) | 5.29 | 5.29 | 5 | 0.5 | 0.5 | 0.5 |
| Expected volatility (3) | 37% - 39% | 39% - 41% | 52% - 54% | 24% - 32% | 27% - 40% | 27% - 40% |
| Expected average volatility | 38.79% | 40.53% | 53.32% | 28.44% | 35.10% | 35.10% |
| Expected interest rate (4) | 4.44% - 4.97% | 3.63% - 4.44% | 3.42% - 3.96% | 5.09% - 5.31% | 3.38% - 4.40% | 3.38% - 4.40% |
| Expected dividend yield | | | | | | |
| Weighted average fair values | \$ 16.67 | \$ 15.26 | \$ 15.77 | \$ 10.24 | \$ 8.29 | \$ 8.29 |

(1) Beginning on the date of adoption of SFAS 123R, forfeitures are estimated based on historical experience, prior to the date of adoption, forfeitures were recorded as they occurred.

(2) The expected life of the options represents the estimated period of time until exercise and is based on historical experience of the similar awards.

(3) Beginning on the date of adoption of SFAS 123R, expected volatility is

based on the historical volatility of the Company's common stock since the inception of the Company's shares being publicly traded in October 2002; prior to the date of adoption, expected volatility was estimated using the Company's historical volatility and volatility of other publicly-traded retailers.

- (4) The risk-free interest rate is based on the implied yield available on U.S. Treasury constant maturity interest rates whose term is consistent with the expected life of the stock options

The assumptions used to calculate the fair value of options granted are evaluated and revised, as necessary, to reflect market conditions and experience. See Note 9 for additional details regarding stock-based compensation.

Income Taxes The Company utilizes the asset and liability method of accounting for income taxes under the provisions of SFAS No. 109, Accounting for Income Taxes, and provides deferred income taxes for temporary differences between the amounts reported for assets and liabilities for financial statement purposes and for income tax reporting purposes.

Revenue Recognition Revenue from retail sales is recognized at the point-of-sale. Revenue from cash received for gift cards is deferred, and the revenue is recognized upon the redemption of the gift card. Sales are recorded net of estimated returns. Revenue from layaway sales is recognized upon receipt of final payment from the customer.

Advertising Costs Production costs of advertising and the costs to run the advertisements are expensed the first time the advertisement takes place. Advertising expense, net of cooperative advertising was \$122.9 million, \$96.1 million and \$78.3 million for fiscal 2006, 2005 and 2004, respectively.

Vendor Allowances Vendor allowances include allowances, rebates and cooperative advertising funds received from vendors. These funds are determined for each fiscal year and the majority are based on various quantitative contract terms. Amounts expected to be received from vendors relating to the purchase of merchandise inventories are recognized as a reduction of cost of goods sold as the merchandise is sold. Amounts that represent a reimbursement of costs incurred, such as advertising, are recorded as a reduction to the related expense in the period that the related expense is incurred. The Company records an estimate of earned allowances based on the latest projected purchase volumes and advertising forecasts. On an annual basis at the end of the fiscal year, the Company confirms earned allowances with vendors to determine that the amounts are recorded in accordance with the terms of the contract.

Fair Value of Financial Instruments The Company has financial instruments, which include long-term debt and revolving debt. The carrying amounts of the Company's debt instruments approximate their fair value, estimated using the Company's current incremental borrowing rates for similar types of borrowing arrangements.

Table of Contents

DICK S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Segment Information The Company is a specialty retailer that offers a broad range of products in its specialty retail stores in the eastern United States. Given the economic characteristics of the store formats, the similar nature of the products sold, the type of customer, and method of distribution, the operations of the Company are one reportable segment. The following table sets forth the approximate amount of net sales attributable to hardlines, apparel and footwear for the periods presented (dollars in millions):

| Merchandise Category | Fiscal Year | | |
|----------------------|-------------|----------|----------|
| | 2006 | 2005 | 2004 |
| Hardlines | \$ 1,768 | \$ 1,497 | \$ 1,216 |
| Apparel | 811 | 672 | 530 |
| Footwear | 535 | 456 | 363 |
| Total net sales | \$ 3,114 | \$ 2,625 | \$ 2,109 |

Newly Issued Accounting Pronouncements In June 2006, the EITF reached a consensus on Issue No. 06-3 (EITF 06-3), Disclosure Requirements for Taxes Assessed by a Governmental Authority on Revenue-Producing Transactions, which provides that entities should present such taxes on either a gross or net basis based on their accounting policies. The Company's accounting policy is to record such taxes on a net basis. EITF 06-3 is effective for interim and annual reporting periods beginning after December 15, 2006. The implementation of EITF 06-3 in the first quarter of fiscal 2007 will not have a material impact on our financial statements.

In July 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 is an interpretation of FASB Statement No. 109, Accounting for Income Taxes, and it seeks to reduce the diversity in practice associated with certain aspects of measurement and recognition in accounting for income taxes. In addition, FIN 48 requires expanded disclosure with respect to the uncertainty in income taxes and is effective as of the beginning of our 2007 fiscal year. The cumulative effect, if any, of adopting FIN 48 will be recorded as an adjustment to retained earnings as of the beginning of fiscal 2007. The Company expects that the financial impact of applying the provisions of FIN 48 to all tax positions will not be material upon the initial adoption of FIN 48.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, established a framework for measuring fair value and expands disclosures about fair value measurements; however, SFAS 157 does not require any new fair value measurements. SFAS 157 is effective as of the beginning of our 2008 fiscal year. We are currently evaluating the impact, if any, that SFAS 157 will have on our financial statements.

2. Acquisition

On July 29, 2004, Dick's Sporting Goods, Inc. acquired all of the common stock of Galyan's for \$16.75 per share in cash, and Galyan's became a wholly owned subsidiary of Dick's. The Company has recorded \$156.6 of goodwill as the excess of the purchase price of \$369.6 million over the fair value of the net amounts assigned to assets acquired and liabilities assumed. The Company received an independent appraisal for certain assets to determine their fair value. The purchase price allocation is final, except for any potential income tax changes that may arise. The following table summarizes the fair values of the assets acquired and liabilities assumed (in thousands):

Table of Contents

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

| | |
|--|------------|
| Inventory | \$ 158,780 |
| Other current assets | 65,603 |
| Property and equipment, net | 157,211 |
| Other long-term assets, excluding goodwill | 4,458 |
| Goodwill | 156,628 |
| Favorable leases | 5,310 |
| Accounts payable | (93,944) |
| Accrued expenses | (61,223) |
| Other current liabilities | (9,937) |
| Long-term debt | (5,859) |
| Other long-term liabilities | (7,455) |
| | |
| Fair value of net assets acquired, including intangibles | \$ 369,572 |

As of February 3, 2007, the Company had a net receivable of \$0.7 million as our projected sublease cash flows exceed our anticipated rent payments for two of the closed former Galyan's stores. These costs were accounted for under Emerging Issues Task Force No. 95-3, Recognition of Liabilities in Connection with a Purchase Business Combination.

The following table summarizes the activity in fiscal 2006, 2005 and 2004 (in thousands):

| | Associate Severance, Retention and Relocation | Liabilities Established for the Closing of Galyan's stores and Corporate Headquarters | Inventory Reserve for Discontinued Galyan's Merchandise | Total |
|--|--|--|--|--------------|
| Liabilities and reserves established in conjunction with the Galyan's acquisition at July 31, 2004 | \$ 15,600 | \$ 15,838 | \$ 22,686 | \$ 54,124 |
| Cash paid | (11,381) | (3,834) | | (15,215) |
| Adjustments to the estimate | (599) | (8,331) | | (8,930) |
| Clearance of discontinued Galyan's merchandise | | | (16,376) | (16,376) |
| Balance at January 29, 2005 | \$ 3,620 | \$ 3,673 | \$ 6,310 | \$ 13,603 |
| Cash paid (net of sublease receipts) | (3,284) | (4,242) | | (7,526) |
| Adjustments to the estimate | (216) | | | (216) |
| Clearance of discontinued Galyan's merchandise | | | (6,310) | (6,310) |
| Balance at January 28, 2006 | \$ 120 | \$ (569) | \$ | \$ (449) |

| | | | |
|--|-------|------|----------|
| Cash paid (net of sublease receipts) | (120) | (85) | (205) |
| Adjustments to the estimate | | | |
| Clearance of discontinued Galyan's merchandise | | | |
| Balance at February 3, 2007 | \$ | \$ | (654) \$ |

The \$6.3 million and \$16.4 million of inventory reserve utilized for the clearance of discontinued Galyan's merchandise in fiscal 2005 and 2004, respectively, was recorded as a reduction of cost of sales.

The following unaudited proforma summary presents information as if Galyan's had been acquired at the beginning of the period presented. The proforma amounts include certain reclassifications to Galyan's amounts to conform them to the Company's presentation, and an increase in interest expense of \$3.9 million for the year ended

Table of Contents

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

January 29, 2005, to reflect the increase in borrowings under the amended credit facility to finance the acquisition as if it had occurred at the beginning of the period presented.

The proforma amounts do not reflect any benefits from economies which may be achieved from combining the operations.

The proforma information does not necessarily reflect the actual results that would have occurred had the companies been combined during the period presented, nor is it necessarily indicative of the future results of operations of the combined companies (unaudited, in thousands, except per share amounts).

| | Year Ended January 29, 2005 |
|----------------------------|--|
| Net sales | \$2,448,643 |
| Net income | \$ 56,452 |
| Basic earnings per share | \$ 1.18 |
| Diluted earnings per share | \$ 1.07 |

3. Goodwill and Other Intangible Assets

In connection with the acquisition of Galyan's on July 29, 2004, the Company recorded goodwill and other intangible assets in accordance with SFAS No. 141, Business Combinations. The Company recorded \$156.6 million of goodwill as the excess of the purchase price of \$369.6 million over the fair value of the net amounts assigned to assets acquired and liabilities assumed. In accordance with SFAS No. 142, Accounting for Goodwill and Other Intangible Assets, the Company will continue to assess, on an annual basis, whether goodwill is impaired. Additional impairment assessments may be performed on an interim basis if the Company deems it necessary. Finite-lived intangible assets are amortized over their estimated useful economic lives and reviewed for impairment when factors indicate that an impairment may have occurred. No amounts assigned to any intangible assets are deductible for tax purposes.

Acquired intangible assets subject to amortization at February 3, 2007 were as follows (in thousands):

| Intangible Assets Subject to Amortization: | 2006 | | 2005 | | 2004 | |
|---|-------------------------|-------------------------------------|-------------------------|-------------------------------------|-------------------------|-------------------------------------|
| | Gross Amount | Accumulated Amortization | Gross Amount | Accumulated Amortization | Gross Amount | Accumulated Amortization |
| Favorable leases | \$5,310 | \$ (186) | \$5,310 | \$ (45) | \$5,310 | \$ 1 |

The estimated weighted average economic useful life is 10 years. The annual amortization expense of the favorable leases recorded as of February 3, 2007 is expected to be as follows (in thousands):

| Fiscal Years | Estimated Amortization Expense |
|-------------------------|---|
| 2007 | 241 |
| 2008 | 345 |
| 2009 | 453 |
| 2010 | 590 |
| 2011 | 548 |
| Thereafter | 2,947 |
| Total | \$ 5,124 |

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

4. Store and Corporate Office Closings

At a store's closing or relocation date, estimated lease termination and other costs to close or relocate a store are recorded in cost of goods sold, including occupancy and distribution costs on the consolidated statements of income. The calculation of accrued lease termination and other costs primarily includes future minimum lease payments, maintenance costs and taxes from the date of closure or relocation to the end of the remaining lease term, net of contractual or estimated sublease income. The liability is discounted using a credit-adjusted risk-free rate of interest. The assumptions used in the calculation of the accrued lease termination and other costs are evaluated each quarter.

The following table summarizes the activity of the store closing reserves established due to Dick's store closings as a result of the Galyan's acquisition as well as the relocation of two stores during fiscal 2006 (in thousands):

| | 2006 | 2005 |
|---|-------------|-------------|
| Accrued store closing and relocation reserves, beginning of period | \$ 20,181 | \$ 3,191 |
| Expense charged to earnings | 4,328 | 21,545 |
| Cash payments | (4,867) | (4,555) |
| Interest accretion and other changes in assumptions | 261 | |
| Accrued store closing and relocation reserves, end of period | 19,903 | 20,181 |
| Less current portion of accrued store closing and relocation reserves | (6,135) | (4,845) |
| Long-term portion of accrued store closing and relocation reserves | \$ 13,768 | \$ 15,336 |

The \$4.3 million of expense charged to earnings for the year was recorded in cost of goods sold, including occupancy and distribution costs in the consolidated statements of income. The current portion of accrued store closing and relocation reserves is recorded in accrued expenses and the long-term portion is recorded in long-term deferred revenue and other liabilities in the consolidated balance sheets.

5. Property and Equipment

Property and equipment are recorded at cost and consist of the following as of the end of the fiscal periods (in thousands):

| | 2006 | 2005 |
|---|-------------|-------------|
| Buildings and land | \$ 31,820 | \$ 31,820 |
| Leasehold improvements | 374,879 | 313,075 |
| Furniture, fixtures and equipment | 330,757 | 280,376 |
| | 737,456 | 625,271 |
| Less: accumulated depreciation and amortization | (304,385) | (254,994) |
| Net property and equipment | \$ 433,071 | \$ 370,277 |

6. Accrued Expenses

Accrued expenses consist of the following as of the end of the fiscal periods (in thousands):

| | 2006 | 2005 |
|--|-------------|-------------|
| Accrued payroll, withholdings and benefits | \$ 52,988 | \$ 36,859 |
| Accrued property and equipment | 34,537 | 23,062 |
| Other accrued expenses | 102,840 | 76,599 |

| | | |
|------------------------|------------|------------|
| Total accrued expenses | \$ 190,365 | \$ 136,520 |
|------------------------|------------|------------|

Table of Contents

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

7. Debt

The Company's outstanding debt at February 3, 2007 and January 28, 2006 was as follows (in thousands):

| | 2006 | 2005 |
|--------------------------|-------------|-------------|
| Senior convertible notes | \$ 172,500 | \$ 172,500 |
| Revolving line of credit | | |
| Capital leases | 7,809 | 7,909 |
| Third-party debt | 708 | 752 |
| Related party debt | | 40 |
| | | |
| Total debt | 181,017 | 181,201 |
| Less: current portion | (152) | (181) |
| | | |
| Total long-term debt | \$ 180,865 | \$ 181,020 |

Senior Convertible Notes On February 18, 2004, the Company completed a private offering of \$172.5 million issue price of senior unsecured convertible notes due 2024 (senior convertible notes) in transactions pursuant to Rule 144A under the Securities Act of 1933, as amended. Net proceeds of \$145.6 million to the Company are net of transaction costs associated with the offering of \$6.2 million, and the net cost of a convertible bond hedge and a separate warrant transaction. The hedge and warrant transactions effectively increase the conversion price associated with the senior convertible notes during the term of these transactions from 40% to 100%, or from \$39.31 to \$56.16 per share, thereby reducing the potential dilutive economic effect to shareholders upon conversion.

The senior convertible notes bear interest at an annual rate of 2.375% of the issue price payable semi-annually on August 18th and February 18th of each year until February 18, 2009, with the first interest payment made on August 18, 2004. After February 18, 2009, the senior convertible notes will not pay cash interest, but the initial principal amount of the notes will accrete daily at an original issue discount rate of 2.625%, until maturity on February 18, 2024, when a holder will receive \$1,000 per note. The senior convertible notes are convertible into the Company's common stock (the common stock) at an initial conversion price in each of the first 20 fiscal quarters following issuance of the notes of \$39.31 per share, upon the occurrence of certain events. Thereafter, the conversion price per share of common stock increases each fiscal quarter by the accreted original issue discount for the quarter. Upon conversion of a note, the Company is obligated to pay cash in lieu of issuing some or all of the shares of common stock, in an amount up to the accreted principal amount of the note, and whether any shares of common stock are issuable in addition to this cash payment would depend upon the then market price of the Company's common stock. The senior convertible notes will mature on February 18, 2024, unless earlier converted or repurchased. The Company may redeem the notes at any time on or after February 18, 2009, at its option, at a redemption price equal to the sum of the issue price, accreted original discount and any accrued cash interest, if any. The total face amount of the senior convertible notes was \$255.1 million prior to the original discount of \$82.6 million.

Concurrently, with the sale of the senior convertible notes, the Company purchased a bond hedge designed to mitigate the potential dilution to shareholders from the conversion of the senior convertible notes. Under the five year term of the bond hedge, one of the initial purchasers (the counterparty) will deliver to the Company upon a conversion of the bonds a number of shares of common stock based on the extent to which the then market price exceeds \$39.31 per share. The aggregate number of shares that the Company could be obligated to issue upon conversion of the senior convertible notes is 4,388,024 shares.

The cost of the purchased bond hedge was partially offset by the sale of warrants (the warrants) to acquire up to 8,775,948 shares of the common stock to the counterparty with whom the Company entered into the bond hedge. The warrants are exercisable in year five at a price of \$56.16 per share. The warrants may be settled at the Company's

option through a net share settlement or a net cash settlement, either of which would be based on the extent to which the then market price exceeds \$56.16 per share.

The net effect of the purchased bond hedge and the warrants is to either reduce the potential dilution from the conversion of the senior convertible notes if the Company elects a net share settlement or to increase the net cash proceeds of the offering if a net cash settlement is elected if the senior convertible notes are converted at a time when the market price of the common stock exceeds \$39.31 per share. There would be dilution from the conversion of the senior convertible notes to the extent that the then market price per share of the common stock exceeds \$56.16 at the time of conversion.

Table of Contents

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Revolving Credit Agreement On July 28, 2004, the Company executed its Second Amended and Restated Credit Agreement (the Credit Agreement), between Dick's and lenders named therein. The Credit Agreement became effective on July 29, 2004 and provides for a revolving credit facility in an aggregate outstanding principal amount of up to \$350 million, including up to \$75 million in the form of letters of credit. The Credit Agreement's term was extended to May 30, 2008.

As of February 3, 2007 and January 28, 2006, the Company's total remaining borrowing capacity, after subtracting letters of credit, under the Credit Agreement was \$333.5 million and \$275.6 million, respectively. Borrowing availability under the Company's Credit Agreement is generally limited to the lesser of 70% of the Company's eligible inventory or 85% of the Company's inventory's liquidation value, in each case net of specified reserves and less any letters of credit outstanding. Interest on outstanding indebtedness under the Credit Agreement is based upon a formula at either (a) the prime corporate lending rate or (b) the one-month London Interbank Offering Rate (LIBOR), plus the applicable margin of 1.25% to 1.75% based on the level of excess borrowing availability. Borrowings are collateralized by the assets of the Company, excluding store and distribution center equipment and fixtures that have a net carrying value of \$103.5 million as of February 3, 2007.

At February 3, 2007 and January 28, 2006, the prime rate was 8.25% and 7.25%, respectively, and LIBOR was 5.32% and 4.57%, respectively. There were no outstanding borrowings at February 3, 2007 and January 28, 2006.

The Credit Agreement contains restrictive covenants including the maintenance of a certain fixed charge coverage ratio of not less than 1.0 to 1.0 in certain circumstances and prohibits payment of any dividends. As of February 3, 2007, the Company was in compliance with the terms of the Credit Agreement.

The Credit Agreement provides for letters of credit not to exceed the lesser of (a) \$75 million, (b) \$350 million less the outstanding loan balance and (c) the borrowing base minus the outstanding loan balance. As of February 3, 2007 and January 28, 2006, the Company had outstanding letters of credit totaling \$16.5 million and \$17.8 million, respectively.

The following table provides information about the Credit Agreement borrowings as of and for the periods (dollars in thousands):

| | 2006 | 2005 |
|-------------------------------------|------------|------------|
| Balance, fiscal period end | \$ | \$ |
| Average interest rate | 6.57% | 4.76% |
| Maximum outstanding during the year | \$ 169,981 | \$ 251,963 |
| Average outstanding during the year | \$ 57,138 | \$ 134,610 |

Other Debt Other debt, exclusive of capital lease obligations, consists of the following as of the end of the fiscal periods (dollars in thousands):

| | 2006 | 2005 |
|---|--------|--------|
| Third-Party: | | |
| Note payable, due in monthly installments of approximately \$4, including interest at 4%, through 2020 | \$ 708 | \$ 752 |
| Related Party: | | |
| Note payable to a former principal stockholder, due in monthly installments of approximately \$14, including interest at 12%, through May 1, 2006 | | 40 |
| Total other debt | 708 | 792 |
| Less current portion of: | | |
| Third-party | (46) | (44) |
| Related party | | (40) |

| | | |
|-----------------------------------|--------|--------|
| Total Other Long-Term Debt | \$ 662 | \$ 708 |
|-----------------------------------|--------|--------|

Certain of the agreements pertaining to long-term debt contain financial and other restrictive covenants, none of which are more restrictive than those of the Credit Agreement as discussed herein.

| Thereafter | 460 |
| | \$ 708 |

Capital Lease Obligations The Company leases two buildings from the estate of a former stockholder, who is related to current stockholders of the Company, under a capital lease entered into May 1, 1986 which expires in April 2021. In addition, the Company has a capital lease for a store location with a fixed interest rate of 10.6% that matures in 2024. The gross and net carrying values of assets under capital leases are approximately \$8.2 million and \$4.2 million, respectively as of February 3, 2007 and \$8.2 million and \$4.6 million, respectively as of January 28, 2006.

Scheduled lease payments under capital lease obligations as of February 3, 2007 are as follows (in thousands):

| Fiscal Year | |
|---|----------|
| 2007 | \$ 888 |
| 2008 | 905 |
| 2009 | 953 |
| 2010 | 953 |
| 2011 | 953 |
| Thereafter | 12,157 |
| | 16,809 |
| Less: amounts representing interest | (9,000) |
| Present value of net scheduled lease payments | 7,809 |
| Less: amounts due in one year | (106) |
| | \$ 7,703 |

8. Operating Leases

The Company leases substantially all of its stores, office facilities, distribution centers and equipment, under noncancelable operating leases that expire at various dates through 2027. Certain of the store lease agreements contain renewal options for additional periods of five-to-ten years and contain certain rent escalation clauses. The lease agreements provide primarily for the payment of minimum annual rentals, costs of utilities, property taxes, maintenance, common areas and insurance, and in some cases contingent rent stated as a percentage of gross sales over certain base amounts. Rent expense under these operating leases was approximately \$205.8 million, \$196.3 million and \$144.0 million for fiscal 2006, 2005 and 2004, respectively. The Company entered into sale-leaseback transactions related to store fixtures, buildings and equipment that resulted in cash receipts of \$24.8 million, \$18.8 million and \$35.7 million for fiscal 2006, 2005 and 2004, respectively.

Table of Contents

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Scheduled lease payments due (including lease commitments for 39 stores not yet opened at February 3, 2007) under noncancelable operating leases as of February 3, 2007 are as follows (in thousands):

| Fiscal Year | |
|--------------------|---------------------|
| 2007 | \$ 230,830 |
| 2008 | 236,681 |
| 2009 | 235,771 |
| 2010 | 235,007 |
| 2011 | 228,976 |
| Thereafter | 1,651,770 |
| | \$ 2,819,035 |

The Company has subleases related to certain of its operating lease agreements. The Company recognized sublease rental income of \$1.2 million, \$1.0 and \$1.0 for fiscal 2006, 2005 and 2004, respectively.

9. Stock-Based Compensation and Employee Stock Plans

Stock Option Plans The Company grants stock options to purchase common stock under the Plan. Stock options generally vest over four years in 25% increments from the date of grant and expire 10 years from date of grant. As of February 3, 2007, there were 8,743,418 shares of common stock available for issuance pursuant to future stock option grants. The stock option activity during the year is presented in the following table:

| | Shares | Weighted Average Exercise Price per Share | Weighted Average Remaining Contractual Life (Years) | Aggregate Intrinsic Value (in thousands) |
|-------------------------------|---------------|--|--|---|
| Outstanding, January 31, 2004 | 13,641,226 | \$10.99 | 2.58 | \$ 189,477 |
| Granted | 380,010 | 31.60 | | |
| Exercised | (1,532,121) | 3.24 | | |
| Cancelled | (384,705) | 15.25 | | |
| Outstanding, January 29, 2005 | 12,104,410 | \$12.47 | 5.91 | \$ 259,398 |
| Granted | 1,243,944 | 35.79 | | |
| Exercised | (1,320,401) | 5.65 | | |
| Cancelled | (388,566) | 25.58 | | |
| Outstanding, January 28, 2006 | 11,639,387 | \$15.32 | 8.72 | \$ 249,432 |
| Granted | 1,378,458 | 39.22 | | |
| Exercised | (2,685,858) | 8.59 | | |
| Cancelled | (515,573) | 29.72 | | |
| Outstanding, February 3, 2007 | 9,816,414 | \$19.76 | 6.64 | \$ 324,610 |
| Exercisable, February 3, 2007 | 5,527,184 | \$11.43 | 5.77 | \$ 228,852 |

The aggregate intrinsic value in the table above is based on the Company's closing stock prices for the last business day of the period indicated. The total intrinsic value for stock options exercised for 2006, 2005 and 2004 was \$37.1 million, \$40.2 million and \$31.8 million, respectively. The total fair value of options vested for 2006, 2005 and 2004 was \$26.2 million, \$8.4 million and \$6.6 million, respectively. The nonvested stock option activity for the year of the year ended February 3, 2007 is presented in the following table:

55

Table of Contents

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

| | Shares | Weighted Average Fair Value |
|---------------------------------|---------------|--|
| Nonvested, January 28, 2006 | 7,767,647 | \$ 8.83 |
| Granted | 1,378,458 | 16.67 |
| Vested | (4,342,906) | 6.03 |
| Forfeited | (513,969) | 12.55 |
| Nonvested, February 3, 2007 | 4,289,230 | \$ 13.74 |

As of February 3, 2007, total unrecognized stock-based compensation expense related to nonvested stock options was approximately \$34.0 million, which is expected to be recognized over a weighted average period of approximately 2.37 years.

The Company issues new shares of common stock upon exercise of stock options.

Additional information regarding options outstanding as of February 3, 2007, is as follows:

| Range of Exercise Prices | Options Outstanding | | | Options Exercisable | |
|-------------------------------------|----------------------------|--|--|----------------------------|--|
| | Shares | Weighted Average Remaining Contractual Life (Years) | Weighted Average Exercise Price | Shares | Weighted Average Exercise Price |
| \$1.08 - \$2.17 | 821,832 | 3.33 | \$ 1.97 | 821,832 | \$ 1.97 |
| \$6.00 - \$10.48 | 2,970,288 | 5.72 | 6.35 | 2,970,288 | 6.35 |
| \$15.29 - \$22.87 | 2,378,120 | 6.70 | 21.86 | 514,601 | 18.36 |
| \$25.07 - \$34.68 | 1,379,702 | 7.05 | 25.82 | 1,010,745 | 25.45 |
| \$35.95 - \$55.19 | 2,266,472 | 8.73 | 37.86 | 209,718 | 35.97 |
| \$1.08 - \$55.19 | 9,816,414 | 6.64 | \$ 19.76 | 5,527,184 | \$ 11.43 |

Employee Stock Purchase Plan The Company has an employee stock purchase plan, which provides that eligible employees may purchase shares of the Company's common stock. There are two offering periods in a fiscal year, one ending on June 30 and the other on December 31, or as otherwise determined by the Company's compensation committee. The employee's purchase price is 85% of the lesser of the fair market value of the stock on the first business day or the last business day of the semi-annual offering period. Employees may purchase shares having a fair market value of up to \$25,000 for all purchases ending within the same calendar year. The total number of shares issuable under the plan is 2,310,000. There were 122,982 and 125,989 shares issued under the plan during fiscal 2006 and 2005, respectively, leaving 817,895 shares available for future issuance. The fiscal 2006 shares were issued at an average price of \$30.39.

Common Stock, Class B Common Stock and Preferred Stock During fiscal 2002, the Company amended its corporate charter to, among other things, provide for the authorization of the issuance of up to 100,000,000 shares of common stock, 20,000,000 shares of Class B common stock, and 5,000,000 shares of preferred stock. The holders of common stock generally have rights identical to holders of Class B common stock, except that holders of common stock are entitled to one vote per share and holders of Class B common stock are entitled to ten votes per

share. A related party and relatives of the related party hold all of the Class B common stock. These shares can only be held by members of this group and are not publicly tradable. Class B common stock can be converted to common stock at the holder's option.

During fiscal 2004, the Company filed an amendment to its Amended and Restated Certificate of Incorporation to increase the number of authorized shares of our common stock, par value \$0.01 per share from 100,000,000 to 200,000,000 and Class B common stock, par value \$0.01 per share from 20,000,000 to 40,000,000.

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

10. Income Taxes

The components of the provision for income taxes are as follows (in thousands):

| | 2006 | 2005 | 2004 |
|-----------------|-------------|-------------|-------------|
| Current: | | | |
| Federal | \$ 62,573 | \$ 41,961 | \$ 22,645 |
| State | 11,247 | 7,295 | 7,280 |
| | 73,820 | 49,256 | 29,925 |
| Deferred: | | | |
| Federal | 631 | (928) | 15,603 |
| State | 623 | 326 | 408 |
| | 1,254 | (602) | 16,011 |
| Total provision | \$ 75,074 | \$ 48,654 | \$ 45,936 |

The provision for income taxes differs from the amounts computed by applying the federal statutory rate as follows for the following periods:

| | 2006 | 2005 | 2004 |
|-----------------------------------|-------------|-------------|-------------|
| Federal statutory rate | 35.0% | 35.0% | 35.0% |
| State tax, net of federal benefit | 4.2% | 4.6% | 4.3% |
| Other permanent items | 0.8% | 0.4% | 0.7% |
| Effective income tax rate | 40.0% | 40.0% | 40.0% |

Components of deferred tax assets (liabilities) consist of the following as of the fiscal periods ended (in thousands):

| | 2006 | 2005 |
|--|-------------|-------------|
| Store closings expense | \$ 7,772 | \$ 14,269 |
| Stock option compensation | 7,455 | |
| Employee benefits | 8,071 | 8,454 |
| Other accrued expenses not currently deductible for tax purposes | 10,331 | 8,273 |
| Deferred rent | 10,732 | 7,709 |
| Insurance | 3,595 | 3,491 |
| State net operating loss carryforwards | 2,931 | 2,242 |
| Total deferred tax assets | 50,887 | 44,438 |
| Property and equipment | (12,281) | (16,288) |
| Inventory | (29,911) | (18,762) |
| Total deferred tax liabilities | (42,192) | (35,050) |

| | | |
|------------------------|----------|----------|
| Net deferred tax asset | \$ 8,695 | \$ 9,388 |
|------------------------|----------|----------|

The gross deferred tax asset from tax loss carryforwards of \$2.9 million represents approximately \$58.1 million of state net operating loss carryforwards, of which \$1.6 million expires in the next ten years. The remaining \$56.5 million expires between 2018 and 2026. In 2006, of the \$8.7 million net deferred tax asset, \$17.4 million is recorded in other long-term assets and \$8.7 million is recorded in deferred revenue and other current liabilities in the Consolidated Balance Sheets. In 2005, of the \$9.4 million net deferred tax asset, \$0.4 million is recorded in current assets and \$9.0 million is recorded in other long-term assets in the Consolidated Balance Sheets.

DICKS SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

11. Interest Expense, net

Interest expense, net is comprised of the following (in thousands):

| | 2006 | 2005 | 2004 |
|-----------------------|-------------|-------------|-------------|
| Interest expense | \$ 10,836 | \$ 13,196 | \$ 9,142 |
| Interest income | (811) | (237) | (1,133) |
| Interest expense, net | \$ 10,025 | \$ 12,959 | \$ 8,009 |

12. Earnings per Common Share

The computation of basic earnings per share is based on the number of weighted average common shares outstanding during the period. The computation of diluted earnings per share is based upon the weighted average number of shares outstanding plus the incremental shares that would be outstanding assuming exercise of dilutive stock options. The number of incremental shares from the assumed exercise of stock options is calculated by applying the treasury stock method. The aggregate number of shares, totaling 4,388,024, that the Company could be obligated to issue upon conversion of our \$172.5 million issue price of senior convertible notes was excluded from calculations for the year ended February 3, 2007. The computations for basic and diluted earnings per share are as follows (in thousands, except per share data):

| | Fiscal Year Ended | | |
|--|--------------------------|-------------|-------------|
| | 2006 | 2005 | 2004 |
| Earnings per common share Basic: | | | |
| Net income | \$ 112,611 | \$ 72,980 | \$ 68,905 |
| Weighted average common shares outstanding | 51,256 | 49,792 | 47,978 |
| Earnings per common share | \$ 2.20 | \$ 1.47 | \$ 1.44 |
| Earnings per common share Diluted: | | | |
| Net income | \$ 112,611 | \$ 72,980 | \$ 68,905 |
| Weighted average common shares outstanding basic | 51,256 | 49,792 | 47,978 |
| Stock options | 4,139 | 4,187 | 4,943 |
| Weighted average common shares outstanding diluted | 55,395 | 53,979 | 52,921 |
| Earnings per common share | \$ 2.03 | \$ 1.35 | \$ 1.30 |

Potential dilutive shares are excluded from the computation of earnings per share if their effect is anti-dilutive. Anti-dilutive options totaled 0.2 million for fiscal 2006. There were no anti-dilutive options in fiscal 2005 or 2004.

13. Investments

In April 2001, the Company entered into an Internet commerce agreement with GSI. Under the terms of this 10-year agreement, GSI is responsible for all financial and operational aspects of the Internet site, which operates under the domain name DicksSportingGoods.com, which name has been licensed to GSI by the Company. The Company and GSI entered into a royalty arrangement that permitted the Company, at its election, to purchase an equity ownership in GSI at a price that was less than the GSI market value per share in lieu of royalties until Internet sales reached a predefined amount. The equity ownership consists of unregistered common stock of GSI and warrants to purchase unregistered common stock of GSI (see Note 1). The Company recognized the difference between the fair value of the GSI stock and its cost as deferred revenue to be amortized over the 10-year term of the agreement. Deferred revenue at February 3, 2007 and January 28, 2006 was \$1.9 million and \$2.3 million, respectively. In total, the number of shares the Company holds represents less than 5% of GSI's outstanding common stock.

During fiscal 2005 and 2004, the Company realized a pre-tax gain of \$1.8 million and \$11.0 million, respectively, resulting from the sale of a portion of the Company's investment in GSI.

DICK S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

14. Retirement Savings Plan

The Company's retirement savings plan, established pursuant to Section 401(k) of the Internal Revenue Code, covers all employees who have completed one year of service and have attained 21 years of age. Under the terms of the retirement savings plan, the Company provides a matching contribution equal to 50% of each participant's contribution up to 10% of the participant's compensation, and may make a discretionary contribution. Total expense recorded under the plan was \$3.0 million, \$2.6 million and \$1.8 million for fiscal 2006, 2005 and 2004, respectively.

15. Commitments and Contingencies

The Company enters into licensing agreements for the exclusive rights to use certain trademarks extending through 2020. Under specific agreements, the Company is obligated to pay an annual guaranteed minimum royalty. The aggregate amount of required payments at February 3, 2007 is as follows (in thousands):

| Fiscal Year | |
|--------------------|------------------|
| 2007 | \$ 1,000 |
| 2008 | 1,250 |
| 2009 | 1,500 |
| 2010 | 1,700 |
| 2011 | 1,900 |
| Thereafter | 24,000 |
| | \$ 31,350 |

In addition, certain agreements require the Company to pay additional royalties if the qualified purchases are in excess of the guaranteed minimum. The Company paid \$0.7 million under agreements requiring minimum guaranteed contractual amounts during fiscal 2006. There were no payments made during fiscal 2005.

The Company is involved in legal proceedings incidental to the normal conduct of its business. Although the outcome of any pending legal proceedings cannot be predicted with certainty, management believes that adequate insurance coverage is maintained and that the ultimate resolution of these matters will not have a material adverse effect on the Company's liquidity, financial position or results of operations.

16. Subsequent Event

On February 13, 2007, the Company acquired Golf Galaxy by means of merger of our wholly owned subsidiary with and into Golf Galaxy, with each Golf Galaxy shareholder receiving \$18.82 per share in cash, without interest and Golf Galaxy became a wholly owned subsidiary of the Company. The Company paid approximately \$226.0 million which was financed using approximately \$79 million of cash and cash equivalents and the balance from borrowings under our revolving line of credit. At closing, Golf Galaxy operated 65 stores in 24 states, ecommerce website and catalog operations. Golf Galaxy had net sales totaling \$274.7 million for the 12 month period ending February 3, 2007. Golf Galaxy's results of operations will be included in the Company's consolidated statements of income beginning February 13, 2007.

In connection with the closing of the acquisition, Dick's executed its second amendment to its second amended and restated credit agreement.

17. Quarterly Financial Information (Unaudited)

Summarized quarterly financial information in fiscal years 2006 and 2005 is as follows (in thousands, except earnings per share):

| | 2006 | | | | 2005 | | | |
|---|------------------|-------------------|------------------|-----------------------|------------------|-------------------|------------------|-------------------|
| | First Quarter | Second Quarter | Third Quarter | Fourth Quarter (1) | First Quarter | Second Quarter | Third Quarter | Fourth Quarter |
| Net sales (2) | \$645,498 | \$734,047 | \$708,343 | \$1,026,275 | \$570,843 | \$621,972 | \$582,665 | \$849,507 |
| Gross profit | 177,665 | 207,397 | 191,335 | 320,302 | 151,972 | 174,416 | 153,454 | 257,798 |
| Income (loss) from operations (2) | 21,279 | 45,707 | 15,609 | 115,116 | (9,423) | 38,066 | 10,868 | 92,238 |
| Net income (loss) (2) | 11,418 | 25,681 | 7,795 | 67,718 | (7,331) | 22,098 | 4,183 | 54,030 |
| Net earnings (loss) per common share | \$ 0.23 | \$ 0.51 | \$ 0.15 | \$ 1.29 | \$ (0.15) | \$ 0.41 | \$ 0.08 | \$ 1.00 |

(1) Fourth quarter of fiscal 2006 represents a 14 week period, as fiscal 2006 includes 53 weeks.

(2) Quarterly results for fiscal 2006 do not add to full year results due to rounding.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Dick's Sporting Goods, Inc.

We have audited the consolidated financial statements of Dick's Sporting Goods, Inc. and subsidiaries (the Company) as of February 3, 2007 and January 28, 2006, and for each of the three fiscal years in the period ended February 3, 2007, management's assessment of the effectiveness of the Company's internal control over financial reporting as of February 3, 2007, and the effectiveness of the Company's internal control over financial reporting as of February 3, 2007, and have issued our reports thereon dated March 20, 2007 (which report on the consolidated financial statements expresses an unqualified opinion and includes an explanatory paragraph regarding the Company's adoption of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*, on January 29, 2006); such consolidated financial statements and reports are included in this Form 10-K. Our audits also included the consolidated financial statement schedule of the Company listed in Item 15 of Part IV. This consolidated financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion based on our audits. In our opinion, such consolidated financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.
