HUANENG POWER INTERNATIONAL, INC.
Announces Tariff Adjustments for its
Four Power Plants in Jiangsu Province

(Beijing, China, February 12, 2003) Huaneng Power International, Inc. (the "Company") [NYSE: HNP; HKEx: 902; SSE: 600011] today announced the tariff adjustments for its four power plants in Jiangsu Province, including Huaneng Nanjing Power Plant ("Nanjing Power Plant"), Huaneng Nantong Power Plant

Edgar Filing: HUANENG POWER INTERNATIONAL INC - Form 6-K

("Nantong Power Plant), Huaneng Huaiyin Power Plant ("Huaiyin Power Plant) and Huaneng Taicang Power Plant ("Taicang Power Plant").

In accordance with the document of the State Development and Planning Committee, Jiangsu Province has recently carried out on-grid tariff adjustments for power plants invested by multiple parties in the province. As a result, the tariffs for the Company's four power plants were adjusted as follows (all the tariffs mentioned below include VAT):

- The on-grid tariff for Nanjing Power Plant was adjusted from RMB336.1 per MWh to RMB334 per MWh;
- The on-grid tariff for Nantong Power Plant was adjusted from RMB334.6 per MWh to RMB334 per MWh;
- The on-grid tariff for Huaiyin Power Plant was adjusted from RMB345.6 per MWh to RMB343 per MWh;
- The on-grid tariff for Taicang Power Plant was adjusted from RMB374 per MWh to RMB365 per MWh.

The average tariff downward for these four power plants is RMB2.9 per MWh, and the adjusted tariffs were effective from January 30, 2003.

The tariff adjustments are within the estimates of the Company, and the Company has full confidence to partly offset the impact of the tariff adjustments through further reinforcing the management and cost controls and increasing its market shares.

Huaneng Power International, Inc. develops, constructs, operates and manages large thermal power plants in China nationwide. Its current generation capacity on an equity basis is 14,363MW.
